

## **KEB HANA BANK**

### **Issue of U.S.\$300,000,000 Floating Rate Sustainability Notes due 2031 under the U.S.\$10,000,000,000 Global Medium Term Note Programme**

Issue Price: 100 per cent.

Issue Date: 10 August 2026

This information package includes the offering circular dated 29 September 2025 in relation to U.S.\$10,000,000,000 Global Medium Term Note Programme (the "**Offering Circular**") and the Pricing Supplement dated 28 July 2026 (which was deemed effective on 27 July 2026) in respect of the Notes (the "**Pricing Supplement**," together with the Offering Circular, the "**Information Package**").

The Notes will be issued by KEB Hana Bank (the "**Issuer**"), acting through its principal office in Korea.

Application will be made by the Issuer for the Notes to be listed and admitted for trading on the Taipei Exchange ("**TPEX**") in the Republic of China (the "**ROC**") and Singapore Exchange Securities Trading Limited in Singapore.

The Notes will be traded on the TPEX pursuant to the applicable rules of the TPEX. Effective date of listing and trading of the Notes is on or about 10 August 2026.

The TPEX is not responsible for the content of the Information Package and no representation is made by the TPEX as to the accuracy or completeness of the Information Package. The TPEX expressly disclaims any and all liabilities for any losses arising from, or as a result of, the reliance on, all or part of the contents of this Information Package. Admission to listing and trading of the Notes on the TPEX shall not be taken as an indication of the merits of the Issuer or the Notes.

The Notes have not been, and shall not be, offered, sold or re-sold, directly or indirectly, to investors other than "professional investors" as defined under Paragraph 1, Article 2-1 of the Taipei Exchange Rules Governing Management of Foreign Currency Denominated International Bonds of the ROC. Purchasers of the Notes are not permitted to sell or otherwise dispose of the Notes except by transfer to the aforementioned professional investors.

## IMPORTANT NOTICE

### NOT FOR DISTRIBUTION TO ANY PERSON OR ADDRESS IN THE UNITED STATES

**IMPORTANT:** You must read the following before continuing. If you are not the intended recipient of this message, please do not distribute or copy the information contained in this e-mail, but instead, delete and destroy all copies of this e-mail including all attachments. The following applies to the offering circular dated 29 September 2025 as supplemented by the preliminary pricing supplement dated 27 July 2026 following this page (the "Offering Circular"), and you are therefore advised to read this carefully before reading, accessing or making any other use of the Offering Circular. In accessing the Offering Circular, you agree to be bound by the following terms and conditions, including any modifications to them any time you receive any information from us as a result of such access.

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER OF SECURITIES FOR SALE IN ANY JURISDICTION WHERE IT IS UNLAWFUL TO DO SO. THE SECURITIES DESCRIBED HEREIN HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR OTHER JURISDICTION AND THE SECURITIES MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND APPLICABLE STATE OR LOCAL SECURITIES LAWS.

THE FOLLOWING OFFERING CIRCULAR MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON, IN WHOLE OR IN PART, ELECTRONICALLY OR OTHERWISE, AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS DOCUMENT IN WHOLE OR IN PART IS UNAUTHORIZED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS. IF YOU HAVE GAINED ACCESS TO THIS TRANSMISSION CONTRARY TO ANY OF THE FOREGOING RESTRICTIONS, YOU ARE NOT AUTHORIZED AND WILL NOT BE ABLE TO PURCHASE ANY OF THE SECURITIES DESCRIBED THEREIN.

**Confirmation of your Representation:** In order to be eligible to view the following Offering Circular or make an investment decision with respect to the securities, investors must be non-U.S. persons eligible to purchase the securities outside the United States in an offshore transaction in reliance on Regulation S under the Securities Act. By accepting this e-mail and accessing the following Offering Circular, you shall be deemed to have represented to us (1) that you and any customers you represent are non-U.S. persons eligible to purchase the securities outside the United States in an offshore transaction in reliance on Regulation S under the Securities Act and that the electronic e-mail address that you gave us and to which this e-mail has been delivered is not located in the United States and (2) that you consent to the delivery of such Offering Circular by electronic transmission.

You are reminded that the following Offering Circular has been delivered to you on the basis that you are a person into whose possession the following Offering Circular may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located and you may not, nor are you authorized to, deliver or disclose the contents of the following Offering Circular to any other person.

The materials relating to the offering do not constitute, and may not be used in connection with, an offer or solicitation in any place where offers or solicitations are not permitted by law. If a jurisdiction requires that the offering be made by a licensed broker or dealer and any Manager (as described in the Offering Circular) or any affiliate of a Manager is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by such Manager or such affiliate on behalf of KEB Hana Bank ("Issuer") in such jurisdiction.

The Offering Circular is for distribution only to persons who (i) are outside the United Kingdom; (ii) have professional experience in matters relating to investments and who qualify as investment professionals within the meaning of Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Financial Promotion Order"); (iii) fall within Article 49(2)(a) to (d) (high net worth companies, unincorporated associations, etc.) of the Financial Promotion Order; or (iv) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) in

connection with the issue or sale of any Notes may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to as “Relevant Persons”). The Offering Circular is directed only at Relevant Persons and must not be acted or relied upon by persons who are not Relevant Persons. Any investment or investment activity to which the Offering Circular relates is available only to Relevant Persons and will be engaged in only with Relevant Persons.

The following Offering Circular has been sent to you in an electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of electronic transmission, and consequently none of the Issuer, the Managers nor any person who controls any of them nor any director, officer, employee nor agent of any of them or affiliate of any such person accepts any liability or responsibility whatsoever in respect of any difference between the Offering Circular distributed to you in electronic format and the hard-copy version available to you upon request to the Managers.

For the avoidance of doubt, the Issuer’s website does not form part of the Offering Circular.

You should not reply by e-mail to this notice, and you may not purchase any securities by doing so. Any reply via e-mail communications, including those you generate by using the “Reply” function on your e-mail software, will be ignored or rejected. You are responsible for protecting this e-mail against viruses and other destructive items. Your use of this e-mail is at your own risk, and it is your responsibility to take precautions to ensure that it is free from viruses and other items of a destructive nature.

**The distribution of the Offering Circular in certain jurisdictions may be restricted by law. Persons into whose possession the Offering Circular comes are required by the Managers and the Issuer to inform themselves about, and to observe, any such restrictions.**

PRICING SUPPLEMENT

*(incorporated with limited liability under the laws of the Republic of Korea)*

**Issue of U.S.\$300,000,000 Floating Rate Sustainability Notes due 2031  
under the U.S.\$10,000,000,000 Global Medium Term Note Programme**

THE NOTES TO WHICH THIS PRICING SUPPLEMENT RELATES (THE “NOTES”) HAVE NOT BEEN REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE “SECURITIES ACT”), OR WITH ANY SECURITIES REGULATORY AUTHORITY OF ANY STATE OR OTHER JURISDICTION OF THE UNITED STATES AND, UNLESS SO REGISTERED, MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT), EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS. ACCORDINGLY, THE NOTES WILL BE OFFERED AND SOLD ONLY OUTSIDE THE UNITED STATES TO NON-U.S. PERSONS IN RELIANCE ON REGULATION S.

**KEB HANA BANK**

(acting through its principal office in Korea)

**Issue of U.S.\$300,000,000 Floating Rate Sustainability Notes due 2031  
under the U.S.\$10,000,000,000 Global Medium Term Note Programme**

This document constitutes the pricing supplement (this “Pricing Supplement”) relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Offering Circular dated 29 September 2025 as amended or supplemented from time to time (the “Offering Circular”). This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of this Pricing Supplement and the Offering Circular.

The Notes have not been and will not be registered with the Financial Services Commission of Korea under the Financial Investment Services and Capital Markets Act of Korea. Accordingly, the Notes may not be offered, delivered, or sold, directly or indirectly, in the Republic of Korea (“Korea”) or to, or for the account or benefit of, any resident of Korea (as defined in the Foreign Exchange Transaction Act of Korea and the rules and regulations promulgated thereunder) or to others for re-offering or resale, directly or indirectly, in Korea or to any resident of Korea except as otherwise permitted under applicable Korean laws and regulations. In addition, during the first year after the issuance of the Notes, the Notes may not be transferred to any resident of Korea other than a “qualified institutional buyer” (a “Korean QIB” as defined under the Securities Issuance and Disclosure Regulations) who is registered with the Korea Financial Investment Association as a Korean QIB, provided that the amount of the Notes acquired by the Korean QIBs in the primary market is limited to not more than 20% of the aggregate principal amount of the Notes.

Paragraph 21 of the Hong Kong SFC Code of Conduct – As paragraph 21 of the Code of Conduct for Persons Licensed by or Registered with the Securities and Futures Commission applies to this offering of Notes, prospective investors should refer to the section on “Notice to capital market intermediaries and prospective investors pursuant to paragraph 21 of the Hong Kong SFC Code of Conduct” appearing on pages v to iv of the Offering Circular, and CMIs (as defined in the Offering Circular) should refer to the section on “Notice to capital market intermediaries and prospective investors pursuant to paragraph 21 of the Hong Kong SFC Code of Conduct – Important Notice to CMIs (including private banks)” appearing on pages 201 to 202 of the Offering Circular.

**PROHIBITION OF SALES TO EEA RETAIL INVESTORS** – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “Prospectus Regulation”). Consequently, no key information document required by Regulation (EU) 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the securities or otherwise making them available to retail investors in the EEA has been prepared and therefore, offering or selling the securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

**Notice to investors in Singapore:** By accepting this Pricing Supplement, if you are an investor in Singapore, you: (I) represent and warrant that you are either (1) an institutional investor (as defined in Section 4A of the Securities and Futures Act 2001 of Singapore (the “SFA”)) pursuant to Section 274 of the SFA; or (2) an accredited investor (as defined in Section 4A of the SFA) pursuant to and in accordance with the conditions specified in Section 275 of the SFA, and (II) agree to be bound by the limitations and restrictions described in the Offering Circular.

#### LISTING APPLICATION

This Pricing Supplement comprises the final terms required to list the issue of Notes described herein pursuant to the U.S.\$10,000,000,000 Global Medium Term Note Programme of KEB Hana Bank.

The SGX-ST assumes no responsibility for the correctness of any of the statements made, opinions expressed or reports contained in this Pricing Supplement. Approval in-principle from, admission to the Official List of, and listing and quotation of the Notes on the SGX-ST are not to be taken as an indication of the merits of the Issuer, the Programme or the Notes.

Application will be made on behalf of the Issuer to the TPEX for the listing of, and permission to deal in the Notes by way of debt issues to professional investors as defined under Paragraph 1 of Article 2-1 of the TPEX Rules. No assurances can be given as to whether the Notes will be, or will remain, listed on the TPEX. If the Notes fail to, or cease to, be listed on the TPEX, certain investors may not invest in, or continue to hold or invest in, the Notes.

The TPEX is not responsible for the content of this document and the Offering Circular and any amendment and supplement thereto and no representation is made by the TPEX to the accuracy or completeness of this document and the Offering Circular and any amendment and supplement thereto. The TPEX expressly disclaims any and all liability for any losses arising from, or as a result of the reliance on, all or part of the contents of this document and the Offering Circular and any amendment and supplement thereto. The admission to the listing and trading of the Notes on the TPEX shall not be taken as an indication of the merits of the Issuer or the Notes.

The Notes will be traded on the TPEx pursuant to the applicable rules of the TPEx. Effective date of listing of the Notes is on or about 10 August 2026.

## RESPONSIBILITY

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

## APPENDIX A – AMENDMENTS TO THE OFFERING CIRCULAR

*This section provides information that supplements or replaces certain information in the Offering Circular under the headings corresponding to the headings below. Capitalized terms used without definition in this section or elsewhere in this Pricing Supplement have the meanings given to such terms in the Offering Circular. If the information in this section differs from the information in the Offering Circular, potential investors should refer to the information in this section.*

### RISK FACTORS

#### Risks Relating to the Notes

##### *Additional Risks*

Application will be made for the listing of the Notes on the TPEX. No assurances can be given as to whether the Notes will be, or will remain, listing on TPEX or whether a trading market for the Notes will develop or as to the liquidity of any such trading market. If the Notes fail to or cease to be listed on the TPEX, certain investors may not invest in, or continue to hold or invest in, the Notes.

### TAXATION

#### ROC Taxation

*The following is a general description of the principal ROC tax consequences for investors receiving interest in respect of, or disposing of, the Notes and is of a general nature based on the Issuer's understanding of current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice.*

*This general description is based upon the law as in effect on the date hereof and that the Notes will be issued, offered, sold and re-sold to professional investors as defined under Paragraph 1 of Article 2-1 of the TPEX Rules only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Notes.*

##### *Interest on the Notes*

As the Issuer of the Notes is not a ROC statutory tax withholding, there is no ROC withholding tax on the interest or deemed interest to be paid by the Issuer on the Notes.

Payments of interest or deemed interest under the Notes to an ROC individual holder are not subject to ROC income tax as such payments received by him/her are not considered to be ROC-sourced income. However, such holder must include the interest or deemed interest in calculating his/her basic income for the purpose of calculating his/her alternative minimum tax ("AMT"), unless the sum of the interest or deemed interest and other non- ROC-sourced income received by such holder and the person(s) who is (are) required to jointly file the tax return in a calendar year is below 1 million New Taiwan Dollars ("NT\$"). If the amount of the AMT exceeds the annual income tax calculated pursuant to the ROC Income Tax Act, the excess becomes such holder's AMT payable.

ROC corporate holders must include the interest or deemed interest receivable under the Notes as part of their taxable income and pay ROC income tax at a flat rate of 20% (unless the total taxable income for a fiscal year is

NT\$120,000 or under), as they are subject to ROC income tax on their worldwide income on an accrual basis. The AMT is not applicable.

### ***Sale of the Notes***

In general, the sale of corporate bonds or financial bonds is subject to 0.1% securities transaction tax (“STT”) on the transaction price. However, Article 2-1 of the ROC Securities Transaction Tax Act prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from January 1, 2010 to December 31, 2026. Therefore, the sale of the Notes will be exempt from STT if the sale is conducted on or before December 31, 2026. Starting from January 1, 2027, any sale of the Notes will be subject to STT at 0.1% of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from ROC income tax. Accordingly, ROC individual and corporate holders are not subject to ROC income tax on any capital gains generated from the sale of the Notes. In addition, ROC individual holders are not subject to AMT on any capital gains generated from the sale of the Notes. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the ROC Income Tax Act, the excess becomes the ROC corporate holders’ AMT payable. Capital losses, if any, incurred by such holders could be carried over 5 years to offset against capital gains of same category of income for the purposes of calculating their AMT.

Non-ROC corporate holders with a fixed place of business (e.g., a branch) or a business agent in the ROC are not subject to ROC income tax on any capital gains generated from the sale of the Notes. However, their fixed place of business or business agent should include any such capital gains in calculating their basic income for the purpose of calculating AMT.

As to non-ROC corporate holders without a fixed place of business and a business agent in the ROC, they are not subject to ROC income tax or AMT on any capital gains generated from the sale of the Notes.

## **BOOK-ENTRY CLERANCE SYSTEMS**

### ***ROC Settlement and Trading***

The Issuer has not entered into any settlement agreement with Taiwan Depository & Clearing Corporation (“TDCC”) and has no intention to do so.

In the future, if the Issuer enters into a settlement agreement with TDCC, an investor, if it has a securities book-entry account with a Taiwan securities broker and a foreign currency deposit account with a Taiwanese bank, may settle the Notes through the account of TDCC with Euroclear or Clearstream if it applies to TDCC (by filling in a prescribed form) to transfer the Notes in its own account with Euroclear or Clearstream to such TDCC account with Euroclear or Clearstream for trading in the domestic market or vice versa for trading in overseas markets. For settlement through TDCC, TDCC will allocate the respective Notes position to the securities book-entry account designated by such investor in the ROC. The Notes will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the TPEx as domestic bonds. For such investors who hold their interest in the Notes through an account opened and held by TDCC with Euroclear or Clearstream, distributions of principal and/or interest for the Notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second

Taiwanese business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one Taiwanese business day after the distribution date). However, when the holders actually receive such distributions may vary depending upon the daily operations of the Taiwanese banks with which the holder has the foreign currency deposit account.

## APPENDIX B – ROC SELLING RESTRICTION

The Notes have not been, and shall not be, offered, sold or resold, directly or indirectly, to investors other than “professional investors” as defined under Paragraph 1 of Article 2-1 of the TPEX Rules of the ROC, which currently include:

- (a) a “professional institutional investor” as defined under Paragraph 2 of Article 4 of the Financial Consumer Protection Act of the ROC, which currently includes: (i) overseas or domestic banks, securities firms, futures firms and insurance companies (excluding insurance agencies, insurance brokers and insurance surveyors), the foregoing as further defined in more detail in Paragraph 3 of Article 2 of the Financial Supervisory Commission Organization Act, (ii) overseas or domestic fund management companies, government investment institutions, government funds, pension funds, mutual funds, unit trusts, and funds managed by financial service enterprises pursuant to the ROC Securities Investment Trust and Consulting Act, the ROC Futures Trading Act or the ROC Trust Enterprise Act or investment assets mandated and delivered by or transferred for trust by financial consumers, and (iii) other institutions recognised by the Financial Supervisory Commission of the ROC;
- (b) a legal entity or fund having applied in writing to the securities firms for the status of a professional investor that meets all of the following three criteria: (i) its total assets exceed NT\$50,000,000 according to its most recent CPA-audited or reviewed financial report, provided that the financial report of a non-ROC offshore legal entity is not required to be audited or reviewed by the CPA, (ii) the person authorized by the investor to handle trades has sufficient professional knowledge and trading experience in financial products, and (iii) it fully understands that the securities firm is exempted from certain responsibilities towards professional investors in connection with bond trading activities and agrees to sign up as a professional investor; and
- (c) a natural person who has applied in writing to a securities firm for the status of professional investor and who meets all of the following three criteria: (i)(x) he/she has provided a proof of financial capacity of at least NT\$30,000,000, or (y) he/she has made a single trade, the transaction amount of which is higher than NT\$3,000,000, and his/her total assets and investments booked at and made through such securities firm are higher than NT\$15,000,000 and has provided a statement certifying that the value of his/her total assets exceeds NT\$30,000,000, (ii) he/she has sufficient professional knowledge and trading experience in financial products, and (iii) he/she fully understands that the securities firm is exempted from certain responsibilities toward professional investors in connection with bond trading activities and agrees to sign up as a professional investor.

Purchasers of the Notes are not permitted to sell or otherwise dispose of the Notes except by transfer to the aforementioned professional investors.

## Report on review of interim consolidated financial statements

(English translation of a report originally issued in Korean)

### The Stockholders and Board of Directors Hana Bank Co., Ltd. and its subsidiaries

We have reviewed the accompanying interim consolidated financial statements of Hana Bank Co., Ltd. and its subsidiaries (collectively referred to as the "Group"), which comprise the interim consolidated statement of financial position as of March 31, 2026, and the related interim consolidated statements of comprehensive income, interim consolidated statements of changes in equity and interim consolidated statements of cash flows for each of the three-month periods ended March 31, 2026 and 2025, and a summary of material accounting policy information and other explanatory information.

### Management's responsibility for the interim consolidated financial statements

Management is responsible for the preparation and presentation of these interim consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the Republic of Korea ("KIFRS") 1034 *Interim Financial Reporting*, and for such internal control as management determines is necessary to enable the preparation of interim financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's responsibility

Our responsibility is to express a conclusion on these interim consolidated financial statements based on our review.

We conducted our review in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Securities and Futures Commission of the Republic of Korea. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Korean Standards on Auditing ("KSA") and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements are not prepared, in all material respects, in accordance with KIFRS 1034 *Interim Financial Reporting*.

## Other matters

We have audited the consolidated statement of financial position as of December 31, 2025 and the related consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended (not presented herein) in accordance with KSA, and our report dated February 27, 2026 expressed an unqualified opinion thereon. The accompanying consolidated statement of financial position as of December 31, 2025, presented for comparative purposes, is not different, in all material respects, from the above audited consolidated statement of financial position.

May 15, 2026

This review report is effective as of May 15, 2026, the independent auditor's review report date. Accordingly, certain material subsequent events or circumstances may have occurred during the period from the date of the independent auditor's review report to the time this review report is used. Such events and circumstances could significantly affect the accompanying interim consolidated financial statements and may result in modifications to this review report.

The accompanying notes are an integral part of the interim consolidated financial statements.

**HANA BANK CO., LTD. and its subsidiaries**  
**Notes to the Interim Consolidated Financial Statements**  
March 31, 2026 and 2025 (unaudited)

1. General information:

General information on Hana Bank Co., Ltd. (the "Bank" or the "Parent company") previously Korea Exchange Bank, and its subsidiaries (collectively referred to as the "Group") in accordance with International Financial Reporting Standards as adopted by the Republic of Korea ("KIFRS") 1110 *Consolidated Financial Statements* is as follows:

1-1 Summary of the Parent company (the "Bank")

The Bank was established on January 30, 1967, as a government-controlled bank, to engage in foreign exchange and trade finance business under the *Korea Exchange Bank Act* enacted on July 28, 1966. On December 30, 1989, the *Korea Exchange Bank Act* was repealed, and the Bank was reorganized as a stock company under the Commercial Act of the Republic of Korea. On April 4, 1994, the Bank was listed on the Korea Exchange (previously, Korea Stock Exchange). On February 28, 2004, the Bank merged its subsidiary, Korea Exchange Bank Credit Service Co., Ltd. On August 31, 2014, the Bank spun off its credit card division.

On February 9, 2012, Hana Financial Group Inc. ("HFG") obtained control over the Bank by acquiring 57.27% equity interest in the Bank, and later on April 5, 2013, the Bank became a wholly owned subsidiary of HFG after HFG acquired the remaining interest in the Bank through an all-inclusive exchange of the shares.

The Bank changed to its current name on September 1, 2015, following the merger of Korea Exchange Bank and Hana Bank.

The Bank provides commercial banking service under the Banking Act of the Republic of Korea, trust banking service under the Financial Investment Services and Capital Markets Act, merchant banking service through the merger with the Korea International Merchant Bank, foreign exchange business and other related businesses. As of March 31, 2026, the Bank's headquarters is located in Seoul, with 610 domestic branches (including 77 satellite offices) and 27 overseas branches (including one satellite office and five offices).

The Bank is authorized to issue 2,000 million shares (par value amount : ₩5,000) of common stock, and as of March 31, 2026, after a number of capital increases and decreases, stock splits and conversion of preferred shares to common shares, the Bank has 1,071,915,717 shares of common stock issued and outstanding with the total capital stock amounting to ₩5,359,578 million.

## 1-2 Scope and overview of consolidation

The Group's ownership percentages in its consolidated subsidiaries as of March 31, 2026 are summarized as follows (ownership in %):

| Investee                                                                                               | Country   | Major business           | Share ratio (%) | Reporting date |

NYFinCo was established in New York, USA, on April 8, 2004, to provide financial services to Korean companies and residents in New York and the surrounding area. Its paid-in capital is 1 dollar as of March 31, 2026 (share ratio : 100%).

#### 1-2-7 KEB Hana LA Financial Corp. (LAFinCo)

LAFinCo was established in Los Angeles, USA, on April 8, 2004, to provide financial services to Korean companies and residents in Los Angeles and the surrounding area. Its paid-in capital is 2 dollars as of March 31, 2026 (share ratio:100%).

#### 1-2-8 KEB Hana Global Finance Limited (KHGF)

KHGF was established on July 2, 2009, in Hong Kong to provide investment finance services for foreign clients, advisory services for domestic companies that seek to invest overseas, finance arrangement and security investment trust services. Its paid-in capital is 50,000 thousand dollars as of March 31, 2026 (share ratio : 100%).

#### 1-2-9 KEB HNB RUS LLC

KEB launched a Moscow representative office in 2008 to provide financial information and consulting services for Korean and local companies in Russia. KEB HNB RUS LLC was established on August 15, 2014, after obtaining permission to operate corporation from Russian supervisory authorities in July 2014 in order to expand the business area. Its paid-in capital is 4.78 billion RUB as of March 31, 2026 (share ratio : 99.99%).

#### 1-2-10 Hana Bancorp, Inc.

Hana Bancorp, Inc. (previously, BNB Financial Services Corporation) was incorporated on April 8, 1988, to engage in the banking and related businesses. HFG acquired ownership of BNB Financial Services Corporation and incorporated Hana Bancorp, Inc. as its subsidiary on August 30, 2013, and changed the name to Hana Bancorp, Inc. The Bank purchased the securities from HFG on March 28, 2016. Its paid-in capital is 92,675 thousand dollars as of March 31, 2026 (share ratio : 98.31%).

#### 1-2-11 BANCO KEB HANA MEXICO S.A.

BANCO KEB HANA MEXICO S.A. was established in Mexico City on November 3, 2017, to engage in provision of financial services to Korean companies and local corporations and obtained approval for the commencement of business from the local supervisory agency on January 31, 2019. Its paid-in capital is 1,666,828 thousand Mexican pesos as of March 31, 2026 (share ratio : 99.99%).

## 1-2-12 GLN International Co., Ltd.

GLN International Co., Ltd. was established in Korea on July 7, 2021, and primarily engages in the electronic finance business (global payment brokerage, etc.). Paid-in capital was increased by issuance of new shares by GLN International Co., Ltd. in 2023. Its paid-in capital is ₩60.8 billion as of March 31, 2026 (share ratio : 82.24%).

## 1-3 Structured entities

### 1-3-1 Consolidated structured entities

#### 1-3-1-1 Hana UBS Power PEF Invest Trust 21 and a set of six other private equity investment vehicles

In accordance with KIFRS 1110, six other private equity investment vehicles and Hana UBS Power PEF Invest Trust 21 were included in consolidation scope because the Group has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the Group's returns from its involvement with the investee.

#### 1-3-1-2 Sevenstar Co., Ltd. and 78 other special-purpose entities

In accordance with KIFRS 1110, 78 SPCs and Sevenstar Co., Ltd. were included in consolidation scope because the Group has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the Group's returns from its involvement with the investee.

### 1-3-1-3 Trust accounts

In accordance with KIFRS 1110, trust accounts are included in consolidation scope because the Group has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the Group's returns from its involvement with the investee.

### 1-3-1-4 Hana Tech Value-Up Investment Fund and three other funds

In accordance with KIFRS 1110, Hana Tech Value-Up Investment Fund and three other funds are included in consolidation scope because the Group has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the Group's returns from its involvement with the investee.

### 1-3-1-5 Contractual commitments to consolidated structured entities

The consolidated structured company for the securitization of assets is established for the securitization of loans. The Group is involved in the acquisition of subordinated bonds issued by the consolidated structured company or provision of credit for the asset-backed commercial paper ("ABCP") and others, and is exposed to the risk of not being able to recover the acquisition amounts based on the investment performance. Characteristics and intentions of contractual commitments offered by the Group to the consolidated structured entities are as follows:

| Company name                       | The characteristics and purposes                                                                                                                                                                                                                                                       | Intention                                                       |
|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------|
| Development trust and other trusts | The Group offers principal guarantee commitment and principal and interest guarantee commitment to trust accounts. The Group is required to compensate the deficit amount in case the trust account stands below the principal or principal and interest as a result of the operation. | Credit risk mitigation on financial management of trust account |
| HANA DL First Co., Ltd.            | The Group partially purchased ABCP (purchase commitment of ₩50,000 million) from HANA DL First Co., Ltd.                                                                                                                                                                               | Operating activities                                            |
| DONG DAEGU TERMINAL 2nd, LLC       | The Group partially purchased ABCP (purchase commitment of ₩20,000 million) from DONG DAEGU TERMINAL 2nd, LLC                                                                                                                                                                          | Operating activities                                            |
| DRAGON HANA 1st, LLC               | The Group partially purchased ABCP (purchase commitment of ₩30,000 million) from DRAGON HANA 1st, LLC.                                                                                                                                                                                 | Operating activities                                            |
| HANA BAEKSA LOGISTICS 1st, LLC     | The Group partially purchased ABCP (purchase commitment of ₩34,600 million) from HANA BAEKSA LOGISTICS 1st, LLC.                                                                                                                                                                       | Operating activities                                            |
| HC One Q 2nd INC.                  | The Group partially purchased ABCP (purchase commitment of ₩100,000 million) from HC One Q 2nd INC.                                                                                                                                                                                    | Operating activities                                            |

| Company name                                           | The characteristics and purposes                                                                                                         | Intention            |
|--------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|----------------------|

## 2. Basis of preparation and changes to the Group's accounting policies:

### 2-1 Basis of preparation

The Group prepares statutory consolidated financial statements in accordance with Korean International Financial Reporting Standards ("KIFRS") 1034 *Interim Financial Reporting* enacted by the Act on External Audit of Stock Companies. The accompanying interim consolidated financial statements have been translated into English from Korean interim consolidated financial statements prepared in Korean. In the event of any differences in interpreting the interim consolidated financial statements or the independent auditor's report thereon, the Korean version, which is used for regulatory reporting purposes, shall prevail.

The interim consolidated financial statements do not contain all the information and notes required to be entered in the annual financial statements and therefore, should also be referred to information in the annual financial statements as of and for the year ended December 31, 2025.

### 2-2 Changes in material accounting policies

The material accounting policies used for preparation of the consolidated financial statements are the same as those adopted in preparing annual financial statements as of and for the year ended December 31, 2025, except for the adoption of new standards and interpretations effective as of January 1, 2026.

Changes in accounting policies in accordance with the adoption of new standards and interpretations for the current reporting period are as follows:

#### 2-2-1 Amendments to KIFRS 1109 *Financial Instruments* and 1107 *Financial Instruments: Disclosures – Classification and Measurement of Financial Instruments*

The amendments to KIFRS 1109 and KIFRS 1107 include:

- clarifications of the requirements for recognition and derecognition of financial assets and financial liabilities. In particular, a financial liability is derecognised on

the 'settlement date' and an accounting policy choice is introduced (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date;

- additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed
- clarifications on what constitute 'non-recourse features' and what are the characteristics of contractually linked instruments; and
- the introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI).

The amendments had no impact on the Group's interim consolidated financial statements.

## 2-2-2 Annual Improvements to KIFRS Volume 11

These amendments were issued to improve consistency among the requirements of the standards and to clarify certain unclear wording in order to enhance understandability. The amendments include the following:

- Amendments to KIFRS 1101 First-time adoption of KIFRS: Hedge accounting by a first-time adopter
- Amendments to KIFRS 1107 Financial Instruments: Disclosures: Gain or loss on derecognition, Guidance for application of amendments in practice
- Amendments to KIFRS 1109 Financial Instruments: Accounting for derecognition of lease liabilities and definition of transaction prices
- Amendments to KIFRS 1110 Consolidated Financial Statements: Determination of a 'de facto agent'
- Amendments to KIFRS 1007 Statement of Cash Flows: Cost Method

The amendments had no impact on the Group's interim consolidated financial statements.

### 2-2-3 Amendments to KIFRS 1109 and KIFRS 1107 *Disclosures – Contracts Referencing Nature-dependent Electricity*

The amendments to KIFRS 1109 and KIFRS 1107 have been issued. The amendments apply only to contracts that reference nature-dependent electricity, and they:

- clarify the application of the 'own-use' requirements for in-scope contracts;
- amend the designation requirements for a hedged item in a cash flow hedging relationship for in-scope contracts; and
- add new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows.

The amendments had no impact on Group's interim consolidated financial statements.

The new and amended standards and interpretations that are issued, but not yet effective up to the date of issuance of the Group's interim consolidated financial statements are disclosed below.

### 2-2-4 KIFRS 1118 *Presentation and Disclosure in Financial Statements*

KIFRS 1118 has been issued, which replaces KIFRS 1001 *Presentation of Financial Statements* and includes new requirements designed to enhance comparability of financial performance, particularly in the statement of profit or loss, with other similar entities and provide users with more relevant information.

The following are the major accounting policy changes that are expected to result in significant differences from the current financial statements upon the adoption of KIFRS 1118. The matters described below do not include all potential differences that may arise in the future and may be subject to change based on further analysis.

[Changes in Presentation of the Statement of Profit or Loss]

KIFRS 1118 requires all income and expenses presented in the statement of

profit or loss to be classified into one of five categories: operating, investing, financing, income tax and discontinued operations. Under the standard, all income and expenses not classified into the investing, financing, income tax or discontinued operations categories are classified into the operating category, and operating profit or loss is defined as a residual category.

The Group is required to assess its main business activities in determining the classification of income and expenses by category. Where the Group's main business activities include investing in certain types of assets or providing financing to customers, certain income and expenses that would otherwise have been classified within the investing or financing categories are classified within the operating category.

Accordingly, operating profit or loss determined under KIFRS 1118 may differ significantly from operating profit or loss presented under the current KIFRS 1001, which is generally defined as revenue less cost of sales and selling and administrative expenses. KIFRS 1118 also requires disclosure in the notes of operating profit or loss determined in accordance with the current KIFRS 1001, together with reconciliation of the differences between operating profit or loss determined under KIFRS 1118 and that determined under the current KIFRS 1001.

In addition, KIFRS 1118 requires the statement of profit or loss to present 'operating profit or loss', comprising all income and expenses classified within the operating category, 'profit or loss before financing and income taxes', comprising operating profit or loss and all income and expenses classified within the investing category, and 'profit or loss'. However, where providing financing to customers is one of the Group's main business activities, the presentation of 'profit or loss before financing and income taxes' may not apply depending on the accounting policy election made by the Group.

[Introduction of Disclosure Requirements for Management-defined Performance

Measures]

KIFRS 1118 introduces new disclosure requirements for management-defined performance measures ("MPMs"). MPMs are defined as subtotals of income and expenses that are used in public communications outside the financial statements to communicate management's view of an aspect of the financial performance of the entity as a whole, and that are not listed in paragraph 118 of KIFRS 1118 or otherwise explicitly required to be presented or disclosed by KIFRS.

Where MPMs are presented, the Group is required to disclose the reasons for using such measures, how the measures are calculated, reconciliations between the measures and the most directly comparable subtotal specified by KIFRS 1118, and the income tax effects and effects on non-controlling interests for each reconciling item.

[Changes in Classification of Cash Flows]

In connection with the issuance of KIFRS 1118, certain amendments were also made to KIFRS 1007 *Statement of Cash Flows*. Under the amendments, the starting point for the indirect method of reporting cash flows from operating activities has been changed from profit or loss to operating profit or loss, and the accounting policy choice for the classification of cash flows related to interest and dividends has been eliminated.

KIFRS 1118 is effective for annual reporting periods beginning on or after January 1, 2027, with early application permitted. As the standard is required to be applied retrospectively in accordance with KIFRS 1008 *Accounting Policies, Changes in Accounting Estimates and Errors*, comparative information for the annual reporting period ending December 31, 2026 will be restated in accordance with KIFRS 1118. The related amendments to KIFRS 1007 and KIFRS 1033 arising from the issuance of KIFRS 1118, as well as the amended KIFRS 1008 and KIFRS 1107, will become effective when KIFRS 1118 is applied.

The Group has not early adopted KIFRS 1118 as the mandatory effective date

has not yet been reached, and plans to prepare its first interim financial statements for the period ending March 31, 2027 in accordance with KIFRS 1118. The Group is currently performing financial impact analyses and establishing related accounting policies in connection with the adoption of KIFRS 1118, and is conducting an overall preliminary assessment of the impact of applying the standard.

## 2-3 Scope and principles of consolidation

Significant methods of accounting for consolidation when preparing consolidated financial statements are as follows:

### 2-3-1 Subsidiaries

The Bank has the ability to determine the financial and operating policies of subsidiaries. Generally, the Bank classified the entity as subsidiary in case the Bank has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the investee's returns from its involvement with the investee. Subsidiaries are fully consolidated from the date on which the control is transferred to the Bank and excluded from the subsidiaries at the point when the Bank loses the control.

### 2-3-2 Offset of the investment accounts of the Group and the corresponding equity accounts

The investment accounts of the Group and the corresponding equity accounts of the subsidiaries are eliminated in consolidation.

### 2-3-3 Accounting for difference between the costs of investment

The Group applies acquisition method in offsetting the Parent company's investment accounts and subsidiary's equity accounts. When applying the acquisition method, if the transfer consideration, the amount of non-controlling interest in the acquiree and the total fair value of the Parent's previous holdings exceed the fair value of the subsidiary's asset liabilities, the difference is recognized as good will and is considered for impairment at the end of each reporting period.

Changes in the Parent's ownership interest in a subsidiary that does not lead to a loss of control after the date of acquisition of control are treated as capital transactions.

### 2-3-4 Elimination of intercompany transactions and the unrealized gain or loss,

etc.

All significant intercompany transactions and the account balances among the consolidated companies are eliminated on consolidation. Unrealized gains or losses included in loans and borrowings arising from transactions between consolidated companies are eliminated on consolidation. The related accounts receivable and payable are also eliminated on consolidation.

## 2-3-5 Investments in associates and a joint venture

Investments in entities over which the Group has control or significant influence are accounted for using the equity method. Under the equity method of accounting, the Group's initial investment in an investee is recorded at acquisition cost. Subsequently, a share of changes in equity (the Group's share of amount of the changes in associates' net assets) is adjusted to the carrying value. The share of changes in equity is accounted for differently per sources. If the change in net asset has occurred due to net income or loss, it is accounted for as gain or loss on equity method. If it has occurred due to unappropriated retained earnings carried over from prior years, it is accounted for as changes in retained earnings under equity method. The change in net assets due to changes in equity, except those mentioned above, is accounted for as equity adjustments in equity method or negative equity changes in equity method.

If the carrying amount of investments in associates is equal to or under '0', the Group suspends equity method and carries the investments value at '0'. If the Group has investment assets, such as preferred shares and long-term bonds of associates, it continues recognizing its share of further losses to the extent of the carrying amount of such asset's value '0'. The Group resumes the application of the equity method if the Group's share of income or change in equity of an investee exceeds the Group's share of losses accumulated during the period of suspension of the equity method of accounting.

At the date of acquisition, the excess of the cost of the investment over the Group's share of the net fair value of the investee's identifiable assets and

liabilities is accounted for as goodwill or negative goodwill. The goodwill is not amortized, and if there is any indication that investment shares in associates and joint ventures, including those, have been impaired, it is being considered against the recoverable value (greater of net fair value and value in use). In addition, the difference between the fair value and the carrying amount of the identifiable assets and liabilities of the investee at the time of stock acquisition is amortized or reversed according to the equity method of the investee.

The Group's share in the investee's unrealized profits and losses resulting from transactions between the Group and its investee is eliminated to the extent of the interest in the investee.

#### 2-3-6 Special reserve on trust accounts

A special reserve provided under the arrangement of guaranteed fixed rate of return and guaranteed repayment of the principal is included under the retained earnings in the consolidated financial statements.

#### 2-3-7 Non-controlling interests

Subsidiaries' equity that is not included in the Group's share is accounted for as non-controlling interests. In case subsidiaries' non-controlling interests are below '0', negative non-controlling interests are presented as deduction of equity.

#### 2-4 Foreign currency transaction

##### 2-4-1 Functional currency

When preparing the consolidated financial statements, the Group measures and recognizes all items and transactions according to the functional currency. The term functional currency is defined as the monetary unit of account of the principal economic environment in which the entity operates, and the amount of transactions made between an entity's functional currency and other currencies are converted to the Group's functional currency.

#### 2-4-2 Transactions and balances at the end of the reporting period

Transactions in foreign currencies are initially recognized as functional currency applying spot or average exchange rates. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange at the reporting date and differences arising on settlement or translation of monetary items are recognized in profit or loss. Non-monetary assets and liabilities at fair value in a foreign currency are translated at the exchange rates at the end of the reporting date. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange differences of that gain or loss are recognized in profit or loss and when a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange differences of that gain or loss are recognized in other comprehensive income. Non-monetary items not measured at fair value in a foreign currency are translated using the exchange rates as of the dates of the initial transactions and thus, there are no exchange differences.

However, a monetary item which will be received from or paid to foreign branches and operations but for which settlement is neither planned nor likely to occur in the foreseeable future is considered as part of the net investment in the foreign entity. Exchange differences arising on the monetary item that forms part of net investment in the foreign operation are recognized initially in other comprehensive income and reclassified from other comprehensive income to profit or loss on disposal of the net investment.

### 2-4-3 Translation of the presentation currency

As of the reporting date, the assets and liabilities of overseas branches are translated into the Group's presentation currency, Korean won (presented as "KRW" and ₩). The Group's assets and liabilities are translated at the rate of exchange prevailing at the reporting date and the Group's profit or loss and other comprehensive income and changes in equity are translated using the exchange rates at the transaction date or the average exchange rates for the period. The exchange differences arising on translation are recognized in other comprehensive income.

### 2-5 Cash and cash equivalents

Cash and cash equivalents in the consolidated statements of financial position are composed of cash at bank and on hand, etc. The purpose of holding cash and cash equivalents is not to make short-term investments, but to meet short-term cash demands. Cash and cash equivalents are highly liquid, easily convertible and subject to an insignificant risk of changes in value.

Deposits restricted from use by the Group under contracts with third parties are included as part of cash, unless such restrictions prevent deposits from meeting the definition of cash any longer. Contractual restrictions affecting the use of cash and deposits are described in Note 10-2.

### 2-6 Financial asset classification and subsequent measurement

At initial recognition, financial assets are classified as measured at FVTPL, FVOCI and amortized cost, and financial liabilities are classified as measured at FVTPL and amortized cost and in accordance with the business model and characteristics of the contractual cash flows.

Regular-way purchase or sale of financial assets is recognized at the trade date that an entity commits itself to purchase or sell an asset. Regular-way purchase or sale of financial assets means purchase or sale of financial assets under a contract whose terms require delivery of the asset within the time frame

established generally by regulation or convention in the marketplace concerned.

