The Financial Security program is designed to address AML/CFT, International Sanctions, including issues related to circumvention of Sanctions, as well as Anti-Bribery and Corruption. It consists of procedures on:

- client identification policy implementing a risk-based approach (*i.e.*, Know Your Customer, customer risk level, KYC update);
- transactions monitoring in accordance with the embargoes and asset freezing measures, the rules on the transparency of transfers of funds, and for AML/CTF purposes;
- enhanced review and reporting of suspicious transactions and activities to the Financial Intelligence Unit;
- employees training;
- monitoring compliance with the procedures and measures put in place to meet the above mentioned obligations;
- documentation, archiving and retention of records and information sharing.

These procedures are reviewed whenever necessary and at least once a year. They apply to all CACIB entities, including those located abroad.

CACIB has set a dedicated governance and an internal control framework to ensure compliance with its AML/CFT obligations and the applicable Sanctions programs.

As a credit and financial institution, CACIB is subject to the monitoring and control of the *Autorité de Contrôle Prudentiel et de Résolution* and the *Autorité des Marchés Financiers*, French supervisory authorities of the banking and financial sectors.