Financial assets and liabilities are initially measured at fair value and the transaction costs directly attributable to the acquisition of (issuance) financial assets (liabilities) are added to (deducted from) the fair value at initial recognition if they are not measured at FVTPL. The fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial instruments is generally measured at the transaction price (the fair value of the consideration received or transferred) at initial recognition.

#### 2-6-1 Financial assets at FVTPL

Financial assets held for trading or designated as at FVTPL and financial assets that are not classified as at FVOCI or amortized cost are classified as at FVTPL.

Also, the Group may designate a financial asset as measured at FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on a different base.

Financial assets at FVTPL are measured at fair value and the gain or loss on valuation is recognized as profit or loss. Dividends and interest income from the financial assets are also recognized as profit or loss.

#### 2-6-2 Financial assets at FVOCI

The Group classifies debt securities, which are held within a business model, whose objective is achieved by both collecting contractual cash flows and selling financial assets and meet the assessment of contractual cash flow characteristics and equity securities designated as measured at FVOCI, which are held not with intention to sell, but for strategic purpose, as financial assets at FVOCI. Financial assets at FVOCI are measured at fair value after initial recognition. Gain or loss arising from changes in the fair value is recognized as other comprehensive

income, except for interest income under the effective interest rate ("EIR") method, dividends and foreign exchange differences on monetary assets that are directly recognized in profit or loss.

When financial assets at FVOCI are disposed of, the cumulative income recognized in other comprehensive income is transferred to the current profit or loss. However, the cumulative income recognized for equity securities designated as financial assets at FVOCI is not transferred to the current profit or loss.

The fair value of financial assets at FVOCI presented in foreign currencies is translated using the exchange rate at the end of the reporting period. Changes in the fair value from exchange differences due to changes in amortized cost are recognized in the current profit or loss, while other changes are recognized directly in equity.

#### 2-6-3 Financial assets at amortized cost

Financial assets within a business model whose objective is achieved by collecting contractual cash flows and meet the contractual cash flow characteristics are classified as financial assets at amortized cost. After initial recognition, the financial assets are measured at amortized cost using the effective interest rate method and presented by deducting from the amortized cost the allowance for loan losses. Interest income is recognized by using the effective interest rate method.

The Group defers loan origination fees ("LOF")/loan origination costs ("LOC") associated with originating loans and LOCs that have future economic benefits. Loan balances are reported net of these LOFs/LOCs. The deferred LOFs/LOCs are amortized based on the effective interest rate method, with the amortization recognized as adjustments to interest income.

## 2-7 Derivative financial instruments and hedge accounting

Derivative instruments are initially recognized at fair value on the date a derivative contract is entered into and are classified as trading derivatives or hedging derivatives depending on whether hedge accounting is applied. After initial recognition, derivative instruments are subsequently remeasured at fair value. Any gains or losses arising from changes in fair value on derivatives are taken directly to the consolidated financial statements, except for the effective portion of cash flow hedges or hedges of net investment in a foreign operation, which is recognized in other comprehensive income.

The Group applies fair value hedge accounting to hedge the changes in fair value, as a whole or some parts, of recognized assets or liabilities from particular risks or an unrecognized firm commitment. Cash flow hedge is accounted to hedge the changes in cash flows of recognized assets or liabilities from particular risks or a highly probable forecast transaction.

The Group documents the hedge relationship, risk management objective, strategy, the nature of the risk being hedged and method to assess the effectiveness of hedge to apply hedge accounting. The effectiveness of hedge means the effect of offsetting the exposure to changes in fair value or cash flow of hedged items by changes in fair value or cash flow of derivatives attributed by the hedged risk. The Group assesses and documents whether such hedges are expected to be highly effective and if they actually have been highly effective at the end of the reporting period.

An ineffective portion of the hedge may be due to differences between underlying variables, such as acquisition date, credit risk or liquidity and the hedging instruments that the entity accepts to achieve an effective cost-to-cost hedging relationship.

### 2-7-1 Fair value hedges

When fair value hedge accounting is applied, the unrealized gain or loss on hedged items that are attributable to a hedged risk and hedging instruments is symmetrically recognized in the consolidated financial statements as current income for the same reporting period to ensure that changes in the fair value of the hedged items are offset by changes in the fair value of the hedging instruments. When the hedged item is an equity instrument designated at FVOCI, the hedging gain or loss remains in other comprehensive income. If an application of hedge accounting is no longer valid, the Group discontinues the hedge accounting prospectively. Any adjustment to the carrying amount of hedged items is amortized to profit or loss in the consolidated statements of profit or loss and other comprehensive income over the remaining maturity using the effective interest method.

### 2-7-2 Cash flow hedges

When cash flow hedge accounting is applied, the effective portion of the unrealized gain or loss on the hedging instrument is directly recognized in other comprehensive income (loss) in the statements of financial position to ensure that changes in the cash flows of the hedged items are offset by changes in the cash flows of the hedging instruments while any ineffective portion is recognized immediately in the statements of comprehensive income. Amounts recognized as other comprehensive income are transferred to the statements of comprehensive income when the hedged transaction affects profit or loss. If an application of hedge accounting no longer meets the criteria, the Group discontinues the hedge accounting prospectively and the cumulative gain or loss on the hedging instrument previously recognized in other comprehensive income is transferred to profit or loss in the statements of comprehensive income.

### 2-7-3 Hedge accounting of net investment in a foreign operation

When applying hedge accounting of net investment in a foreign operation, the effective portion of changes in fair value of the hedging instrument is recognized in other comprehensive income and the ineffective portion of the hedge is recognized as current profit or loss in order to offset changes in the fair value of the hedged item caused by the hedging with changes in the fair value of the hedging instrument. The effective portion of hedge recognized in other comprehensive income will be reclassified from other comprehensive income to current profit or loss in accordance with KIFRS 1021 *The Effects of Changes in Foreign Exchange Rates*, at the time of disposal of a foreign operation or disposal of a portion of its foreign operations in the future.

### 2-7-4 Embedded derivatives

An embedded derivative is a component of a hybrid contract that also includes a non-derivative host with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. Derivatives embedded in other financial instruments or other host contracts are accounted for as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

### 2-7-5 'Day 1' profit or loss

In case of derivatives classified as Level 3 in the fair value hierarchy of which fair value is determined using data that is not observable from markets, the difference between the transaction price and fair value at initial recognition (a 'Day 1' profit or loss) is deferred and amortized up to its maturity using the straight-line method.

### 2-7-6 Credit risk valuation adjustment

When assessing derivatives at fair value, expected loss from credit risk is measured and deducted from derivative assets to reflect credit risk of counterparties.

## 2-8 Expected credit loss ("ECL") for financial assets

Loss allowance is recognized for financial assets at FVOCI and amortized cost using the ECL model.

ECL is the weighted-average amount of possible outcomes within a certain range, reflecting the time value of money; estimates in the past, current and future situations; and information accessible without excessive cost or effort.

The ECL can be measured in following three ways:

- general approach: when financial assets do not fall into below two categories or they are off-balance-sheet undrawn commitments;
- simplified approach: when financial assets are trade receivables, contract assets or lease receivables; and
- credit-impaired approach: when financial assets are credit impaired at initial recognition.

The general approach is applied differently depending on the significance of the increase of the credit risk. If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group shall measure the loss allowance for that financial instrument at an amount equal to 12-month ECL. If the credit risk on that financial instrument has increased significantly since initial recognition, the Group shall measure the loss allowance for a financial instrument at an amount equal to the lifetime ECL at each reporting date.

The loss allowance is measured at an amount equal to lifetime ECL for the simplified approach and the Group shall only recognize the cumulative changes in lifetime ECL since initial recognition as a loss allowance for purchased or originated credit-impaired financial assets at each reporting date for the credit-impaired approach.

The information that the Group may utilize in assessing significant changes in credit risk includes, but is not limited to, the following:

- significant changes in internal price indicators of credit risk as a result of a change in credit risk since inception;
- other changes in the rates or terms of an existing financial instrument that would be significantly different;
- an actual or expected significant change in the financial instrument's external credit rating;
- an actual or expected internal credit rating downgrade for the borrower or decrease in behavioral scoring used to assess credit risk internally;
- an actual or expected significant change in the operating results of the borrower; and
- past-due information.

#### 2-8-1 Reflecting forward-looking information

The Group measures the significance of the increase of the credit risk and the ECL using forward-looking information.

The Group assumes that the risk component is correlated with changes in market conditions and calculates the ECL using the forward-looking information by modelling macroeconomic variables and risk components.

The forward-looking information used to measure the ECL is derived from 'stress-case' or 'worst-case' scenarios.

#### 2-8-2 Measurement of ECL for financial assets at amortized cost

ECL for financial assets at amortized cost is measured as the present value of the difference between the contractual cash flows that are due to the Group under the contract and the cash flows that the Group expects to receive. For this purpose, the Group calculates expected contractual cash flows for individually

significant financial assets (allowance for loan losses on an individual assessment).

Financial assets insignificant in value individually are measured on a collective basis with financial assets with similar credit risks (allowance for loan losses on a collective assessment).

#### 2-8-2-1 Allowance for loan losses on an individual assessment basis

Allowance for loan losses on an individual assessment basis is based on the best estimates of management with regard to the present value of cash flows expected to be recovered from receivables. In estimating the cash flows, the Group uses all available information, including the financial conditions, such as the operating cash flows of counterparties and the net realizable value of collateral provided.

#### 2-8-2-2 Allowance for loan losses on a collective assessment basis

Allowance for loan losses on a collective assessment basis uses the estimation model that accounts for the forward-looking information based on the past loss rate to measure the ECL. The model considers the probability of default ("PD") and the loss-given default ("LGD") reflecting the type of instruments and borrowers, credit rating, portfolio size and collection period. Also, certain assumptions are applied to model the ECL measurement and to determine input variables based on past experiences and forward-looking information.

Methodologies and assumptions for this model are regularly reviewed to minimize the difference between the allowance for loan losses and the actual loss. The ECL for financial assets at amortized cost is recognized as the allowance for loan losses, and when the financial asset is determined to be irrecoverable, the carrying amount and the allowance for loan losses are decreased. If financial assets previously written off are recovered, the allowance for loan losses is increased, and the difference is recognized in the current profit or loss.

### 2-8-3 ECL measurement for financial assets at FVOCI

The measurement method is the same as the one for financial assets at amortized cost, but the change in the allowance is recognized as other comprehensive income. The allowance for financial assets at FVOCI is reclassified from other comprehensive income to current profit or loss when the assets are disposed of or repaid.

### 2-9 Derecognition of financial assets

A financial asset is derecognized when the contractual rights to the cash flows from the financial asset expire or the Group transfers substantially all the risks and rewards of ownership of the financial asset. If the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, but has retained control, the Group recognizes the asset and the associated liability to the extent of the Group's continuing involvement in the financial asset. If most of the risks and rewards of owning a financial asset are controlled without holding or transferring it, the Group recognizes them in its consolidated statements of financial position as the Group continues to be involved in the financial asset and related liabilities to be paid.

## 2-10 Classification and measurement of financial liabilities

All financial liabilities that are classified as financial liabilities at FVTPL, borrowings or others are measured initially at their fair value, minus transaction costs, except in the case of financial liabilities recorded at FVTPL.

### 2-10-1 Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. All derivatives, including an embedded derivative separated from the host contract, are reclassified as financial liabilities at FVTPL, except for financial liabilities designated as effective hedging instruments or financial guarantee contracts. After initial recognition, the changes in the fair value of the financial liabilities at FVTPL and the related interest expenses are recognized as profit or loss.

The Group performs securities lending and borrowing classified as held-for-trading financial liabilities. When the Group borrows securities from Korea Securities Depository, securities borrowed are managed as memorandum value and when selling them, they are recorded as securities sold. At closing, the difference between the price securities are sold and the market price prevailing on the closing date is taken into account as valuation gain or loss on securities sold, and at the time of selling the securities, the difference in book value and the price securities are purchased is recorded as trading gain or loss on securities sold.

### 2-10-2 Deposits, borrowings and debentures

Interest-bearing deposits, borrowings and debentures are subsequently measured at amortized cost using the effective interest method. The difference between the consideration received after deducting transaction costs and the amount repayable on maturity is amortized by the effective interest method and recognized in profit or loss for the relevant period.

## 2-11 Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, canceled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statements of profit or loss and other comprehensive income.

## 2-12 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

## 2-13 Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the obligation is expected, it is unlikely or the amount of the loss cannot be estimated reliably, the amount is disclosed. If the effect of the time value of money is material, provisions are stated at present value.

The Group accounts for the payment guarantee provision in the same way as accounting for loan losses on a collective assessment basis by applying the Cash Conversion Factor to the confirmed/unconfirmed payment guarantees and bills endorsed. The Group provides an allowance for loan losses on a certain portion of the unused credit line. The Group records the provision for such unused balances as an allowance for loan losses on unused commitments, which are calculated by applying a credit conversion factor and provision rates.

#### 2-14 Financial guarantee contract

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument and is measured at fair value on the date of initial recognition. After initial recognition, the Group, as an issuer of such a contract, measures it at the higher of (i) the amount determined in accordance with KIFRS 1109 *Financial instruments*, or (ii) the amount initially recognized less, when appropriate, cumulative amortization recognized in accordance with KIFRS 1115 *Revenue from Contract with Customer*.

#### 2-15 Bonds purchased under resale agreements and bonds sold under repurchase agreements

Bonds purchased under resale agreements and bonds sold under repurchase agreements are included in loans and borrowings, respectively, in the accompanying consolidated statements of financial position. Interest income and expenses from purchases or sales are recognized as interest income on loans and interest expenses on borrowings, respectively.

#### 2-16 Property and equipment

Property and equipment are measured at cost, and the carrying amount after initial recognition is presented as the amount of the acquisition cost minus the accumulated depreciation and the accumulated impairment loss. The cost of property, plant and equipment includes expenditure directly related to the purchase or construction of the asset, including the cost directly related to the location and condition required to operate the asset in the manner intended by management and the cost initially estimated to be required to dismantle, remove or restore the site.

The subsequent costs are recognized as an asset when it is probable that future economic benefits associated with the asset will flow to the Group and the costs of the asset can be measured reliably. The other maintenances and repairs are expensed in the year in which they are incurred, and the carrying amount of certain parts that are replaced is derecognized.

Land is not depreciated. For depreciation of other assets, amount of acquisition cost, less residual value, is calculated on a straight-line basis and declining-balance basis over the following estimated useful life of the asset:

| Classification                                | Depreciation method      | Years   |
|-----------------------------------------------|--------------------------|---------|
| Buildings, building components and structures | Straight-line method     | 5 to 55 |
| Leasehold improvements                        | Straight-line method     | 3 to 10 |
| Equipment and vehicles                        | Declining-balance method | 3 to 20 |

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is immediately reduced to its recoverable amount. The residual value and economic useful life are reviewed at the end of each reporting period, with the effect of any changes in estimates being accounted for, if necessary. Any gain or loss arising on the derecognition of the asset is recognized in 'Non-operating income' or 'Non-operating expenses' in the consolidated statements of profit or loss and other comprehensive income in the year the asset is derecognized.

## 2-17 Investment properties

Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated using the cost model.

Investment properties are derecognized either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the consolidated statements of comprehensive income in the period of derecognition, and transfers are made to or from investment property only when there is a change in use. Land is not depreciated among investment properties, and the depreciation method of the buildings is the straight-line method and their useful life is 5 to 55 years. The depreciation method, residual value and useful life of investment property are reviewed at the end of each reporting period, and if it is deemed appropriate to change investment property, it is accounted for as a change in accounting estimates.

## 2-18 Intangible assets

An intangible asset, which comprises industrial property rights, software, development costs and others, is recognized as an asset only if it is probable that future economic benefits associated with the asset will flow to the Group and the costs of the asset can be measured reliably. Intangible assets acquired individually are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as of the date of acquisition in accordance with KIFRS 1103 *Business Combination*.

Amortization of intangible assets with definite useful lives is calculated using the following amortization method over the estimated useful life of the assets:

| Classification                                                    | Amortization method  | Years |
|-------------------------------------------------------------------|----------------------|-------|
| Industrial property rights, software and system development costs | Straight-line method | 5     |
| Core deposits                                                     | Straight-line method | 14    |

| Classification          | Amortization method  | Years   |
|-------------------------|----------------------|---------|
| Other intangible assets | Straight-line method | 1 to 12 |

Intangible assets with indefinite useful lives are not amortized, but are annually tested for impairment or whenever there is an indication that the intangible asset may be impaired. The assessment of indefinite useful life is reviewed annually to determine whether the indefinite useful life continues to be supportable.

## 2-19 Impairment of non-financial assets

The Group tests the depreciable asset for impairment whenever there is a change in environment or an event indicating that the carrying amount may not be recoverable. The Group recognizes an excess of the carrying amount over the recoverable amount as an impairment loss. The Group defines recoverable amount as the higher of an asset's or cash-generating unit's ("CGU") fair value, less costs to sell, or its value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels (CGUs) for which there are separate and identifiable cash flows. The Group assesses the reversal of an impairment loss recognized for non-financial assets other than goodwill at the end of the reporting period.

## 2-20 Net defined benefit liabilities (assets)

The Group calculates defined benefit liabilities and pension benefit expenses based on a defined benefit plan and defined contribution plan when an employee retires in accordance with pension-related regulations. For defined benefit plans, the cost of retirement benefits is measured by an actuary services company using the projected unit credit method. The present value of a defined benefit obligation is computed by discounting expected future cash outflows using the market rate of return measured against the yield of high-graded corporate bonds whose date of payment and maturity is similar to that of a defined benefit obligation. Actuarial gains and losses incurred from the change in actuarial assumptions and the difference between the assumptions and the actual results

are recognized in other comprehensive income for the period. Past service cost is recognized immediately to the extent that the benefits are already vested; and otherwise, it is amortized on a straight-line basis over the period until the benefits become vested.

The Group has entered into retirement trust fund and retirement pension plan agreements to pay retirement benefits to its employees. The retirement benefit obligation represents the present value of the defined benefit obligation as adjusted for unrecognized past service costs and as reduced by the fair value of plan assets. Any asset resulting from this calculation is limited to unrecognized actuarial losses and past service costs, plus the present value of available refunds and reductions in future contributions to the plan.

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan. When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting treatment depends on whether the contributions are linked to service as follows:

- if the contributions are not linked to services (e.g., contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset); and
- if contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the entity reduces service cost by attributing the contributions to periods of service using the attribution method required by KIFRS 1019, paragraph 70, for the gross benefits. For the amount of contribution that is independent of the number of years of service, the entity reduces service cost in the period in which the related service is rendered.

## 2-21 Share-based payment

In the case of equity-settled share-based payments, the goods or services received and the corresponding increase in equity are measured directly at the fair value of the goods or services and accounted for as compensation costs and equity. If the goods or services provided cannot be reliably measured, the endowed equity is indirectly estimated at fair value and the Group accounts for compensation costs and equity (capital adjustment). The cost of cash-settled transactions is measured initially at fair value at the grant date, taking into account the terms and conditions upon which the instruments were granted. This fair value is expensed over the period until vesting with recognition of a corresponding liability. The liability is remeasured to fair value at each reporting date up to, and including the settlement date, with changes in fair value recognized in the consolidated statements of comprehensive income. Also, in the case of a selectable share-based payment transaction in which the employees have a choice between a cash-settled transaction and an equity-settled transaction, the Group records the amount depending on its substance.

## 2-22 Employee benefits

### 2-22-1 Short-term employee benefits

When employees have rendered services to the Group during an accounting period, the Group recognizes the undiscounted amount of short-term employee benefits. This amount is expected to be settled in whole before 12 months after the end of the reporting period in exchange for those services.

### 2-22-2 Other long-term employee benefits

Other long-term employee benefits (excluding retirement benefits and termination benefits) that are not expected to be settled within 12 months after the end of the reporting period in which the employees render the related services are measured at the present value of the future benefits earned as consideration for services provided in the current and prior periods.

Remeasurements arising from changes in estimates are recognized in profit or loss in the period in which they occur.

### 2-22-3 Termination benefits

The Group recognizes an expense for termination benefits when an employee accepts the offer or when a restriction on the Group's ability to withdraw the offer takes effect.

## 2-23 Recognition of income tax expenses and deferred tax assets and liabilities

Income taxes are composed of current and deferred taxes. All items related to taxes, other than those recognized directly in equity, are accounted for in the consolidated statements of comprehensive income. Accordingly, items recognized directly in equity and the related taxes are accounted for as other comprehensive income in the statements of comprehensive income.

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date, in the countries where the Group operates and generates taxable income. If the applied tax laws require an interpretation, the Group calculates income tax payable expected to be paid to the taxation authorities based on the opinion made when the taxes were reported.

Deferred tax is provided on the temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The Group measures deferred tax assets and liabilities at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted, or substantively enacted by the end of the reporting period.

The Group recognizes a deferred tax asset for all deductible temporary differences to the extent it is probable that taxable profit will be available against which the deductible temporary difference can be utilized.

The Group recognizes a deferred tax liability for all taxable temporary differences with investments in subsidiaries and associates, except to the extent that both of the following conditions are satisfied: (a) the Group is able to control the timing of the reversal of the temporary difference and (b) it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

The Group offsets deferred tax assets and liabilities if, and only if, the Group has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority either on the same taxable entity or different taxable entities, which intend either to settle current tax liabilities and assets on a net basis or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

## 2-24 Equity

### 2-24-1 Classification of equity

The Group classifies financial instruments at initial recognition as either financial liabilities or financial equity depending on the contractual materiality. In the case where it is possible to avoid the related contractual obligations, the financial item is classified as a financial equity. An equity is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

### 2-24-2 Stock issuance costs

New stock issuance costs or incremental costs related to the stock issuance for business combinations are recorded as a deduction from paid-in capital, net of tax effects.

### 2-25 Earnings per share ("EPS")

Basic and diluted EPSs are computed by dividing net income by the weighted-average number of shares of common stock outstanding during the year.

## 2-26 Accounting basis for trust accounts

The Group accounts for trust operations (the "trust accounts") separately from the Group's accounts in accordance with the *Financial Investment Services and Capital Markets Act*. In this regard, the funds lent by the Group to the trust account are accounted for as due to trust accounts of the Group's accounts, and the funds borrowed by the Group from the trust account are accounted as due from trust accounts of the Group's accounts. Trust compensation paid to the trustee (the Group) in connection with the operation, management and disposal of trust property is accounted as trust operation profits. The Group recognizes trust commissions earned from trust accounts as income from trust operations in connection with the operation, management and disposal of trust property. In addition, in the case of a joint operation money trust with a "guarantee contract of the principal or profits" of the trust account, if the operating profit falls short of the "principals to be preserved or profits to be guaranteed" and this shortage is greater than the amount covered by the trust compensation and special reserves, the Group accounts for the amount paid to the trust account as the trust account's operating losses.

## 2-27 Lease accounting

Under KIFRS 1116 *Leases*, the Group applies a single recognition and measurement method for all leases, except for leases of low-value assets. This standard provides guidance on specific requirements and simplified methods applied by an entity.

The Group recognized the right-of-use assets and the lease liabilities that were previously classified as operating leases, except for leases of low-value assets. Right-of-use assets for most leases were recognized as carrying amounts measured as if the accounting standards had been applied from the inception of the lease, except that they were discounted at the lessee's incremental borrowing rate as of the date of initial application. In some leases, the right-of-use asset was recognized based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognized. The lease

liability was measured at the present value of the remaining lease payments, discounted at the incremental borrowing rate as of the date of the initial application.

The practical expedients that the Group applied are as follows:

- application of a single discount rate to a portfolio of leases with significantly similar characteristics;
- replacement of impairment review by determining whether leases are onerous before the initial application date;
- exclusion of initial direct costs from the measurement of the right-of-use asset at the initial application date; and
- using hindsight for lessee.

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

## 2-28 Merchant banking account

As permitted by the *Act on the Structural Improvement of the Financial Industry of Korea*, the Group may continue its merchant banking operations until the existing contracts succeeded from the Korea International Merchant Bank which is acquired upon merger are terminated.

Material accounting policies applied to the Group's merchant banking operations are summarized as follows:

### 2-28-1 Revenue recognition on discounted notes

Interest income on discounted notes is accrued over the term of the notes. Income from the sale of discounted notes is recognized at the date of transaction based on the difference between the purchase prices and sales prices of the notes, adjusted for interest earned during the holding period.

### 2-28-2 Cash Management Accounts ("CMA")

The Group recognizes interest income from CMA investments and interest expenses from CMA deposits as operating income and operating expenses, respectively.

## 2-29 Interest income and interest expenses

Interest income and interest expenses are recognized over time using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and allocating the interest income or interest expenses over the relevant period. The EIR is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the EIR, the Group estimates cash flows considering all contractual terms of the financial instrument, but does not consider future credit losses. Cash flows at the time of

the calculation include all the fees and points paid to, or received, from parties to the contract that are an integral part of the EIR, including transaction costs, and all other premiums or discounts.

#### 2-30 Fees and commission income

The Group's revenue recognition standard varies depending on the type of service provided to customers. Fee income, which is an integral part of the EIR of financial instruments, is adjusted using the EIR and recognized as interest income.

Fee income is recognized using the five-stage revenue recognition model (Identification of a contract with a customer → Identification of performance obligations in the contract → Determination of the transaction price → Allocation of the transaction price to the separate performance obligations in the contract → Recognition of revenue upon satisfying the performance obligations) in accordance with KIFRS 1115.

#### 2-31 Dividend income

Dividend income is recognized when the Group's right to receive the payment is established.

#### 2-32 Government grants

Government grants are recognized at fair value when there is a reasonable assurance that the entity will comply with the conditions attached to it and that the grant will be received. Grants related to income are recognized as revenue on a systematic basis over the period necessary to match the related costs that the grant is intended to cover. On the other hand, grants related to an asset are presented by subtracting the carrying amount of the asset and accounting for by deducting depreciation expenses over the useful life of the asset.

### 3. Material judgments and accounting estimates:

In the application of the Group's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily observable from objective sources. The estimation and assumption are based on other factors that are related to historical experience. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period if the revision affects both current period and future period.

In the process of applying the Group's accounting policies, management has made the following judgments that have a material effect on the amounts recognized in the consolidated financial statements:

#### 3-1 Fair value of financial instruments

The fair value of financial instruments is determined by referencing quoted market prices in active markets in the first place. For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques, including (i) between knowledgeable and willing parties in a recent arm's-length transaction, (ii) reference to the current fair value of another instrument that is substantially the same, (iii) discounted cash flow ("DCF") analysis and (iv) option-pricing models.

### 3-2 ECL of financial assets

The Group recognizes impairment losses on debt instruments, lease receivables, loan commitment and financial guarantee contracts that were accounted for at amortized cost, or at FVOCI, based on the ECL impairment model using a three-stage model for 12-month ECL, or lifetime ECL, based on changes in credit risk since initial recognition of financial assets.

| Classification |                                                                                                  | Loss allowance                                                                                                                                |
|----------------|--------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| STAGE 1        | Credit risk on a financial instrument has not increased significantly since initial recognition. | 12-month ECL: ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. |
| STAGE 2        | Credit risk on a financial instrument has increased significantly since initial recognition.     | Lifetime ECL: ECLs that result from all possible default events over the expected life of a financial instrument.                             |
| STAGE 3        | Credit impaired.                                                                                 |                                                                                                                                               |

The cumulative changes in lifetime ECL since initial recognition are recognized as loss allowance for a financial asset that is considered credit impaired at initial recognition.

### 3-3 Retirement benefit

The cost of providing benefits under the defined benefit plans is determined using the actuarial valuation. Actuarial assumptions were made for the discount rate and an increase in the future pay rate. Retirement benefits include significant uncertainties in the estimates due to the longer duration of the period.

### 3-4 Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is an indication that non-financial assets may be impaired. An intangible asset with an indefinite useful life is tested for impairment annually or tested whenever there is an indication that the intangible asset may be impaired. Other non-financial assets are tested for impairment whenever there is an indication that the book value cannot be recovered. For the calculation of value in use, management estimates an expected future cash flow incurred from the asset or CGU. For the calculation of present value of the expected future cash flow, appropriate discount rate is selected.

### 3-5 Income tax

There have been various transactions and tax accounting methods, which have made computing the final tax expenses for the period uncertain. The contingent liability from any future tax assessments is based on the estimates of the likelihood of additional taxes imposed and has been included in the Group's Consolidated financial statements for the current period. When the finalized tax expense assessments are different from the appropriated amounts, the differences, if any, are recognized in current deferred tax assets, liabilities and expenses for the period.

### 4. Fair value measurement of financial assets and liabilities:

The standards that the Group applies when measuring fair values of financial assets and liabilities are described below:

- a. Quoted market prices at the settlement date in an active market are the best evidence of fair value and should be used when available.
- b. If a market for a financial instrument is not active, the Group establishes fair value using a valuation technique that makes maximum use of market inputs and includes (i) knowledgeable and willing parties in a recent arm's-length transaction, (ii) reference to the current fair value of another instrument that is substantially the same, (iii) DCF analysis and (iv) option-pricing models. An acceptable valuation technique incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments.
- c. When determining fair value using the valuation techniques, comparison with the current market transaction of another instrument that is substantially the same as the financial instrument needed to be objectively substantiated or inclusion of variables in the marketable data must be performed. Not all significant market variables are observable and in relevant cases, the reasonable estimates or assumptions are required to determine the fair value.

#### 4-1 Fair value hierarchy of financial instruments

The fair value hierarchy the Group applies when measuring the fair values of financial assets and liabilities as of March 31, 2026 and December 31, 2025 is described below (KRW in millions):

As of March 31, 2026:

| Classification                            | Levels of the fair value hierarchy (*) |            |           | Total      |
|-------------------------------------------|----------------------------------------|------------|-----------|------------|
|                                           | Level 1                                | Level 2    | Level 3   |            |
| Financial assets                          |                                        |            |           |            |
| Financial assets at FVTPL                 |                                        |            |           |            |
| Equity securities                         | 80,698                                 | –          | 44,484    | 125,182    |
| Debt securities                           | 9,182,242                              | 5,932,505  | 2,107,640 | 17,222,387 |
| Derivative assets held for trading        | –                                      | 12,410,365 | 54,024    | 12,464,389 |
| Private convertible bonds                 | –                                      | –          | 8,567     | 8,567      |
| Subtotal                                  | 9,262,940                              | 18,342,870 | 2,214,715 | 29,820,525 |
| Financial assets at FVOCI                 |                                        |            |           |            |
| Equity securities                         | 45,802                                 | 12         | 671,050   | 716,864    |
| Debt securities                           | 13,071,710                             | 26,918,935 | –         | 39,990,645 |
| Subtotal                                  | 13,117,512                             | 26,918,947 | 671,050   | 40,707,509 |
| Derivative assets used for hedging        | –                                      | 14,379     | –         | 14,379     |
| Merchant banking account assets           | –                                      | 4,237,727  | –         | 4,237,727  |
| Total                                     | 22,380,452                             | 49,513,923 | 2,885,765 | 74,780,140 |
| Financial liabilities                     |                                        |            |           |            |
| Financial liabilities at FVTPL            |                                        |            |           |            |
| Derivative liabilities held for trading   | 14,440                                 | 11,263,192 | 44,613    | 11,322,245 |
| Securities borrowed                       | 124,497                                | –          | –         | 124,497    |
| Financial liabilities designated at FVTPL | –                                      | 694,626    | –         | 694,626    |
| Subtotal                                  | 138,937                                | 11,957,818 | 44,613    | 12,141,368 |
| Derivative liabilities used for hedging   | –                                      | 465,218    | 34,231    | 499,449    |
| Total                                     | 138,937                                | 12,423,036 | 78,844    | 12,640,817 |

(\*) The Group recognizes transfers between levels at the beginning of reporting period when events or changes in circumstances causing the transfers between levels have occurred.

As of December 31, 2025:

| Classification                            | Levels of the fair value hierarchy (*) |            |           | Total      |

| Total                                     | 362,573                                | 8,213,107  | 75,640    | 8,651,320  |

(\*) The Group recognizes transfers between levels at the beginning of reporting period when events or changes in circumstances causing the transfers between levels have occurred.

The Group classifies and discloses the fair value of the financial instruments into the following three levels of hierarchy:

- a. Level 1: The fair values are based on quoted prices (unadjusted) in active markets.
- b. Level 2: The fair values are based on techniques using observable market data.
- c. Level 3: The fair values are based on techniques using unobservable inputs.

Details of the fair values, valuation techniques and inputs used to develop those measurements classified into Level 2 assets and liabilities that are measured at fair value as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

As of March 31, 2026:

| Classification                            | Fair value | Valuation techniques                                                        | Inputs                                                                                                         |
|-------------------------------------------|------------|-----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Financial assets                          |            |                                                                             |                                                                                                                |
| Financial assets at FVTPL                 |            |                                                                             |                                                                                                                |
| Debt securities                           | 5,932,505  | Net asset value and DCF model                                               | Underlying asset prices, such as bonds, stock, etc., and Discount rate                                         |
| Derivative assets held for trading        | 12,410,365 | Black-Scholes model, Black model, DCF model and Hull-White one-factor model | Exchange rate, Stock Index, Volatility, Swap yield curve, Swaption volatility and Yield curve of each currency |

|                       | Other comprehensive income | –                         | (257)           | (17)                      | 18,437                    | –                 | –                      | –                      |
| Purchases and issues  |                            | 1,200                     | 125,835         | –                         | –                         | 3,039             | 299                    | –                      |
| Sales and settlements |                            | (236)                     | (53,039)        | –                         | (1,634)                   | (867)             | (1,673)                | –                      |
| Ending balance        |                            | 42,304                    | 1,727,340       | 8,333                     | 488,138                   | 49,246            | 43,610                 | 31,271                 |

4-3 Amounts recognized in profit or loss from changes in financial instruments categorized as Level 3 of the fair value hierarchy

The amounts recognized in profit or loss from changes in financial instruments categorized as Level 3 of the fair value hierarchy for each of the three-month periods ended March 31, 2026 and 2025 are recorded in the consolidated financial statements as follows (KRW in millions):

For the three-month period ended March 31, 2026:

| Classification                                          | Total gains or losses recognized in profit or loss | Profit or loss recognized related to financial instruments held at the end of reporting period |
|---------------------------------------------------------|----------------------------------------------------|------------------------------------------------------------------------------------------------|
| Gain on financial instruments at FVTPL                  | 36,817                                             | 35,649                                                                                         |
| Loss related to derivative instruments used for hedging | (4,002)                                            | (4,002)                                                                                        |
| Total                                                   | 32,815                                             | 31,647                                                                                         |

For the three-month period ended March 31, 2025:

| Classification                                          | Total gains or losses recognized in profit or loss | Profit or loss recognized related to financial instruments held at the end of reporting period |
|---------------------------------------------------------|----------------------------------------------------|------------------------------------------------------------------------------------------------|
| Gain(Loss) on financial instruments at FVTPL            | (528)                                              | 338                                                                                            |
| Gain related to derivative instruments used for hedging | 4,430                                              | 4,430                                                                                          |
| Total                                                   | 3,902                                              | 4,768                                                                                          |

4-4 Transfers between fair value hierarchies

There is no transfer to or from Level 3 of the fair value hierarchy for each of the three-month periods ended March 31, 2026 and 2025.

#### 4-5 Sensitivity analysis

The sensitivity analysis of the financial instruments classified as Level 3 from the changes in significant unobservable inputs as of March 31, 2026 and December 31, 2025 is as follows. The impact of fair value fluctuations on profit or loss or other comprehensive income is divided into favorable and unfavorable changes. The financial instruments classified as Level 3 which were excluded from the sensitivity analysis as it is practically impossible amount to ₩1,953,396 million and ₩1,606,475 million as of March 31, 2026 and December 31, 2025, respectively (KRW in millions):

As of March 31, 2026:

| Classification                               | Favorable changes | Unfavorable changes |
|----------------------------------------------|-------------------|---------------------|
| Financial assets                             |                   |                     |
| Financial assets at FVTPL                    |                   |                     |
| Equity securities (*2)                       | 512               | (223)               |
| Debt securities (*3)                         | 2,023             | (1,939)             |
| Derivative assets held for trading (*1)      | 1,162             | (1,614)             |
| Subtotal                                     | 3,697             | (3,776)             |
| Financial assets at FVOCI                    |                   |                     |
| Equity securities (*2)                       | 28,147            | (14,514)            |
| Total                                        | 31,844            | (18,290)            |
| Financial liabilities                        |                   |                     |
| Derivative liabilities held for trading (*1) | 343               | (109)               |
| Derivative liabilities used for hedging (*1) | 210               | (115)               |
| Total                                        | 553               | (224)               |

(\*1) Unfavorable and favorable changes in fair value are calculated by increasing/decreasing 10% of

- 1) correlation between rates of Interest Rate Swap ("IRS") of KRW,
- 2) correlation between rates of IRS of KRW and USD,
- 3) correlation between stock index and individual stock and
- 4) correlation between exchange rates of KRW/USD and stock index.

(\*2) Changes in fair value of equity securities are calculated by increasing/decreasing growth rate (from 0.0% to 1.0%) and discount rate (from -1.0% to 1.0%), both of which are main unobservable inputs.

(\*3) Changes in fair value of debt securities are calculated by increasing/decreasing discount rate (from -1.0% to 1.0%), which is the main unobservable input. For beneficiary securities, it is impossible in practice to assess sensitivity based on the changes in input variables but in case of those consisting of real estate, favorable or unfavorable changes in fair value are calculated by changing discount rate of lease cash flow (from -1.0% to 1.0%) and growth rate of selling price of real estate (from -1.0% to 1.0%).

As of December 31, 2025:

| Classification                               | Favorable changes | Unfavorable changes |
|----------------------------------------------|-------------------|---------------------|
| Financial assets                             |                   |                     |
| Financial assets at FVTPL                    |                   |                     |
| Equity securities (*2)                       | 529               | (226)               |
| Debt securities (*3)                         | 2,030             | (1,938)             |
| Derivative assets held for trading (*1)      | 424               | (814)               |
| Subtotal                                     | 2,983             | (2,978)             |
| Financial assets at FVOCI                    |                   |                     |
| Equity securities (*2)                       | 28,960            | (14,353)            |
| Total                                        | 31,943            | (17,331)            |
| Financial liabilities                        |                   |                     |
| Derivative liabilities held for trading (*1) | 426               | (141)               |
| Derivative liabilities used for hedging (*1) | 231               | (175)               |
| Total                                        | 657               | (316)               |

(\*1) Unfavorable and favorable changes in fair value are calculated by increasing/decreasing 10% of

- 1) correlation between rates of Interest Rate Swap ("IRS") of KRW,
- 2) correlation between rates of IRS of KRW and USD,
- 3) correlation between stock index and individual stock and
- 4) correlation between exchange rates of KRW/USD and stock index.

(\*2) Changes in fair value of equity securities are calculated by increasing/decreasing growth rate (from 0.0% to 1.0%) and discount rate (from -1.0% to 1.0%), both of which are main unobservable inputs.

(\*3) Changes in fair value of debt securities are calculated by increasing/decreasing discount rate (from -1.0% to 1.0%), which is the main unobservable input. For beneficiary securities, it is impossible in practice to assess sensitivity based on the changes in input variables but in case of those consisting of real estate, favorable or unfavorable changes in fair value are calculated by changing discount rate of lease cash flow (from -1.0% to 1.0%) and growth rate of selling price of real estate (from -1.0% to 1.0%).

4-6 Financial assets and liabilities that are not measured at fair value

The fair value hierarchy of financial assets and liabilities at amortized cost as of March 31, 2026 and December 31, 2025 is as follows (KRW in millions):

As of March 31, 2026:

| Classification                            | Levels of the fair value hierarchy |            |             | Total       |
|-------------------------------------------|------------------------------------|------------|-------------|-------------|
|                                           | Level 1                            | Level 2    | Level 3     |             |
| Financial assets                          |                                    |            |             |             |
| Cash and due from banks (*1)              | 3,134,824                          | 36,043,033 | —           | 39,177,857  |
| Securities at amortized cost              | 3,537,543                          | 26,357,984 | —           | 29,895,527  |
| Loans                                     | —                                  | —          | 384,947,002 | 384,947,002 |
| Other financial assets                    | —                                  | —          | 24,871,881  | 24,871,881  |
| Total                                     | 6,672,367                          | 62,401,017 | 409,818,883 | 478,892,267 |
| Financial liabilities                     |                                    |            |             |             |
| Deposits (*1)                             | —                                  | 53,212,639 | 342,439,166 | 395,651,805 |
| Borrowings (*1)                           | —                                  | 781,386    | 27,000,264  | 27,781,650  |
| Debentures                                | —                                  | 35,206,011 | —           | 35,206,011  |
| Other financial liabilities (*2)(*3)      | —                                  | —          | 48,597,244  | 48,597,244  |
| Merchant banking account liabilities (*2) | —                                  | —          | 4,152,761   | 4,152,761   |
| Total                                     | —                                  | 89,200,036 | 422,189,435 | 511,389,471 |

(\*1) For items classified as Level 2, the book value is considered a reasonable approximation of fair value, and is disclosed as fair value.

(\*2) For items classified as Level 3, the book value is considered a reasonable approximation of fair value, and is disclosed as fair value.

(\*3) Lease liabilities are included in other financial liabilities.

As of December 31, 2025:

| Classification                            | Levels of the fair value hierarchy |            |             | Total       |
|-------------------------------------------|------------------------------------|------------|-------------|-------------|
|                                           | Level 1                            | Level 2    | Level 3     |             |
| Financial assets                          |                                    |            |             |             |
| Cash and due from banks (*1)              | 2,191,825                          | 34,033,177 | –           | 36,225,002  |
| Securities at amortized cost              | 2,835,940                          | 27,661,738 | –           | 30,497,678  |
| Loans                                     | –                                  | –          | 397,168,805 | 397,168,805 |
| Other financial assets                    | –                                  | –          | 13,463,850  | 13,463,850  |
| Total                                     | 5,027,765                          | 61,694,915 | 410,632,655 | 477,355,335 |

| Total                                     | –                                  | 88,827,728 | 419,997,798 | 508,825,526 |

(\*1) For items classified as Level 2, the book value is considered a reasonable approximation of fair value, and is disclosed as fair value.

(\*2) For items classified as Level 3, the book value is considered a reasonable approximation of fair value, and is disclosed as fair value.

(\*3) Lease liabilities are included in other financial liabilities.

Details of the fair values, valuation techniques and inputs used to develop those measurements classified into Level 2 financial assets and liabilities that are disclosed, but not measured at fair value as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

As of March 31, 2026:

| Classification               | Fair value | Valuation technique | Inputs        |
|------------------------------|------------|---------------------|---------------|
| Financial assets             |            |                     |               |
| Cash and due from banks      | 36,043,033 | DCF model           | Discount rate |
| Securities at amortized cost | 26,357,984 | DCF model           | Discount rate |
| Total                        | 62,401,017 |                     |               |
| Financial liabilities        |            |                     |               |
| Deposits                     | 53,212,639 | DCF model           | Discount rate |
| Borrowings                   | 781,386    | DCF model           | Discount rate |
| Debentures                   | 35,206,011 | DCF model           | Discount rate |
| Total                        | 89,200,036 |                     |               |

As of December 31, 2025:

| Classification               | Fair value | Valuation technique | Inputs        |
|------------------------------|------------|---------------------|---------------|
| Financial assets             |            |                     |               |
| Cash and due from banks      | 34,033,177 | DCF model           | Discount rate |
| Securities at amortized cost | 27,661,738 | DCF model           | Discount rate |
| Total                        | 61,694,915 |                     |               |
| Financial liabilities        |            |                     |               |
| Deposits                     | 52,379,449 | DCF model           | Discount rate |
| Borrowings                   | 1,437,077  | DCF model           | Discount rate |
| Debentures                   | 35,011,202 | DCF model           | Discount rate |
| Total                        | 88,827,728 |                     |               |

Details of the fair values, valuation techniques and inputs used to develop those measurements classified into Level 3 financial assets and liabilities that are disclosed, but not measured at fair value as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

As of March 31, 2026:

| Classification                       | Fair value  | Valuation technique | Inputs                                                      |
|--------------------------------------|-------------|---------------------|-------------------------------------------------------------|
| Financial assets                     |             |                     |                                                             |
| Loans                                | 384,947,002 | DCF model           | Credit spread, other spread and early redemption rate, etc. |
| Other financial assets               | 24,871,881  | DCF model           | Discount rate                                               |
| Total                                | 409,818,883 |                     |                                                             |
| Financial liabilities                |             |                     |                                                             |
| Deposits                             | 342,439,166 | DCF model           | Other spread and early redemption rate, etc.                |
| Borrowings                           | 27,000,264  | DCF model           | Other spread                                                |
| Other financial liabilities (*1)     | 48,597,244  | DCF model           | Discount rate                                               |
| Merchant banking account liabilities | 4,152,761   | (*2)                |                                                             |
| Total                                | 422,189,435 |                     |                                                             |

(\*1) Lease liabilities are included in other financial liabilities.

(\*2) The carrying amount is considered fair value without applying the DCF model because it is derived from various transactions and has relatively short or indefinite maturities.

As of December 31, 2025:

| Classification                       | Fair value  | Valuation technique | Inputs                                                      |
|--------------------------------------|-------------|---------------------|-------------------------------------------------------------|
| Financial assets                     |             |                     |                                                             |
| Loans                                | 397,168,805 | DCF model           | Credit spread, other spread and early redemption rate, etc. |
| Other financial assets               | 13,463,850  | DCF model           | Discount rate                                               |
| Total                                | 410,632,655 |                     |                                                             |
| Financial liabilities                |             |                     |                                                             |

| Borrowings                           | 27,383,083  | DCF model           | Other spread                                                |
| Other financial liabilities (*1)     | 36,967,509  | DCF model           | Discount rate                                               |
| Merchant banking account liabilities | 4,172,813   | (*2)                |                                                             |
| Total                                | 419,997,798 |                     |                                                             |

(\*1) Lease liabilities are included in other financial liabilities.

(\*2) The carrying amount is considered fair value without applying the DCF model because it is derived from various transactions and has relatively short or indefinite maturities.

#### 4-7 Deferred Day 1 profit or loss

Changes in deferred Day 1 profit or loss for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                               | For the three-month period |                |
|----------------------------------------------|----------------------------|----------------|
|                                              | March 31, 2026             | March 31, 2025 |
| Beginning balance                            | (3,249)                    | (1,197)        |
| Amount of new accrual                        | (1,648)                    | 434            |
| Amounts recognized as current profit or loss | 1,183                      | 638            |
| Ending balance                               | (3,714)                    | (125)          |

#### 4-8 Financial instruments transfer transaction

##### 4-8-1 Bonds sold under repurchase agreements

As of March 31, 2026 and December 31, 2025, details of financial instruments that did not meet the derecognition requirements due to the sale of securities held by the Group on condition of repurchase at a fixed price among the bonds sold under repurchase agreements are as follows (KRW in millions):

| Classification                         | March 31, 2026 |            | December 31, 2025 |            |
|----------------------------------------|----------------|------------|-------------------|------------|
|                                        | Book value     | Fair value | Book value        | Fair value |
| Transferred asset                      |                |            |                   |            |
| Financial assets at FVTPL              | 1,349,664      | 1,349,664  | 3,685,097         | 3,685,097  |
| Financial assets at amortized cost     | 751,083        | 731,597    | 1,449,094         | 1,440,702  |
| Total                                  | 2,100,747      | 2,081,261  | 5,134,191         | 5,125,799  |
| Related liabilities                    |                |            |                   |            |
| Bonds sold under repurchase agreements | 1,988,170      | 1,992,720  | 4,853,370         | 4,863,108  |

#### 4-8-2 Lending securities

When lending securities held by the Group, ownership of the securities is transferred; however, the securities would be returned at the end of the lending period.

Therefore, the Group continues to recognize the entire loaned securities as it retains most of the risks and rewards of the securities. Details of lending securities as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                     | March 31, 2026 |            | December 31, 2025 |            |
|------------------------------------|----------------|------------|-------------------|------------|
|                                    | Book value (*) | Fair value | Book value (*)    | Fair value |
| Financial assets at FVTPL          | 574,310        | 574,310    | 770,186           | 770,186    |
| Financial assets at FVOCI          | 2,975,920      | 2,975,920  | 1,693,923         | 1,693,923  |
| Financial assets at amortized cost | 1,207,806      | 1,196,166  | 268,576           | 264,284    |
| Total                              | 4,758,036      | 4,746,396  | 2,732,685         | 2,728,393  |

(\*) The book value is the amount before deducting the allowance for doubtful accounts.

#### 4-8-3 Asset-backed securitization

The Group's consolidated structured companies issued asset-backed securities by securitizing their securities and loans. The Group retains the contractual right to receive cash flows from the financial assets, but the received cash flows are effectively transferred to the holder of asset-backed securities. In addition, the Group bears related risks through purchase agreements or credit exposures.

As of March 31, 2026 and December 31, 2025, details of financial instruments that were transferred, but not derecognized in relation to asset-backed securitization transactions by the Group, are as follows (KRW in millions):

| Classification      |                                       | Book value(*)  |                   |
|---------------------|---------------------------------------|----------------|-------------------|
|                     |                                       | March 31, 2026 | December 31, 2025 |
| Transferred assets  | Financial assets at FVTPL             | 20,000         | 20,000            |
|                     | Loans at amortized cost               | 3,433,053      | 3,400,969         |
|                     | Total                                 | 3,453,053      | 3,420,969         |
| Related liabilities | Asset-backed securitization borrowing | 3,410,781      | 3,427,380         |
|                     | Asset-backed securitization debenture | 54,343         | 4,424             |
|                     | Total                                 | 3,465,124      | 3,431,804         |

(\*) The carrying amount is before allowances for doubtful accounts.

## 5. Fair value of financial assets and liabilities:

The book values and fair values of financial assets and liabilities as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                          | March 31, 2026 |             | December 31, 2025 |             |
|-----------------------------------------|----------------|-------------|-------------------|-------------|
|                                         | Book value     | Fair value  | Book value        | Fair value  |
| Financial assets                        |                |             |                   |             |
| Cash and due from banks                 | 39,177,857     | 39,177,857  | 36,225,002        | 36,225,002  |
| Financial assets at FVTPL               | 29,820,525     | 29,820,525  | 26,167,238        | 26,167,238  |
| Financial assets at FVOCI               | 40,707,509     | 40,707,509  | 40,330,305        | 40,330,305  |
| Securities at amortized cost            | 30,361,666     | 29,895,527  | 30,774,643        | 30,497,678  |
| Loans                                   | 386,132,067    | 384,947,002 | 396,923,416       | 397,168,805 |
| Derivative assets used for hedging      | 14,379         | 14,379      | 20,891            | 20,891      |
| Other financial assets                  | 24,871,881     | 24,871,881  | 13,463,850        | 13,463,850  |
| Merchant banking account assets         | 4,237,727      | 4,237,727   | 4,376,558         | 4,376,558   |
| Total                                   | 555,323,611    | 553,672,407 | 548,281,903       | 548,250,327 |
| Financial liabilities                   |                |             |                   |             |
| Financial liabilities at FVTPL          | 12,141,368     | 12,141,368  | 8,262,338         | 8,262,338   |
| Deposits                                | 396,182,792    | 395,651,805 | 404,250,619       | 403,853,842 |
| Borrowings                              | 27,778,671     | 27,781,650  | 28,801,096        | 28,820,160  |
| Debentures                              | 35,752,726     | 35,206,011  | 35,172,839        | 35,011,202  |
| Derivative liabilities used for hedging | 499,449        | 499,449     | 388,982           | 388,982     |
| Other financial liabilities (*)         | 48,597,244     | 48,597,244  | 36,967,509        | 36,967,509  |
| Merchant banking account liabilities    | 4,152,761      | 4,152,761   | 4,172,813         | 4,172,813   |
| Total                                   | 525,105,011    | 524,030,288 | 518,016,196       | 517,476,846 |

(\*) Lease liabilities are included in other financial liabilities.

The following standards are applied in measuring the fair value of financial instruments:

- a. Loans: Expected cash flows, current market interest rates and discount rates, including borrowers' credit risks are factors to calculate the fair value of loans. For lines of credit available for deposit and withdrawal from time to time and loans with a short-term maturity (less than three months), it is assumed that the carrying amounts approximate their fair value.
- b. Securities at amortized cost: The fair value of securities at amortized cost is as stated by the market, broker or by credible sources. If none of the information from these entities is usable, quoted market price of financial instruments with similar credit rating, maturity and return on investment is used to estimate the fair value.
- c. Deposits: For deposits without an explicit maturity period, including deposits with no interests, deposits that have a short-term maturity (less than three months) and deposits with a floating-rate readjustment period of less than three months, it is assumed that the carrying amounts approximate their fair value. The estimated fair value of fixed interest-bearing deposits is based on discounted future cash flows using interest rates for new financial liability with similar time to maturity.
- d. Borrowings: For borrowings that have a short-term maturity (less than three months) and borrowings with floating-rate readjustment period of less than three months, it is assumed that the carrying amounts approximate their fair value. The estimated fair value of fixed interest-bearing borrowings is based on discounted future cash flows using interest rates for new financial liability with similar time to maturity.
- e. Debentures: For debentures issued, the fair values are determined based on quoted market prices in active market. For those issued where quoted market prices in active market are not available, a DCF model is used based on a current interest rate yield curve appropriate for the remaining term to maturity and credit spreads.

## 6. Categories of financial assets and financial liabilities:

6-1 The Group categorizes its financial assets as of March 31, 2026 and December 31, 2025 as follows (KRW in millions):

As of March 31, 2026:

| Classification                     | Financial assets<br>at FVTPL | Financial assets<br>at FVOCI | Financial assets<br>at amortized cost | Derivatives<br>used for hedging | Total       |
|------------------------------------|------------------------------|------------------------------|---------------------------------------|---------------------------------|-------------|
| Cash and due from banks            | –                            | –                            | 39,177,857                            | –                               | 39,177,857  |

(\*) Lease liabilities are included in other financial liabilities.

## 7. Offsetting financial assets and liabilities:

The Group engages in master netting agreements with counterparties through International Swaps and Derivatives Association or similar agreements in relation to over-the-counter derivatives and spot exchange transactions. Under this agreement, in the event of the counterparty's bankruptcy etc., the transaction with the counterparty will be terminated. Upon termination, the amounts to be paid or received by each party are offset and paid or received. Master netting agreements are also applied to repurchase agreements and securities lendings and borrowings.

In the case of uncollected domestic exchange receivables and unpaid domestic exchange payables between banks, as the Group holds the rights of setoff and settles in net amounts, the net amounts are presented in the consolidated statements of financial position. Other financial instruments include receivables and payables related to securities traded in the market, which are presented in net amounts in the consolidated statements of financial position as there is a legally enforceable right of setoff and intention to settle on a net basis.

7-1 Financial assets that are offset and financial assets subject to effective master netting agreements and similar arrangements as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

As of March 31, 2026:

| Classification                                      | Gross amounts of recognized financial assets | Gross amounts of financial liabilities offset | Net amounts of financial assets presented in the consolidated financial statements | Related amounts not offset (*) |                 | Net amount |
|-----------------------------------------------------|----------------------------------------------|-----------------------------------------------|------------------------------------------------------------------------------------|--------------------------------|-----------------|------------|
|                                                     |                                              |                                               |                                                                                    | Financial instruments          | Cash collateral |            |
| Derivatives                                         | 12,486,002                                   | –                                             | 12,486,002                                                                         | (7,979,374)                    | (27,256)        | 4,479,372  |

Accordingly, the amounts are not offset in the consolidated statements of financial position as they do not meet the criteria for offsetting.

## 8. Risk management:

The Group is exposed to credit risk, liquidity risk, market risk and various operating risks. The objectives of risk management are to pursue economic benefits by managing the associated risk in the changing financial environment and to utilize capital efficiently.

The basic principles of risk management are as follows:

- a. maximize shareholder value by appropriately balancing risk and return to minimize sharp fluctuations in profit;
- b. adhere to established procedures to ensure that all business activities are conducted within the defined risk tolerance thresholds;
- c. risk managers monitor the types and magnitude of risks arising from changes in the potential economic value of the portfolio, and establish risk management strategies to ensure the efficient use of resources and optimal allocation of capital; and
- d. foster an environment that actively attracts, develops, and retains talent to achieve its risk management objectives.

The basic policies in order to realize the basic principles of risk management are as follows:

- a. set and comply with allowable limits for each risk type;
- b. establish an appropriate balance between income and associated risk;
- c. when a conflict between income and associated risk exists, the Group pursues income while complying with the allowable risk limits;
- d. prioritize the distribution of risk in order to avoid risk concentration in certain areas;
- e. analyze the effect of various market fluctuations on parts or the entire portfolio on a regular basis; and
- f. separate risk management segments, operational segments and other segments, which deal with trade confirmations and payments in order to maintain independence.

## 8-1 Strategy and procedure of risk management

### 8-1-1 Operation of and setting risk limits

The Group established and operates a limit management system to maintain an appropriate level of risk relative to the equity capital held. The Risk Management Committee approves total risk limits and limits by types of risks, taking into account of capital, business plans, risk management regulations and institutional changes within the risk level that the Group can manage. The Risk Management Operation Committee sets up and allocates other operational limits (e.g., by organization, product, investment and loss) to comply with allowable limits for each type of risk, as approved by the Risk Management Committee, and periodically checks the status of limit management.

### 8-1-2 Risk measurement and management

The Group prepares the appropriate risk measurement methods considering the nature of risks and measures them by the types of risks. Risk measurement and evaluation results are regularly reviewed and reported to the Risk Management Committee, Risk Management Operation Committee and management. Risk measurement and evaluation results are also used for daily business management activities, such as establishment of business plan and management strategy.

### 8-1-3 Operation of risk management information system

In order to provide advanced risk management in a rapidly changing financial environment that meets the new Bank for International Settlements ("BIS") standards, the Group has established and adopted a credit risk-weighted assets ("RWAs") calculation system based on Basel 3 regulation since March 2021. The market/operational RWA has been calculated based on Basel 3 standard model since January 2023.

#### 8-1-4 Operation of crisis management system

The Group operates a crisis management system that can respond effectively to the crises caused by drastic changes in the internal and external management environment. The Group operates an early warning system in order to respond to the drastic changes in the financial market in a consistent and systematic manner. If any anomaly indicator is detected, the holdings company declares a group-wide crisis level and the Group analyzes each responsive plan's impact on its portfolio and implements detailed countermeasures.

#### 8-2 Organization and structure of risk management

The risk management organization consists of the Risk Management Committee, the Risk Management Operation Committee under the Risk Management Committee within the board of directors, the risk management officer and the organization in charge of risk management, which are the top decision-making bodies for the risk management. The organization in charge of risk management, independent from operating segment, manages risk limits and risk management policies.

##### 8-2-1 Risk Management Committee

The Risk Management Committee regularly holds meeting once every quarter and resolves the establishment and management of allowable limits for risks, establishment and changes in risk management policies and reviews the results of the management of allowable risk limits and suitability tests of risk management system.

##### 8-2-2 Risk Management Operation Committee

The Risk Management Operation Committee is responsible for setting and allocating specific operational limits to comply with the allowable limits for each type of risk as resolved by the Risk Management Committee, adjusting the internal capital limit between business units within the same risk type and carrying out risk management policies and strategies set by the Risk Management Committee, including preliminary deliberations on the agenda items.

### 8-2-3 Organization in charge of risk management

The Risk Management Group is composed of Comprehensive Risk Management team, Credit Risk Management team and Credit Supervision team. The Risk Management Group is independent of operating and investment segments and manages the execution of risk management policies. The Comprehensive Risk Management team oversees the market, interest rate, liquidity, operational risk and middle office and supports the Risk Management Committee and the Risk Management Operation Committee. The Credit Risk Management team oversees credit risk and credit concentration risk. The Credit Supervision team oversees the loans and early warning system.

### 8-3 Credit risk

Credit risk is a risk incurred when the Group faces a loss because its customers or counterparties fail to discharge their contractual obligations. Credit risk arises from on-balance and off-balance accounts, including loans, derivatives, securities, financial guarantee agreements and other guarantees.

#### 8-3-1 Management of credit risk

##### 8-3-1-1 Loans

##### 8-3-1-1-1 Measurement of credit risk

To determine the possibility of bankruptcy for its customers or counterparties, the Group uses various methods comprehensively. Risks pertaining to the retail sector compared to those pertaining to the corporate sector are relatively easy to predict, but cyclical and seasonal factors may influence the outcomes.

The frequency of impairment loss in the overall retail sector is relatively high, but in terms of individual cases, the loss rate is lower than in the corporate sector. Based on these differences, the Group manages each sector differently in terms of credit rating, pricing and subsequent management.

As for the business customers, the branch managers and Credit Rating team carry out the credit risk assessment by using a detailed valuation model, depending on the size and the nature of the industry. The corporate financial valuation model is further subdivided based on the characteristics of the loans and is a combination of statistical and expert valuation models. Also, the Loan Review team of the Credit Risk Management regularly performs the subsequent reviews in order to establish adequacy of the credit grading. As for the retail sector, a credit scoring system is used to compute the credit scores of the borrower. The system includes an application scoring model, which is used for the application of loans, and a behavioral scoring model, which has been used after handling the loans.

Expected loss is calculated using Probability of Default based on historical default rates and Loss Given Default based on historical collection information. The expected loss calculated is considered in deciding a customer's interest rate and allowances for new receivables or extension of receivables. Unexpected loss, which takes into account the allowance for potential volatility in the actual loss compared to the expected loss, is measured using the K-function under the Basel III Internal Ratings-Based (IRB) approach. The value measured is used as a credit risk reference value in capital allocation and is reflected as a part of the unexpected loss when calculating interest rates.

## 8-3-1-1-2 Management of credit risk

### 8-3-1-1-2-1 Management process

Both retail and corporate sectors are developing and operating a credit risk management system appropriately designed for each sector. The Credit Risk Management Committee and the Credit Rating team measure and manage credit risks for the corporate sector; the Credit Risk Management Committee and the Personal Loans Committee measure and manage credit risks for the retail sector. The Group manages as well as controls the credit risk by setting the limits on the amount of risk willing to accept for individual counterparties and for geographical and industry concentration, and by monitoring exposures relating to such limits. The Group reviews on a monthly basis in accordance with the economic conditions and industry characteristics and examines the adequacy of the limits on a quarterly basis. The Group continuously examines the adequacy of credit rating models for retail and corporate sectors, Probability of Default ("PD"), Loss Given Default ("LGD") and Exposure at Default ("EAD") and manages data related to the estimation of the credit rating models, PD, LGD and EAD.

### 8-3-1-1-2-2 Credit limits management and capital allocation

The Group annually performs a comprehensive analysis on economic conditions and changes in the economic environment in order to appropriately assess the credit quality of financial assets by setting credit limits on same entities, industries, countries and financial instruments. In addition, for managing unexpected losses, the Group's risk management system regularly establishes and allocates internal capital limits depending on size of corporate and household customers, and monitors compliance with the limits.

### 8-3-1-1-2-3 Risk monitoring and early warning system

The Group measures and manages the risk indicators, such as delinquency rate, roll rate and vintage. Also, in order to assess the credit quality of the assets, the Group operates an early warning system and regularly examines companies whose credit rating is likely to degrade.

#### 8-3-1-1-2-4 Credit rating system

In order to separately evaluate the characteristics of clients in the corporate sector, the Group operates a detailed valuation model based on the external and non-external audit and is in the process of continuing the stability of the corporate credit rating system through the subsequent examinations and performance improvements. The Group operates a detailed valuation model based on the credit rating model and the activity rating model for the household sector, in accordance with the client's characteristics. The Group improves the efficiency of the model through the subsequent examinations and performance improvements. Credit rating on new clients, as well as an automatic renewal and adjustments to the credit limits, are managed by the household and Small Office and Home Office ("SOHO") credit extension system.

#### 8-3-1-1-2-5 Examination of credit

For a large amount of credit line, after the approval of credit extension, the Group regularly examines the borrower's credit status and the adequacy of the borrower's credit rating as part of the subsequent management process. In addition, the Group significantly focuses on industries by increasing credit risks based on the analysis of the risk indicators and examines the sample for smaller credit extensions.

#### 8-3-1-1-2-6 Risk mitigation policy

The Group obtains the collateral for the granted loans in order to reduce risks. Guidelines are implemented regarding the acceptability of types of collateral and valuation parameters. The main types of the collateral obtained are as follows:

- a. residential properties in relation to mortgage loans;
- b. business assets, such as equipment, plants and real estate properties; and
- c. financial instruments, such as deposits, debt and equity securities.

#### 8-3-1-2 Debt securities

The Group trades the debt securities above the investment-grade status level in order to manage the credit risks and manage the exposure of credit ratings to maintain credit quality of the assets.

#### 8-3-1-3 Derivative instruments

The credit risk arising from the derivative instruments is managed based on the net position and maintained under a strict control limit. The degree of credit risk exposure is measured based on the positive fair values of derivative instruments. The Group manages the exposure as a part of the unused commitment of loans.

#### 8-3-2 Significant increase in credit risk

The Group measures the ECL for debt instruments at amortized cost or FVOCI in three stages as described below:

##### 8-3-2-1 Stage 1: 12-month ECL

For financial assets, whose credit risk has not increased significantly since initial recognition, ECLs that result from default events that are possible within 12 months after the reporting date are recognized.

##### 8-3-2-2 Stage 2: Lifetime ECL

For financial assets, whose credit risk has increased significantly, but not impaired, since initial recognition, ECLs that result from all possible default events over the expected life of the financial instrument are recognized.

##### 8-3-2-3 Stage 3: Lifetime ECL

A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Lifetime ECL is recognized for credit-impaired financial assets and interest income is recognized using the EIR on amortized cost.

The Group assesses at each reporting date whether the credit risk increases significantly compared to that of initial recognition, using internal and external credit rating information, early warning system and number of days past due.

#### 8-3-2-4 Occurrence of default

The Group considers that a default has occurred for financial assets in the following cases:

- a. when receivables are sold despite an economic loss;
- b. when receivables have decreased due to adjustments resulting in an exemption of principal, interest or related fees or delayed payments; and
- c. when the borrower has been declared bankrupt or has declared bankruptcy or has taken other similar measures to delay or avoid repayments.

#### 8-3-2-5 Method for determining whether a financial asset is credit impaired

A financial asset is deemed impaired if, and only if, there is objective evidence of impairment as a result of one or more events, which have occurred after the initial recognition of the item (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows, such as changes in arrears or economic conditions, which correlate with defaults, delinquency in interest for more than 90 days, credit information management rules and damages incurred due to poor exposure.

### 8-3-3 Measurement of ECL

ECL is measured at the probability-weighted amounts of the present value of all cash shortfalls over the expected life of the financial instrument. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the Group expects to receive.

However, the Group adjusts historical data, such as credit loss experience, on the basis of current observable data to reflect the effects of the current conditions and its forecasts of future conditions that did not affect the period on which the historical data is based and to remove the effects of the conditions in the historical period that are not relevant to the future contractual cash flows. Also, the Group measures ECL using the macroeconomic factors, such as the growth rate, interest rate and stock indices. The methodology for future economic forecasts is regularly reviewed.

If the credit risk on financial instruments, for which lifetime ECLs have been recognized, subsequently improves so that the requirement for recognizing lifetime ECL is no longer met, the loss allowance should be measured at an amount equal to 12-month ECL.

### 8-3-4 Write-off policy

Financial assets are written off when an entity has no reasonable expectations of recovering the contractual cash flows on a financial asset in its entirety or a portion thereof. Generally, financial assets are written off when it is determined that the Group is not able to generate sufficient cash flows to make repayments. However, financial assets written off can be recovered by the Group.

### 8-3-5 The maximum exposure to credit risk

The maximum exposure to credit risk as of March 31, 2026 and December 31, 2025 is as follows. The following table shows the maximum exposure to credit risk before the effect of mitigation through credit enhancement and collateral agreements, and reflects the impairment losses and offsetting. Equity securities in financial assets at FVTPL and financial assets at FVOCI are excluded (KRW in millions):

| Classification                      | March 31,2026 | December 31,2025 |
|-------------------------------------|---------------|------------------|
| On-balance-sheet items              |               |                  |
| Due from banks                      | 36,043,033    | 34,033,177       |
| Financial assets at FVTPL           |               |                  |
| Debt securities                     | 17,222,388    | 17,889,378       |
| Derivative assets held for trading  | 12,464,389    | 8,134,532        |
| Private convertible bonds           | 8,567         | 8,174            |
| Subtotal                            | 29,695,344    | 26,032,084       |
| Financial assets at FVOCI           | 39,990,645    | 39,711,628       |
| Securities at amortized cost        | 30,361,666    | 30,774,643       |
| Derivative assets used for hedging  | 14,379        | 20,891           |
| Loans                               | 386,132,067   | 396,923,416      |
| Other financial assets              | 24,871,881    | 13,463,850       |
| Merchant banking account assets     | 4,237,727     | 4,376,558        |
| Total                               | 551,346,742   | 545,336,247      |
| Off-balance-sheet items             |               |                  |
| Financial guarantee contracts       | 674,935       | 845,423          |
| Payment guarantee                   | 29,118,037    | 25,412,693       |
| Commitments                         | 116,341,577   | 114,754,495      |
| Merchant banking account-commitment | 730,000       | 620,000          |
| Total                               | 146,864,549   | 141,632,611      |

### 8-3-6 Details of effects of credit risk mitigation by collateral and other credit enhancements

The financial effects related to credit risk mitigated by collateral and other credit enhancements as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

As of March 31, 2026:

| Classification | Impaired loan         |                       |
|----------------|-----------------------|-----------------------|
|                | Individual assessment | Collective assessment |
| Guarantees     | 38,484                | 306,781               |
| Deposits       | 4,485                 | 25,617                |

#### 8-4 Liquidity risk

The Group defines liquidity risk as the possibility of incurring losses due to a temporary shortage in funds caused by a maturity mismatch or an unexpected capital outlay leading to rise in interest or sale of assets at a price below normal price.

##### 8-4-1 Measurement of liquidity risk

The Group maintains a limit management indicator to measure the liquidity coverage ratio, liquidity ratio in foreign currency, net stable funding ratio, foreign currency maturity mismatch ratio and long-term access to financing ratio in foreign currency in accordance with the guidelines and standards of the Financial Supervisory Service. In addition, the Group maintains a monitoring indicator to measure concentration of funding, etc., to manage the liquidity risk and manage early warning indicators in order to identify worsening trends in the early stage to respond in a timely manner.

##### 8-4-2 Management of liquidity risk

At an early stage, the Group identifies factors affecting liquidity in order to manage liquidity risks and has achieved an adequate level of liquidity via performing systematic management.

The Group has the following basic principles for liquidity risk management:

- a. set and comply with liquidity risk limits, and coordinate and manage early warning indicators to identify liquidity risk at an early stage;
- b. regularly execute an analysis of stress tests and prepare an emergency procurement plan in case of liquidity;
- c. focus on maintaining a diversified portfolio in order to avoid excessive concentrations of risks; and
- d. evaluate and manage the effect of a large amount of money, which is loaned out, invested or procured on liquidity risks.

In order to manage liquidity risk, the Group builds internal control systems for each department. In order to comply with liquidity ratios and the maturity mismatch ratio set by the Financial Supervisory Service, the Comprehensive Risk Management department conducts daily monitoring. Liquidity risk status is reported to the Risk Management Operation Committee on a monthly basis and to the Risk Management Committee on a quarterly basis.

In order to maintain the liquidity risk management indicators to stay within acceptable limits, the Treasury department recommends the necessary measures in relation to the procurement and operation of the assets and liabilities traded in the capital market. In addition, stages of emergency planning have been established in order to respond to liquidity emergencies.

#### 8-4-3 Analysis of contract maturity

##### 8-4-3-1 Analysis criteria

The details of the remaining contractual maturities of financial liabilities are analyzed by the earliest maturity date when the Group would be required to pay based on the undiscounted cash outflows of the Group's financial liabilities.

In addition, financial liabilities at FVTPL and depository liabilities (payment on demand) are shown at fair value in the immediate payment column. All derivatives used for hedging are presented based on the net cash flows, as all products are paid in the net amount. A contract maturity exists in payment guarantees that correspond to financial guarantees, such as bond issuance and loan security provided by the Group, loan commitment and other credit granting. However, payment must be made immediately once the counterparty requests payment. As such, they are included in the immediate payment column.

8-4-3-2 The remaining contractual maturities of financial liabilities and off-balance-sheet items

The remaining contractual maturities of financial liabilities and off-balance-sheet items as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

As of March 31, 2026:

| Classification                          | On demand   | Less than 1 month | 1 month ~ 3 months | 3 months ~ 1 year | 1 year ~ 5 years | More than 5 years | Total       |
|-----------------------------------------|-------------|-------------------|--------------------|-------------------|------------------|-------------------|-------------|
| On-balance-sheet items                  |             |                   |                    |                   |                  |                   |             |
| Financial liabilities                   |             |                   |                    |                   |                  |                   |             |

Assets available for use to execute unused loan commitments after redeeming all financial liabilities are cash and bank deposits, debt securities, equity securities and loans. In addition, the Group is able to cope with unexpected cash outflows through the sale of securities and additional sources of funding, such as asset-backed securitization.

## 8-5 Market risk

Market risk is a risk incurred in assets and liabilities subject to management based on the changes in market prices, such as interest rate, stocks, foreign exchange, etc.

### 8-5-1 Market risk management

The purpose of market risk management is to manage the loss of assets and liabilities incurred due to changes in market variables, such as interest rates, foreign exchanges and equity prices to remain within the allowable limits in order to ensure profitability and stability.

### 8-5-2 Market risk management targets

Market risk management targets include marketable securities, foreign currency net positions, derivatives and other assets and liabilities with embedded market risks. The Group classifies exposures to market risk into either trading or non-trading positions and manages each of those portfolios separately.

### 8-5-3 Management of market risk related to trading position

#### 8-5-3-1 Trading account classification

A trading account is a concept of a trading book and refers to a set of products held for short-term trading purposes, etc., and there should be no legal restrictions on selling or completely hedging products that are to be classified as trading accounts. Specifically, the following financial products are classified as trading accounts, excluding products that cannot be classified as trading accounts and bank account products:

- a. financial instruments for the short-term trading;
- b. financial instruments for the purpose of hedging risks;
- c. financial instruments for the purpose of acquiring arbitrages;
- d. from A to C, hedge of other goods held for any of the purposes;
- e. financial instruments included in the Correlation Trading Portfolio ("CTP");
- f. financial instruments that generate credit or stock net selling positions in bank accounts

(\*); and

- g. underwriting arrangements for securities that are actually expected to be purchased on the settlement date.

(\*) credit or stock net selling positions in bank accounts: Bank account positions whose current value rises as issuer credit spreads of debt instruments expand or share prices fall

#### 8-5-3-2 Management of the trading position limits

The Risk Management Committee divides capital, annual loss and exposure limit in relation to market risks of the trading position by business unit (division) annually. Within the given limit, the Risk Management Operation Committee further subdivides the limits by business units (divisions) and desks. The Risk Management Group provides information necessary for deliberation and review by the committee, reports trading limits and measures risks.

The middle office performs mark-to-market measures and monitors trade violations and compliance with the limits. The middle office establishes and complies with trading policy regulations, measures market risk for trading positions and checks daily compliance within the acceptable limits for each risk. The office also conducts daily inspections of changes in the management exposure, compliance with the limit, post verification and crisis analysis, and reports the results to the management team every day.

#### 8-5-3-3 Market Risk Measurement (Basel 3 Standard)

The basic calculation method for managing and measuring the exposure of trading account products to market risks is calculated by dividing them into sensitivity risk, default risk and residual risk. Sensitivity risk refers to the risk of loss due to changes in market risk factors, such as exchange rates, interest rates and stock prices. The risk of default refers to the risk of loss due to bankruptcy of bonds or stock issuers.

The Bank excludes structural foreign exchange positions approved by the Governor of the Financial Supervisory Service from the scope of market risk

capital requirements from December 31, 2024.

The currencies designated as structural foreign exchange positions are AED (United Arab Emirates), BRL (Brazil), CNY (China), IDR (Indonesia), INR (India), MXN (Mexico), PHP (Philippines), RUB (Russia), and TWD (Taiwan).

#### 8-5-3-4 Amount of risk by risk type

Details of regulated capital by market risk group as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                | Risk type                                        | March 31, 2026 | December 31, 2025 |
|-------------------------------|--------------------------------------------------|----------------|-------------------|
| Sensitivity Risk Charge       | General interest rate risk                       | 83,820         | 51,465            |
|                               | Credit spread risk ("CSR") (Non-securitizations) | 41,960         | 46,565            |
|                               | CSR (securitizations (Non-CTP))                  | –              | –                 |
|                               | CSR (securitization (CTP))                       | –              | –                 |
|                               | Equity risk                                      | 33,230         | 33,229            |
|                               | Foreign exchange risk (*)                        | 285,444        | 283,751           |
|                               | Commodity risk                                   | –              | –                 |
| Default Risk Charge           | Non-securitizations                              | 31,808         | 30,242            |
|                               | Securitizations (Non-CTP)                        | –              | –                 |
|                               | Securitizations (CTP)                            | –              | –                 |
| Residual Risk Add-On ("RRAO") | RRAO                                             | 1,453          | 1,409             |
| Total                         |                                                  | 477,715        | 446,661           |

(\*) Structural foreign exchange positions approved by the FSS are excluded from the calculation of regulatory capital for foreign exchange risk. Certain foreign currency amounts currently under applications for exclusion from the measurement of regulatory capital for foreign exchange risk are included as of March 31, 2026 and therefore the regulatory capital for foreign exchange risk is provisional.

#### 8-5-4 Management of interest rate risk related to non-trading positions

Interest rate risk of non-trading position is a risk of losses in financial assets and liabilities with interest rates due to adverse changes in interest rates and is incurred when maturity structure does not match interest rate setting cycle of the related assets and liabilities. The Group manages the interest rate risks of non-trading position in order to maintain the stability of net interest income and net asset value based on changes in interest rates. The following is subject to the Group's management of interest rate risk:

- a. financial assets with interest rates, such as bank deposits, debt securities and loans
- b. financial liabilities with interest rates, such as depository liabilities, borrowings and debentures; and
- c. financial derivatives, such as interest rate swaps.

Interest rate risk is calculated using the gap between interest-sensitive assets and liabilities. The interest rate risks measure the interest rate gap ratio as a primary indicator, while Economic Value of Equity (" $\Delta$ EVE"), Net Interest Income (" $\Delta$ NII") ratio and duration are used as secondary indicators. The Risk Management Committee and the Risk Management Operation Committee establish the interest rate risk limits on an annual basis; the compliance thereof is reported to Risk Management Operation Committee as well as the Risk Management Committee on a monthly and quarterly basis, respectively.

△EVE refers to changes in the economic value of equity capital, indicating the effect of adverse changes in interest rates on the present value of assets, liabilities and others. as of March 31, 2026 and December 31, 2025, the Group's △EVE is as follows (KRW in millions):

| Classification | March 31,<br>2026 | Average | Minimum | Maximum | December 31,<br>2025 |
|----------------|-------------------|---------|---------|---------|----------------------|
| △EVE           | 411,119           | 448,479 | 404,205 | 530,112 | 502,248              |

△EVE calculates the maximum value compared to the default scenario by applying six interest rates (parallel rise, parallel fall, short-term fall and long-term rise, short-term rise and long-term fall and short-term rise and short-term fall) after generating cash flows for interest-sensitive assets and liabilities under Appendix 9-1 of the *Detailed Regulations on Supervision of Banking Business*.

## 8-5-5 Currency risk concentration

Currency risk is a risk incurred when the value of a financial instrument or future cash flows fluctuates due to the changes in foreign exchange rates. Currency risk arises from the financial instruments expressed in currencies other than the functional currency. Currency risk does not arise from the financial instruments expressed in the functional currency or in non-monetary items. In order to establish the stop loss and limits, the Group manages the foreign exchange net exposure amount of the trading and non-trading positions by each currency.

The amounts of Korean equivalents of significant foreign currency assets and liabilities as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

As of March 31, 2026:

| Classification                          | USD        | JPY       | EUR       | CNY        | IDR       | Others     | Total      |
|-----------------------------------------|------------|-----------|-----------|------------|-----------|------------|------------|
| <b>Assets</b>                           |            |           |           |            |           |            |            |

## 8-6 Operating risk

Operational risk is the risk of loss arising from system failure, human error, fraud or other external events. Risks related to legal or regulatory implications are identified as operational risks, but risks related to the strategy of damaging reputation are excluded from operational risks. Operational risk includes losses from internal operational problems and externalities, such as natural disasters, etc., and legal lawsuit, but excludes losses from policy decision errors or unmeasurable reputation damage, etc. Operational risk does not have a direct correlation with income and the Group needs to mitigate such risk through internal controls and insurance.

Operating risk capital is calculated by multiplying the Business Indicator Component based on consolidated financial statements and the internal loss multiplier ("ILM"). The business index factor is calculated based on the consolidated financial statements by multiplying the annual average of interest-lease dividend factors, service factors and financial transaction factors over the past three years by the factor of each section. The ILM is the log function value of the loss element and the business index element, and the loss element is calculated by multiplying the average annual loss amount generated internally by the Bank over the past 10 years by 15.

The Risk Management Committee determines the operational risk limits. In case, the excess limit is expected, the management plan for the excess of internal capital limits should be reported to the Risk Management Operation Committee and if additional limits are given, an approval from the Risk Management Committee is needed beforehand. If the limit is exceeded due to the occurrence of an exceptional situation, an ex post facto approval from the Risk Management Committee is needed for the information on exceeded amount and post hoc results, as well as the subsequent plans.

## 8-7 Capital management

The Group implements the BIS capital requirement system in order to secure the capital adequacy and comply with the supervisory regulations. By BIS regulation, the Group keeps its BIS capital adequacy ratio (hereinafter, "BIS ratio") above the minimum BIS ratio for the RWAs. In addition, the Group performs a capital adequacy assessment in order to cope with an unexpected loss.

RWAs, which are calculated per each risk type when calculating BIS ratio, are as follows.

- a. RWAs of credit risk are calculated using the basic internal ratings-based approach. The Group uses the permanent standardized approach for governments, banks, public institutes, etc.
- b. RWAs for the market risk are calculated by multiplying the market risk capital requirement under the standardized approach by 12.5.
- c. RWAs of the operational risk are calculated by multiplying 12.5 to the amount of operational risk capital calculated by the standardized approach for the Group and basic indicator approach for its subsidiaries.

Regulatory capital in accordance with the Regulations on the Supervision of Banking Business for calculating BIS ratio is as follows.

- a. Common equity: Capital incurred in connection with common stock issued to meet the eligible requirement, capital surplus and capital adjustments, retained earnings, accumulated other comprehensive income and other capital surplus, capital adjustments, non-controlling interest on common shares issued by banks, affiliated subsidiaries, etc.
- b. Other basic capital: The capital securities to meet accreditation requirements of other basic capital, capital surplus associated with the issuance of the other basic capital, non-qualifying capital securities and the accredited amount as other basic capital of a non-controlling interest on equity securities issued by a subsidiary, etc.
- c. Supplementary capital: The capital securities to meet supplementary capital accreditation requirements, capital surplus associated with the issuance of supplementary capital, the accredited amount of supplementary capital of non-qualifying capital securities, the accredited amount as supplementary capital of a non-controlling interest on equity securities issued by a subsidiary, eligible allowance for possible loan losses on "normal" or "precautionary" category assets, allowance for possible loan losses in excess of the total amount of expected losses, etc.

#### 8-7-1 Internal capital adequacy assessment and management

Internal capital is the amount that allows for continuous operation of business while accounting for all risks. Internal capital is defined as the size of capital needed to cope with an unexpected loss under a certain probability assumption. The purpose of managing the internal capital is to compare the size of internal capital and available capital (Tier 1) and to serve as a measure of financial strength. Managing the internal capital also provides the amount of risk-adjusted capital and basic measurement. The indicators are composed of the risk appetite ratio as well as the internal capital utilization ratio. The risk appetite ratio is an internal capital ratio established after taking into consideration a capital buffer in Tier 1 capital. The internal capital utilization ratio is a ratio used to measure the amount of internal capital used against the internal capital limits.

Internal capital limits are established based on the size, structure and quality of current and future Tier 1 capital, risk appetite, operating strategy, and business plans. Internal capital limits are allocated to each risk type and business segment with the resolution of Risk Management Committee which is made annually. In the case where new operations or the expansion of operations results in the amount exceeding the internal capital limits, an approval from the Risk Management Committee is needed beforehand. If such a situation occurs in cases outlined as exceptions, an approval from the Risk Management Committee is needed for the information on exceeded amount and post hoc results, as well as the subsequent plans.

## 9. Operating segment information:

### 9-1 General information

In consideration of the Group's strategy and performance assessment, the Group's operating segments are classified as follows:

- a. Operating group segment: It consists of four groups (Center, Yeongnam, Chungcheong and Honam). It offers household loan and deposit, retirement pension, company loan, deposit, etc.
- b. Capital market segment: This segment offers services related to investment and management of securities, buying and selling of public bonds and development and operation of derivatives.
- c. Other segment: It consists of the overseas business segment, headquarters supporting segment, trust segment, risk segment, audit segment and after-management segment.

## 9-2 Profit or loss by operating segment

9-2-1 Details of net income by operating segments for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

For the three-month period ended March 31, 2026:

| Classification                        | Operating group segments |           |             |           | Finance sector and other sectors | Subtotal    | Adjustments | Total       |
|---------------------------------------|--------------------------|-----------|-------------|-----------|----------------------------------|-------------|-------------|-------------|
|                                       | Center                   | Yeongnam  | Chungcheong | Honam     |                                  |             |             |             |
| Net interest income                   | 1,212,001                | 202,889   | 172,733     | 55,515    | 541,116                          | 2,184,254   | 26          | 2,184,280   |
| Interest income                       | 4,114,678                | 796,531   | 558,938     | 213,064   | (976,466)                        | 4,706,745   | (46,604)    | 4,660,141   |
| Interest expenses                     | (2,902,677)              | (593,642) | (386,205)   | (157,549) | 1,517,582                        | (2,522,491) | 46,630      | (2,475,861) |
| Net fees and commission income (loss) | 235,395                  | 27,497    | 18,355      | 8,791     | 56,678                           | 346,716     | (138,095)   | 208,621     |
| Net other operating profit (loss)     | (521,149)                | (113,393) | (89,872)    | (29,787)  | (526,600)                        | (1,280,801) | 399,433     | (881,368)   |
| Net segment profit (loss)             | 926,247                  | 116,993   | 101,216     | 34,519    | 71,194                           | 1,250,169   | 261,364     | 1,511,533   |

(\*) As of March 31, 2025, in order to expand loss absorption capacity amid growing uncertainty in the global economy, the Group has accumulated an additional ₩17,713 million in allowances for loans to small- and medium-sized companies and small business owners who are affected by COVID-19 and thus subject to deferred interest and installment payment for financial support. The additional allowances also include ₩13,666 million for extended maturity loans.

15-4 Changes in the carrying amounts of loans for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

For the three-month period ended March 31, 2026:

| Classification                        | 12-month ECL | Lifetime ECL                 |                          | Total        |
|---------------------------------------|--------------|------------------------------|--------------------------|--------------|
|                                       |              | Non-credit<br>-impaired loan | Credit-<br>impaired loan |              |
| Beginning balance                     | 350,595,795  | 45,977,671                   | 1,819,112                | 398,392,578  |
| Transfer to 12-month ECL              | 3,375,203    | (3,363,241)                  | (11,962)                 | -            |
| Transfer to non-credit-impaired loan  | (5,038,629)  | 5,101,370                    | (62,741)                 | -            |
| Transfer to credit-impaired loan      | (220,727)    | (613,295)                    | 834,022                  | -            |
| Net increase (decrease)               | (9,153,032)  | (1,119,673)                  | (231,007)                | (10,503,712) |
| Write-offs                            | -            | -                            | (111,461)                | (111,461)    |
| Disposal of non-performing loans, etc | -            | -                            | (183,915)                | (183,915)    |
| Ending balance                        | 339,558,610  | 45,982,832                   | 2,052,048                | 387,593,490  |

Net deferred origination fees and costs are not reflected in the gross carrying amounts above.

For the three-month period ended March 31, 2025:

| Classification                        | 12-month ECL | Lifetime ECL                 |                          | Total       |
|---------------------------------------|--------------|------------------------------|--------------------------|-------------|
|                                       |              | Non-credit<br>-impaired loan | Credit-<br>impaired loan |             |
| Beginning balance                     | 325,002,599  | 42,132,707                   | 1,551,152                | 368,686,458 |
| Transfer to 12-month ECL              | 3,051,151    | (3,043,654)                  | (7,497)                  | -           |
| Transfer to non-credit-impaired loan  | (5,029,742)  | 5,063,418                    | (33,676)                 | -           |
| Transfer to credit-impaired loan      | (193,033)    | (587,542)                    | 780,575                  | -           |
| Net increase (decrease)               | (6,726,222)  | (2,007,964)                  | (269,404)                | (9,003,590) |
| Write-offs                            | -            | -                            | (115,593)                | (115,593)   |
| Disposal of non-performing loans, etc | -            | -                            | (378,389)                | (378,389)   |
| Ending balance                        | 316,104,753  | 41,556,965                   | 1,527,168                | 359,188,886 |

Net deferred origination fees and costs are not reflected in the gross carrying amounts above.

15-5 Among loan receivables for which loss allowance has been measured based on lifetime ECL, the amortized cost of the loan receivables whose contractual cash flows have changed for each of the three-month periods ended March 31, 2026 and 2025 and net gain from the change are as follows (KRW in millions):

| Classification                   | For the three-month period |                |
|----------------------------------|----------------------------|----------------|
|                                  | March 31, 2026             | March 31, 2025 |
| Amortized cost before change     | –                          | 80,794         |
| Allowances before change         | –                          | 56,710         |
| Amount after deducting allowance | –                          | 24,084         |
| Net gain due to change           | –                          | 6,050          |

15-6 Loans whose contractual cash flows changed for which the measurement of allowance for loan losses changed from the lifetime ECL to 12-month ECL on initial recognition during the reporting period do not exist as of March 31, 2026 and December 31, 2025.

15-7 The contractual amount of the uncollected loans that have been fully written off at the end of the reporting period but for which collection activities are continuing is ₩3,690,982 million and ₩3,690,982 million as of March 31, 2026 and December 31, 2025, respectively.

## 16. Derivative instruments:

16-1 Details of the amounts of unsettled derivative contracts and fair values of derivatives held by the Group as of March 31, 2026 and December 31, 2025 are as follows

(KRW in millions):

| Classification           | Amounts of unsettled contract |                   | Accumulated valuation gain (loss) |             |                   |             |

- (\*1) These companies were included in investment in associates because the Group has significant influence over them by participating in the Board of Directors' meeting, the decision-making organization.
- (\*2) As the consolidated financial statements as of March 31, 2026 could not be obtained, the most recent financial statements available from the closing date were used. The effect of significant transactions or events incurred between the end of the reporting period of the associate and that of the Group was reviewed and reflected.
- (\*3) As of March 31, 2026, the investment was classified as investment in associate and joint venture because it could not exercise control over the investee.
- (\*4) As of March 31, 2026, the application of the equity method has been suspended because the balance of the investment account is below "0".
- (\*5) Since more than one investor must act together to direct related activities, the equity method was applied because the Group could not control the investee individually.
- (\*6) Due to the disposal of interests or the decrease in ownership to less than 20%, the Group no longer exercises significant influence, and the investment has been excluded from investments in associates and joint ventures.
- (\*7) Since the financial statements since inception are not available, the disclosure of financial information has been omitted.

17-2 The financial information on the Group's associates and a joint venture as of March 31, 2026 and December 31, 2025 is as follows (KRW in millions):

As of March 31, 2026:

| Classification                                                            | Assets      | Liabilities | Equity     | Operating income | Net income (loss) | Total comprehensive income (loss) | Dividends received |

19. Investment properties:

19-1 Details of investment properties as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

As of March 31, 2026:

| Classification | Acquisition cost | Accumulated depreciation | Accumulated impairment loss | Government grants | Book value |
|----------------|------------------|--------------------------|-----------------------------|-------------------|------------|
| Land           | 334,637          | –                        | (3,125)                     | –                 | 331,512    |
| Buildings      | 300,170          | (147,334)                | (1,225)                     | (395)             | 151,216    |
| Total          | 634,807          | (147,334)                | (4,350)                     | (395)             | 482,728    |

As of December 31, 2025:

| Classification | Acquisition cost | Accumulated depreciation | Accumulated impairment loss | Government grants | Book value |
|----------------|------------------|--------------------------|-----------------------------|-------------------|------------|
| Land           | 334,637          | –                        | (3,125)                     | –                 | 331,512    |
| Buildings      | 295,794          | (144,813)                | (1,225)                     | (511)             | 149,245    |
| Total          | 630,431          | (144,813)                | (4,350)                     | (511)             | 480,757    |

19-2 Changes in investment properties for each of the three-month periods ended March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

For the three-month period ended March 31, 2026:

| Classification    | Beginning balance | Depreciation | Transfer (*) | Ending balance |
|-------------------|-------------------|--------------|--------------|----------------|
| Land              | 331,512           | –            | –            | 331,512        |
| Buildings         | 149,756           | (3,289)      | 5,144        | 151,611        |
| Government grants | (511)             | 116          | –            | (395)          |
| Total             | 480,757           | (3,173)      | 5,144        | 482,728        |

(\*) The amount represents the change in the carrying amount of investment properties held by the Group due to the change in the ratio of lease occupancy.

For the three-month period ended March 31, 2025:

| Classification    | Beginning balance | Depreciation | Transfer (*) | Ending balance |
|-------------------|-------------------|--------------|--------------|----------------|
| Land              | 461,972           | –            | (50,983)     | 410,989        |
| Buildings         | 216,032           | (4,050)      | (20,542)     | 191,440        |
| Government grants | (980)             | 116          | –            | (864)          |
| Total             | 677,024           | (3,934)      | (71,525)     | 601,565        |

(\*) The amount represents the change in the carrying amount of investment properties held by the Group due to the change in the ratio of lease occupancy.

19-3 Rental income and operating expenses arising from the Group's investment properties for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                                                                       | For the three-month period |                |
|--------------------------------------------------------------------------------------|----------------------------|----------------|
|                                                                                      | March 31, 2026             | March 31, 2025 |
| Rental income                                                                        | 2,244                      | 2,316          |
| Operating cost directly related to investment properties that generate rental income | 136                        | 139            |

## 20. Intangible assets:

20-1 Details of intangible assets as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

As of March 31, 2026:

| Classification             | Acquisition cost | Accumulated amortization | Accumulated impairment loss | Book value |
|----------------------------|------------------|--------------------------|-----------------------------|------------|
| Goodwill                   | 892              | –                        | –                           | 892        |
| Industrial property rights | 3,053            | (2,691)                  | –                           | 362        |
| Core deposits              | 6,288            | (5,645)                  | –                           | 643        |
| Software                   | 481,740          | (336,809)                | –                           | 144,931    |
| Systems development costs  | 1,435,243        | (1,183,635)              | (46)                        | 251,562    |
| Memberships                | 28,342           | –                        | (2,963)                     | 25,379     |
| Others                     | 535,541          | (318,745)                | (35)                        | 216,761    |
| Total                      | 2,491,099        | (1,847,525)              | (3,044)                     | 640,530    |

As of December 31, 2025:

| Classification             | Acquisition cost | Accumulated amortization | Accumulated impairment loss | Government grants | Book value |
|----------------------------|------------------|--------------------------|-----------------------------|-------------------|------------|
| Goodwill                   | 892              | –                        | –                           | –                 | 892        |
| Industrial property rights | 3,053            | (2,647)                  | –                           | –                 | 406        |
| Core deposits              | 5,961            | (5,245)                  | –                           | –                 | 716        |
| Software                   | 474,593          | (324,189)                | –                           | –                 | 150,404    |
| Systems development costs  | 1,416,211        | (1,156,734)              | (46)                        | (2)               | 259,429    |
| Memberships                | 28,068           | –                        | (2,950)                     | –                 | 25,118     |
| Others                     | 485,659          | (305,717)                | (33)                        | –                 | 179,909    |
| Total                      | 2,414,437        | (1,794,532)              | (3,029)                     | (2)               | 616,874    |

20-2 Changes in the carrying amounts of intangible assets for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

For the three-month period ended March 31, 2026:

| Classification             | Beginning balance | Acquisition | Disposal | Amortization | Others | Ending balance |
|----------------------------|-------------------|-------------|----------|--------------|--------|----------------|
| Goodwill                   | 892               | –           | –        | –            | –      | 892            |
| Industrial property rights | 406               | –           | –        | (44)         | –      | 362            |

### 23. Deposits:

Details of deposit liabilities as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                                  | March 31, 2026 | December 31, 2025 |
|-------------------------------------------------|----------------|-------------------|
| Demand deposits                                 |                |                   |
| Demand deposits in Korean won                   | 20,321,680     | 16,664,749        |
| Demand deposits in foreign currencies           | 32,890,960     | 35,714,699        |
| Subtotal                                        | 53,212,640     | 52,379,448        |
| Time and savings deposits                       |                |                   |
| Time and savings deposits in Korean won (*)     | 301,180,427    | 306,060,028       |
| Time and savings deposits in foreign currencies | 30,142,259     | 28,630,829        |
| Subtotal                                        | 331,322,686    | 334,690,857       |
| Certificate of deposits                         | 11,647,466     | 17,180,314        |
| Total                                           | 396,182,792    | 404,250,619       |

(\*) Time and savings deposits in Korean won include savings deposits (₩47,071,575 million as of March 31, 2026 and ₩46,070,564 million as of December 31, 2025) and corporate savings deposits (₩65,251,479 million as of March 31, 2026 and ₩62,169,146 million as of December 31, 2025).

24. Financial liabilities at FVTPL:

24-1 Details of financial liabilities at FVTPL as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                          | March 31, 2026 | December 31, 2025 |
|-----------------------------------------|----------------|-------------------|
| Securities borrowed                     | 124,497        | 357,316           |
| Derivative liabilities held for trading | 11,322,245     | 7,316,857         |
| Total                                   | 11,446,742     | 7,674,173         |

24-2 Details of financial liabilities designated at FVTPL as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification           | March 31, 2026 | December 31, 2025 |
|--------------------------|----------------|-------------------|
| Deposits                 | 472,270        | 454,485           |
| Debentures in Korean won | 222,356        | 133,680           |
| Total                    | 694,626        | 588,165           |

Financial liabilities are designated at FVTPL in order to eliminate or significantly reduce a measurement or recognition inconsistency.

24-3 The difference between the book value and maturity amount of the financial liabilities designated at FVTPL as of March 31, 2026 and December 31, 2025 is as follows (KRW in millions):

| Classification               | March 31, 2026 | December 31, 2025 |
|------------------------------|----------------|-------------------|
| Book value                   | 694,626        | 588,165           |
| Repayment amount at maturity | 810,000        | 660,000           |
| Difference                   | (115,374)      | (71,835)          |

## 25. Borrowings:

Details of borrowings as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                                               | Lenders                                   | Annual interest rate (%) | March 31, 2026 | December 31, 2025 |
|--------------------------------------------------------------|-------------------------------------------|--------------------------|----------------|-------------------|
| Borrowings in Korean won                                     |                                           |                          |                |                   |
| BOK borrowings                                               | BOK                                       | 1.00                     | 4,621,752      | 4,953,261         |
| Government borrowings                                        | Korea Development Bank, etc.              | 0.50~4.09                | 3,013,148      | 2,678,255         |
| Other borrowings                                             | Korea Energy Management Corporation, etc. | 0.00~3.50                | 5,902,456      | 5,838,581         |
| Subtotal                                                     |                                           |                          | 13,537,356     | 13,470,097        |
| Borrowings denominated in foreign currencies                 |                                           |                          |                |                   |
| Bank overdrafts                                              | Foreign banks, etc.                       | 3.00~9.50                | 338,336        | 273,819           |
| Other borrowings                                             | SC, HSBC, OCBC, CITI, JP, etc.            | 0.00~6.50                | 11,121,414     | 8,740,060         |
| Subtotal                                                     |                                           |                          | 11,459,750     | 9,013,879         |
| Call money                                                   |                                           |                          |                |                   |

| Total                                                         |                    |                          | 35,752,726     | 35,172,839        |

## 27. Net defined benefit liabilities

### 27-1 Details of net defined benefit liabilities

Details of net defined benefit liabilities as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                              | March 31, 2026 | December 31, 2025 |
|---------------------------------------------|----------------|-------------------|
| Present value of defined benefit obligation | 2,444,500      | 2,522,468         |
| Fair value of plan assets                   | (2,079,134)    | (2,166,431)       |
| Net defined benefit liabilities             | 365,366        | 356,037           |

### 27-2 Defined benefit obligation

#### 27-2-1 Changes in present value of defined benefit obligation

Changes in the present values of defined benefit obligation for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                             | For the three-month period |                |
|--------------------------------------------|----------------------------|----------------|
|                                            | March 31, 2026             | March 31, 2025 |
| Beginning balance                          | 2,522,468                  | 2,482,644      |
| Current service cost                       | 40,839                     | 37,092         |
| Interest cost                              | 24,247                     | 21,653         |
| Remeasurements                             | 4                          | –              |
| Benefits paid                              | (143,288)                  | (157,513)      |
| Changes due to transfer between affiliates | (420)                      | 1,805          |
| Others                                     | 650                        | (275)          |
| Ending balance                             | 2,444,500                  | 2,385,406      |

27-2-2 The total costs recognized in accordance with defined benefit plans

The total costs incurred in relation to defined benefit pension plans for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                 | For the three-month period |                |
|--------------------------------|----------------------------|----------------|
|                                | March 31, 2026             | March 31, 2025 |
| Current service cost           | 40,839                     | 37,092         |
| Interest cost                  | 24,247                     | 21,653         |
| Interest income on plan assets | (20,149)                   | (17,088)       |
| Total                          | 44,937                     | 41,657         |

## 27-3 Plan assets

Changes in the fair values of plan assets for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                              | For the three-month period |                |
|---------------------------------------------|----------------------------|----------------|
|                                             | March 31, 2026             | March 31, 2025 |
| Beginning balance                           | 2,166,431                  | 2,011,738      |
| Interest income on plan assets              | 20,149                     | 17,088         |
| Remeasurements                              | (9,054)                    | (909)          |
| Benefit paid                                | (97,958)                   | (100,753)      |
| Changes due to transfers between affiliates | (434)                      | 1,847          |
| Ending balance                              | 2,079,134                  | 1,929,011      |

28. Contingent liabilities, agreements and provisions:

28-1 Details of provisions as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                    | March 31, 2026 | December 31, 2025 |
|-----------------------------------|----------------|-------------------|
| Provision for payment guarantees: |                |                   |
| Financial guarantee contracts (*) | 508            | 492               |
| Non-financial guarantee contracts | 55,918         | 51,468            |
| Bills endorsed                    | 1              | –                 |
| Subtotal                          | 56,427         | 51,960            |
| Provision for unused commitments  | 76,658         | 74,640            |
| Other provisions:                 |                |                   |
| Provision for restoration         | 72,127         | 71,378            |
| Provision for lawsuits            | 104,999        | 104,418           |
| Others                            | 483,001        | 448,875           |
| Subtotal                          | 660,127        | 624,671           |
| Total                             | 793,212        | 751,271           |

(\*) The Group recognizes the amount exceeding the unamortized amount of the initial fair value at subsequent measurement of the financial guarantee contracts as provisions for payment guarantees. The Group recognizes the unamortized amount as financial guarantee contract liabilities in the amount of ₩ 46,372 million and ₩ 40,577 million as of March 31, 2026 and December 31, 2025, respectively.

28-2 Changes in provisions for unused commitments for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

For the three-month period ended March 31, 2026:

| Classification                       | Unused commitments |                          |                      | Total  |
|--------------------------------------|--------------------|--------------------------|----------------------|--------|
|                                      | 12-month ECL       | Lifetime ECL             |                      |        |
|                                      |                    | Non-credit-impaired loan | Credit-impaired loan |        |
| Beginning balance                    | 57,664             | 10,288                   | 6,688                | 74,640 |
| Transfer to 12-month ECL             | 624                | (548)                    | (76)                 | –      |
| Transfer to non-credit-impaired loan | (218)              | 224                      | (6)                  | –      |
| Transfer to credit-impaired loan     | (5)                | (83)                     | 88                   | –      |
| Provision (Reversal of)              | 541                | (404)                    | 1,647                | 1,784  |
| Changes in exchange rates            | 231                | 3                        | –                    | 234    |
| Ending balance                       | 58,837             | 9,480                    | 8,341                | 76,658 |

For the three-month period ended March 31, 2025:

| Classification                       | Unused commitments |                          |                      | Total   |

| ****Securities Co., Ltd.       | 278,400 | In progress       | –                             | Compensation for damages  |
| ****Word Co., Ltd.             | 10,000  | Won               | In progress<br>(Second trial) | Compensation for damages  |

28-8 The Fair Trade Commission's investigation into whether commercial banks, including the Group, engaged in unfair collaborative practices related to LTV regulation and government bond yields is ongoing, and the results cannot be predicted as of March 31, 2026.

28-9 In connection with the crisis in Ukraine having occurred in February 2022, international sanctions against the Russian Federation could affect companies and individuals subject to the sanctions, as well as companies, industries and economies that do business directly or indirectly with Russia. As of the reporting date, the Group expects the sanctions will have a financial impact on the business of KEB Hana Bank Russia, a subsidiary of Group, but cannot reasonably estimate the impact.

29. Other liabilities and merchant banking account liabilities:

29-1 Details of other liabilities as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

30. Capital stock and other paid-in capital:

30-1 Details of capital stock as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions and shares):

| Classification                      | March 31, 2026 | December 31, 2025 |
|-------------------------------------|----------------|-------------------|
| Number of shares authorized         | 2,000,000,000  | 2,000,000,000     |
| Par value per share (in Korean won) | 5,000          | 5,000             |
| Number of shares issued             | 1,071,915,717  | 1,071,915,717     |
| Common stock                        | 5,359,578      | 5,359,578         |

30-2 Details of capital surplus and capital adjustments as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification      | March 31, 2026 | December 31, 2025 |
|---------------------|----------------|-------------------|
| Capital surplus (*) | 6,161,038      | 6,161,303         |
| Capital adjustments |                |                   |
| Others              | (37,652)       | (37,652)          |
| Total               | 6,123,386      | 6,123,651         |

(\*) As of March 31, 2026, the Group's capital surplus includes the amount recognized at the time of the business combination under common control.

30-3 Details of hybrid securities as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                          | Issuance date | Expiry date | Annual interest rate (%) | March 31, 2026 | December 31, 2025 |
|-----------------------------------------|---------------|-------------|--------------------------|----------------|-------------------|
| Hybrid securities in foreign currencies | Oct. 19, 2021 | –           | 3.50                     | 353,738        | 353,738           |

The Group can early repay the above hybrid securities in foreign currencies at the time of five years from the issuance date or at every interest payment date (every six months) after five years from the issuance date if the Group receives

the approval from the Governor of Financial Supervisory Service.

### 31. Accumulated other comprehensive income (loss):

Changes in accumulated other comprehensive income (loss) for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

For the three-month period ended March 31, 2026:

| Classification                                                          | Beginning balance | Increase (decrease)<br>(excluding reclassification<br>and transfer of<br>retained earnings) | Reclassification<br>(*) | Tax effects | Ending balance |
|-------------------------------------------------------------------------|-------------------|---------------------------------------------------------------------------------------------|-------------------------|-------------|----------------|
| Gain (Loss) on valuation of financial assets at FVOCI                   | (266,195)         | (278,121)                                                                                   | (46,627)                | 86,496      | (504,447)      |
| Changes in equity of investments in associates                          | 174,523           | 177,154                                                                                     | –                       | (48,717)    | 302,960        |
| Gain (Loss) on valuation of net investment hedges of foreign operations | (228,384)         | (120,508)                                                                                   | –                       | 33,139      | (315,753)      |
| Exchange differences on translation of foreign operations               | 370,760           | 243,415                                                                                     | –                       | (15,718)    | 598,457        |
| Loss on valuation of fair value hedges                                  | (24,984)          | –                                                                                           | –                       | –           | (24,984)       |
| Remeasurement of defined benefit plans                                  | (786,126)         | (8,980)                                                                                     | –                       | 2,491       | (792,615)      |
| Total                                                                   | (760,406)         | 12,960                                                                                      | (46,627)                | 57,691      | (736,382)      |

(\*) Gains (Losses) on the valuations of debt securities at FVOCI that were recognized in accumulated other comprehensive income (loss) were reclassified as profit or loss due to disposal of the debt securities.

For the three-month period ended March 31, 2025:

| Classification                                                          | Beginning balance | Increase (decrease)<br>(excluding reclassification<br>and transfer of retained earnings) | Transfer of retained earnings | Reclassification<br>(*) | Tax effects | Ending balance |
|-------------------------------------------------------------------------|-------------------|------------------------------------------------------------------------------------------|-------------------------------|-------------------------|-------------|----------------|
| Gain (Loss) on valuation of financial assets at FVOCI                   | (274,944)         | 170,564                                                                                  | 1,567                         | (68,438)                | (30,021)    | (201,272)      |
| Changes in equity of investments in associates                          | 270,094           | (46,200)                                                                                 | –                             | –                       | 12,196      | 236,090        |

| Remeasurement of defined benefit plans                                  | (769,700)         | (957)                                                                                    | –                             | –                       | 242         | (770,415)      |
| Total                                                                   | (662,453)         | 123,803                                                                                  | 1,567                         | (68,438)                | (10,620)    | (616,141)      |

(\*) Gain (Loss) on valuation of debt securities at FVOCI that was recognized in accumulated other comprehensive income (loss) was reclassified as profit or loss

due to disposal of the debt securities.

### 32. Retained earnings:

32-1 Details of retained earnings as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                                      | March 31, 2026 | December 31, 2025 |
|-----------------------------------------------------|----------------|-------------------|
| Legal reserve                                       |                |                   |
| Earned surplus reserve (*1)                         | 3,346,900      | 2,991,500         |
| Voluntary reserve                                   |                |                   |
| Revaluation reserves on property and equipment (*2) | 203,898        | 203,898           |
| Other reserves (*3)                                 | 138,705        | 123,919           |
| Regulatory reserve for bad debts (*4)               | 2,788,856      | 2,678,944         |
| Other voluntary reserves                            | 5,450,200      | 5,450,200         |
| Subtotal                                            | 8,581,659      | 8,456,961         |
| Unappropriated retained earnings                    | 12,739,293     | 13,215,214        |
| Total                                               | 24,667,852     | 24,663,675        |

(\*1) Article 40 of the Banking Law of the Republic of Korea requires the Group to appropriate at least 10% of net income after income tax to legal reserve every time it pays dividends, until such reserve equals 100% of its paid-in capital. This reserve is restricted in use except for reducing deficit or being transferred to capital.

(\*2) The Group had recognized gains on revaluation of property and equipment in other comprehensive income. At the first-time adoption of KIFRS, the revaluation amount under the previous accounting standard was recognized as deemed cost and the revaluation gain was recorded in revaluation reserves. The reserve is recognized in distributable retained earnings when the relevant property and equipment are disposed of.

(\*3) Relevant Japanese regulations require the Group's overseas branches located in Japan to appropriate a minimum of 10% of net income for the period as a legal reserve, until the reserve equals one-fourth of its capital. This reserve is restricted in use until liquidation of the Japanese branches. In addition, the

legal reserves of the Group's overseas branches located in Chennai, Panama, Singapore, Hanoi, Ho Chi Minh, Abu Dhabi and Hong Kong are appropriated in accordance with the relevant regulation of each country.

(\*4) The Group has provided allowances for possible loan losses in accordance with KIFRS. The difference between this amount and the mandatory allowance reserves under the minimum accumulation ratio required by Financial Supervisory Service ("FSS") is appropriated as regulatory reserve for bad debts.

32-2 Changes in retained earnings for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                                                                                    | For the three-month period |                |
|---------------------------------------------------------------------------------------------------|----------------------------|----------------|
|                                                                                                   | March 31, 2026             | March 31, 2025 |
| Beginning balance                                                                                 | 24,663,675                 | 22,731,532     |
| Net income                                                                                        | 1,104,177                  | 992,894        |
| Dividends                                                                                         | (1,100,000)                | (1,000,000)    |
| Reclassification of valuation gain or loss on equity securities at FVOCI upon derecognition, etc. | —                          | (1,153)        |
| Ending balance                                                                                    | 24,667,852                 | 22,723,273     |

### 33. Regulatory reserve for bad debts:

Regulatory reserves for bad debts are calculated and disclosed in accordance with Article 29, Section 1 and 2 of Regulation on Supervision of Banking Business of the Republic of Korea.

33-1 Details of regulatory reserves for bad debts as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                           | March 31, 2026 | December 31, 2025 |
|------------------------------------------|----------------|-------------------|
| Beginning balance                        | 2,903,194      | 2,799,116         |
| Planned provision for regulatory reserve | 83,173         | 104,078           |
| Ending balance                           | 2,986,367      | 2,903,194         |

33-2 Required provisions for regulatory reserves and income adjusted for the regulatory reserves for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                                                                                           | For the three-month period |                |
|----------------------------------------------------------------------------------------------------------|----------------------------|----------------|
|                                                                                                          | March 31, 2026             | March 31, 2025 |
| Net income attributable to equity holders of the parent before deducting regulatory reserve for bad debt | 1,104,177                  | 992,894        |
| Required provision (reversal) of regulatory reserve for bad debt                                         | (83,173)                   | 4,468          |
| Adjusted income after regulatory reserve for bad debt                                                    | 1,021,004                  | 997,362        |
| Basic EPS after regulatory reserve for bad debt (*1)<br>(in Korean won)                                  | 953                        | 930            |
| Diluted EPS after regulatory reserve for bad debt (*2)<br>(in Korean won)                                | 953                        | 930            |

(\*1) There are no distributions on hybrid capital instruments deducted from the adjusted income after regulatory reserve in the calculation of EPS after regulatory reserve for bad debt for each of the three-month periods ended March 31, 2026 and 2025.

(\*2) Since the Group does not have dilutive potential ordinary stock, basic EPS is

the same as diluted EPS.

34. Operating income and operating expenses:

34-1 Operating income for each of the three-month periods ended March 31, 2026 and 2025 is as follows (KRW in millions):

| Classification                                     | For the three-month period |                |
|----------------------------------------------------|----------------------------|----------------|

| Total                                                            | 54,266                     | 18,592         |

47. Income tax expenses:

47-1 The components of income tax expenses for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                                                     | For the three-month period |                |
|--------------------------------------------------------------------|----------------------------|----------------|
|                                                                    | March 31, 2026             | March 31, 2025 |
| Current income taxes                                               |                            |                |
| Current income taxes                                               | 337,583                    | 353,378        |
| Prior-year's income tax adjustments recognized in the current year | 742                        | (4,542)        |
| Changes in deferred tax assets (liabilities)                       | 39,337                     | 19,460         |
| Income taxes directly recognized in equity                         | 57,689                     | (10,208)       |
| Tax effect of consolidated tax returns                             | (33,316)                   | (25,998)       |
| Income tax expenses                                                | 402,035                    | 332,090        |

47-2 Reconciliations of income tax expenses applicable to the net income before income tax expenses at the Korean statutory tax rate to income tax expenses at the effective income tax rate of the Group for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                                     | For the three-month period |                |
|----------------------------------------------------|----------------------------|----------------|
|                                                    | March 31, 2026             | March 31, 2025 |
| Net income before tax                              | 1,511,533                  | 1,329,117      |
| Corporate tax according to applicable tax rate (*) | 410,473                    | 350,962        |
| Non-taxable income                                 | (1,113)                    | (791)          |
| Non-deductible expenses                            | 1,202                      | 1,333          |
| Tax credits                                        | (4,588)                    | (2,068)        |
| Overseas corporate tax                             | 23,081                     | 19,746         |
| Changes due to consolidated tax system             | (33,316)                   | (25,998)       |
| Adjustments                                        | 742                        | (4,542)        |
| Other (tax rate fluctuation, etc.)                 | 5,554                      | (6,552)        |
| Income tax expense                                 | 402,035                    | 332,090        |
| Effective tax rate (%)                             | 26.60                      | 24.99          |

(\*) 11% is applied to income under ₩200 million, 22% is applied to income exceeding ₩200 million and under ₩20 billion, 24.2% is applied to income exceeding ₩20 billion and under ₩300 billion and 27.5% is applied to income above ₩300 billion.

#### 47-3 Global minimum taxation

Under the global minimum tax regime, where the effective tax rate of constituent entities of a multinational group in a jurisdiction is below the minimum tax rate of 15%, the qualifying parent entity is required to pay a top-up tax to the tax authority of the jurisdiction in which the parent entity is located. The global minimum tax regime applies to multinational groups whose consolidated revenue reflected in the consolidated financial statements exceeds EUR 750 million in at least two of the four preceding fiscal years. Korea enacted the relevant tax legislation relating to the global minimum tax in 2023, which became effective for fiscal

years beginning on or after January 1, 2024. Accordingly, the Group has assessed the impact of the global minimum tax regime on corporate income tax and concluded that it is not expected to have a material impact on the current income tax expense as of the end of the reporting period.

48. Earnings per share:

48-1 The weighted-average number of common stocks for each of the three-month periods ended March 31, 2026 and 2025 are as follows (shares):

| Classification | years                        | Number of shares | Weights | Weighted-average number of ordinary shares |
|----------------|------------------------------|------------------|---------|--------------------------------------------|
| March 31, 2026 | Jan. 1, 2026 – Mar. 31, 2026 | 1,071,915,717    | 90/90   | 1,071,915,717                              |
| March 31, 2025 | Jan. 1, 2025 – Mar. 31, 2025 | 1,071,915,717    | 90/90   | 1,071,915,717                              |

Since the Group does not have potentially dilutive common stock, the weighted-average number of common stock outstanding per basic share is the same as the weighted-average number of shares of common stock outstanding per diluted share.

48-2 Basic earnings per share for each of the three-month periods ended March 31, 2026 and 2025 is calculated as follows (KRW in millions, except per share amounts):

| Classification                                                 | For the three-month period |                |
|----------------------------------------------------------------|----------------------------|----------------|
|                                                                | March 31, 2026             | March 31, 2025 |
| Net income for the period attributable to owners               | 3,747,484                  | 3,356,409      |
| Dividends on hybrid equity securities                          | (14,902)                   | (14,422)       |
| Total                                                          | 3,732,582                  | 3,341,987      |
| Weighted-average number of shares of common stocks outstanding | 1,071,915,717              | 1,071,915,717  |
| Basic earnings per share (*) (in Korean won)                   | 3,482                      | 3,118          |

(\*) Basic earnings per share is the same as diluted earnings per share for each of the three-month periods ended March 31, 2026 and 2025.

#### 49. Share-based payment:

The Group operates a Performance Share Plan (PSP). The PSP is a cash-settled share-based compensation scheme linked to the shares of its Parent company, Hana Financial Group Inc. Under the plan, the number of shares to be paid in cash is determined based on performance over a three-year period from the grant date.

49-1 Details of liabilities related to share-based payment and total intrinsic value of rights accounted for as accounts payable in case that option holders are vested with the rights to receive cash or other assets as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                                           | March 31, 2026 | December 31, 2025 |
|----------------------------------------------------------|----------------|-------------------|
| Book value of liabilities related to share-based payment |                |                   |
| Performance share (granted by the Group)                 | 67,350         | 53,581            |

49-2 The compensation to employees expensed for each of the three-month periods ended March 31, 2026 and 2025 is as follows (KRW in millions):

| Classification                                         | For the three-month period |                |
|--------------------------------------------------------|----------------------------|----------------|
|                                                        | March 31, 2026             | March 31, 2025 |
| Costs recognized due to share-based payment            |                            |                |
| Equity-linked special incentive (granted by the Group) | 13,876                     | 4,713          |

49-3 Details of performance-linked stocks granted to the executives and department head of the Group as of March 31, 2026 are as follows:

| Classification                 | 12th                         | 13th                         | 14th                         | 15th                         | 16th                         |
|--------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|
| Granted by                     | Hana Bank                    | Hana Bank                    | Hana Bank                    | Hana Bank                    | Hana Bank                    |

(\*1) The Group provides the executives and department head of the Group with the right to receive stocks. The number of stocks granted is adjusted based on the assessment criteria consisting of the Group's performance (relative shareholders' rate of return) of 40% and the Bank's performance (ROE, net income, soundness) of 60%. Meanwhile, for the 15th and 16th grant, performance adjustments are based on a composite evaluation metric composed of Group Performance (Relative Shareholder Return) accounting for 35%, and Bank Performance (including ROE, Net Income, and Asset Soundness) accounting for 65%.

50. Cash flow information:

50-1 Details of cash and cash equivalents as of March 31, 2026 and December 31, 2025 are as follows (KRW in millions):

| Classification                                                                | March 31, 2026 | December 31, 2025 |
|-------------------------------------------------------------------------------|----------------|-------------------|
| Cash                                                                          | 3,134,824      | 2,191,825         |
| Due from banks in Korean won                                                  | 19,765,717     | 12,540,695        |
| Due from banks in foreign currencies                                          | 16,277,316     | 21,492,482        |
| Subtotal                                                                      | 39,177,857     | 36,225,002        |
| Deposits restricted in use (*)                                                | 2,435,835      | 1,886,110         |
| Deposits with a maturity of more than three months at the time of acquisition | 53,452         | 49,993            |
| Net amount                                                                    | 36,688,570     | 34,288,899        |

(\*) The amount above excludes reserve deposits that meet the definition of cash equivalents.

50-2 Significant transactions not involving cash inflows and outflows for each of the three-month periods ended March 31, 2026 and 2025 are as follows (KRW in millions):

| Classification                                                       | For the three-month period |                |
|----------------------------------------------------------------------|----------------------------|----------------|
|                                                                      | March 31, 2026             | March 31, 2025 |
| Recognition of right-of-use assets                                   | 40,118                     | 26,340         |
| Recognition of lease liabilities                                     | 34,247                     | 26,382         |
| Change in valuation of financial assets at FVOCI                     | 328,910                    | 102,769        |
| Transfer from property, plant and equipment to investment properties | 5,144                      | 71,525         |
| Changes in equity on investments in associates                       | 177,155                    | 46,321         |
| Exchange differences on translation of foreign operations            | 256,876                    | 218            |

50-3 Reconciliation of liabilities arising from financing activities for each of the three-month periods ended March 31, 2026 and 2025 is as follows  
(KRW in millions):

For the three-month period ended March 31, 2026:

| Classification                               | Beginning balance | Financing activities | Exchange rate fluctuation | Fair value hedging | Acquisition and termination of lease | Others   | Ending balance |
|----------------------------------------------|-------------------|----------------------|---------------------------|--------------------|--------------------------------------|----------|----------------|
| Borrowings                                   | 28,801,096        | (1,806,301)          | 747,780                   | 36,096             | —                                    | —        | 27,778,671     |
| Debentures(*1)                               | 35,306,519        | 470,629              | 243,447                   | (48,673)           | —                                    | 3,159    | 35,975,081     |
| Lease liabilities                            | 693,941           | (59,341)             | 7,021                     | —                  | 34,247                               | (2,441)  | 673,427        |
| Derivative instruments used for hedging (*2) | 264,523           | (18,927)             | —                         | 119,114            | —                                    | (11,341) | 353,369        |
| Total                                        | 65,066,079        | (1,413,940)          | 998,248                   | 106,537            | 34,247                               | (10,623) | 64,780,548     |

(\*1) Debentures include those designated at FVTPL.

(\*2) The amount offset between liabilities and assets.

For the three-month period ended March 31, 2025:

| Classification                               | Beginning balance | Financing activities | Exchange rate fluctuation | Fair value hedging | Acquisition and termination of lease | Others  | Ending balance |
|----------------------------------------------|-------------------|----------------------|---------------------------|--------------------|--------------------------------------|---------|----------------|
| Borrowings                                   | 24,257,346        | 1,087,550            | (121,613)                 | 788                | —                                    | —       | 25,224,071     |
| Debentures(*1)                               | 29,829,635        | 268,321              | 105,775                   | 51,279             | —                                    | (2,735) | 30,252,275     |
| Lease liabilities                            | 804,342           | (49,820)             | —                         | —                  | 26,382                               | (2,975) | 777,929        |
| Derivative instruments used for hedging (*2) | 301,718           | 100                  | —                         | (75,866)           | —                                    | —       | 225,952        |

#### **Opinion**

We have audited the consolidated financial statements of Hana Bank Co., Ltd. (the "Bank") and its subsidiaries (collectively referred to as the "Group"), which comprise the consolidated statement of financial position as of December 31, 2025, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and the notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as of December 31, 2025, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the Republic of Korea ("KIFRS").

#### **Basis for opinion**

We conducted our audit in accordance with Korean Standards on Auditing ("KSA"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Republic of Korea, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Other matters**

The consolidated financial statements of the Group for the year ended December 31, 2024 have been audited by Deloitte Anjin LLC in accordance with KSA, whose report dated February 28, 2025 expressed an unqualified opinion thereon.

## **Responsibilities of management and those charged with governance for the consolidated financial statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with KIFRS, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## **Auditor's responsibilities for the audit of the consolidated financial statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with KSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with KSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes are an integral part of the consolidated financial statements.

**HANA BANK CO., LTD. and its subsidiaries**  
**Notes to the Consolidated Financial Statements**  
December 31, 2025 and 2024

1. General information:

General information on Hana Bank Co., Ltd. (the "Bank" or the "Parent company") previously Korea Exchange Bank, and its subsidiaries (collectively referred to as the "Group") in accordance with International Financial Reporting Standards as adopted by the Republic of Korea ("KIFRS") 1110 *Consolidated Financial Statements* is as follows:

1-1 Summary of the Parent company (the "Bank")

The Bank was established on January 30, 1967, as a government-controlled bank, to engage in foreign exchange and trade finance business under the *Korea Exchange Bank Act* enacted on July 28, 1966. On December 30, 1989, the *Korea Exchange Bank Act* was repealed, and the Bank was reorganized as a stock company under the Commercial Act of the Republic of Korea. On April 4, 1994, the Bank was listed on the Korea Exchange (previously, Korea Stock Exchange). On February 28, 2004, the Bank merged its subsidiary, Korea Exchange Bank Credit Service Co., Ltd. On August 31, 2014, the Bank spun off its credit card division.

On February 9, 2012, Hana Financial Group Inc. ("HFG") obtained control over the Bank by acquiring 57.27% equity interest in the Bank, and later on April 5, 2013, the Bank became a wholly owned subsidiary of HFG after HFG acquired the remaining interest in the Bank through an all-inclusive exchange of the shares.

The Bank changed to its current name on September 1, 2015, following the merger of Korea Exchange Bank and Hana Bank.

The Bank provides commercial banking service under the Banking Act of the Republic of Korea, trust banking service under the Financial Investment Services and Capital Markets Act, merchant banking service through the merger with the Korea International Merchant Bank, foreign exchange business and other related businesses. As of December 31, 2025, the Bank's headquarters is located in Seoul, with 608 domestic branches (including 75 satellite offices) and 27 overseas branches (including one satellite office and five offices).

The Bank is authorized to issue 2,000 million shares (par value amount : ₩5,000) of common stock, and as of December 31, 2025, after a number of capital increases and decreases, stock splits and conversion of preferred shares to common shares, the Bank has 1,071,915,717 shares of common stock issued and outstanding with the total capital stock amounting to ₩5,359,578 million.

The consolidated financial statements of the Group as of December 31, 2025, were approved for issuance by the Board of Directors on January 29, 2026, and are scheduled to receive final approval at the shareholders' meeting on March 20, 2026.

## 1-2 Scope and overview of consolidation

#### 1-2-12 GLN International Co., Ltd.

GLN International Co., Ltd. was established in Korea on July 7, 2021, and primarily engages in the electronic finance business (global payment brokerage, etc.). Paid-in capital was increased by issuance of new shares by GLN International Co., Ltd. in 2023. Its paid-in capital is ₩60.8 billion as of December 31, 2025 (share ratio : 82.24%).

#### 1-3 Structured entities

##### 1-3-1 Consolidated structured entities

###### 1-3-1-1 Hana UBS Power PEF Invest Trust 21 and a set of six other private equity investment vehicles

In accordance with KIFRS 1110, six other private equity investment vehicles and Hana UBS Power PEF Invest Trust 21 were included in consolidation scope because the Group has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the Group's returns from its involvement with the investee.

###### 1-3-1-2 Sevenstar Co., Ltd. and 75 other special-purpose entities

In accordance with KIFRS 1110, 75 SPCs and Sevenstar Co., Ltd. were included in consolidation scope because the Group has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the Group's returns from its involvement with the investee.

### 1-3-1-3 Trust accounts

In accordance with KIFRS 1110, trust accounts are included in consolidation scope because the Group has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the Group's returns from its involvement with the investee.

### 1-3-1-4 Hana Tech Value-Up Investment Fund and three other funds

In accordance with KIFRS 1110, Hana Tech Value-Up Investment Fund and three other funds are included in consolidation scope because the Group has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the Group's returns from its involvement with the investee.

### 1-3-1-5 Contractual commitments to consolidated structured entities

The consolidated structured company for the securitization of assets is established for the securitization of loans. The Group is involved in the acquisition of subordinated bonds issued by the consolidated structured company or provide credit for the asset-backed commercial paper ("ABCP") and others, and is exposed to the risk of not being able to recover the acquisition amounts based on the investment performance. Characteristics and intentions of contractual commitments offered by the Group to the consolidated structured entities are as follows:

| Company name                       | The characteristics and purposes                                                                                                                                                                             | Intention                                                       |
|------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------|
| Development trust and other trusts | The Group offers principal guarantee commitment to trust accounts. The Group is required to compensate the deficit amount in case the trust account stands below the principal as a result of the operation. | Credit risk mitigation on financial management of trust account |
| HANA DL First Co., Ltd.            | The Group partially purchased ABCP (purchase commitment of ₩50,000 million) from HANA DL First Co., Ltd.                                                                                                     | Operating activities                                            |
| DONG DAEGU TERMINAL 2nd, LLC       | The Group partially purchased ABCP (purchase commitment of ₩20,000 million) from DONG DAEGU TERMINAL 2nd, LLC                                                                                                | Operating activities                                            |
| DRAGON HANA 1st, LLC               | The Group partially purchased ABCP (purchase commitment of ₩30,000 million) from DRAGON HANA 1st, LLC.                                                                                                       | Operating activities                                            |
| HANA BAEKSA LOGISTICS 1st, LLC     | The Group partially purchased ABCP (purchase commitment of ₩34,600 million) from HANA BAEKSA LOGISTICS 1st, LLC.                                                                                             | Operating activities                                            |

## 2. Basis of preparation and changes to the Group's accounting policies:

### 2-1 Basis of preparation

The Group prepares statutory financial statements in Korean in accordance with International Financial Reporting Standards as adopted by the Republic of Korea ("KIFRS"), enacted by the *Act on External Audit of Stock Companies*.

The accompanying consolidated financial statements have been translated into English from Korean financial statements. In the event of any differences in interpreting the financial statements or the independent auditor's report thereon, Korean version, which is used for regulatory reporting purposes, shall prevail.

### 2-2 Changes in material accounting policies

The material accounting policies used for preparation of the consolidated financial statements are the same as those adopted in preparing annual financial statements as of and for the year ended December 31, 2024, except for the adoption of new standards and interpretations effective as of January 1, 2025.

Changes in accounting policies in accordance with the adoption of new standards and interpretations for the current reporting period are as follows:

#### 2-2-1 Amendments to KIFRS 1021 *The Effects of Changes in Foreign Exchange Rate* and KIFRS 1101 *First-time Adoption of KIFRS – Lack of Exchangeability*

The amendments define when a currency is considered to be exchangeable into another currency and specify how to assess whether a currency is exchangeable and how to determine a spot exchange rate if a currency lacks exchangeability. The amendments clarify the disclosure requirement of information when a currency lacks exchangeability. When a currency is not exchangeable into another currency at the measurement date, the spot exchange rate is estimated at the measurement date as an observable exchange rate without adjustment or another

estimation technique can be used.

The amendments apply to annual reporting periods beginning on or after January 1, 2025. Earlier application is permitted.

The amendments have no material impact on the Group's consolidated financial statements.

#### *2-2-2 Amendments to KIFRS 1117 Insurance Contracts –Disclosure of Methods for Estimating Inputs Used to Measure Insurance Contract*

The amendments specify disclosure requirements applied when an entity uses the estimation techniques for inputs in measuring insurance contracts different from the principle-based estimation techniques as required by insurance-related laws and regulations by requiring the entity to disclose the difference between the estimation technique used by the entity and the principle-based estimation techniques required by laws and regulations the basis of such judgement, and the financial impact thereof. Accordingly, the amendments additionally require to disclose the impact of such differences on future cash flows, insurance contract margins, and insurance revenues and insurance service expenses.

The amendments apply to annual reporting periods beginning on or after January 1, 2025 and will remain effective until the annual reporting period that includes December 31, 2029.

The amendments have no material impact on the Group's consolidated financial statements.

The new and amended standards and interpretations that are issued, but not yet effective up to the date of issuance of the Group's consolidated financial statements are disclosed below.

### 2-2-3 Amendments to KIFRS 1109 *Financial Instruments* and 1107 *Financial Instruments: Disclosures – Classification and Measurement of Financial Instruments*

These amendments clarify the conditions required to be fulfilled when financial liabilities are deemed to be settled before the settlement date when the financial liabilities are settled using an electronic payment system, the interest and contingent features that should be considered when evaluating whether contractual cash flows are consistent with a basic lending arrangement, the characteristics of financial assets with non-recourse features, and the characteristics of contractually linked financial instruments. Additionally, they include additional disclosure requirements for investments in equity instruments designated as fair value through other comprehensive income (FVOCI) and for contractual terms that may change the timing or amount of contractual cash flows.

The amendments apply retrospectively to annual reporting periods beginning on or after January 1, 2026 with earlier application is permitted.

### 2-2-4 Amendments to KIFRS 1109 *Financial Instruments – Accounting for Derecognition of Lease Liabilities and Definition of Transaction Prices*

These amendments clarify that any gain or loss arising from the derecognition of a lease liability should be recognized in profit or loss. Additionally, the definition of transaction price has been revised to align with KIFRS 1115.

The amendments apply to annual reporting periods beginning on or after January 1, 2026. Earlier application is permitted.

### 2-2-5 Amendments to KIFRS 1110 *Consolidated Financial Statements – Determination of a De Facto Agent*

The amendments revise the wording in KIFRS 1110 regarding the judgement of a de facto agents in order to resolve inconsistencies between different sections of

the standard.

The amendments apply to annual reporting periods beginning on or after January 1, 2026. Earlier application is permitted.

2-2-6 Amendments to KIFRS 1101 *First-time Adoption of Korean International Financial Reporting Standards – Application of Hedge Accounting*

These amendments specify that the conditions for applying hedge accounting should refer to specific paragraphs of KIFRS 1109 *Financial Instruments* and align the related terminology accordingly.

The amendments apply to annual reporting periods beginning on or after January 1, 2026. Earlier application is permitted.

2-2-7 Amendments to KIFRS 1107 *Financial Instruments: Disclosures – Derecognition Gains and Losses*

These amendments specify that fair value measurement should refer to KIFRS 1113 *Fair Value* and align the related terminology accordingly.

The amendments apply to annual reporting periods beginning on or after January 1, 2026. Earlier application is permitted.

2-2-8 Amendments to KIFRS 1007 *Statement of Cash Flows – Cost Method*

This amendment removes the term "cost method" and replaces it with "cost."

The amendments apply to annual reporting periods beginning on or after January 1, 2026. Earlier application is permitted.

2-2-9 Amendments to KIFRS 1109 and KIFRS 1107 *Disclosures – Contracts Referencing Nature-dependent Electricity*

The amendments clarify that contracts to purchase or sell nature-dependent power are assessed not to meet the "own-use" requirements and the designation of hedging instruments for in-scope contracts. In addition, the amendments introduce additional disclosure requirements regarding the impact of such contracts on an entity's financial performance and cash flows.

The amendments are effective for annual reporting periods beginning on or after January 1, 2026, with early application permitted.

2-2-10 KIFRS 1118 *Presentation and Disclosure in Financial Statements*

KIFRS 1118 has been issued, which replaces KIFRS 1001 – Presentation of Financial Statements and includes new requirements designed to enhance comparability of financial performance with other similar entities and provide users within more relevant information. Management is currently reviewing the impact of the application of the new standard on the Group's consolidated financial statements. While the adoption of the standard is not expected to affect the Group's net income, it is anticipated to impact the calculation and reporting of operating income by classifying revenues and expenses in the statement of income into new categories.

The standard is effective for annual reporting periods beginning on or after January 1, 2027, with earlier application permitted. As the standard requires retrospective restatement, the comparative information for the annual reporting period ending on December 31, 2026 shall be restated based on KIFRS 1118.

Except for the newly issued standard described in Note 2-2-10, these amendments listed above are not expected to have material impact on the Group's consolidated financial statements.

## 2-3 Scope and principles of consolidation

Significant methods of accounting for consolidation when preparing consolidated financial statements are as follows:

### 2-3-1 Subsidiaries

The Bank has the ability to determine the financial and operating policies of subsidiaries. Generally, the Bank classified the entity as subsidiary in case the Bank has existing rights that give it the current ability to direct the relevant activities, and is not only exposed, or has rights, to variable returns, but also has the ability to use its power to affect the investee's returns from its involvement with the investee. Subsidiaries are fully consolidated from the date on which the control is transferred to the Bank and excluded from the subsidiaries at the point when the Bank loses the control.

### 2-3-2 Offset of the investment accounts of the Group and the corresponding equity accounts

The investment accounts of the Group and the corresponding equity accounts of the subsidiaries are eliminated in consolidation.

### 2-3-3 Accounting for difference between the costs of investment

The Group applies acquisition method in offsetting the Parent company's investment accounts and subsidiary's equity accounts. When applying the acquisition method, if the transfer consideration, the amount of non-controlling interest in the acquiree and the total fair value of the Parent's previous holdings exceed the fair value of the subsidiary's asset liabilities, the difference is recognized as good will and is considered for impairment at the end of each reporting period.

Changes in the Parent's ownership interest in a subsidiary that does not lead to a loss of control after the date of acquisition of control are treated as capital transactions.

### 2-3-4 Elimination of intercompany transactions and the unrealized gain or loss,

etc.

All significant intercompany transactions and the account balances among the consolidated companies are eliminated on consolidation. Unrealized gains or losses included in loans and borrowings arising from transactions between consolidated companies are eliminated on consolidation. The related accounts receivable and payable are also eliminated on consolidation.

## 2-3-5 Investments in associates and a joint venture

Investments in entities over which the Group has control or significant influence are accounted for using the equity method. Under the equity method of accounting, the Group's initial investment in an investee is recorded at acquisition cost. Subsequently, a share of changes in equity (the Group's share of amount of the changes in associates' net assets) is adjusted to the carrying value. The share of changes in equity is accounted for differently per sources. If the change in net asset has occurred due to net income or loss, it is accounted for as gain or loss on equity method. If it has occurred due to unappropriated retained earnings carried over from prior years, it is accounted for as changes in retained earnings under equity method. The change in net assets due to changes in equity, except those mentioned above, is accounted for as equity adjustments in equity method or negative equity changes in equity method.

If the carrying amount of investments in associates is equal to or under '0', the Group suspends equity method and carries the investments value at '0'. If the Group has investment assets, such as preferred shares and long-term bonds of associates, it continues recognizing its share of further losses to the extent of the carrying amount of such asset's value '0'. The Group resumes the application of the equity method if the Group's share of income or change in equity of an investee exceeds the Group's share of losses accumulated during the period of suspension of the equity method of accounting.

At the date of acquisition, the excess of the cost of the investment over the Group's share of the net fair value of the investee's identifiable assets and

liabilities is accounted for as goodwill or negative goodwill. The goodwill is not amortized, and if there is any indication that investment shares in associates and joint ventures, including those, have been impaired, it is being considered against the recoverable value (greater of net fair value and value in use). In addition, the difference between the fair value and the carrying amount of the identifiable assets and liabilities of the investee at the time of stock acquisition is amortized or reversed according to the equity method of the investee.

The Group's share in the investee's unrealized profits and losses resulting from transactions between the Group and its investee is eliminated to the extent of the interest in the investee.

#### 2-3-6 Special reserve on trust accounts

A special reserve provided under the arrangement of guaranteed fixed rate of return and guaranteed repayment of the principal is included under the retained earnings in the consolidated financial statements.

#### 2-3-7 Non-controlling interests

Subsidiaries' equity that is not included in the Group's share is accounted for as non-controlling interests. In case subsidiaries' non-controlling interests are below '0', negative non-controlling interests are presented as deduction of equity.

#### 2-4 Foreign currency transaction

##### 2-4-1 Functional currency

When preparing the consolidated financial statements, the Group measures and recognizes all items and transactions according to the functional currency. The term functional currency is defined as the monetary unit of account of the principal economic environment in which the entity operates, and the amount of transactions made between an entity's functional currency and other currencies are converted to the Group's functional currency.

#### 2-4-2 Transactions and balances at the end of the reporting period

Transactions in foreign currencies are initially recognized as functional currency applying spot or average exchange rates. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange at the reporting date and differences arising on settlement or translation of monetary items are recognized in profit or loss. Non-monetary assets and liabilities at fair value in a foreign currency are translated at the exchange rates at the end of the reporting date. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange differences of that gain or loss are recognized in profit or loss and when a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange differences of that gain or loss are recognized in other comprehensive income. Non-monetary items not measured at fair value in a foreign currency are translated using the exchange rates as of the dates of the initial transactions and thus, there are no exchange differences.

However, a monetary item which will be received from or paid to foreign branches and operations but for which settlement is neither planned nor likely to occur in the foreseeable future is considered as part of the net investment in the foreign entity. Exchange differences arising on the monetary item that forms part of net investment in the foreign operation are recognized initially in other comprehensive income and reclassified from other comprehensive income to profit or loss on disposal of the net investment.

### 2-4-3 Translation of the presentation currency

As of the reporting date, the assets and liabilities of overseas branches are translated into the Group's presentation currency, Korean won (presented as "KRW" and ₩). The Group's assets and liabilities are translated at the rate of exchange prevailing at the reporting date and the Group's profit or loss and other comprehensive income and changes in equity are translated using the exchange rates at the transaction date or the average exchange rates for the period. The exchange differences arising on translation are recognized in other comprehensive income.

### 2-5 Cash and cash equivalents

Cash and cash equivalents in the consolidated statements of financial position are composed of cash at bank and on hand, etc. The purpose of holding cash and cash equivalents is not to make short-term investments, but to meet short-term cash demands. Cash and cash equivalents are highly liquid, easily convertible and subject to an insignificant risk of changes in value.

Deposits restricted from use by the Group under contracts with third parties are included as part of cash, unless such restrictions prevent deposits from meeting the definition of cash any longer. Contractual restrictions affecting the use of cash and deposits are described in Note 10-2.

### 2-6 Financial asset classification and subsequent measurement

At initial recognition, financial assets are classified as measured at FVTPL, FVOCI and amortized cost, and financial liabilities are classified as measured at FVTPL and amortized cost and in accordance with the business model and characteristics of the contractual cash flows.

Regular-way purchase or sale of financial assets is recognized at the trade date that an entity commits itself to purchase or sell an asset. Regular-way purchase or sale of financial assets means purchase or sale of financial assets under a contract whose terms require delivery of the asset within the time frame

established generally by regulation or convention in the marketplace concerned.

Financial assets and liabilities are initially measured at fair value and the transaction costs directly attributable to the acquisition of (issuance) financial assets (liabilities) are added to (deducted from) the fair value at initial recognition if they are not measured at FVTPL. The fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial instruments is generally measured at the transaction price (the fair value of the consideration received or transferred) at initial recognition.

#### 2-6-1 Financial assets at FVTPL

Financial assets held for trading or designated as at FVTPL and financial assets that are not classified as at FVOCI or amortized cost are classified as at FVTPL.

Also, the Group may designate a financial asset as measured at FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognizing the gains and losses on them on a different base.

Financial assets at FVTPL are measured at fair value and the gain or loss on valuation is recognized as profit or loss. Dividends and interest income from the financial assets are also recognized as profit or loss.

#### 2-6-2 Financial assets at FVOCI

The Group classifies debt securities, which are held within a business model, whose objective is achieved by both collecting contractual cash flows and selling financial assets and meet the assessment of contractual cash flow characteristics and equity securities designated as measured at FVOCI, which are held not with intention to sell, but for strategic purpose, as financial assets at FVOCI. Financial assets at FVOCI are measured at fair value after initial recognition. Gain or loss arising from changes in the fair value is recognized as other comprehensive

income, except for interest income under the effective interest rate ("EIR") method, dividends and foreign exchange differences on monetary assets that are directly recognized in profit or loss.

When financial assets at FVOCI are disposed of, the cumulative income recognized in other comprehensive income is transferred to the current profit or loss. However, the cumulative income recognized for equity securities designated as financial assets at FVOCI is not transferred to the current profit or loss.

The fair value of financial assets at FVOCI presented in foreign currencies is translated using the exchange rate at the end of the reporting period. Changes in the fair value from exchange differences due to changes in amortized cost are recognized in the current profit or loss, while other changes are recognized directly in equity.

#### 2-6-3 Financial assets at amortized cost

Financial assets within a business model whose objective is achieved by collecting contractual cash flows and meet the contractual cash flow characteristics are classified as financial assets at amortized cost. After initial recognition, the financial assets are measured at amortized cost using the effective interest rate method and presented by deducting from the amortized cost the allowance for loan losses. Interest income is recognized by using the effective interest rate method.

The Group defers loan origination fees ("LOF")/loan origination costs ("LOC") associated with originating loans and LOCs that have future economic benefits. Loan balances are reported net of these LOFs/LOCs. The deferred LOFs/LOCs are amortized based on the effective interest rate method, with the amortization recognized as adjustments to interest income.

## 2-7 Derivative financial instruments and hedge accounting

Derivative instruments are initially recognized at fair value on the date a derivative contract is entered into and are classified as trading derivatives or hedging derivatives depending on whether hedge accounting is applied. After initial recognition, derivative instruments are subsequently remeasured at fair value. Any gains or losses arising from changes in fair value on derivatives are taken directly to the consolidated financial statements, except for the effective portion of cash flow hedges or hedges of net investment in a foreign operation, which is recognized in other comprehensive income.

The Group applies fair value hedge accounting to hedge the changes in fair value, as a whole or some parts, of recognized assets or liabilities from particular risks or an unrecognized firm commitment. Cash flow hedge is accounted to hedge the changes in cash flows of recognized assets or liabilities from particular risks or a highly probable forecast transaction.

The Group documents the hedge relationship, risk management objective, strategy, the nature of the risk being hedged and method to assess the effectiveness of hedge to apply hedge accounting. The effectiveness of hedge means the effect of offsetting the exposure to changes in fair value or cash flow of hedged items by changes in fair value or cash flow of derivatives attributed by the hedged risk. The Group assesses and documents whether such hedges are expected to be highly effective and if they actually have been highly effective at the end of the reporting period.

An ineffective portion of the hedge may be due to differences between underlying variables, such as acquisition date, credit risk or liquidity and the hedging instruments that the entity accepts to achieve an effective cost-to-cost hedging relationship.

### 2-7-1 Fair value hedges

When fair value hedge accounting is applied, the unrealized gain or loss on hedged items that are attributable to a hedged risk and hedging instruments is symmetrically recognized in the consolidated financial statements as current income for the same reporting period to ensure that changes in the fair value of the hedged items are offset by changes in the fair value of the hedging instruments. When the hedged item is an equity instrument designated at FVOCI, the hedging gain or loss remains in other comprehensive income. If an application of hedge accounting is no longer valid, the Group discontinues the hedge accounting prospectively. Any adjustment to the carrying amount of hedged items is amortized to profit or loss in the consolidated statements of profit or loss and other comprehensive income over the remaining maturity using the effective interest method.

### 2-7-2 Cash flow hedges

When cash flow hedge accounting is applied, the effective portion of the unrealized gain or loss on the hedging instrument is directly recognized in other comprehensive income (loss) in the statements of financial position to ensure that changes in the cash flows of the hedged items are offset by changes in the cash flows of the hedging instruments while any ineffective portion is recognized immediately in the statements of comprehensive income. Amounts recognized as other comprehensive income are transferred to the statements of comprehensive income when the hedged transaction affects profit or loss. If an application of hedge accounting no longer meets the criteria, the Group discontinues the hedge accounting prospectively and the cumulative gain or loss on the hedging instrument previously recognized in other comprehensive income is transferred to profit or loss in the statements of comprehensive income.

### 2-7-3 Hedge accounting of net investment in a foreign operation

When applying hedge accounting of net investment in a foreign operation, the effective portion of changes in fair value of the hedging instrument is recognized in other comprehensive income and the ineffective portion of the hedge is recognized as current profit or loss in order to offset changes in the fair value of the hedged item caused by the hedging with changes in the fair value of the hedging instrument. The effective portion of hedge recognized in other comprehensive income will be reclassified from other comprehensive income to current profit or loss in accordance with KIFRS 1021 *The Effects of Changes in Foreign Exchange Rates*, at the time of disposal of a foreign operation or disposal of a portion of its foreign operations in the future.

### 2-7-4 Embedded derivatives

An embedded derivative is a component of a hybrid contract that also includes a non-derivative host with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. Derivatives embedded in other financial instruments or other host contracts are accounted for as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

### 2-7-5 'Day 1' profit or loss

In case of derivatives classified as Level 3 in the fair value hierarchy of which fair value is determined using data that is not observable from markets, the difference between the transaction price and fair value at initial recognition (a 'Day 1' profit or loss) is deferred and amortized up to its maturity using the straight-line method.

### 2-7-6 Credit risk valuation adjustment

When assessing derivatives at fair value, expected loss from credit risk is measured and deducted from derivative assets to reflect credit risk of counterparties.

## 2-8 Expected credit loss ("ECL") for financial assets

Loss allowance is recognized for financial assets at FVOCI and amortized cost using the ECL model.

ECL is the weighted-average amount of possible outcomes within a certain range, reflecting the time value of money; estimates in the past, current and future situations; and information accessible without excessive cost or effort.

The ECL can be measured in following three ways:

- general approach: when financial assets do not fall into below two categories or they are off-balance-sheet undrawn commitments;
- simplified approach: when financial assets are trade receivables, contract assets or lease receivables; and
- credit-impaired approach: when financial assets are credit impaired at initial recognition.

The general approach is applied differently depending on the significance of the increase of the credit risk. If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group shall measure the loss allowance for that financial instrument at an amount equal to 12-month ECL. If the credit risk on that financial instrument has increased significantly since initial recognition, the Group shall measure the loss allowance for a financial instrument at an amount equal to the lifetime ECL at each reporting date.

The loss allowance is measured at an amount equal to lifetime ECL for the simplified approach and the Group shall only recognize the cumulative changes in lifetime ECL since initial recognition as a loss allowance for purchased or originated credit-impaired financial assets at each reporting date for the credit-impaired approach.

The information that the Group may utilize in assessing significant changes in credit risk includes the following:

- significant changes in internal price indicators of credit risk as a result of a change in credit risk since inception;
- other changes in the rates or terms of an existing financial instrument that would be significantly different;
- an actual or expected significant change in the financial instrument's external credit rating;
- an actual or expected internal credit rating downgrade for the borrower or decrease in behavioral scoring used to assess credit risk internally;
- an actual or expected significant change in the operating results of the borrower; and
- past-due information.

#### 2-8-1 Reflecting forward-looking information

The Group measures the significance of the increase of the credit risk and the ECL using forward-looking information.

The Group assumes that the risk component is correlated with changes in market conditions and calculates the ECL using the forward-looking information by modelling macroeconomic variables and risk components.

The forward-looking information used to measure the ECL is derived from 'stress-case' or 'worst-case' scenarios.

#### 2-8-2 Measurement of ECL for financial assets at amortized cost

ECL for financial assets at amortized cost is measured as the present value of the difference between the contractual cash flows that are due to the Group under the contract and the cash flows that the Group expects to receive. For this purpose, the Group calculates expected contractual cash flows for individually

significant financial assets (allowance for loan losses on an individual assessment)..

Financial assets insignificant in value individually are measured on a collective basis with financial assets with similar credit risks (allowance for loan losses on a collective assessment).

#### 2-8-2-1 Allowance for loan losses on an individual assessment basis

Allowance for loan losses on an individual assessment basis is based on the best estimates of management with regard to the present value of cash flows expected to be recovered from receivables. In estimating the cash flows, the Group uses all available information, including the financial conditions, such as the operating cash flows of counterparties and the net realizable value of collateral provided.

#### 2-8-2-2 Allowance for loan losses on a collective assessment basis

Allowance for loan losses on a collective assessment basis uses the estimation model that accounts for the forward-looking information based on the past loss rate to measure the ECL. The model considers the probability of default ("PD") and the loss-given default ("LGD") reflecting the type of instruments and borrowers, credit rating, portfolio size and collection period. Also, certain assumptions are applied to model the ECL measurement and to determine input variables based on past experiences and forward-looking information.

Methodologies and assumptions for this model are regularly reviewed to minimize the difference between the allowance for loan losses and the actual loss. The ECL for financial assets at amortized cost is recognized as the allowance for loan losses, and when the financial asset is determined to be irrecoverable, the carrying amount and the allowance for loan losses are decreased. If financial assets previously written off are recovered, the allowance for loan losses is increased, and the difference is recognized in the current profit or loss.

### 2-8-3 ECL measurement for financial assets at FVOCI

The measurement method is the same as the one for financial assets at amortized cost, but the change in the allowance is recognized as other comprehensive income. The allowance for financial assets at FVOCI is reclassified from other comprehensive income to current profit or loss when the assets are disposed of or repaid.

### 2-9 Derecognition of financial assets

A financial asset is derecognized when the contractual rights to the cash flows from the financial asset expire or the Group transfers substantially all the risks and rewards of ownership of the financial asset. If the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, but has retained control, the Group recognizes the asset and the associated liability to the extent of the Group's continuing involvement in the financial asset. If most of the risks and rewards of owning a financial asset are controlled without holding or transferring it, the Group recognizes them in its consolidated statements of financial position as the Group continues to be involved in the financial asset and related liabilities to be paid.

## 2-10 Classification and measurement of financial liabilities

All financial liabilities that are classified as financial liabilities at FVTPL, borrowings or others are measured initially at their fair value, minus transaction costs, except in the case of financial liabilities recorded at FVTPL.

### 2-10-1 Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial liabilities are classified as held for trading if they are acquired for the purpose of selling in the near term. All derivatives, including an embedded derivative separated from the host contract, are reclassified as financial liabilities at FVTPL, except for financial liabilities designated as effective hedging instruments or financial guarantee contracts. After initial recognition, the changes in the fair value of the financial liabilities at FVTPL and the related interest expenses are recognized as profit or loss.

The Group performs securities lending and borrowing classified as held-for-trading financial liabilities. When the Group borrows securities from Korea Securities Depository, securities borrowed are managed as memorandum value and when selling them, they are recorded as securities sold. At closing, the difference between the price securities are sold and the market price prevailing on the closing date is taken into account as valuation gain or loss on securities sold, and at the time of selling the securities, the difference in book value and the price securities are purchased is recorded as trading gain or loss on securities sold.

### 2-10-2 Deposits, borrowings and debentures

Interest-bearing deposits, borrowings and debentures are subsequently measured at amortized cost using the effective interest method. The difference between the consideration received after deducting transaction costs and the amount repayable on maturity is amortized by the effective interest method and recognized in profit or loss for the relevant period.

## 2-11 Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, canceled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the consolidated statements of profit or loss and other comprehensive income.

## 2-12 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

## 2-13 Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the obligation is expected, it is unlikely or the amount of the loss cannot be estimated reliably, the amount is disclosed. If the effect of the time value of money is material, provisions are stated at present value.

The Group accounts for the payment guarantee provision in the same way as accounting allowance for loan losses on a collective assessment basis by applying the Cash Conversion Factor to the confirmed/unconfirmed payment guarantees and bills endorsed. The Group provides an allowance for loan losses on a certain portion of the unused credit line. The Group records the provision for such unused balances as an allowance for loan losses on unused commitments, which are calculated by applying a credit conversion factor and provision rates.

## 2-14 Financial guarantee contract

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument and is measured at fair value on the date of initial recognition. After initial recognition, the Group, as an issuer of such a contract, measures it at the higher of (i) the amount determined in accordance with KIFRS 1109 *Financial instruments*, or (ii) the amount initially recognized less, when appropriate, cumulative amortization recognized in accordance with KIFRS 1115 *Revenue from Contract with Customer*.

## 2-15 Bonds purchased under resale agreements and bonds sold under repurchase agreements

Bonds purchased under resale agreements and bonds sold under repurchase agreements are included in loans and borrowings, respectively, in the accompanying consolidated statements of financial position. Interest income and expenses from purchases or sales are recognized as interest income on loans and interest expenses on borrowings, respectively.

## 2-16 Property and equipment

Property and equipment are measured at cost, and the carrying amount after initial recognition is presented as the amount of the acquisition cost minus the accumulated depreciation and the accumulated impairment loss. The cost of property, plant and equipment includes expenditure directly related to the purchase or construction of the asset, including the cost directly related to the location and condition required to operate the asset in the manner intended by management and the cost initially estimated to be required to dismantle, remove or restore the site.

The subsequent costs are recognized as an asset when it is probable that future economic benefits associated with the asset will flow to the Group and the costs of the asset can be measured reliably. The other maintenances and repairs are expensed in the year in which they are incurred, and the carrying amount of certain parts that are replaced is derecognized.

Land is not depreciated. For depreciation of other assets, amount of acquisition cost, less residual value, is calculated on a straight-line basis and declining-balance basis over the following estimated useful life of the asset:

| Classification                                | Depreciation method      | Years   |
|-----------------------------------------------|--------------------------|---------|
| Buildings, building components and structures | Straight-line method     | 5 to 55 |
| Leasehold improvements                        | Straight-line method     | 3 to 10 |
| Equipment and vehicles                        | Declining-balance method | 3 to 20 |

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is immediately reduced to its recoverable amount. The residual value and economic useful life are reviewed at the end of each reporting period, with the effect of any changes in estimates being accounted for, if necessary. Any gain or loss arising on the derecognition of the asset is recognized in 'Non-operating income' or 'Non-operating expenses' in the consolidated statements of profit or loss and other comprehensive income in the year the asset is derecognized.

## 2-17 Investment properties

Investment properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated using the cost model.

Investment properties are derecognized either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the consolidated statements of comprehensive income in the period of derecognition, and transfers are made to or from investment property only when there is a change in use. Land is not depreciated among investment properties, and the depreciation method of the buildings is the straight-line method and their useful life is 5 to 55 years. The depreciation method, residual value and useful life of investment property are reviewed at the end of each reporting period, and if it is deemed appropriate to change investment property, it is accounted for as a change in accounting estimates.

## 2-18 Intangible assets

An intangible asset, which comprises industrial property rights, software, development costs and others, is recognized as an asset only if it is probable that future economic benefits associated with the asset will flow to the Group and the costs of the asset can be measured reliably. Intangible assets acquired individually are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as of the date of acquisition in accordance with KIFRS 1103 *Business Combination*.

Amortization of intangible assets with definite useful lives is calculated using the following amortization method over the estimated useful life of the assets:

| Classification                                                    | Depreciation method  | Years |
|-------------------------------------------------------------------|----------------------|-------|
| Industrial property rights, software and system development costs | Straight-line method | 5     |
| Core deposits                                                     | Straight-line method | 14    |

| Classification          | Depreciation method  | Years   |
|-------------------------|----------------------|---------|
| Other intangible assets | Straight-line method | 1 to 12 |

Intangible assets with indefinite useful lives are not amortized, but are annually tested for impairment or whenever there is an indication that the intangible asset may be impaired. The assessment of indefinite useful life is reviewed annually to determine whether the indefinite useful life continues to be supportable.

## 2-19 Impairment of non-financial assets

The Group tests the depreciable asset for impairment whenever there is a change in environment or an event indicating that the carrying amount may not be recoverable. The Group recognizes an excess of the carrying amount over the recoverable amount as an impairment loss. The Group defines recoverable amount as the higher of an asset's or cash-generating unit's ("CGU") fair value, less costs to sell, or its value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels (CGUs) for which there are separate and identifiable cash flows. The Group assesses the reversal of an impairment loss recognized for non-financial assets other than goodwill at the end of the reporting period.

## 2-20 Net defined benefit liabilities (assets)

The Group calculates defined benefit liabilities and pension benefit expenses based on a defined benefit plan and defined contribution plan when an employee retires in accordance with pension-related regulations. For defined benefit plans, the cost of retirement benefits is measured by an actuary services company using the projected unit credit method. The present value of a defined benefit obligation is computed by discounting expected future cash outflows using the market rate of return measured against the yield of high-graded corporate bonds whose date of payment and maturity is similar to that of a defined benefit obligation. Actuarial gains and losses incurred from the change in actuarial assumptions and the difference between the assumptions and the actual results

are recognized in other comprehensive income for the period. Past service cost is recognized immediately to the extent that the benefits are already vested; and otherwise, it is amortized on a straight-line basis over the period until the benefits become vested.

The Group has entered into retirement trust fund and retirement pension plan agreements to pay retirement benefits to its employees. The retirement benefit obligation represents the present value of the defined benefit obligation as adjusted for unrecognized past service costs and as reduced by the fair value of plan assets. Any asset resulting from this calculation is limited to unrecognized actuarial losses and past service costs, plus the present value of available refunds and reductions in future contributions to the plan.

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan. When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting treatment depends on whether the contributions are linked to service as follows:

- if the contributions are not linked to services (e.g., contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset); and
- if contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the entity reduces service cost by attributing the contributions to periods of service using the attribution method required by KIFRS 1019, paragraph 70, for the gross benefits. For the amount of contribution that is independent of the number of years of service, the entity reduces service cost in the period in which the related service is rendered.

## 2-21 Share-based payment

In the case of equity-settled share-based payments, the goods or services received and the corresponding increase in equity are measured directly at the fair value of the goods or services and accounted for as compensation costs and equity. If the goods or services provided cannot be reliably measured, the endowed equity is indirectly estimated at fair value and the Group accounts for compensation costs and equity (capital adjustment). The cost of cash-settled transactions is measured initially at fair value at the grant date, taking into account the terms and conditions upon which the instruments were granted. This fair value is expensed over the period until vesting with recognition of a corresponding liability. The liability is remeasured to fair value at each reporting date up to, and including the settlement date, with changes in fair value recognized in the consolidated statements of comprehensive income. Also, in the case of a selectable share-based payment transaction in which the employees have a choice between a cash-settled transaction and an equity-settled transaction, the Group records the amount depending on its substance.

## 2-22 Employee benefits

### 2-22-1 Short-term employee benefits

When employees have rendered services to the Group during an accounting period, the Group recognizes the undiscounted amount of short-term employee benefits. This amount is expected to be settled in whole before 12 months after the end of the reporting period in exchange for those services.

### 2-22-2 Other Long-term Employee Benefits

Other long-term employee benefits (excluding retirement benefits and termination benefits) that are not expected to be settled within 12 months after the end of the reporting period in which the employees render the related services are measured at the present value of the future benefits earned as consideration for services provided in the current and prior periods.

Remeasurements arising from changes in estimates are recognized in profit or loss in the period in which they occur.

### 2-22-3 Termination benefits

The Group recognizes an expense for termination benefits when an employee accepts the offer or when a restriction on the Group's ability to withdraw the offer takes effect.

## 2-23 Recognition of income tax expenses and deferred tax assets and liabilities

Income taxes are composed of current and deferred taxes. All items related to taxes, other than those recognized directly in equity, are accounted for in the consolidated statements of comprehensive income. Accordingly, items recognized directly in equity and the related taxes are accounted for as other comprehensive income in the statements of comprehensive income.

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date, in the countries where the Group operates and generates taxable income. If the applied tax laws require an interpretation, the Group calculates income tax payable expected to be paid to the taxation authorities based on the opinion made when the taxes were reported.

Deferred tax is provided on the temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The Group measures deferred tax assets and liabilities at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted, or substantively enacted by the end of the reporting period.

The Group recognizes a deferred tax asset for all deductible temporary differences to the extent it is probable that taxable profit will be available against which the deductible temporary difference can be utilized.

The Group recognizes a deferred tax liability for all taxable temporary differences with investments in subsidiaries and associates, except to the extent that both of the following conditions are satisfied: (a) the Group is able to control the timing of the reversal of the temporary difference and (b) it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

The Group offsets deferred tax assets and liabilities if, and only if, the Group has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority either on the same taxable entity or different taxable entities, which intend either to settle current tax liabilities and assets on a net basis or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

The Group is subject to the Pillar 2 legislation, and has applied the exemption provisions regarding the recognition and disclosure of the related deferred tax.

## 2-24 Equity

### 2-24-1 Classification of equity

The Group classifies financial instruments at initial recognition as either financial liabilities or financial equity depending on the contractual materiality. In the case where it is possible to avoid the related contractual obligations, the financial item is classified as a financial equity. An equity is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

### 2-24-2 Stock issuance costs

New stock issuance costs or incremental costs related to the stock issuance for business combinations are recorded as a deduction from paid-in capital, net of tax effects.

### 2-25 Earnings per share ("EPS")

Basic and diluted EPSs are computed by dividing net income by the weighted-average number of shares of common stock outstanding during the year.

## 2-26 Accounting basis for trust accounts

The Group accounts for trust operations (the "trust accounts") separately from the Group's accounts in accordance with the *Financial Investment Services and Capital Markets Act*. In this regard, the funds lent by the Group to the trust account are accounted for as due to trust accounts of the Group's accounts, and the funds borrowed by the Group from the trust account are accounted as due from trust accounts of the Group's accounts. Trust compensation paid to the trustee (the Group) in connection with the operation, management and disposal of trust property is accounted as trust operation profits. The Group recognizes trust commissions earned from trust accounts as income from trust operations in connection with the operation, management and disposal of trust property. In addition, in the case of a joint operation money trust with a "guarantee contract of the principal or profits" of the trust account, if the operating profit falls short of the "principals to be preserved or profits to be guaranteed" and this shortage is more than covered by the trust compensation and special reserves, the Group accounts the amount paid to the trust account as the trust account's operating losses.

## 2-27 Lease accounting

Under KIFRS 1116 *Leases*, the Group applies a single recognition and measurement method for all leases, except for leases of low-value assets. This standard provides guidance on specific requirements and simplified methods applied by an entity.

The Group recognized the right-of-use assets and the lease liabilities that were previously classified as operating leases, except for leases of low-value assets. Right-of-use assets for most leases were recognized as carrying amounts measured as if they had been applying the standards from the inception of the lease, except that they were discounted at the lessee's incremental borrowing rate as of the date of initial application. In some leases, the right-of-use asset was recognized based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognized. The lease

liability was measured at the present value of the remaining lease payments, discounted at the incremental borrowing rate as of the date of the initial application.

The practical expedients that the Group applied are as follows:

- application of a single discount rate to a portfolio of leases with significantly similar characteristics;
- replacement of impairment review by determining whether leases are onerous before the initial application date;
- exclusion of initial direct costs from the measurement of the right-of-use asset at the initial application date; and
- using hindsight for lessee.

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

## 2-28 Merchant banking account

As permitted by the *Act on the Structural Improvement of the Financial Industry of Korea*, the Group may continue its merchant banking operations until the existing contracts succeeded from the Korea International Merchant Bank which is acquired upon merger are terminated.

Material accounting policies applied to the Group's merchant banking operations are summarized as follows:

### 2-28-1 Revenue recognition on discounted notes

Interest income on discounted notes is accrued over the term of the notes. Income from the sale of discounted notes is recognized at the date of transaction based on the difference between the purchase prices and sales prices of the notes, adjusted for interest earned during the holding period.

### 2-28-2 Cash Management Accounts ("CMA")

The Group recognizes interest income from CMA investments and interest expenses from CMA deposits as operating income and operating expenses, respectively.

## 2-29 Interest income and interest expenses

Interest income and interest expenses are recognized over time using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability and allocating the interest income or interest expenses over the relevant period. The EIR is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the EIR, the Group estimates cash flows considering all contractual terms of the financial instrument, but does not consider future credit losses. Cash flows at the time of

the calculation include all the fees and points paid to, or received, from parties to the contract that are an integral part of the EIR, including transaction costs, and all other premiums or discounts.

#### 2-30 Fees and commission income

The Group's revenue recognition standard varies depending on the type of service provided to customers. Fee income, which is an integral part of the EIR of financial instruments, is adjusted using the EIR and recognized as interest income.

Fee income is recognized using the five-stage revenue recognition model (Identification of a contract with a customer → Identification of performance obligations in the contract → Determination of the transaction price → Allocation of the transaction price to the separate performance obligations in the contract → Recognition of revenue upon satisfying the performance obligations) in accordance with KIFRS 1115.

#### 2-31 Dividend income

Dividend income is recognized when the Group's right to receive the payment is established.

#### 2-32 Government grants

Government grants are recognized at fair value when there is a reasonable assurance that the entity will comply with the conditions attached to it and that the grant will be received. Grants related to income are recognized as revenue on a systematic basis over the period necessary to match the related costs that the grant is intended to cover. On the other hand, grants related to an asset are presented by subtracting the carrying amount of the asset and accounting for by deducting depreciation expenses over the useful life of the asset.

### 3. Material judgments and accounting estimates:

In the application of the Group's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily observable from objective sources. The estimation and assumption are based on other factors that are related to historical experience. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future period if the revision affects both current period and future period.

In the process of applying the Group's accounting policies, management has made the following judgments that have a material effect on the amounts recognized in the consolidated financial statements:

#### 3-1 Fair value of financial instruments

The fair value of financial instruments is determined by referencing quoted market prices in active markets in the first place. For financial instruments not traded in an active market, the fair value is determined using appropriate valuation techniques, including (i) between knowledgeable and willing parties in a recent arm's-length transaction, (ii) reference to the current fair value of another instrument that is substantially the same, (iii) discounted cash flow ("DCF") analysis and (iv) option-pricing models.

### 3-2 ECL of financial assets

The Group recognizes impairment losses on debt instruments, lease receivables, loan commitment and financial guarantee contracts that were accounted for at amortized cost, or at FVOCI, based on the ECL impairment model using a three-stage model for 12-month ECL, or lifetime ECL, based on changes in credit risk since initial recognition of financial assets.

| Classification |                                                                                                  | Loss allowance                                                                                                                                |
|----------------|--------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| STAGE 1        | Credit risk on a financial instrument has not increased significantly since initial recognition. | 12-month ECL: ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date. |
| STAGE 2        | Credit risk on a financial instrument has increased significantly since initial recognition.     | Lifetime ECL: ECLs that result from all possible default events over the expected life of a financial instrument.                             |
| STAGE 3        | Credit impaired.                                                                                 |                                                                                                                                               |

The cumulative changes in lifetime ECL since initial recognition are recognized as loss allowance for a financial asset that is considered credit impaired at initial recognition.

### 3-3 Retirement benefit

The cost of providing benefits under the defined benefit plans is determined using the actuarial valuation. Actuarial assumptions were made for the discount rate and an increase in the future pay rate. Retirement benefits include significant uncertainties in the estimates due to the longer duration of the period.

### 3-4 Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is an indication that non-financial assets may be impaired. An intangible asset with an indefinite useful life is tested for impairment annually or tested whenever there is an indication that the intangible asset may be impaired. Other non-financial assets are tested for impairment whenever there is an indication that the book value cannot be recovered. For the calculation of value in use, management estimates an expected future cash flow incurred from the asset or CGU. For the calculation of present value of the expected future cash flow, appropriate discount rate is selected.

### 3-5 Income tax

There have been various transactions and tax accounting methods, which have made computing the final tax expenses for the period uncertain. The contingent liability from any future tax assessments is based on the estimates of the likelihood of additional taxes imposed and has been included in the Group's Consolidated financial statements for the current period. When the finalized tax expense assessments are different from the appropriated amounts, the differences, if any, are recognized in current deferred tax assets, liabilities and expenses for the period.

### 4. Fair value measurement of financial assets and liabilities:

The standards that the Group applies when measuring fair values of financial assets and liabilities are described below:

- a. Quoted market prices at the settlement date in an active market are the best evidence of fair value and should be used when available.
- b. If a market for a financial instrument is not active, the Group establishes fair value using a valuation technique that makes maximum use of market inputs and includes (i) knowledgeable and willing parties in a recent arm's-length transaction, (ii) reference to the current fair value of another instrument that is substantially the same, (iii) DCF analysis and (iv) option-pricing models. An acceptable valuation technique incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments.
- c. When determining fair value using the valuation techniques, comparison with the current market transaction of another instrument that is substantially the same as the financial instrument needed to be objectively substantiated or inclusion of variables in the marketable data must be performed. Not all significant market variables are observable and in relevant cases, the reasonable estimates or assumptions are required to determine the fair value.

#### 4-1 Fair value hierarchy of financial instruments

The fair value hierarchy the Group applies when measuring the fair values of financial assets and liabilities as of December 31, 2025 and 2024 are described below (KRW in millions):

As of December 31, 2025:

| Classification                            | Levels of the fair value hierarchy (*) |            |           | Total      |
|-------------------------------------------|----------------------------------------|------------|-----------|------------|
|                                           | Level 1                                | Level 2    | Level 3   |            |
| Financial assets                          |                                        |            |           |            |
| Financial assets at FVTPL                 |                                        |            |           |            |
| Equity securities                         | 92,895                                 | –          | 42,258    | 135,153    |
| Debt securities                           | 9,855,238                              | 6,053,747  | 1,980,394 | 17,889,379 |
| Derivative assets held for trading        | –                                      | 8,094,743  | 39,789    | 8,134,532  |
| Private convertible bonds                 | –                                      | –          | 8,174     | 8,174      |
| Subtotal                                  | 9,948,133                              | 14,148,490 | 2,070,615 | 26,167,238 |
| Financial assets at FVOCI                 |                                        |            |           |            |
| Equity securities                         | 35,841                                 | 14         | 582,822   | 618,677    |
| Debt securities                           | 10,794,494                             | 28,917,134 | –         | 39,711,628 |
| Subtotal                                  | 10,830,335                             | 28,917,148 | 582,822   | 40,330,305 |
| Derivative assets used for hedging        | –                                      | 20,891     | –         | 20,891     |
| Merchant banking account assets           | –                                      | 4,376,558  | –         | 4,376,558  |
| Total                                     | 20,778,468                             | 47,463,087 | 2,653,437 | 70,894,992 |
| Financial liabilities                     |                                        |            |           |            |
| Financial liabilities at FVTPL            |                                        |            |           |            |
| Derivative liabilities held for trading   | 5,257                                  | 7,266,189  | 45,411    | 7,316,857  |
| Securities borrowed                       | 357,316                                | –          | –         | 357,316    |
| Financial liabilities designated at FVTPL | –                                      | 588,165    | –         | 588,165    |
| Subtotal                                  | 362,573                                | 7,854,354  | 45,411    | 8,262,338  |
| Derivative liabilities used for hedging   | –                                      | 358,753    | 30,229    | 388,982    |
| Total                                     | 362,573                                | 8,213,107  | 75,640    | 8,651,320  |

(\*) The Group recognizes transfers between levels at the beginning of reporting period when events or changes in circumstances causing the transfers between levels have occurred.

As of December 31, 2024:

| Classification                            | Levels of the fair value hierarchy (*) |            |           | Total      |
|-------------------------------------------|----------------------------------------|------------|-----------|------------|
|                                           | Level 1                                | Level 2    | Level 3   |            |

| Total                                     | 465,826                                | 15,015,656 | 83,357    | 15,564,839 |

(\*) The Group recognizes transfers between levels at the beginning of reporting period when events or changes in circumstances causing the transfers between levels have occurred.

The Group classifies and discloses the fair value of the financial instruments into the following three hierarchies:

- a. Level 1: The fair values are based on quoted prices (unadjusted) in active markets.
- b. Level 2: The fair values are based on techniques using observable market data.
- c. Level 3: The fair values are based on techniques using unobservable inputs.

Details of the fair values, valuation techniques and inputs used to develop those measurements classified into Level 2 assets and liabilities that are measured at fair value as of December 31, 2025 and 2024 are as follows (KRW in millions):

As of December 31, 2025:

| Classification                            | Fair value | Valuation techniques                                                        | Inputs                                                                                                         |
|-------------------------------------------|------------|-----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Financial assets                          |            |                                                                             |                                                                                                                |
| Financial assets at FVTPL                 |            |                                                                             |                                                                                                                |
| Debt securities                           | 6,053,747  | Net asset value and DCF model                                               | Underlying asset prices, such as bonds, stock, etc., and Discount rate                                         |
| Derivative assets held for trading        | 8,094,743  | Black-Scholes model, Black model, DCF model and Hull-White one-factor model | Exchange rate, Stock Index, Volatility, Swap yield curve, Swaption volatility and Yield curve of each currency |
| Subtotal                                  | 14,148,490 |                                                                             |                                                                                                                |

| Ending balance        |                            | 41,472                    | 1,654,438       | 8,350                     | 471,335                   | 50,505            | 47,656                 | 35,701                |

#### 4-3 Amounts recognized in profit or loss from changes in the fair value hierarchy of financial instruments categorized as Level 3

The amounts recognized in profit or loss from changes in the fair value hierarchy of financial instruments categorized as Level 3 for each of the two years in the period ended December 31, 2025 and 2024 are recorded in the consolidated financial statements as follows (KRW in millions):

For the year ended December 31, 2025:

| Classification                                          | Total gains or losses recognized in profit or loss | Profit or loss recognized related to financial instruments held at the end of reporting period |
|---------------------------------------------------------|----------------------------------------------------|------------------------------------------------------------------------------------------------|
| Gain on financial instruments at FVTPL                  | (38,471)                                           | (13,143)                                                                                       |
| Loss related to derivative instruments used for hedging | 5,472                                              | 5,472                                                                                          |
| Total                                                   | (32,999)                                           | (7,671)                                                                                        |

For the year ended December 31, 2024:

| Classification                                          | Total gains or losses recognized in profit or loss | Profit or loss recognized related to financial instruments held at the end of reporting period |
|---------------------------------------------------------|----------------------------------------------------|------------------------------------------------------------------------------------------------|
| Gain on financial instruments at FVTPL                  | 76,941                                             | 83,860                                                                                         |
| Loss related to derivative instruments used for hedging | (7,896)                                            | (7,896)                                                                                        |
| Total                                                   | 69,045                                             | 75,964                                                                                         |

#### 4-4 Transfers between fair value hierarchies

There is no transfer to or from Level 3 of the fair value hierarchy for each of the two years in the period ended December 31, 2025.

#### 4-5 Sensitivity analysis

The sensitivity analysis of the financial instruments classified as Level 3 from the changes in significant unobservable inputs as of December 31, 2025 and 2024 is as follows. The impact of fair value fluctuations on profit or loss or other comprehensive income is divided into favorable and unfavorable changes. The financial instruments classified as Level 3 which were excluded from the sensitivity analysis as it is practically impossible amount to ₩1,953,396 million and ₩1,606,475 million as of December 31, 2025 and 2024, respectively (KRW in millions):

As of December 31, 2025:

| Classification                               | Favorable changes | Unfavorable changes |
|----------------------------------------------|-------------------|---------------------|
| Financial assets                             |                   |                     |
| Financial assets at FVTPL                    |                   |                     |
| Equity securities (*2)                       | 529               | (226)               |
| Debt securities (*3)                         | 2,030             | (1,938)             |
| Derivative assets held for trading (*1)      | 424               | (814)               |
| Subtotal                                     | 2,983             | (2,978)             |
| Financial assets at FVOCI                    |                   |                     |
| Equity securities (*2)                       | 28,960            | (14,353)            |
| Total                                        | 31,943            | (17,331)            |
| Financial liabilities                        |                   |                     |
| Derivative liabilities held for trading (*1) | 426               | (141)               |
| Derivative liabilities used for hedging (*1) | 231               | (175)               |
| Total                                        | 657               | (316)               |

(\*1) Unfavorable and favorable changes in fair value are calculated by increasing/decreasing 10% of

- 1) correlation between rates of Interest Rate Swap ("IRS") of KRW,
- 2) correlation between rates of IRS of KRW and USD,
- 3) correlation between stock index and individual stock and
- 4) correlation between exchange rates of KRW/USD and stock index.

(\*2) Changes in fair value of equity securities are calculated by increasing/decreasing growth rate (from 0.0% to 1.0%) and discount rate (from -1.0% to 1.0%), both of which are main unobservable inputs.

(\*3) Changes in fair value of debt securities are calculated by increasing/decreasing discount rate (from -1.0% to 1.0%), which is the main unobservable input. For beneficiary securities, it is impossible in practice to assess sensitivity based on the changes in input variables but in case of those consisting of real estate, favorable or unfavorable changes in fair value are calculated by changing discount rate of lease cash flow (from -1.0% to 1.0%) and growth rate of selling price of real estate (from -1.0% to 1.0%).

As of December 31, 2024:

| Classification                               | Favorable changes | Unfavorable changes |
|----------------------------------------------|-------------------|---------------------|
| Financial assets                             |                   |                     |
| Financial assets at FVTPL                    |                   |                     |
| Equity securities (*2)                       | 257               | (106)               |
| Debt securities (*3)                         | 2,330             | (2,227)             |
| Derivative assets held for trading (*1)      | 510               | (592)               |
| Subtotal                                     | 3,097             | (2,925)             |
| Financial assets at FVOCI                    |                   |                     |
| Equity securities (*2)                       | 38,169            | (17,062)            |
| Total                                        | 41,266            | (19,987)            |
| Financial liabilities                        |                   |                     |
| Derivative liabilities held for trading (*1) | 212               | (209)               |
| Derivative liabilities used for hedging (*1) | 69                | (116)               |
| Total                                        | 281               | (325)               |

(\*1) Unfavorable and favorable changes in fair value are calculated by increasing/decreasing 10% of

- 1) correlation between rates of Interest Rate Swap ("IRS") of KRW,
- 2) correlation between rates of IRS of KRW and USD,
- 3) correlation between stock index and individual stock and 4) correlation between exchange rates of KRW/USD and stock index.

(\*2) Changes in fair value of equity securities are calculated by increasing/decreasing growth rate (from 0.0% to 1.0%) and discount rate (from -1.0% to 1.0%), both of which are main unobservable inputs.

(\*3) Changes in fair value of debt securities are calculated by increasing/decreasing discount rate (from -1.0% to 1.0%), which is the main unobservable input. For beneficiary securities, it is impossible in practice to assess sensitivity based on the changes in input variables but in case of those consisting of real estate, favorable or unfavorable changes in fair value are calculated by changing discount rate of lease cash flow (from -1.0% to 1.0%) and growth rate of selling price of real estate (from -1.0% to 1.0%).

4-6 Financial assets and liabilities that are not measured at fair value

The fair value hierarchy of financial assets and liabilities at amortized cost as of December 31, 2025 and 2024 is as follows (KRW in millions):

As of December 31, 2025:

| Classification                            | Levels of the fair value hierarchy |            |             | Total       |
|-------------------------------------------|------------------------------------|------------|-------------|-------------|
|                                           | Level 1                            | Level 2    | Level 3     |             |
| Financial assets                          |                                    |            |             |             |
| Cash and due from banks (*1)              | 2,191,825                          | 34,033,177 | –           | 36,225,002  |
| Securities at amortized cost              | 2,835,940                          | 27,661,738 | –           | 30,497,678  |
| Loans                                     | –                                  | –          | 397,168,805 | 397,168,805 |
| Other financial assets                    | –                                  | –          | 13,463,850  | 13,463,850  |
| Total                                     | 5,027,765                          | 61,694,915 | 410,632,655 | 477,355,335 |
| Financial liabilities                     |                                    |            |             |             |
| Deposits (*1)                             | –                                  | 52,379,449 | 351,474,393 | 403,853,842 |
| Borrowings (*1)                           | –                                  | 1,437,077  | 27,383,083  | 28,820,160  |

(\*1) Lease liabilities are included in other financial liabilities.

(\*2) The carrying amount is considered fair value without applying the DCF model because it is derived from various transactions and has relatively short or indefinite maturities.

#### 4-7 Deferred Day 1 profit or loss

Changes in deferred Day 1 profit or loss for each of the two years in the period ended December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                               | 2025    | 2024    |
|----------------------------------------------|---------|---------|
| Beginning balance                            | (1,197) | (1,461) |
| Amount of new accrual                        | (4,354) | 436     |
| Amounts recognized as current profit or loss | 2,302   | (172)   |
| Ending balance                               | (3,249) | (1,197) |

#### 4-8 Financial instruments transfer transaction

##### 4-8-1 Bonds sold under repurchase agreements

As of December 31, 2025 and 2024, details of financial instruments that did not meet the derecognition requirements due to the sale of securities held by the Group on condition of repurchase at a fixed price during the bonds sold under repurchase agreements are as follows (KRW in millions):

| Classification                         | December 31, 2025 |            | December 31, 2024 |            |
|----------------------------------------|-------------------|------------|-------------------|------------|
|                                        | Book value        | Fair value | Book value        | Fair value |
| Transferred asset                      |                   |            |                   |            |
| Financial assets at FVTPL              | 3,685,097         | 3,685,097  | 673,659           | 673,659    |
| Financial assets at amortized cost     | 1,449,094         | 1,440,702  | 800,420           | 785,646    |
| Total                                  | 5,134,191         | 5,125,799  | 1,474,079         | 1,459,305  |
| Related liabilities                    |                   |            |                   |            |
| Bonds sold under repurchase agreements | 4,853,370         | 4,863,108  | 1,425,039         | 1,431,511  |

#### 4-8-2 Lending securities

When lending securities held by the Group, ownership of the securities is transferred; however, the securities would be returned at the end of the rental period. Therefore, the Group continues to recognize the entire lending securities as it retains most of the risks and rewards of the securities. Details of lending securities as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                     | December 31, 2025 |            | December 31, 2024 |            |
|------------------------------------|-------------------|------------|-------------------|------------|
|                                    | Book value (*)    | Fair value | Book value (*)    | Fair value |
| Financial assets at FVTPL          | 770,186           | 770,186    | 690,390           | 690,390    |
| Financial assets at FVOCI          | 1,693,923         | 1,693,923  | 518,255           | 518,255    |
| Financial assets at amortized cost | 268,576           | 264,284    | 69,581            | 66,955     |
| Total                              | 2,732,685         | 2,728,393  | 1,278,226         | 1,275,600  |

(\*) The book value is the amount before deducting the allowance for doubtful accounts.

#### 4-8-3 Asset-backed securitization

The Group's consolidated structured companies issued asset-backed securities by securitizing their securities and loans. The Group retains the contractual right to receive cash flows from the financial assets, but the received cash flows are effectively transferred to the holder of asset-backed securities. In addition, the Group bears related risks through purchase agreements or credit exposures.

As of December 31, 2025 and 2024, details of financial instruments that were transferred, but not derecognized in relation to asset-backed securitization transactions by the Group, are as follows (KRW in millions):

| Classification      |                                       | Book value(*)     |                   |
|---------------------|---------------------------------------|-------------------|-------------------|
|                     |                                       | December 31, 2025 | December 31, 2024 |
| Transferred assets  | Financial assets at FVTPL             | 20,000            | 33,333            |
|                     | Loans at amortized cost               | 3,400,969         | 2,321,725         |

| Other financial liabilities (*)         | 36,967,509        | 36,967,509  | 35,030,122        | 35,030,122  |
| Merchant banking account liabilities    | 4,172,813         | 4,172,813   | 3,819,886         | 3,819,886   |
| Total                                   | 518,016,196       | 517,476,846 | 495,643,369       | 495,620,220 |

(\*) Lease liabilities are included in other financial liabilities.

The following standards are applied in measuring the fair value of financial instruments:

- a. Loans: Expected cash flows, current market interest rates and discount rates, including borrowers' credit risks are factors to calculate the fair value of loans. For lines of credit available for deposit and withdrawal from time to time and loans with a short-term maturity (less than three months), it is assumed that the carrying amounts approximate their fair value.
- b. Securities at amortized cost: The fair value of securities at amortized cost is as stated by the market, broker or by credible sources. If none of the information from these entities is usable, quoted market price of financial instruments with similar credit rating, maturity and return on investment is used to estimate the fair value.
- c. Deposits: For deposits without an explicit maturity period, including deposits with no interests, deposits that have a short-term maturity (less than three months) and deposits with a floating-rate readjustment period of less than three months, it is assumed that the carrying amounts approximate their fair value. The estimated fair value of fixed interest-bearing deposits is based on discounted future cash flows using interest rates for new financial liability with similar time to maturity.
- d. Borrowings: For borrowings that have a short-term maturity (less than three months) and borrowings with floating-rate readjustment period of less than three months, it is assumed that the carrying amounts approximate their fair value. The estimated fair value of fixed interest-bearing borrowings is based on discounted future cash flows using interest rates for new financial liability with similar time to maturity.
- e. Debentures: For debentures issued, the fair values are determined based on quoted market prices in active market. For those issued where quoted market prices in active market are not available, a DCF model is used based on a current interest rate yield curve appropriate for the remaining term to maturity and credit spreads.

## 6. Categories of financial assets and financial liabilities:

6-1 The Group categorizes its financial assets as of December 31, 2025 and 2024 as follows (KRW in millions):

As of December 31, 2025:

| Classification                     | Financial assets<br>at FVTPL | Financial assets<br>at FVOCI | Financial assets<br>at amortized cost | Derivatives<br>used for hedging | Total       |

(\*) Lease liabilities are included in other financial liabilities.

## 7. Offsetting financial assets and liabilities:

The Group engages in master netting agreements with counterparties through International Swaps and Derivatives Association or similar agreements in relation to over-the-counter derivatives and spot exchange transactions. Under this agreement, in the event of the counterparty's bankruptcy etc., the transaction with the counterparty will be terminated. Upon termination, the amounts to be paid or received by each party are offset and paid or received. Master netting agreements are also applied to repurchase agreements and securities lendings and borrowings.

In the case of uncollected domestic exchange receivables and unpaid domestic exchange payables between banks, as the Group holds the rights of setoff and settles in net amounts, the net amounts are presented in the consolidated statements of financial position. Other financial instruments include receivables and payables related to securities traded in the market, which are presented in net amounts in the consolidated statements of financial position as there is a legally enforceable right of setoff and intention to settle on a net basis.

7-1 Financial assets that are offset and financial assets subject to effective master netting agreements and similar arrangements as of December 31, 2025 and 2024 are as follows (KRW in millions):

As of December 31, 2025:

| Classification                                      | Gross amounts of recognized financial assets | Gross amounts of financial liabilities offset | Net amounts of financial assets presented in the consolidated financial statements | Related amounts not offset (*) |                 | Net amount |
|-----------------------------------------------------|----------------------------------------------|-----------------------------------------------|------------------------------------------------------------------------------------|--------------------------------|-----------------|------------|
|                                                     |                                              |                                               |                                                                                    | Financial instruments          | Cash collateral |            |

## 8. Risk management:

The Group is exposed to credit risk, liquidity risk, market risk and various operating risks. The objectives of risk management are to pursue economic benefits by managing the associated risk in the changing financial environment and to utilize capital efficiently.

The basic principles of risk management are as follows:

- a. maximize shareholder value by appropriately balancing risk and return to minimize sharp fluctuations in profit;
- b. adhere to established procedures to ensure that all business activities are conducted within the defined risk tolerance thresholds;
- c. risk managers monitor the types and magnitude of risks arising from changes in the potential economic value of the portfolio, and establish risk management strategies to ensure the efficient use of resources and optimal allocation of capital; and
- d. foster an environment that actively attracts, develops, and retains talent to achieve its risk management objectives.

The basic policies in order to realize the basic principles of risk management are as follows:

- a. set and comply with allowable limits for each risk type;
- b. establish an appropriate balance between income and associated risk;
- c. when a conflict between income and associated risk exists, the Group pursues income while complying with the allowable risk limits;
- d. prioritize the distribution of risk in order to avoid risk concentration in certain areas;
- e. analyze the effect of various market fluctuations on parts or the entire portfolio on a regular basis; and
- f. separate risk management segments, operational segments and other segments, which deal with trade confirmations and payments in order to maintain independence.

## 8-1 Strategy and procedure of risk management

### 8-1-1 Operation of and setting risk limits

The Group established and operates a limit management system to maintain an appropriate level of risk relative to the equity capital held. The Risk Management Committee approves total risk limits and limits by types of risks, taking into account of capital, business plans, risk management regulations and institutional changes within the risk level that the Group can manage. The Risk Management Operation Committee sets up and allocates other operational limits (e.g., by organization, product, investment and loss) to comply with allowable limits for each type of risk, as approved by the Risk Management Committee, and periodically checks the status of limit management.

### 8-1-2 Risk measurement and management

The Group prepares the appropriate risk measurement methods considering the nature of risks and measures them by the types of risks. Risk measurement and evaluation results are regularly reviewed and reported to the Risk Management Committee, Risk Management Operation Committee and management. Risk measurement and evaluation results are also used for daily business management activities, such as establishment of business plan and management strategy.

### 8-1-3 Operation of risk management information system

In order to provide advanced risk management in a rapidly changing financial environment that meets the new Bank for International Settlements ("BIS") standards, the Group has established and adopted a credit risk-weighted assets ("RWAs") calculation system based on Basel 3 regulation since March 2021. The market/operational RWA has been calculated based on Basel 3 standard model since January 2023.

#### 8-1-4 Operation of crisis management system

The Group operates a crisis management system that can respond effectively to the crises caused by drastic changes in the internal and external management environment. The Group operates an early warning system in order to respond to the drastic changes in the financial market in a consistent and systematic manner. In the event of an anomaly, the holding company declares the level of crisis at the group level, and the Group analyzes the impact on the portfolio in accordance with the step-by-step response plan and carries out specific countermeasures.

#### 8-2 Organization and structure of risk management

The risk management organization consists of the Risk Management Committee, the Risk Management Operation Committee under the Risk Management Committee within the board of directors, the risk management officer and the organization in charge of risk management, which are the top decision-making bodies for the risk management. The organization in charge of risk management, independent from operating segment, manages risk limits and risk management policies.

##### 8-2-1 Risk Management Committee

The Risk Management Committee regularly holds meeting once every quarter and resolves the establishment and management of allowable limits for risks, establishment and changes in risk management policies and reviews the results of the management of allowable risk limits and suitability tests of risk management system.

##### 8-2-2 Risk Management Operation Committee

The Risk Management Operation Committee is responsible for setting and allocating specific operational limits to comply with the allowable limits for each type of risk as resolved by the Risk Management Committee, adjusting the internal capital limit between business units within the same risk type and carrying out risk management policies and strategies set by the Risk

Management Committee, including preliminary deliberations on the agenda items.

### 8-2-3 Organization in charge of risk management

The Risk Management Group is composed of Comprehensive Risk Management team, Credit Risk Management team and Credit Supervision team. The Risk Management Group is independent of operating and investment segments and manages the execution of risk management policies. The Comprehensive Risk Management team oversees the market, interest rate, liquidity, operational risk and middle office and supports the Risk Management Committee and the Risk Management Operation Committee. The Credit Risk Management team oversees credit risk and credit concentration risk. The Credit Supervision team oversees the loans and early warning system.

### 8-3 Credit risk

Credit risk is a risk incurred when the Group faces a loss because its customers or counterparties fail to discharge their contractual obligations. Credit risk arises from on-balance and off-balance accounts, including loans, derivatives, securities, financial guarantee agreements and other guarantees.

#### 8-3-1 Management of credit risk

##### 8-3-1-1 Loans

##### 8-3-1-1-1 Measurement of credit risk

To determine the possibility of bankruptcy for its customers or counterparties, the Group uses various methods comprehensively. Risks pertaining to the retail sector compared to those pertaining to the corporate sector are relatively easy to predict, but cyclical and seasonal factors may influence the outcomes.

The frequency of impairment loss in the overall retail sector is relatively high, but in terms of individual cases, the loss rate is lower than in the corporate sector. Based on these differences, the Group manages each sector differently in terms of credit rating, pricing and subsequent management.

As for the business customers, the branch managers and Credit Rating team carry out the credit risk assessment by using a detailed valuation model, depending on the size and the nature of the industry. The corporate financial valuation model is further subdivided based on the characteristics of the loans and is a combination of statistical and expert valuation models. Also, the Loan Review team of the Credit Risk Management regularly performs the subsequent reviews in order to establish adequacy of the credit grading. As for the retail sector, a credit scoring system is used to compute the credit scores of the borrower. The system includes an application scoring model, which is used for the application of loans, and a behavioral scoring model, which has been used after handling the loans.

Expected loss is calculated using the expected default rate based upon the historical default rate and the estimated loss rate gives a rise to the default rate from a collection of historical information. A measured expected loss is reflected on the client's interest rate and allowances when applying for or renewing a loan. Unexpected loss, which takes into account the allowance for potential volatility in the actual loss compared to the expected loss, is measured using the K-function under the Basel III Internal Ratings-Based (IRB) approach. The value measured is used as a credit risk reference value in capital allocation and is reflected as a part of the unexpected loss when calculating interest rates.

### 8-3-1-1-2 Management of credit risk

#### 8-3-1-1-2-1 Management process

Both retail and corporate sectors are developing and operating a credit risk management system appropriately designed for each sector. The Credit Risk Management Committee and the Credit Rating team measure and manage credit risks for the corporate sector; the Credit Risk Management Committee and the Personal Loans Committee measure and manage credit risks for the retail sector. The Group manages as well as controls the credit risk by setting the limits on the amount of risk willing to accept for individual counterparties and for geographical and industry concentration, and by monitoring exposures relating to such limits. The Group reviews on a monthly basis in accordance with the economic conditions and industry characteristics and examines the adequacy of the limits on a quarterly basis. The Group continuously examines the adequacy of credit rating models for retail and corporate sectors, Probability of Default ("PD"), Loss Given Default ("LGD") and Exposure at Default ("EAD") and manages data related to the estimation of the credit rating models, PD, LGD and EAD.

#### 8-3-1-1-2-2 Credit limits management and capital allocation

The Group annually performs a comprehensive analysis on economic conditions and changes in the economic environment in order to appropriately assess the credit quality of financial assets by setting credit limits on same entities, industries, countries and financial instruments. In addition, for the unexpected loss management, the Group regularly sets, distributes and checks for the compliance maintenance of internal capital limits according to the corporate and household sectors and the size of clients through the risk management system.

#### 8-3-1-1-2-3 Risk monitoring and early warning system

The Group measures and manages the risk indicators, such as delinquency rate, roll rate and vintage. Also, in order to assess the credit quality of the assets, the Group operates an early warning system and regularly examines companies whose credit rating is likely to degrade.

#### 8-3-1-1-2-4 Credit rating system

In order to separately evaluate the characteristics of clients in the corporate sector, the Group operates a detailed valuation model based on the external and non-external audit and is in the process of continuing the stability of the corporate credit rating system through the subsequent examinations and performance improvements. The Group operates a detailed valuation model based on the credit rating model and the activity rating model for the household sector, in accordance with the client's characteristics. The Group improves the efficiency of the model through the subsequent examinations and performance improvements. Credit rating on new clients, as well as an automatic renewal and adjustments to the credit limits, are managed by the household and Small Office and Home Office ("SOHO") credit extension system.

#### 8-3-1-1-2-5 Examination of credit

For a large amount of credit line, after the approval of credit extension, the Group regularly examines the borrower's credit status and the adequacy of the borrower's credit rating as part of the subsequent management process. In addition, the Group significantly focuses on industries by increasing credit risks based on the analysis of the risk indicators and examines the sample for smaller credit extensions.

#### 8-3-1-1-2-6 Risk mitigation policy

The Group obtains the collateral for the granted loans in order to reduce risks. Guidelines are implemented regarding the acceptability of types of collateral and valuation parameters. The main types of the collateral obtained are as follows:

- a. residential properties in relation to mortgage loans;
- b. business assets, such as equipment, plants and real estate properties; and
- c. financial instruments, such as deposits, debt and equity securities.

#### 8-3-1-2 Debt securities

The Group trades the debt securities above the investment-grade status level in order to manage the credit risks and manage the exposure of credit ratings to maintain credit quality of the assets.

#### 8-3-1-3 Derivative instruments

The credit risk arising from the derivative instruments is managed based on the net position and maintained under a strict control limit. The degree of credit risk exposure is measured based on the positive fair values of derivative instruments. The Group manages the exposure as a part of the unused commitment of loans.

#### 8-3-2 Significant increase in credit risk

The Group measures the ECL for debt instruments at amortized cost or FVOCI in three stages as described below:

##### 8-3-2-1 Stage 1: 12-month ECL

For financial assets, whose credit risk has not increased significantly since initial recognition, ECLs that result from default events that are possible within 12 months after the reporting date are recognized.

##### 8-3-2-2 Stage 2: Lifetime ECL

For financial assets, whose credit risk has increased significantly, but not impaired, since initial recognition, ECLs that result from all possible default events over the expected life of the financial instrument are recognized.

##### 8-3-2-3 Stage 3: Lifetime ECL

A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Lifetime ECL is recognized for credit-impaired financial assets and interest income is recognized using the EIR on amortized cost.

The Group assesses at each reporting date whether the credit risk increases significantly compared to that of initial recognition, using internal and external credit rating information, early warning system and number of days past due.

#### 8-3-2-4 Occurrence of default

The Group considers that a default has occurred for financial assets on the following situations:

- a. when receivables are sold despite an economic loss;
- b. when receivables have decreased due to adjustments resulting in an exemption of principal, interest or related fees or delayed payments; and
- c. when the borrower has been declared bankrupt or has declared bankruptcy or has taken other similar measures to delay or avoid repayments.

#### 8-3-2-5 Method for determining whether a financial asset is credit impaired

A financial asset is deemed impaired if, and only if, there is objective evidence of impairment as a result of one or more events, which have occurred after the initial recognition of the item (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows, such as changes in arrears or economic conditions, which correlate with defaults, delinquency in interest for more than 90 days, credit information management rules and damages incurred due to poor exposure.

### 8-3-3 Measurement of ECL

ECL is measured at the probability-weighted amounts of the present value of all cash shortfalls over the expected life of the financial instrument. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the Group expects to receive.

However, the Group adjusts historical data, such as credit loss experience, on the basis of current observable data to reflect the effects of the current conditions and its forecasts of future conditions that did not affect the period on which the historical data is based and to remove the effects of the conditions in the historical period that are not relevant to the future contractual cash flows. Also, the Group measures ECL using the macroeconomic factors, such as the growth rate, interest rate and stock indices. The methodology for future economic forecasts is regularly reviewed.

If the credit risk on financial instruments, for which lifetime ECLs have been recognized, subsequently improves so that the requirement for recognizing lifetime ECL is no longer met, the loss allowance should be measured at an amount equal to 12-month ECL.

### 8-3-4 Write-off policy

Financial assets are written off when an entity has no reasonable expectations of recovering the contractual cash flows on a financial asset in its entirety or a portion thereof. Generally, financial assets are written off when it is determined that the Group is not able to generate sufficient cash flows to make repayments. However, financial assets written off can be recovered by the Group.

### 8-3-5 The maximum exposure to credit risk

The maximum exposure to credit risk as of December 31, 2025 and 2024 is as follows. The following table shows the maximum exposure to credit risk before the effect of mitigation through credit enhancement and collateral agreements, and reflects the impairment losses and offsetting. Equity securities in financial assets at FVTPL and financial assets at FVOCI are excluded (KRW in millions):

| Classification                      | December 31, 2025 | December 31, 2024 |
|-------------------------------------|-------------------|-------------------|
| On-balance-sheet items              |                   |                   |
| Due from banks                      | 34,033,177        | 32,867,673        |
| Financial assets at FVTPL           |                   |                   |
| Debt securities                     | 17,889,378        | 16,040,603        |
| Derivative assets held for trading  | 8,134,532         | 14,733,205        |
| Private convertible bonds           | 8,174             | 8,350             |
| Subtotal                            | 26,032,084        | 30,782,158        |
| Financial assets at FVOCI           | 39,711,628        | 37,399,721        |
| Securities at amortized cost        | 30,774,643        | 33,966,179        |
| Derivative assets used for hedging  | 20,891            | 20,774            |
| Loans                               | 396,923,416       | 367,214,258       |
| Other financial assets              | 13,463,850        | 14,654,073        |

#### 8-4 Liquidity risk

The Group defines liquidity risk as the possibility of incurring losses due to a temporary shortage in funds caused by a maturity mismatch or an unexpected capital outlay leading to rise in interest or sale of assets at a price below normal price.

##### 8-4-1 Measurement of liquidity risk

The Group maintains a limit management indicator to measure the liquidity coverage ratio, liquidity ratio in foreign currency, net stable funding ratio, foreign currency maturity mismatch ratio and long-term access to financing ratio in foreign currency in accordance with the guidelines and standards of the Financial Supervisory Service. In addition, the Group maintains a monitoring indicator to measure unbalance of funding, etc., to manage the liquidity risk and manage early warning indicators in order to identify worsening trends in the early stage to respond in a timely manner.

##### 8-4-2 Management of liquidity risk

At an early stage, the Group identifies factors affecting liquidity in order to manage liquidity risks and has achieved an adequate level of liquidity via performing systematic management.

The Group has the following basic principles for liquidity risk management:

- a. set and comply with liquidity risk limits, and coordinate and manage early warning indicators to identify liquidity risk at an early stage;
- b. regularly execute an analysis of stress tests and prepare an emergency procurement plan in case of liquidity;
- c. focus on maintaining a diversified portfolio in order to avoid excessive concentrations of risks; and
- d. evaluate and manage the effect of a large amount of money, which is loaned out, invested or procured on liquidity risks.

In order to manage liquidity risk, the Group builds internal control systems for each department. In order to comply with liquidity ratios and the maturity mismatch ratio set by the Financial Supervisory Service, the Comprehensive Risk Management department conducts daily monitoring. Liquidity risk status is reported to the Risk Management Operation Committee on a monthly basis and to the Risk Management Committee on a quarterly basis.

In order to maintain the liquidity risk management indicators to stay within acceptable limits, the Treasury department recommends the necessary measures in relation to the procurement and operation of the assets and liabilities traded in the capital market. In addition, stages of emergency planning have been established in order to respond to liquidity emergencies.

#### 8-4-3 Analysis of contract maturity

##### 8-4-3-1 Analysis criteria

The details of the remaining contractual maturities of financial liabilities are analyzed by the earliest maturity date when the Group would be required to pay based on the undiscounted cash outflows of the Group's financial liabilities.

In addition, financial liabilities at FVTPL and depository liabilities (payment on demand) are shown at fair value in the immediate payment column. All derivatives used for hedging are presented based on the net cash flows, as all products are paid in the net amount. A contract maturity exists in payment guarantees that correspond to financial guarantees, such as bond issuance and loan security provided by the Group, loan commitment and other credit granting. However, payment must be made immediately once the counterparty requests payment. As such, they are included in the immediate payment column.

8-4-3-2 The remaining contractual maturities of financial liabilities and off-balance-sheet items

The remaining contractual maturities of financial liabilities and off-balance-sheet items as of December 31, 2025 and 2024 are as follows (KRW in millions):

As of December 31, 2025:

| Classification                          | On demand   | Less than<br>1 month | 1 month<br>~ 3 months | 3 months<br>~ 1 year | 1 year<br>~ 5 years | More than<br>5 years | Total       |
|-----------------------------------------|-------------|----------------------|-----------------------|----------------------|---------------------|----------------------|-------------|
| On-balance-sheet items                  |             |                      |                       |                      |                     |                      |             |
| Financial liabilities                   |             |                      |                       |                      |                     |                      |             |

Assets available for use to execute unused loan commitments after redeeming all financial liabilities are cash and bank deposits, debt securities, equity securities and loans. In addition, the Group is able to cope with unexpected cash outflows through the sale of securities and additional sources of funding, such as asset-backed securitization.

## 8-5 Market risk

Market risk is a risk incurred in assets and liabilities subject to management based on the changes in market prices, such as interest rate, stocks, foreign exchange, etc.

### 8-5-1 Market risk management

The purpose of market risk management is to manage the loss of assets and liabilities incurred due to changes in market variables, such as interest rates, foreign exchanges and equity prices to remain within the allowable limits in order to ensure profitability and stability.

### 8-5-2 Market risk management targets

Market risk management targets include marketable securities, foreign currency net positions, derivatives and other assets and liabilities with embedded market risks. The Group classifies exposures to market risk into either trading or non-trading positions and manages each of those portfolios separately.

### 8-5-3 Management of market risk related to trading position

#### 8-5-3-1 Trading account classification

A trading account is a concept of a trading book and refers to a set of products held for short-term trading purposes, etc., and there should be no legal restrictions on selling or completely hedging products that are to be classified as trading accounts. Specifically, the following financial products are classified as trading accounts, excluding products that cannot be classified as trading accounts and bank account products:

- a. financial instruments for the short-term trading;
- b. financial instruments for the purpose of hedging risks;
- c. financial instruments for the purpose of acquiring arbitrages;
- d. from A to C, hedge of other goods held for any of the purposes;
- e. financial instruments included in the Correlation Trading Portfolio ("CTP");
- f. financial instruments that generate credit or stock net selling positions in bank accounts

(\*); and

- g. underwriting arrangements for securities that are actually expected to be purchased on the settlement date.

(\*) credit or stock net selling positions in bank accounts: Bank account positions whose current value rises as issuer credit spreads of debt instruments expand or share prices fall

#### 8-5-3-2 Management of the trading position limits

The Risk Management Committee divides capital, annual loss and exposure limit in relation to market risks of the trading position by business unit (division) annually. Within the given limit, the Risk Management Operation Committee further subdivides the limits by business units (divisions) and desks. The Risk Management Group provides information necessary for deliberation and review by the committee, reports trading limits and measures risks.

The middle office performs mark-to-market measures and monitors trade violations and compliance with the limits. The middle office establishes and complies with trading policy regulations, measures market risk for trading positions and checks daily compliance within the acceptable limits for each risk. The office also conducts daily inspections of changes in the management exposure, compliance with the limit, post verification and crisis analysis, and reports the results to the management team every day.

#### 8-5-3-3 Market Risk Measurement (Basel 3 Standard)

The basic calculation method for managing and measuring the exposure of trading account products to market risks is calculated by dividing them into sensitivity risk, default risk and residual risk. Sensitivity risk refers to the risk of loss due to changes in market risk factors, such as exchange rates, interest rates and stock prices. The risk of default refers to the risk of loss due to bankruptcy of bonds or stock issuers.

The Bank excludes structural foreign exchange positions approved by the Governor of the Financial Supervisory Service from the scope of market risk

capital requirements from December 31, 2024.

The currencies designated as structural foreign exchange positions are AED (United Arab Emirates), BRL (Brazil), CNY (China), IDR (Indonesia), INR (India), MXN (Mexico), PHP (Philippines), RUB (Russia), and TWD (Taiwan).

#### 8-5-3-4 Amount of risk by risk type

Details of regulated capital by market risk group as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                | Risk type                                        | December 31, 2025 | December 31, 2024 |
|-------------------------------|--------------------------------------------------|-------------------|-------------------|
| Sensitivity Risk Charge       | General interest rate risk                       | 51,465            | 41,732            |
|                               | Credit spread risk ("CSR") (Non-securitizations) | 46,565            | 33,871            |
|                               | CSR (securitizations (Non-CTP))                  | –                 | –                 |
|                               | CSR (securitization (CTP))                       | –                 | –                 |
|                               | Equity risk                                      | 33,229            | 20,548            |
|                               | Foreign exchange risk (*)                        | 283,751           | 269,426           |
|                               | Commodity risk                                   | –                 | –                 |
| Default Risk Charge           | Non-securitizations                              | 30,242            | 34,343            |
|                               | Securitizations (Non-CTP)                        | –                 | –                 |
|                               | Securitizations (CTP)                            | –                 | –                 |
| Residual Risk Add-On ("RRAO") | RRAO                                             | 1,409             | 760               |
| Total                         |                                                  | 446,661           | 400,680           |

(\*) Structural foreign exchange positions approved by the FSS are excluded from the calculation of regulatory capital.

#### 8-5-4 Management of market risk related to non-trading position

Interest rate risk of non-trading position is a risk of losses in financial assets and liabilities with interest rates due to adverse changes in interest rates and is incurred when maturity structure does not match interest rate setting cycle of the related assets and liabilities. The Group manages the interest rate risks of non-trading position in order to maintain the stability of net interest income and net asset value based on changes in interest rates. The following is subject to the Group's management of interest rate risk:

- a. financial assets with interest rates, such as bank deposits, debt securities and loans
- b. financial liabilities with interest rates, such as depository liabilities, borrowings and debentures; and
- c. financial derivatives, such as interest rate swaps.

Interest rate risk is calculated using the gap between interest-sensitive assets and liabilities. The interest rate risks measure the interest rate gap ratio as a primary indicator, while Economic Value of Equity (" $\Delta$ EVE"), Net Interest Income (" $\Delta$ NII") ratio and duration are used as secondary indicators. The Risk Management Committee and the Risk Management Operation Committee establish the interest rate risk limits on an annual basis; the compliance thereof is reported to Risk Management Operation Committee as well as the Risk Management Committee on a monthly and quarterly basis, respectively.

△EVE refers to changes in the economic value of equity capital, indicating the effect of adverse changes in interest rates on the present value of assets, liabilities and others. as of December 31, 2025 and 2024, the Group's △EVE is as follows (KRW in millions):

| Classification | December 31,<br>2025 | Average   | Minimum | Maximum   | December 31,<br>2024 |
|----------------|----------------------|-----------|---------|-----------|----------------------|
| △EVE           | 502,248              | 1,813,617 | 502,248 | 2,205,640 | 2,097,932            |

△EVE calculates the maximum value compared to the default scenario by applying six interest rates (parallel rise, parallel fall, short-term fall and long-term rise, short-term rise and long-term fall and short-term rise and short-term fall) after generating cash flows for interest-sensitive assets and liabilities under Appendix 9-1 of the *Detailed Regulations on Supervision of Banking Business*.

## 8-5-5 Currency risk concentration

Currency risk is a risk incurred when the value of a financial instrument or future cash flows fluctuates due to the changes in foreign exchange rates. Currency risk arises from the financial instruments expressed in currencies other than the functional currency. Currency risk does not arise from the financial instruments expressed in the functional currency or in non-monetary items. In order to establish the stop loss and limits, the Group manages the foreign exchange net exposure amount of the trading and non-trading positions by each currency.

The amounts of Korean equivalents of significant foreign currency assets and liabilities as of December 31, 2025 and 2024 are as follows (KRW in millions):

As of December 31, 2025:

| Classification                          | USD        | JPY       | EUR       | CNY        | IDR       | Others     | Total      |
|-----------------------------------------|------------|-----------|-----------|------------|-----------|------------|------------|
| <b>Assets</b>                           |            |           |           |            |           |            |            |

## 8-6 Operating risk

Operational risk is the risk of loss arising from system failure, human error, fraud or other external events. Risks related to legal or regulatory implications are identified as operational risks, but risks related to the strategy of damaging reputation are excluded from operational risks. Operational risk includes losses from internal operational problems and externalities, such as natural disasters, etc., and legal lawsuit, but excludes losses from policy decision errors or unmeasurable reputation damage, etc. Operational risk does not have a direct correlation with income and the Group needs to mitigate such risk through internal controls and insurance.

Operating risk capital is calculated by multiplying the Business Indicator Component based on consolidated financial statements and the internal loss multiplier ("ILM"). The business index factor is calculated based on the consolidated financial statements by multiplying the annual average of interest-lease dividend factors, service factors and financial transaction factors over the past three years by the factor of each section. The ILM is the log function value of the loss element and the business index element, and the loss element is calculated by multiplying the average annual loss amount generated internally by the Bank over the past 10 years by 15.

The Risk Management Committee determines the operational risk limits. In case, the excess limit is expected, the management plan for the excess of internal capital limits should be reported to the Risk Management Operation Committee and if additional limits are given, an approval from the Risk Management Committee is needed beforehand. If the limit is exceeded due to the occurrence of an exceptional situation, an ex post facto approval from the Risk Management Committee is needed for the information on exceeded amount and post hoc results, as well as the subsequent plans.

## 8-7 Capital management

The Group implements the BIS capital requirement system in order to secure the capital adequacy and comply with the supervisory regulations. By BIS regulation, the Group keeps its BIS capital adequacy ratio (hereinafter, "BIS ratio") above the minimum BIS ratio for the RWAs. In addition, the Group performs a capital adequacy assessment in order to cope with an unexpected loss.

RWAs, which are calculated per each risk type when calculating BIS ratio, are as follows.

- a. RWAs of credit risk are calculated using the basic internal ratings-based approach. The Group uses the permanent standardized approach for governments, banks, public institutes, overseas exposure, other assets, etc.
- b. RWAs for the market risk are calculated by multiplying the market risk capital requirement under the standardized approach by 12.5.
- c. RWAs of the operational risk are calculated by multiplying 12.5 to the amount of operational risk capital calculated by the standardized approach for the Group and basic indicator approach for its subsidiaries.

Regulatory capital in accordance with the Regulations on the Supervision of Banking Business for calculating BIS ratio is as follows.

- a. Common equity: Capital incurred in connection with common stock issued to meet the eligible requirement, capital surplus and capital adjustments, retained earnings, accumulated other comprehensive income and other capital surplus, capital adjustments, non-controlling interest on common shares issued by banks, affiliated subsidiaries, etc.
- b. Other basic capital: The capital securities to meet accreditation requirements of other basic capital, capital surplus associated with the issuance of the other basic capital, non-qualifying capital securities and the accredited amount as other basic capital of a non-controlling interest on equity securities issued by a subsidiary, etc.
- c. Supplementary capital: The capital securities to meet supplementary capital accreditation requirements, capital surplus associated with the issuance of supplementary capital, the accredited amount of supplementary capital of non-qualifying capital securities, the accredited amount as supplementary capital of a non-controlling interest on equity securities issued by a subsidiary, eligible allowance for possible loan losses on "normal" or "precautionary" category assets, allowance for possible loan losses in excess of the total amount of expected losses, etc.

Regulatory capital and BIS ratios as of December 31, 2025 and 2024, are as follows (KRW in millions):

| Classification                                                                                                                          | December 31, 2025 | December 31, 2024 |

(\*) The equity below the lowest limit is presented in credit risk-weighted assets.

#### 8-7-1 Internal capital adequacy assessment and management

Internal capital is the amount that allows for continuous operation of business while accounting for all risks. Internal capital is defined as the size of capital needed to cope with an unexpected loss under a certain rate. The purpose of managing the internal capital is to compare the size of internal capital and available capital (Tier 1) and to serve as a measure of financial strength.

Managing the internal capital also provides the amount of risk-adjusted capital and basic measurement. The indicators are composed of the risk appetite ratio as well as exhaustion ratio of foreign holding limits. The risk appetite ratio is an internal capital ratio established after taking into consideration a capital buffer in Tier 1 capital. The exhaustion ratio of foreign holding limits is a ratio used to measure the amount of internal capital used against the internal capital limits.

Internal capital limits are established after accounting for the size of current and subsequent Tier 1 capital, as well as the components, quality, risk appetite, target credit rating, operational strategy and business plans. The Risk Management Committee determines risk types and the internal capital limits for the Group more than once a year. In the case where new operations or the expansion of operations results in the amount exceeding the internal capital limits, an approval from the Risk Management Committee is needed beforehand. If such a situation occurs in cases outlined as exceptions, an approval from the Risk Management Committee is needed for the information on exceeded amount and post hoc results, as well as the subsequent plans.

## 9. Operating segment information:

### 9-1 General information

In order to set strategies to achieve goal and efficiently conduct performance assessment, the business sectors of the Group are divided by the operations as follows.

- a. Operating group segment: It consists of four groups (Center, Yeongnam, Chungcheong and Honam). It offers household loan and deposit, retirement pension, company loan, deposit, etc.
- b. Capital market segment: This segment offers investment and operation of securities, buying and selling of public bonds and development and operation of derivatives.
- c. Other segment: It consists of the overseas business segment, headquarters supporting segment, trust segment, risk segment, audit segment and after-management segment.

## 9-2 Profit or loss by operating segment

9-2-1 Details of net income by operating segments for each of the two years in the period ended December 31, 2025 and 2024 are as follows (KRW in millions):

For the year ended December 31, 2025:

| Classification                        | Operating group segments |             |             |           | Finance sector and other sectors | Subtotal     | Adjustments | Total        |
|---------------------------------------|--------------------------|-------------|-------------|-----------|----------------------------------|--------------|-------------|--------------|
|                                       | Center                   | Yeongnam    | Chungcheong | Honam     |                                  |              |             |              |
| Net interest income                   | 4,544,449                | 740,868     | 676,556     | 210,828   | 1,900,471                        | 8,073,172    | (369)       | 8,072,803    |

| Ending balance                        | 325,002,599  | 42,132,707                   | 1,551,152                | 368,686,458 |

Net deferred origination fees and costs are not reflected in the gross carrying amounts above.

15-5 Among loan receivables for which loss allowance has been measured based on lifetime ECL, the amortized cost of the loan receivables whose contractual cash flows have changed for each of the two years in the period ended December 31, 2025 and net gain from the change are as follows (KRW in millions):

| Classification                   | For the year<br>ended December 31, 2025 | For the year<br>ended December 31, 2024 |
|----------------------------------|-----------------------------------------|-----------------------------------------|
| Amortized cost before change     | 659                                     | 101,891                                 |
| Allowances before change         | 8                                       | 100,070                                 |
| Amount after deducting allowance | 651                                     | 1,821                                   |
| Net gain due to change           | (11)                                    | 16,967                                  |

15-6 Loans whose contractual cash flows changed for which the measurement of allowance for loan losses changed from the lifetime ECL to 12-month ECL on initial recognition during the reporting period do not exist as of December 31, 2025 and 2024.

15-7 The contractual amount of the uncollected loans that have been fully written off at the end of the reporting period but for which collection activities are continuing is ₩3,690,982 million and ₩3,906,403 million as of December 31, 2025 and 2024 respectively.

16. Derivative instruments:

16-1 Details of the amounts of unsettled derivative contracts and fair values of derivatives held by the Group as of December 31, 2025, and 2024 are as follows (KRW in millions):

| Classification           | Amounts of unsettled contract |                   | Accumulated valuation gain (loss) |             |                   |             |
|--------------------------|-------------------------------|-------------------|-----------------------------------|-------------|-------------------|-------------|

- (\*1) These companies were included in investment in associates because the Group has significant influence over them by participating in the Board of Directors' meeting, the decision-making organization.
- (\*2) As the consolidated financial statements as of December 31, 2025 could not be obtained, the most recent consolidated financial statements available from the closing date were used. The effect of significant transactions or events incurred between the end of the reporting period of the associate and that of the Group was reviewed and reflected.
- (\*3) As of December 31, 2025, the Group classified the investee as an associate investment stock because it could not exercise control over the investee.
- (\*4) As of December 31, 2025, the application of the equity method has been suspended because the balance of the investment account is below "0".
- (\*5) Since more than one investor must act together to direct related activities, the equity method was applied because the Group could not control the investee individually.
- (\*6) Through a comprehensive share exchange transaction without commercial substance, the Group disposed of its 12.89% equity interest in Beijing Langzi Asset Management Co., Ltd. and acquired a 12.89% equity interest in ALAN Holdings Limited.
- (\*7) Changed its name from NPX-Welcome Metaverse Contents New Technology Association.
- (\*8) Due to the disposal of interests or the decrease in ownership to less than 20%, the Group no longer exercises significant influence, and the investment has been excluded from investments in associates and joint ventures.

17-2 The financial information on the Group's associates and a joint venture as of December 31, 2025 and 2024 is as follows (KRW in millions):

As of December 31, 2025:

| Classification                                                            | Assets      | Liabilities | Equity     | Operating income | Net income (loss) | Total comprehensive income (loss) | Dividends received |

19. Investment properties:

19-1 Details of investment properties as of December 31, 2025 and 2024 are as follows (KRW in millions):

As of December 31, 2025:

| Classification | Acquisition cost | Accumulated depreciation | Accumulated impairment loss | Government grants | Book value |
|----------------|------------------|--------------------------|-----------------------------|-------------------|------------|
| Land           | 334,637          | –                        | (3,125)                     | –                 | 331,512    |
| Buildings      | 295,794          | (144,813)                | (1,225)                     | (511)             | 149,245    |
| Total          | 630,431          | (144,813)                | (4,350)                     | (511)             | 480,757    |

As of December 31, 2024:

| Classification | Acquisition cost | Accumulated depreciation | Accumulated impairment loss | Government grants | Book value |
|----------------|------------------|--------------------------|-----------------------------|-------------------|------------|
| Land           | 465,097          | –                        | (3,125)                     | –                 | 461,972    |
| Buildings      | 405,361          | (188,104)                | (1,225)                     | (980)             | 215,052    |
| Total          | 870,458          | (188,104)                | (4,350)                     | (980)             | 677,024    |

19-2 Changes in investment properties for each of the two years in the period ended December 31, 2025 and 2024 are as follows (KRW in millions):

For the year ended December 31, 2025:

| Classification    | Beginning balance | disposal | Depreciation | Transfer (*) | Ending balance |
|-------------------|-------------------|----------|--------------|--------------|----------------|
| Land              | 461,972           | (4,556)  | –            | (125,904)    | 331,512        |
| Buildings         | 216,032           | (2,104)  | (11,970)     | (52,202)     | 149,756        |
| Government grants | (980)             | –        | 469          | –            | (511)          |
| Total             | 677,024           | (6,660)  | (11,501)     | (178,106)    | 480,757        |

(\*) The amount represents the change in the carrying amount of investment properties held by the Group due to the change in the ratio of lease occupancy.

For the year ended December 31, 2024:

| Classification    | Beginning balance | disposal | Depreciation | Transfer (*) | Ending balance |
|-------------------|-------------------|----------|--------------|--------------|----------------|
| Land              | 463,948           | (9,802)  | –            | 7,826        | 461,972        |
| Buildings         | 213,460           | (1,512)  | (16,328)     | 20,412       | 216,032        |
| Government grants | (1,885)           | –        | 905          | –            | (980)          |
| Total             | 675,523           | (11,314) | (15,423)     | 28,238       | 677,024        |

(\*) The amount represents the change in the carrying amount of investment properties held by the Group due to the change in the ratio of lease occupancy.

19-3 Details of the composition of investment properties, fair value, and valuation techniques used in the measurement as of December 31, 2025 and 2024 are as follows. (KRW in millions):

| Classification     | Fair value (*)    |                   | Description of the valuation techniques                                     | Inputs used in the fair value measurement    |
|--------------------|-------------------|-------------------|-----------------------------------------------------------------------------|----------------------------------------------|
|                    | December 31, 2025 | December 31, 2024 |                                                                             |                                              |
| Land and buildings | 908,083           | 1,404,372         | Appraised value of land reference method and estimates based on cost method | Appraised value of land and refinancing cost |

(\*) The fair value of investment property is classified as Level 3 of fair value hierarchy as it reflects the most recent market transaction price, followed by individual third-party transaction condition, and significant input factor, which is not predictable.

19-4 Rental income and operating expenses arising from the Group's investment properties for each of the two years in the period ended December 31, 2025 are as follows (KRW in millions):

| Classification                                                                       | 2025  | 2024   |
|--------------------------------------------------------------------------------------|-------|--------|
| Rental income                                                                        | 9,719 | 10,189 |
| Operating cost directly related to investment properties that generate rental income | 571   | 566    |

20. Intangible assets:

20-1 Details of intangible assets as of December 31, 2025 and 2024 are as follows (KRW in millions):

As of December 31, 2025:

| Classification             | Acquisition cost | Accumulated amortization | Accumulated impairment loss | Government grants | Book value |
|----------------------------|------------------|--------------------------|-----------------------------|-------------------|------------|
| Goodwill                   | 892              | –                        | –                           | –                 | 892        |
| Industrial property rights | 3,053            | (2,647)                  | –                           | –                 | 406        |
| Core deposits              | 5,961            | (5,245)                  | –                           | –                 | 716        |
| Software                   | 474,593          | (324,189)                | –                           | –                 | 150,404    |
| Systems development costs  | 1,416,211        | (1,156,734)              | (46)                        | (2)               | 259,429    |
| Memberships                | 28,068           | –                        | (2,950)                     | –                 | 25,118     |
| Others                     | 485,659          | (305,717)                | (33)                        | –                 | 179,909    |
| Total                      | 2,414,437        | (1,794,532)              | (3,029)                     | (2)               | 616,874    |

As of December 31, 2024:

| Classification             | Acquisition cost | Accumulated amortization | Accumulated impairment loss | Government grants | Book value |
|----------------------------|------------------|--------------------------|-----------------------------|-------------------|------------|
| Goodwill                   | 892              | –                        | –                           | –                 | 892        |

(\*) ₩33,138 million of amortization of other intangible assets is included in other operating expenses.

21. Non-current assets held for sale:

Details of non-current assets held for sale as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification              | December 31, 2025 | December 31, 2024 |
|-----------------------------|-------------------|-------------------|
| Acquisition cost (*)        | 26,227            | 31,738            |
| Accumulated impairment loss | (3,767)           | (4,008)           |
| Book value                  | 22,460            | 27,730            |
| Net fair value              | 22,460            | 27,730            |

(\*) Acquisition cost is presented as net of accumulated depreciation before classification as non-current assets held for sale.

Non-current assets held for sale are composed of 112 collaterals acquired for the purpose of repayment of loans and other one item of which the sale is currently in progress as of December 31, 2025.

22. Other assets and merchant banking account assets:

22-1 Details of other assets as of December 31, 2025 and 2024 are as follows  
(KRW in millions):

| Classification                     | December 31, 2025 | December 31, 2024 |
|------------------------------------|-------------------|-------------------|
| Guarantee deposits paid            | 613,793           | 603,392           |
| Accounts receivable                | 9,282,051         | 9,246,077         |
| Accrued income                     | 1,717,001         | 1,753,111         |
| Prepaid expenses                   | 362,587           | 209,089           |
| Suspense payments                  | 411,410           | 370,747           |
| Supplies                           | 2,245             | 2,379             |
| Deposit money to court             | 5,447             | 8,973             |
| Domestic exchange settlement debit | 1,823,327         | 3,028,351         |
| Other miscellaneous assets         | 181,130           | 187,501           |
| Allowance for other assets         | (17,472)          | (33,364)          |
| Total                              | 14,381,519        | 15,376,256        |

22-2 Changes in allowances for other assets for each of the two years in the period ended December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                                     | 2025     | 2024    |
|----------------------------------------------------|----------|---------|
| Beginning balance                                  | 33,364   | 11,503  |
| Provisions(Reversals) of allowance for loan losses | (23,270) | 25,615  |
| Write-offs                                         | (684)    | (504)   |
| Sales of non-performing loans, etc.                | (605)    | (220)   |
| Collection of loans written off in prior year      | 268      | 416     |
| Interest income on impaired assets                 | (9)      | (12)    |
| Exchange rate fluctuation and others               | 8,408    | (3,434) |
| Ending balance                                     | 17,472   | 33,364  |

22-3 Details of merchant banking account assets as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                                    |                          | December 31, 2025 | December 31, 2024 |
|---------------------------------------------------|--------------------------|-------------------|-------------------|
| On-balance-sheet items:                           |                          |                   |                   |

| Other banks                  | 27,250,291        | 22,535,064        |
| Public institutions          | 19,055,625        | 20,745,641        |
| Other financial institutions | 62,308,073        | 52,702,149        |
| Government                   | 5,893,681         | 6,848,106         |
| Non-profit corporations      | 17,666,270        | 18,527,756        |
| Foreign organizations        | 2,372,267         | 2,027,298         |
| Others                       | 6,649,740         | 6,136,170         |
| Total                        | 404,250,619       | 387,192,160       |

24. Financial liabilities at FVTPL:

24-1 Details of financial liabilities at FVTPL as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                          | December 31, 2025 | December 31, 2024 |
|-----------------------------------------|-------------------|-------------------|
| Securities borrowed                     | 357,316           | 460,301           |
| Derivative liabilities held for trading | 7,316,857         | 14,342,968        |
| Total                                   | 7,674,173         | 14,803,269        |

24-2 Details of financial liabilities designated at FVTPL as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification           | December 31, 2025 | December 31, 2024 |
|--------------------------|-------------------|-------------------|
| Deposits                 | 454,485           | 321,777           |
| Debentures in Korean won | 133,680           | 50,620            |
| Total                    | 588,165           | 372,397           |

Financial liabilities are designated at FVTPL in order to eliminate or significantly reduce a measurement or recognition inconsistency.

24-3 The difference between the book value and maturity amount of the financial liabilities designated at FVTPL as of December 31, 2025 and 2024 is as follows (KRW in millions):

| Classification               | December 31, 2025 | December 31, 2024 |
|------------------------------|-------------------|-------------------|
| Book value                   | 588,165           | 372,397           |
| Repayment amount at maturity | 660,000           | 400,000           |
| Difference                   | (71,835)          | (27,603)          |

## 25. Borrowings:

Details of borrowings as of December 31, 2025 and 2024 are as follows  
(KRW in millions):

| Classification                                               | Lenders                                   | Annual interest rate (%) | December 31, 2025 | December 31, 2024 |
|--------------------------------------------------------------|-------------------------------------------|--------------------------|-------------------|-------------------|
| Borrowings in Korean won                                     |                                           |                          |                   |                   |
| BOK borrowings                                               | BOK                                       | 1.00                     | 4,953,261         | 4,001,857         |
| Government borrowings                                        | Korea Development Bank, etc.              | 0.50~4.09                | 2,678,255         | 2,350,422         |
| Other borrowings                                             | Korea Energy Management Corporation, etc. | 0.00~3.50                | 5,838,581         | 4,659,630         |
| Subtotal                                                     |                                           |                          | 13,470,097        | 11,011,909        |
| Borrowings denominated in foreign currencies                 |                                           |                          |                   |                   |
| Bank overdrafts                                              | Foreign banks, etc.                       | 0.00~9.50                | 273,819           | 524,253           |
| Other borrowings                                             | SC, HSBC, OCBC, CITI, JP, etc.            | 0.00~6.50                | 8,740,060         | 9,986,029         |

## 26. Debentures:

Details of debentures as of December 31, 2025 and 2024 are as follows  
(KRW in millions):

| Classification                                                | Lenders            | Annual interest rate (%) | December 31, 2025 | December 31, 2024 |
|---------------------------------------------------------------|--------------------|--------------------------|-------------------|-------------------|
| Debentures in Korean won                                      |                    |                          |                   |                   |
| Debentures                                                    | Institutions       | 1.78~6.00                | 25,294,424        | 20,730,000        |
| Subordinated debentures                                       | Institutions, etc. | 2.14~4.76                | 2,721,124         | 3,321,124         |
| Net loss on fair value hedges (current period)                |                    |                          | (154,977)         | (4,811)           |
| Net loss on fair value hedges (prior to previous fiscal year) |                    |                          | (34,520)          | (29,550)          |
| Less: present value discount                                  |                    |                          | (10,741)          | (7,580)           |
| Subtotal                                                      |                    |                          | 27,815,310        | 24,009,183        |
| Debentures in foreign currencies                              |                    |                          |                   |                   |
| Debentures                                                    | Institutions       | 0.01~5.75                | 7,419,020         | 5,921,928         |
| Net gain on fair value hedges (current period)                |                    |                          | 91,484            | 38,405            |
| Net loss on fair value hedges (prior to previous fiscal year) |                    |                          | (137,662)         | (176,067)         |
| Less: present value discount                                  |                    |                          | (15,313)          | (14,433)          |
| Subtotal                                                      |                    |                          | 7,357,529         | 5,769,833         |
| Total                                                         |                    |                          | 35,172,839        | 29,779,016        |

## 27. Net defined benefit liabilities

### 27-1 Details of net defined benefit liabilities

Details of net defined benefit liabilities as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                              | December 31, 2025 | December 31, 2024 |
|---------------------------------------------|-------------------|-------------------|
| Present value of defined benefit obligation | 2,522,468         | 2,482,644         |
| Fair value of plan assets                   | (2,166,431)       | (2,011,738)       |
| Net defined benefit liabilities             | 356,037           | 470,906           |

### 27-2 Defined benefit obligation

#### 27-2-1 Changes in present value of defined benefit obligation

Changes in the present values of defined benefit obligation for each of the two years in the period ended December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                             | 2025      | 2024      |
|--------------------------------------------|-----------|-----------|
| Beginning balance                          | 2,482,644 | 2,221,636 |
| Current service cost                       | 151,636   | 138,130   |
| Interest cost                              | 86,613    | 90,539    |
| Remeasurements                             | 17,397    | 200,127   |
| Benefits paid                              | (215,835) | (169,030) |
| Changes due to transfer between affiliates | 683       | 383       |
| Others                                     | (670)     | 859       |
| Ending balance                             | 2,522,468 | 2,482,644 |

27-2-2 The total costs recognized in accordance with defined benefit plans  
The total costs incurred in relation to defined benefit pension plans for each of  
the two years in the period ended December 31, 2025 and 2024 are as follows  
(KRW in millions):

| Classification                 | 2025     | 2024     |
|--------------------------------|----------|----------|
| Current service cost           | 151,636  | 138,130  |
| Interest cost                  | 86,613   | 90,539   |
| Interest income on plan assets | (69,343) | (82,592) |
| Total                          | 168,906  | 146,077  |

27-2-3 Weighted-average duration of defined benefit obligation as of December  
31, 2025 and 2024 is 7.88 years and 7.58 years, respectively.

## 27-3 Actuarial assumptions

### 27-3-1 Principal assumptions for the actuarial valuation method

Principal assumptions for the actuarial valuation method as of December 31, 2025 and 2024 are as follows:

As of December 31, 2025:

| Classification          | Rate(%) | Content                               |
|-------------------------|---------|---------------------------------------|
| Demographic assumptions |         |                                       |
| Death rate              | 0.02    | Korea Insurance Development Institute |
| Retirement rate         | 9.88    | –                                     |
| Financial assumptions   |         |                                       |
| Wage growth rate        | 5.38    | Average of past 5 years               |
| Discount rate           | 4.01    | Return rate of AAA corporate bond     |

As of December 31, 2024:

| Classification          | Rate(%)     | Content                               |
|-------------------------|-------------|---------------------------------------|
| Demographic assumptions |             |                                       |
| Death rate              | 0.004~0.045 | Korea Insurance Development Institute |
| Retirement rate         | 6.89        | –                                     |
| Financial assumptions   |             |                                       |
| Wage growth rate        | 5.79        | Average of past 5 years               |
| Discount rate           | 3.65        | Return rate of AAA corporate bond     |

### 27-3-2 Sensitivity analysis of actuarial assumptions

Changes in the present values of defined benefit liability due to changes in the principal actuarial assumptions as of December 31, 2025 and 2024 are as follows (KRW in millions):

As of December 31, 2025:

| Classification   | Present value of defined benefit liability | 1% point increase | 1% point decrease |
|------------------|--------------------------------------------|-------------------|-------------------|
| Discount rate    | 2,522,468                                  | 2,318,013         | 2,685,314         |
| Wage growth rate | 2,522,468                                  | 2,686,036         | 2,314,276         |

As of December 31, 2024:

| Classification   | Present value of defined benefit liability | 1% point increase | 1% point decrease |
|------------------|--------------------------------------------|-------------------|-------------------|
| Discount rate    | 2,482,644                                  | 2,286,286         | 2,644,597         |
| Wage growth rate | 2,482,644                                  | 2,645,265         | 2,282,654         |

## 27-4 Plan assets

### 27-4-1 Changes in the fair values of plan assets

Changes in the fair values of plan assets for each of the two years in the period ended December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                                        | 2025      | 2024      |
|-------------------------------------------------------|-----------|-----------|
| Beginning balance                                     | 2,011,738 | 2,048,061 |
| Employer Contributions                                | 230,846   | 656       |
| Interest income on plan assets                        | 69,343    | 82,592    |
| Remeasurements of the net defined benefit liabilities | (5,053)   | (13,951)  |
| Benefit paid                                          | (141,168) | (106,005) |
| Changes due to transfers between affiliates           | 725       | 385       |
| Ending balance                                        | 2,166,431 | 2,011,738 |

### 27-4-2 Details of plan assets

Details of plan assets as of December 31, 2025 and 2024 are as follows (KRW in millions):

As of December 31, 2025:

| Classification | Active market price exists | Active market price inexists | Total     |
|----------------|----------------------------|------------------------------|-----------|
| Time deposits  | —                          | 568,457                      | 568,457   |
| Others(*)      | —                          | 1,597,974                    | 1,597,974 |
| Total          | —                          | 2,166,431                    | 2,166,431 |

(\*) Guaranteed income contracts and equity-linked bonds, etc., are included.

As of December 31, 2024:

| Classification | Active market price exists | Active market price inexists | Total     |
|----------------|----------------------------|------------------------------|-----------|
| Time deposits  | –                          | 748,831                      | 748,831   |
| Others(*)      | –                          | 1,262,907                    | 1,262,907 |
| Total          | –                          | 2,011,738                    | 2,011,738 |

(\*) Guaranteed income contracts and equity-linked bonds, etc., are included.

27-4-3 The Group expects to contribute ₩127,462 million in next year in relation to the defined benefit plans.

27-5 Remeasurements of the net defined benefit liabilities (assets)

Remeasurements of the net defined benefit liabilities (assets) as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                                                              | 2025     | 2024      |
|-----------------------------------------------------------------------------|----------|-----------|
| Actuarial gains and losses                                                  |          |           |
| Effects on changing financial assumptions                                   | 16,184   | (121,915) |
| Effects on changing demographic assumptions                                 | –        | 263       |
| Others                                                                      | (33,581) | (78,475)  |
| Subtotal                                                                    | (17,397) | (200,127) |
| Return on plan assets                                                       |          |           |

| ****Word Co., Ltd.             | 10,000  | Won               | In progress<br>(Second trial) | Compensation for damages               |

28-8 The Fair Trade Commission's investigation into whether commercial banks, including the Group, engaged in unfair collaborative practices related to LTV regulation and government bond yields is ongoing, and the results cannot be predicted as of December 31, 2025.

28-9 In connection with the crisis in Ukraine having occurred in February 2022, international sanctions against the Russian Federation could affect companies and individuals subject to the sanctions, as well as companies, industries and economies that do business directly or indirectly with Russia. As of the reporting date, the Group expects the sanctions will have a financial impact on the business of KEB Hana Bank Russia, a subsidiary of Group, but cannot reasonably estimate the impact.

29. Other liabilities and merchant banking account liabilities:

29-1 Details of other liabilities as of December 31, 2025 and 2024 are as follows (KRW in millions):

### 30. Capital stock and other paid-in capital:

30-1 Details of capital stock as of December 31, 2025 and 2024 are as follows (KRW in millions and shares):

| Classification                      | December 31, 2025 | December 31, 2024 |
|-------------------------------------|-------------------|-------------------|
| Number of shares authorized         | 2,000,000,000     | 2,000,000,000     |
| Par value per share (in Korean won) | 5,000             | 5,000             |
| Number of shares issued             | 1,071,915,717     | 1,071,915,717     |
| Common stock                        | 5,359,578         | 5,359,578         |

30-2 Details of capital surplus and capital adjustments as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification      | December 31, 2025 | December 31, 2024 |
|---------------------|-------------------|-------------------|
| Capital surplus (*) | 6,161,038         | 6,161,303         |
| Capital adjustments |                   |                   |
| Others              | (37,652)          | (37,652)          |
| Total               | 6,123,386         | 6,123,651         |

(\*) As of December 31, 2025, the Group's capital surplus includes the amount recognized at the time of the business combination under common control.

30-3 Details of hybrid securities as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                          | Issuance date | Expiry date | Annual interest rate (%) | December 31, 2025 | December 31, 2024 |
|-----------------------------------------|---------------|-------------|--------------------------|-------------------|-------------------|
| Hybrid securities in foreign currencies | Oct. 19, 2021 | –           | 3.50                     | 353,738           | 353,738           |

The Group can early repay the above hybrid securities in foreign currencies at the time of five years from the issuance date or at every interest payment date (every six months) after five years from the issuance date if the Group receives the approval from the Governor of Financial Supervisory Service.

31. Accumulated other comprehensive income (loss):

Changes in accumulated other comprehensive income (loss) for each of the two years in the period ended December 31, 2025 are as follows (KRW in millions):

For the year ended December 31, 2025:

| Classification                                                          | Beginning balance | Increase (decrease) (excluding reclassification and transfer of retained earnings) | Transfer of retained earnings | Changes in ownership interest in subsidiaries | Reclassification (*) | Tax effects | Ending balance |
|-------------------------------------------------------------------------|-------------------|------------------------------------------------------------------------------------|-------------------------------|-----------------------------------------------|----------------------|-------------|----------------|
| Gain (Loss) on valuation of financial assets at FVOCI                   | (274,944)         | 146,755                                                                            | 618                           | (2)                                           | (141,167)            | 2,545       | (266,195)      |

| Total                                                                   | (1,104,045)       | 825,159                                                                            | (203,425)                     | (113,945)            | (66,197)    | (662,453)      |

(\*) Gains (Losses) on the valuations of debt securities at FVOCI that were recognized in accumulated other comprehensive income (loss) were reclassified as profit or loss due to disposal of the debt securities.

### 32. Retained earnings:

32-1 Details of retained earnings as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                                      | December 31, 2025 | December 31, 2024 |
|-----------------------------------------------------|-------------------|-------------------|
| Legal reserve                                       |                   |                   |
| Earned surplus reserve (*1)                         | 2,991,500         | 2,678,700         |
| Voluntary reserve                                   |                   |                   |
| Revaluation reserves on property and equipment (*2) | 203,898           | 203,898           |
| Other reserves (*3)                                 | 123,919           | 116,594           |
| Regulatory reserve for bad debts (*4)               | 2,678,944         | 2,492,716         |
| Other voluntary reserves                            | 5,450,200         | 5,450,200         |
| Subtotal                                            | 8,456,961         | 8,263,408         |
| Unappropriated retained earnings                    | 13,215,214        | 11,789,424        |
| Total                                               | 24,663,675        | 22,731,532        |

(\*1) Article 40 of the Banking Law of the Republic of Korea requires the Group to appropriate at least 10% of net income after income tax to legal reserve every time it pays dividends, until such reserve equals 100% of its paid-in capital. This reserve is restricted in use except for reducing deficit or being transferred to capital.

(\*2) The Group had recognized gains on revaluation of property and equipment in other comprehensive income. At the first-time adoption of KIFRS, the revaluation amount under the previous accounting standard was recognized as deemed cost and the revaluation gain was recorded in revaluation reserves. The reserve is recognized in distributable retained earnings when the relevant property and equipment are disposed of.

(\*3) Relevant Japanese regulations require the Group's overseas branches located in Japan to appropriate a minimum of 10% of net income for the period as a legal reserve, until the reserve equals one-fourth of its capital. This reserve is restricted in use until liquidation of the Japanese branches. In addition, the

legal reserves of the Group's overseas branches located in Chennai, Panama, Singapore, Hanoi, Ho Chi Minh, Abu Dhabi and Hong Kong are appropriated in accordance with the relevant regulation of each country.

(\*4) The Group has provided allowances for possible loan losses in accordance with KIFRS. The difference between this amount and the mandatory allowance reserves under the minimum accumulation ratio required by Financial Supervisory Service ("FSS") is appropriated as regulatory reserve for bad debts.

32-2 Changes in retained earnings for each of the two years in the period ended December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                                                                                    | 2025        | 2024        |
|---------------------------------------------------------------------------------------------------|-------------|-------------|
| Beginning balance                                                                                 | 22,731,532  | 21,050,087  |
| Net income                                                                                        | 3,747,484   | 3,356,409   |
| Dividends                                                                                         | (1,800,000) | (1,810,000) |
| Distributions on hybrid capital securities                                                        | (14,902)    | (14,422)    |
| Reclassification of valuation gain or loss on equity securities at FVOCI upon derecognition, etc. | (439)       | 149,721     |
| Others                                                                                            | —           | (263)       |
| Ending balance                                                                                    | 24,663,675  | 22,731,532  |

### 32-3 Dividends

Details of calculation on dividends for common stock for each of the two years in the period ended December 31, 2025 and 2024 are as follows (KRW in millions and shares in units):

| Classification                                                                          | 2025 (*1)     | 2024          |
|-----------------------------------------------------------------------------------------|---------------|---------------|
| Number of dividend shares                                                               | 1,071,915,717 | 1,071,915,717 |
| Par value per share (in Korean won)                                                     | 5,000         | 5,000         |
| Dividend ratio                                                                          | 35.45%        | 33.77%        |
| Dividend per share (in Korean won)                                                      | 1,772.53      | 1,688.57      |
| Dividends                                                                               | 1,900,000     | 1,810,000     |
| Net income (*2)                                                                         | 3,747,484     | 3,356,409     |
| Dividend payout ratio based on net income                                               | 50.70%        | 53.93%        |
| Adjusted income after deducting provisions for bad debt reserve (*2)                    | 3,643,406     | 3,134,695     |
| Dividends payout ratio based on adjusted income after deducting provisions for bad debt | 52.15%        | 57.74%        |

(\*1) The dividend for 2025 will be presented at the annual general meeting of shareholders, which is scheduled on March 20, 2026.

(\*2) Adjusted profit after reflecting net income and reserves for bad debts is the amount based on the parent company's ownership stake.

### 33. Regulatory reserve for bad debts:

Regulatory reserves for bad debts are calculated and disclosed in accordance with Article 29, Section 1 and 2 of Regulation on Supervision of Banking Business of the Republic of Korea.

33-1 Details of regulatory reserves for bad debts as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                           | December 31, 2025 | December 31, 2024 |
|------------------------------------------|-------------------|-------------------|
| Beginning balance                        | 2,799,116         | 2,577,402         |
| Planned provision for regulatory reserve | 104,078           | 221,714           |
| Ending balance                           | 2,903,194         | 2,799,116         |

33-2 Required provisions for regulatory reserves and income adjusted for the regulatory reserves for each of the two years in the period ended December 31, 2025 are as follows (KRW in millions):

| Classification                                                                                   | 2025      | 2024      |
|--------------------------------------------------------------------------------------------------|-----------|-----------|
| Net income attributable to equity holders of the parent before deducting provisions for bad debt | 3,747,484 | 3,356,409 |
| Reversal of (provision for) bad debt reserve                                                     | (104,078) | (221,714) |
| Adjusted income after deducting provisions for bad debt                                          | 3,643,406 | 3,134,695 |
| Basic EPS adjusted after reflecting reserve for bad debt (*1) (in Korean won)                    | 3,385     | 2,911     |
| Diluted EPS adjusted after reflecting reserve for bad debt (*2) (in Korean won)                  | 3,385     | 2,911     |

(\*1) The amounts deducted from the adjusted income after regulatory reserve in the calculation of EPS after regulatory reserve for bad debt for the year ended December 31, 2025 and 2024 are ₩14,902 million and 14,422 million, respectively.

(\*2) Since the Group does not have dilutive potential ordinary stock, basic EPS is the same as diluted EPS.

34. Operating income and operating expenses:

34-1 Operating income for each of the two years in the period ended December 31, 2025 is as follows (KRW in millions):

| Classification                                     | 2025       | 2024       |
|----------------------------------------------------|------------|------------|
| Interest income                                    | 18,654,756 | 20,285,966 |
| Fees and commission income                         | 1,094,024  | 1,026,474  |
| Gains on financial instruments at FVTPL            | 19,092,766 | 33,585,874 |
| Gains on fair value hedging derivative instruments | 386,461    | 97,707     |

(\*) Deferred tax assets and deferred tax liabilities arising from overseas subsidiaries and overseas branches were not offset because the tax authorities were different.

The effective income tax rate of 27.5% as of December 31, 2025, is applied when calculating deferred tax assets or liabilities. Also, deferred tax assets are recognized when it is foreseeable that future taxable income will be incurred and

that future tax credits will be realized.

47-4 The unrealizable temporary differences on investments in associates as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                   | December 31, 2025 | December 31, 2024 |
|----------------------------------|-------------------|-------------------|
| Deductible temporary differences | 456,907           | 343,162           |
| Taxable temporary differences    | (355,579)         | (355,579)         |
| Total                            | 101,328           | (12,417)          |

47-5 Changes in deferred taxes charged (credited) directly to equity for each of the two years in the period ended December 31, 2025 and 2024 are as follows (KRW in millions):

As of December 31, 2025:

| Classification                                                           | December 31, 2025 | December 31, 2024 | Changes |
|--------------------------------------------------------------------------|-------------------|-------------------|---------|

| Reclassification of valuation gain or loss on equity securities at FVOCI |                   |                   | (53,704)  |
| Total                                                                    |                   |                   | (119,901) |

#### 47-6 Global minimum taxation

As the Group is subject to the global minimum taxation in accordance with Pillar Two Model Rules published by OECD, the Group is obliged to pay surtax on the difference between the effective tax rate of each jurisdiction where the constituent entities of the Group operate and 15% of minimum tax rate. Accordingly, the Group recognized ₩896 million of Pillar Two taxes for the year ended December 31, 2025.

48. Earnings per share:

48-1 The weighted-average number of common stocks for each of the two years in the period ended December 31, 2025 are as follows (shares):

| Classification    | years                        | Number of shares | Weights | Weighted-average number of ordinary shares |
|-------------------|------------------------------|------------------|---------|--------------------------------------------|
| December 31, 2025 | Jan. 1, 2025 – Dec. 31, 2025 | 1,071,915,717    | 365/365 | 1,071,915,717                              |
| December 31, 2024 | Jan. 1, 2024 – Dec. 31, 2024 | 1,071,915,717    | 366/366 | 1,071,915,717                              |

Since the Group does not have potentially dilutive common stock, the weighted-average number of common stock outstanding per basic share is the same as the weighted-average number of shares of common stock outstanding per diluted share.

48-2 Basic earnings per share for each of the two years in the period ended December 31, 2025 and 2024 is calculated as follows (KRW in millions, except per share amounts):

| Classification                                                 | 2025          | 2024          |
|----------------------------------------------------------------|---------------|---------------|
| Net income for the period attributable to owners               | 3,747,484     | 3,356,409     |
| Dividends on hybrid equity securities                          | (14,902)      | (14,422)      |
| Total                                                          | 3,732,582     | 3,341,987     |
| Weighted-average number of shares of common stocks outstanding | 1,071,915,717 | 1,071,915,717 |
| Basic earnings per share (*) (in Korean won)                   | 3,482         | 3,118         |

(\*) Basic earnings per share is the same as diluted earnings per share for each of the two years in the period ended December 31, 2025.

#### 49. Share-based payment:

The Group operates a Performance Share Plan (PSP). The PSP is a cash-settled share-based compensation scheme linked to the shares of its Parent company, Hana Financial Group Inc. Under the plan, the number of shares to be paid in cash is determined based on performance over a three-year period from the grant date.

49-1 Details of liabilities related to share-based payment and total intrinsic value of rights accounted for as accounts payable in case that option holders achieve rights to receive cash or other assets as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                                           | December 31, 2025 | December 31, 2024 |
|----------------------------------------------------------|-------------------|-------------------|
| Book value of liabilities related to share-based payment |                   |                   |
| Performance share (granted by the Group)                 | 53,581            | 29,950            |

49-2 The compensation to employees expensed for each of the two years in the period ended December 31, 2025 and 2024 is as follows (KRW in millions):

| Classification                                         | 2025   | 2024   |
|--------------------------------------------------------|--------|--------|
| Costs recognized due to share-based payment            |        |        |
| Equity-linked special incentive (granted by the Group) | 31,647 | 14,851 |

49-3 Details of performance-linked stocks granted to the executives and department head of the Group as of December 31, 2025 are as follows:

| Classification                    | 12th                            | 13th                            | 14th                            | 15th                            |
|-----------------------------------|---------------------------------|---------------------------------|---------------------------------|---------------------------------|
| Granted by                        | Hana Bank                       | Hana Bank                       | Hana Bank                       | Hana Bank                       |
| Grant date                        | Jan. 01, 2022                   | Jan. 01, 2023                   | Jan. 01, 2024                   | Jan. 01, 2025                   |
| Payment date                      | Dec. 31, 2024                   | Dec. 31, 2025                   | Dec. 31, 2026                   | Dec. 31, 2027                   |

| Shares at settlement<br>date (*1) | 131,567 shares                  | 219,757 shares                  | 188,169 shares                  | 80,013 shares                   |

(\*1) The Group provides the executives and department head of the Group with the right to receive stocks. The number of stocks granted is adjusted based on the performance. The number of stocks granted is adjusted based on the assessment criteria consisting of the Group's performance (relative shareholders' rate of return) of 40% and the Bank's performance (ROE, net income, soundness) of 60%. Meanwhile, for the 15th grant, performance adjustments are based on a composite evaluation metric composed of Group Performance (Relative Shareholder Return) accounting for 35%, and Bank Performance (including ROE, Net Income, and Asset Soundness) accounting for 65%.

50. Cash flow information:

50-1 Details of cash and cash equivalents as of December 31, 2025 and 2024 are as follows (KRW in millions):

| Classification                                                                | December 31, 2025 | December 31, 2024 |
|-------------------------------------------------------------------------------|-------------------|-------------------|
| Cash                                                                          | 2,191,825         | 2,165,192         |
| Due from banks in Korean won                                                  | 12,540,695        | 11,930,280        |
| Due from banks in foreign currencies                                          | 21,492,482        | 20,937,392        |
| Subtotal                                                                      | 36,225,002        | 35,032,864        |
| Deposits restricted in use (*)                                                | 1,886,110         | 3,763,074         |
| Deposits with a maturity of more than three months at the time of acquisition | 49,993            | 314,597           |
| Net amount                                                                    | 34,288,899        | 30,955,193        |

(\*) The amount above excludes reserve deposits that meet the definition of cash equivalents.

50-2 Significant transactions not involving cash inflows and outflows for each of the two years in the period ended December 31, 2025 are as follows (KRW in millions):

| Classification                                                       | 2025    | 2024    |
|----------------------------------------------------------------------|---------|---------|
| Recognition in right-of-use assets                                   | 122,732 | 430,158 |
| Recognition in lease liabilities                                     | 101,313 | 405,719 |
| Change in valuation of financial assets at FVOCI                     | 8,778   | 422,970 |
| Transfer from property, plant and equipment to investment properties | 178,106 | 28,238  |
| Changes in equity on investments in associates                       | 126,254 | 276,053 |
| Exchange differences on translation of foreign operations            | 11,579  | 444,804 |
| Conversion of investment                                             | —       | 17,982  |

50-3 Reconciliation of liabilities arising from financing activities for each of the two years in the period ended December 31, 2025 and 2024 is as follows (KRW in millions):

For the year ended December 31, 2025:

| Classification                              | Beginning balance | Financing activities | Exchange rate fluctuation | Fair value hedging | Acquisition and termination of lease | Others  | Ending balance |
|---------------------------------------------|-------------------|----------------------|---------------------------|--------------------|--------------------------------------|---------|----------------|
| Borrowings                                  | 24,257,346        | 5,259,393            | (732,845)                 | 17,201             | –                                    | 1       | 28,801,096     |
| Debentures                                  | 29,829,635        | 5,343,337            | 209,105                   | (83,376)           | –                                    | 7,818   | 35,306,519     |
| Lease liabilities                           | 804,342           | (209,642)            | 1,991                     | –                  | 101,313                              | (4,063) | 693,941        |
| Derivative instruments used for hedging (*) | 301,718           | 350                  | –                         | (36,856)           | –                                    | (689)   | 264,523        |
| Total                                       | 55,193,041        | 10,393,438           | (521,749)                 | (103,031)          | 101,313                              | 3,067   | 65,066,079     |

(\*) The amount offset between liabilities and assets.

For the year ended December 31, 2024:

| Classification                              | Beginning balance | Financing activities | Exchange rate fluctuation | Fair value hedging | Acquisition and termination of lease | Others   | Ending balance |

| Share-based payment         | 12,289 | 6,361  |

## OFFERING CIRCULAR

### KEB Hana Bank

*(incorporated with limited liability under the laws of the Republic of Korea)*

## U.S.\$10,000,000,000 Global Medium Term Note Programme

This offering circular (this “**Offering Circular**”) supersedes and replaces in its entirety all previous offering circulars and any supplements or amendments thereto, including the immediately preceding offering circular dated 5 April 2024, in relation to the U.S.\$10,000,000,000 Global Medium Term Note Programme (as amended, supplemented or restated, the “**Programme**”) of KEB Hana Bank (the “**Issuer**,” the “**Bank**” or “**Hana Bank**”). The Programme was originally established on 17 May 1995. Any Notes (as defined below) issued under the Programme on or after the date of this Offering Circular are issued subject to the provisions described herein. This Offering Circular does not affect any Notes issued before the date of this Offering Circular.

Under the Programme, the Issuer may from time to time issue notes in bearer and/or registered form (respectively, “**Bearer Notes**” and “**Registered Notes**”, and together, the “**Notes**”, which expression includes Senior Notes and Subordinated Notes (as defined herein)) denominated in any currency agreed between the Issuer and the relevant Dealer (as defined below).

The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed U.S.\$10,000,000,000 (or its equivalent in other currencies calculated as described herein).

In relation to any Tranche (as defined under “*Terms and Conditions of the Notes*”) of Notes, the Issuer may act through its principal office in Korea or through any of its branches, in each case as indicated in the applicable Pricing Supplement (as defined below).

The Notes may be issued on a continuing basis to one or more of the Dealers specified under “*Summary of the Programme*” and any additional Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis (each a “**Dealer**”, and together, the “**Dealers**”). References in this Offering Circular to the “**relevant Dealer**” shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe for such Notes.

Approval in-principle has been received from the Singapore Exchange Securities Trading Limited (the “**Singapore Stock Exchange**”) in connection with the Programme and application will be made for the listing and quotation of Notes that may be issued pursuant to the Programme and which are agreed, at or prior to the time of issue thereof, to be so listed on the Singapore Stock Exchange. Such permission will be granted when such Notes have been admitted for listing and quotation on the Singapore Stock Exchange. The Singapore Stock Exchange assumes no responsibility for the correctness of any of the statements made, opinions expressed or reports contained herein. Approval in-principle from, admission to the Official List of, and listing and quotation of any Notes on, the Singapore Stock Exchange are not to be taken as an indication of the merits of the Issuer, the Programme or the Notes. Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions not contained herein which are applicable to each Tranche of Notes will be set out in a pricing supplement (the “**Pricing Supplement**”) a copy of which, with respect to Notes to be listed on the Singapore Stock Exchange, will be submitted to the Singapore Stock Exchange before the date of listing of the Notes of such Tranche.

The Programme provides that Notes may be listed on such other or further stock exchange(s) as may be agreed between the Issuer and the relevant Dealer. The Issuer may also issue unlisted Notes.

**See “Investment Considerations” for a discussion of certain factors to be considered in connection with an investment in the Notes.**

The Notes have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “**Securities Act**”) and may not be offered or sold in the United States or to, or for the benefit of, U.S. persons (as defined in Regulation S under the Securities Act) unless the Notes are registered under the Securities Act or an exemption from the registration requirements of the Securities Act is available. See “*Form of the Notes*” for a description of the manner in which Notes will be issued. Registered Notes are subject to certain restrictions on transfer, see “*Subscription and Sale and Transfer and Selling Restrictions*”.

**Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore (the “SFA”) –** Unless otherwise stated in the Pricing Supplement in respect of any Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

The Issuer may agree with any Dealer that Notes may be issued in a form not contemplated by the Terms and Conditions of the Notes herein, in which event a supplementary Offering Circular, if appropriate, will be published which will describe the effect of the agreement reached in relation to such Notes.

The date of this Offering Circular is 29 September 2025.

The Issuer, having made all reasonable enquiries, accepts responsibility for this Offering Circular, and confirms that this Offering Circular contains all information which is material in the context of the Programme, that the information contained in this Offering Circular is true and accurate in all material respects and is not misleading, that the opinions and intentions expressed in this Offering Circular are honestly held and that there are no other facts the omission of which would make any of such information or the expression of any such opinions or intentions misleading.

This Offering Circular is to be read in conjunction with all documents which are deemed to be incorporated herein by reference (see “*Documents Incorporated by Reference*” below). This Offering Circular shall be read and construed on the basis that such documents are incorporated and form part of this Offering Circular.

No representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Dealers as to the authenticity, origin, validity, accuracy or completeness of the information contained or incorporated by reference in this Offering Circular or any supplement hereto or any other information provided by or purported to be provided by the Arranger, the Dealers or the Issuer in connection with the Programme, the Issuer or issue and offering of the Notes. No Dealer accepts any liability in relation to the information contained or incorporated by reference in this Offering Circular or any other information provided by the Arranger, the Dealers or the Issuer in connection with the Programme, the Issuer or issue and offering of the Notes. Each Dealer and its affiliates accordingly disclaim all and any liability whether arising in tort or contract or otherwise which it might otherwise have in respect of this Offering Circular or any such information.

None of the Dealers is responsible for the assessment of the Issuer’s Sustainable Financing Framework. The Issuer’s Sustainable Financing Framework, the Second Party Opinion and any other similar opinion (including any content of websites or webpages references to which hyperlinks are included in this Offering Circular) does not form part of, nor is incorporated by reference in, this Offering Circular.

No person is or has been authorised by the Issuer to give any information or to make any representation not contained in or not consistent with this Offering Circular or any other information supplied in connection with the Programme or the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer or any of the Dealers.

Neither this Offering Circular nor any other information supplied in connection with the Programme or any Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation or constituting an invitation or offer by the Issuer or any of the Dealers that any recipient of this Offering Circular or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Offering Circular nor any other information supplied in connection with the Programme or any Notes constitutes an offer or invitation by or on behalf of the Issuer or any of the Dealers to any person to subscribe for or to purchase any Notes.

Neither the delivery of this Offering Circular nor the offering, sale or delivery of any Notes shall in any circumstances imply that the information contained herein concerning the Issuer is correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. The Dealers expressly do not undertake to review the financial condition or affairs of the Issuer during the life of the Programme or to advise any investor in the Notes of any information coming to their attention. Investors should review, *inter alia*, the most recently published financial statements of the Issuer when deciding whether or not to purchase any Notes.

The Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to U.S. persons, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”), and the regulations promulgated thereunder.

This Offering Circular does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Offering Circular and the offer or sale of Notes may be restricted by law in certain jurisdictions. The Issuer and the Dealers do not represent that this document may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating

any such distribution or offering. In particular, no action has been taken by the Issuer or the Dealers which would permit a public offering of any Notes or distribution of this document in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Dealers have represented that all offers and sales by them will be made on the same terms. Persons into whose possession this Offering Circular or any Notes come must inform themselves about, and observe, any such restrictions on the distribution of this Offering Circular and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Offering Circular and the offer or sale of Notes in the United States, the European Economic Area, the United Kingdom, Japan, Hong Kong, Singapore, Canada, United Arab Emirates (including the Dubai International Finance Centre), Switzerland and Korea. For a description of these and certain further restrictions on offers and sales of the Notes and distribution of this Offering Circular, see “*Subscription and Sale and Transfer and Selling Restrictions*” below.

In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the Notes being offered, including the merits and risks involved. The Notes have not been approved or disapproved by the U.S. Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities approved this Offering Circular or confirmed the accuracy or determined the adequacy of the information contained in this Offering Circular. Any representation to the contrary is unlawful.

None of the Dealers or the Issuer makes any representation to any investor in the Notes regarding the legality of its investment under any applicable laws. Any investor in the Notes should be able to bear the economic risk of an investment in the Notes for an indefinite period of time.

#### **NOTES ISSUED AS “GREEN”, “SOCIAL” OR “SUSTAINABLE” BONDS**

None of the Dealers makes any representation or warranty, express or implied, concerning any information in the Framework (as defined under “*Sustainable Financing Framework*”), and nothing contained in the Framework is, or shall be relied upon as, a promise or representation, from the Dealers. None of the Dealers accepts any responsibility for the contents of the Framework. The Dealers have not separately verified nor will make any assurances as to (i) whether any Green Bonds, Social Bonds or Sustainability Bonds will meet the investor criteria and expectations regarding environmental impact and sustainability performance of any investor, (ii) whether an amount equal to the net proceeds will be used for financing the Green Eligible Categories, Social Eligible Categories or a combination of the two categories (in the case of Sustainability Bonds) or (iii) the characteristics of the Green Eligible Categories or Social Eligible Categories, including their environmental and sustainability criteria.

None of the Dealers accepts any responsibility for any environmental, social and sustainability assessment of any Notes which will be issued as Green Bonds, Social Bonds or Sustainability Bonds or makes any representation or warranty or assurance whether such Notes will meet any investor expectations or requirements regarding such “green”, “social”, “sustainable” or similar labels or any requirements of such labels as they may evolve from time to time. None of the Dealers is responsible for the use or allocation of proceeds for any Notes issued as Green Bonds, Social Bonds or Sustainability Bonds nor the impact or monitoring of such use of proceeds nor do any of the Dealers undertake to ensure that an amount equal to the net proceeds of the issue of such Green Bonds, Social Bonds or Sustainability Bonds will be used for financing the Green Eligible Categories, Social Eligible Categories or a combination of the two categories (in the case of Sustainability Bonds).

In addition, none of the Dealers is responsible for the assessment of the Framework including the assessment of the applicable eligibility criteria in relation to Green Bonds, Social Bonds or Sustainability Bonds set out therein. The Second Party Opinion is not intended to address any credit, market or other aspects of an investment in any Notes, including without limitation market price, marketability, investor preference or suitability of any security. The Second Party Opinion is not a statement of fact. No representation or assurance is given by the Dealers as to the suitability or reliability of the Second Party Opinion or any opinion or certification of any third party made available in connection with any issue of Notes issued as Green Bonds, Social Bonds or Sustainability Bonds. The Second Party Opinion and any other such opinion is not, nor should be deemed to be, a recommendation by the Dealers, or any other person to buy, sell or hold any Notes and is current only as of the date it is issued. The criteria and/or considerations that formed the basis of the Second Party Opinion or any such other opinion may change at any time and the Second Party Opinion may be amended, updated, supplemented, replaced and/or

withdrawn. Prospective investors must determine for themselves the relevance of any such opinion and/or the information contained therein. The Framework may also be subject to review and change and may be amended, updated, supplemented, replaced and/or withdrawn from time to time and any subsequent version(s) may differ from any description given in this Offering Circular.

## U.S. INFORMATION

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. See “*Subscription and Sale and Transfer and Selling Restrictions*” below.

This Offering Circular may be submitted on a confidential basis in the United States to a limited number of QIBs or Institutional Accredited Investors (each as defined under “*Form of the Notes*”) for informational use solely in connection with the consideration of the purchase of the Notes being offered hereby. Its use for any other purpose in the United States is not authorised. It may not be copied or reproduced in whole or in part nor may it be distributed or any of its contents disclosed to anyone other than the prospective investors to whom it is originally submitted.

Registered Notes may be offered or sold within the United States only to QIBs or to Institutional Accredited Investors, in either case in transactions exempt from registration under the Securities Act. Each U.S. purchaser of Registered Notes is hereby notified that the offer and sale of any Registered Notes to it may be being made in reliance upon the exemption from the registration requirements of the Securities Act provided by Rule 144A under the Securities Act (“**Rule 144A**”).

Purchasers of Definitive IAI Registered Notes will be required to execute and deliver an IAI Investment Letter (as defined under “*Terms and Conditions of the Notes*”). Each purchaser or holder of Definitive IAI Registered Notes, Notes represented by a Restricted Global Note (as defined under “*Form of the Notes*”) or any Notes issued in registered form in exchange or substitution therefor (together, “**Legended Notes**”) will be deemed, by its acceptance or purchase of any such Legended Notes, to have made certain representations and agreements intended to restrict the resale or other transfer of such Notes as set out in “*Subscription and Sale and Transfer and Selling Restrictions*”. Unless otherwise stated, terms used in this paragraph have the meanings given to them in “*Form of the Notes*”.

## MIFID II PRODUCT GOVERNANCE / TARGET MARKET

The applicable Pricing Supplement in respect of any Notes may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, “**MiFID II**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “**MiFID Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

## UK MIFIR PRODUCT GOVERNANCE / TARGET MARKET

The applicable Pricing Supplement in respect of any Notes may include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “**UK MiFIR Product Governance Rules**”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

### NOTICE TO EEA RETAIL INVESTORS

If the applicable Pricing Supplement in respect of any Notes includes a legend entitled “Prohibition of Sales to EEA Retail Investors” or otherwise specifies “Prohibition of Sales to EEA Retail Investors” as “Applicable”, such Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the “**Prospectus Regulation**”). Consequently, no key information document required by Regulation (EU) No. 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

### NOTICE TO UK RETAIL INVESTORS

If the applicable Pricing Supplement in respect of any Notes includes a legend entitled “Prohibition of Sales to UK Retail Investors” or otherwise specifies “Prohibition of Sales to UK Retail Investors” as “Applicable”, such Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (the “**UK**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No. 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“**EUWA**”); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (“**FSMA**”) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No. 600/2014 as it forms part of domestic law by virtue of the EUWA or (iii) not a “qualified investor” as defined in Article 2 of the Prospectus Regulation as it forms part of the domestic law of the UK by virtue of the EUWA (the “**UK Prospectus Regulation**”). Consequently, no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

### SINGAPORE INFORMATION

**Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore (the “SFA”) –** Unless otherwise stated in the Pricing Supplement in respect of any Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes to be issued under the Programme shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

### NOTICE TO PERSONS IN THE UNITED KINGDOM

This Offering Circular is for distribution only to persons who (i) are outside the United Kingdom; (ii) have professional experience in matters relating to investments and who qualify as investment professionals within the meaning of Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “**Financial Promotion Order**”); (iii) fall within Article 49(2)(a) to (d) (high net worth

companies, unincorporated associations, etc.) of the Financial Promotion Order; or (iv) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) in connection with the issue or sale of any Securities may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to as “**Relevant Persons**”). This Offering Circular is directed only at Relevant Persons and must not be acted or relied upon by persons who are not Relevant Persons. Any investment or investment activity to which this Offering Circular relates is available only to Relevant Persons and will be engaged in only with Relevant Persons.

### AVAILABLE INFORMATION

To permit compliance with Rule 144A in connection with any resales or other transfers of Notes that are “restricted securities” within the meaning of the Securities Act, the Issuer has undertaken in a deed poll dated 8 January 2016 (the “**Deed Poll**”) to furnish, upon the request of a holder of such Notes or any beneficial interest therein, to such holder or to a prospective purchaser designated by him, the information required to be delivered under Rule 144A(d)(4) under the Securities Act if, at the time of the request, the Issuer is neither a reporting company under Section 13 or 15(d) of the U.S. Securities Exchange Act of 1934, as amended, (the “**Exchange Act**”) nor exempt from reporting pursuant to Rule 12g3-2(b) thereunder.

### KOREAN SELLING RESTRICTIONS

The Notes have not been and will not be registered with the Financial Services Commission of Korea under the Financial Investment Services and Capital Markets Act of Korea. Accordingly, the Notes may not be offered, sold or delivered, directly or indirectly, in Korea or to, or for the account or benefit of, any resident of Korea (as such term is defined under the Foreign Exchange Transaction Act of Korea and the regulations thereunder) or to others for re-offering or resale, directly or indirectly, in Korea or to any resident of Korea, except as otherwise permitted under applicable Korean laws and regulations. In addition, during the first year after the issuance of the Notes, the Notes may not be transferred to any resident of Korea (i) (in the case where the Notes are issued as straight bonds other than equity-linked bonds, such as convertible bonds, bonds with warrants and exchangeable bonds in reliance on the exemption as set out in Article 2-2-2, Paragraph 2, Item 3 of the Regulation on Issuance of Securities and Public Disclosure of Korea) other than a Korean qualified institutional buyer (a “**Korean QIB**”, as defined in the above regulation) who is registered with the Korea Financial Investment Association as a Korean QIB, provided that (1) the Notes are denominated, and the principal and interest payments thereunder are made, in a currency other than Korean won, (2) the amount of the Notes acquired by the Korean QIBs in the primary market is limited to not more than 20% of the aggregate principal amount of the Notes, (3) the Notes are listed on one of the major overseas securities markets designated by the Financial Supervisory Service of Korea, or certain procedures, such as registration or report with a foreign financial investment regulator of the country in which any major overseas securities market is established, have been completed for offering of the Notes, (4) the one-year restriction on transfer of the Notes to any resident of Korea other than the Korean QIBs is expressly stated in the Notes, the relevant purchase agreement and offering circular and (5) the Issuer and the Dealers shall individually or collectively keep the evidence of fulfilment of conditions (1) through (4) above after having taken necessary actions therefor or (ii) except as otherwise permitted under applicable Korean laws and regulations.

### NOTICE TO CAPITAL MARKET INTERMEDIARIES AND PROSPECTIVE INVESTORS PURSUANT TO PARAGRAPH 21 OF THE HONG KONG SFC CODE OF CONDUCT

Prospective investors should be aware that certain intermediaries in the context of certain offerings of the Notes, including certain Dealers, may be “capital market intermediaries” (“**CMI**s”) subject to Paragraph 21 of the Code of Conduct for Persons Licensed by or Registered with the Hong Kong Securities and Futures Commission (the “**SFC Code**”). This notice to prospective investors is a summary of certain obligations the SFC Code imposes on such CMIs, which require the attention and cooperation of prospective investors. Certain CMIs may also be acting as “overall coordinators” (together, the “**OC**s”) for such offering and are subject to additional requirements under the SFC Code. The application of these obligations will depend on the role(s) undertaken by the relevant Dealers in respect of each offering of Notes under the Programme.

Prospective investors who are the directors, employees or major shareholders of the Issuer, a CMI or its group companies would be considered under the SFC Code as having an association (an “**Association**”) with the Issuer, the CMI or the relevant group company. Prospective investors associated with the Issuer, or any CMI (including

its group companies) should specifically disclose this when placing an order for the relevant Notes and should disclose, at the same time, if such orders may negatively impact the price discovery process in relation to such offering. Prospective investors who do not disclose their Associations are hereby deemed not to be so associated. Where prospective investors disclose their Associations but do not disclose that such order may negatively impact the price discovery process in relation to such offering, such order is hereby deemed not to negatively impact the price discovery process in relation to such offering.

Prospective investors should ensure, and by placing an order prospective investors are deemed to confirm, that orders placed are bona fide, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMI's). A rebate may be offered by the Issuer to all private banks for orders they place (other than in relation to the Notes subscribed by such private banks as principal whereby it is deploying its own balance sheet for onward selling to investors), payable upon closing of the relevant offering based on the principal amount of the Notes distributed by such private banks to investors. Private banks are deemed to be placing an order on a principal basis unless they inform the CMI's otherwise. As a result, private banks placing an order on a principal basis (including those deemed as placing an order as principal) will not be entitled to, and will not be paid, the rebate. Details of any such rebate (where applicable) will be set out in the applicable Pricing Supplement or otherwise notified to prospective investors on or prior to the launch of an offering of Notes under the Programme. If a prospective investor is an asset management arm affiliated with any relevant Dealer, such prospective investor should indicate when placing an order if it is for a fund or portfolio where the relevant Dealer or its group company has more than 50% interest, in which case it will be classified as a "proprietary order" and subject to appropriate handling by CMI's in accordance with the SFC Code and should disclose, at the same time, if such "proprietary order" may negatively impact the price discovery process in relation to such offering. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not such a "proprietary order". If a prospective investor is otherwise affiliated with any relevant Dealer, such that its order may be considered to be a "proprietary order" (pursuant to the SFC Code), such prospective investor should indicate to the relevant Dealer when placing such order. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not such a "proprietary order". Where prospective investors disclose such information but do not disclose that such "proprietary order" may negatively impact the price discovery process in relation to such offering, such "proprietary order" is hereby deemed not to negatively impact the price discovery process in relation to such offering.

Prospective investors should be aware that certain information may be disclosed by CMI's (including private banks) which is personal and/or confidential in nature to the prospective investor. By placing an order, prospective investors are deemed to have understood and consented to the collection, disclosure, use and transfer of such information by the relevant Dealers and/or any other third parties as may be required by the SFC Code, including to the Issuer, any OCs, relevant regulators and/or any other third parties as may be required by the SFC Code, it being understood and agreed that such information shall only be used for the purpose of complying with the SFC Code, during the bookbuilding process for such offering. Failure to provide such information may result in that order being rejected.

## **SERVICE OF PROCESS AND ENFORCEMENT OF CIVIL LIABILITIES**

The Issuer is a corporation organised under the laws of Korea. All of the officers and directors named herein reside outside the United States and all or a substantial portion of the assets of the Issuer and of such officers and directors are located outside the United States. As a result, it may not be possible for investors to effect service of process within the U.S. upon the Issuer or such persons, or to enforce judgements against them obtained in courts in the U.S. predicated upon civil liabilities of the Issuer or such directors and officers under laws other than Korean law, including any judgement predicated upon U.S. federal securities laws. There is doubt as to the enforceability in Korea in original actions or in actions for enforcement of judgements of U.S. courts of civil liabilities predicated solely upon the federal securities laws of the United States.

## **FORWARD-LOOKING STATEMENTS**

Certain statements in this Offering Circular constitute "forward-looking statements", including statements regarding the Issuer's expectations and projections for future operating performance and business prospects. The words "believe", "expect", "anticipate", "estimate", "project", "will", "aim", "will likely result", "will continue", "intend", "plan", "contemplate", "seek to", "future", "objective", "goal", "should", "will pursue" and similar

expressions or variations of these expressions identify forward-looking statements. In addition, all statements other than statements of historical facts included in this Offering Circular, including, without limitation, those regarding the Issuer's financial position and results, business strategy, plans and objectives of management for future operations, including development plans and objectives relating to the Issuer's products and services, are forward-looking statements. Such forward-looking statements and any other projections contained in this Offering Circular (whether made by the Issuer or any third party) involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from the future results, performance or achievements expressed or implied by forward-looking statements. Such forward-looking statements are based on current beliefs, assumptions, expectations, estimates and projections regarding the Issuer's present and future business strategies and the environment in which the Issuer will operate in the future. Important factors that could cause some or all of those assumptions not to occur or cause the Issuer's actual results, performance or achievements to differ materially from those in the forward-looking statements include, among other things:

- the condition of and changes in the Korean, Asian or global economies, including changes in consumer confidence and spending;
- changes in interest rates;
- future levels of non-performing loans;
- changes in government regulations affecting the Issuer's businesses in Korea and in other jurisdictions where the Issuer operates;
- the Issuer's ability to successfully implement its business strategy; and
- competition in the financial services industry.

Additional factors that could cause the Issuer's actual results, performance or achievements to differ materially include, but are not limited to, those discussed under "*Investment Considerations*". Any forward-looking statements contained in this Offering Circular speak only as of the date of this Offering Circular. Each of the Issuer and the Dealers expressly disclaims any obligation or undertaking to release, publicly or otherwise, any updates or revisions to any forward-looking statement contained herein to reflect any change in the Issuer's expectations with regard thereto or any change in events, conditions, assumptions or circumstances on which any such statement was based.

## CERTAIN DEFINED TERMS AND CONVENTIONS

The Issuer is the surviving entity resulting from a merger between Original Hana Bank (as defined below) and Korea Exchange Bank, which was completed in 2015. Upon completion of the merger, the Issuer changed its name to KEB Hana Bank. In February 2020, the Issuer changed its brand name to "Hana Bank" while maintaining "KEB Hana Bank" as its English legal name. See "*KEB Hana Bank — History*." Accordingly, unless otherwise specified or the context otherwise requires, in this Offering Circular:

- References to "**we**," "**us**," "**our**," the "**Issuer**," the "**Bank**" and "**Hana Bank**" are to KEB Hana Bank.
- References to the "**Merger**" are to the merger between Original Hana Bank and Korea Exchange Bank on 1 September 2015.
- References to "**Original Hana Bank**" are to Hana Bank, the Issuer's predecessor which merged with and into Korea Exchange Bank through the Merger.
- References to "**Hana Financial Group**" are to Hana Financial Group, Inc., the Bank's holding company.

References to "**Korea**" are to the Republic of Korea. References to "**U.S.**" or the "**United States**" are to the United States of America. References to "**PRC**" or "**China**" are to the People's Republic of China. References to the "**Government**" are to the government of Korea. The "**Financial Services Commission**" or the "**FSC**" shall mean the Financial Services Commission of Korea, and the "**Financial Supervisory Service**" or the "**FSS**" shall mean the Financial Supervisory Service of Korea, the executive body of the FSC.

All references in this Offering Circular to "**Won**" and "**₩**" refer to the currency of Korea, those to "**U.S. dollars**," "**US\$**" and "**U.S.\$**" are to United States dollars, those to "**Japanese Yen**" are to the currency of Japan, those to "**S\$**" are to the currency of Singapore, those to "**Sterling**" and "**£**" are to the currency of the United Kingdom, those to "**Chinese Renminbi**," "**Renminbi**" and "**RMB**" are to the currency of China and those to "**Euro**," "**euro**" and "**€**" are to the currency introduced at the start of the third stage of the European economic and monetary union pursuant to the Treaty establishing the European Community, as amended.

## PRESENTATION OF FINANCIAL AND OTHER INFORMATION

The Issuer maintains its financial books and records and prepares its financial statements in Won in accordance with the International Financial Reporting Standards as adopted by the Republic of Korea (“**K-IFRS**”), which differ in certain significant respects from generally accepted accounting principles in other countries, including generally accepted accounting principles in the United States (“**U.S. GAAP**”). The Issuer has made no attempt to identify or quantify the impact of differences between K-IFRS and U.S. GAAP.

Unless otherwise stated, all financial information contained in this Offering Circular is presented on a consolidated basis in accordance with K-IFRS together with, where applicable, accounting and reporting guidelines under Korean accounting standards applicable to the banking industry. Financial and other information contained in this Offering Circular regarding individual borrowers, groups or categories of borrowers or classifications by industry, geography, size or other factors, including information as to loans, credits, total exposures, allowances, collateral values, nonperforming loans and other items, has been derived solely from the Issuer’s internal management information systems.

Unless otherwise stated, the financial data of the Issuer as of and for the years ended 31 December 2022, 2023 and 2024 contained in this Offering Circular have been derived from the audited consolidated financial statements of the Issuer included herein, which have been prepared in accordance with K-IFRS. The financial data of the Issuer as of 30 June 2025 and for the six months ended 30 June 2024 and 2025 contained in this Offering Circular have been derived from the unaudited interim consolidated financial statements of the Issuer included herein, which have been prepared in accordance with K-IFRS 1034 Interim Financial Reporting.

Certain ratios for the six months ended 30 June 2024 and 2025 are presented on an annualised basis. Annualisation was performed by multiplying income statement amounts for the six-month period by two in order to approximate a full year, while balance sheet amounts were based on period-end (or average) figures as appropriate. Annualised ratios have been stated solely for the purposes of comparison with prior annual periods and should not be relied upon to give any indication of the actual full-year financial performance of the Issuer. Actual ratios for the annual periods may differ significantly from the annualised ratios and are subject to many factors beyond the Issuer’s control.

All references in this document to “**balance sheet**” are to the statement of financial position.

Under the Korean Banking Act (the “**Bank Act**”), assets accepted in trust by a bank in Korea must be segregated from its other assets in the accounts of that bank. Accordingly, banks, including the Issuer, engaged in the banking and trust businesses must maintain two separate accounts, the bank account and the trust account, and two separate sets of records, which provide details of their respective banking and trust businesses. All financial information contained in this Offering Circular relating to the Issuer is presented with respect to the Issuer’s bank account only, unless stated otherwise.

Unless otherwise specified, all conversions of Won into U.S. dollars were made at the base rate under the market average exchange system, provided by Seoul Money Brokerage Services, Ltd. in Seoul for U.S. dollars against Won (the “**Market Average Exchange Rate**”). No representation is made that the Won or the U.S. dollar amounts referred to in this Offering Circular could have been or could be converted into U.S. dollars or Won, as the case may be, at any particular rate or at all.

Any discrepancies in any table between totals and the sums of the amounts listed are due to rounding. References to billions are to thousands of millions.

---

**In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Pricing Supplement may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilisation Manager(s) (or persons acting on behalf of a Stabilisation Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilisation Manager(s) (or person(s) acting on behalf of Stabilisation Manager(s)) in accordance with all applicable laws and rules.**

## DOCUMENTS INCORPORATED BY REFERENCE

The following documents shall be deemed to be incorporated in, and to form part of, this Offering Circular:

- (a) the publicly available audited consolidated and audited separate financial statements and the publicly available unaudited interim consolidated and unaudited interim separate financial statements of the Issuer for the most recent financial period;
- (b) each relevant Pricing Supplement; and
- (c) all supplements or amendments to this Offering Circular circulated by the Issuer from time to time,

save that any statement contained herein or in a document which is deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purpose of this Offering Circular to the extent that a statement contained in any such subsequent document which is deemed to be incorporated by reference herein modifies or supersedes such earlier statement (whether expressly, by implication or otherwise).

The Issuer will provide, without charge, to each person to whom a copy of this Offering Circular has been delivered, upon the written request of such person, a copy of any or all of the documents deemed to be incorporated herein by reference unless such documents have been modified or superseded as specified above. Written requests for such documents should be directed to the Issuer at its registered office set out at the end of this Offering Circular. In addition, such documents will be available for inspection, free of charge at the specified office of Citibank, N.A., London Branch (the “**Principal Paying Agent**”).

The Issuer will, in connection with the listing of the Notes on the Singapore Stock Exchange, so long as the rules of the Singapore Stock Exchange so require, in the event of any material change which is not reflected in this Offering Circular, prepare a supplement to this Offering Circular or publish a new Offering Circular for use in connection with any subsequent issue of the Notes to be listed on the Singapore Stock Exchange.

If the terms of the Programme are modified or amended in a manner which would make this Offering Circular, as supplemented, materially inaccurate or misleading, a new Offering Circular will be prepared.

## GENERAL DESCRIPTION OF THE PROGRAMME

Under the Programme, the Issuer may from time to time issue Notes denominated in any currency and with any maturity, subject as set out herein. A summary of the terms and conditions of the Programme and the Notes appears below. The applicable terms of any Notes will be agreed between the Issuer and the relevant Dealer prior to the issue of the Notes and will be set out in the Terms and Conditions of the Notes endorsed on, or incorporated by reference into, the Notes, as modified and supplemented by the applicable Pricing Supplement attached to, or endorsed on, such Notes, as more fully described under “*Form of the Notes*” below.

This Offering Circular and any supplement will only be valid for the offering of Notes in an aggregate nominal amount of Notes which, when added to the aggregate nominal amount then outstanding of all Notes previously or simultaneously issued under the Programme, does not exceed U.S.\$10,000,000,000 or its equivalent in other currencies. For the purpose of calculating the U.S. dollar equivalent of the aggregate nominal amount of Notes issued under the Programme from time to time:

- (a) the U.S. dollar equivalent of Notes denominated in another Specified Currency (as specified in the applicable Pricing Supplement in relation to the Notes, described under “*Form of the Notes*” below) shall be determined, at the discretion of the Issuer, either as of the date on which agreement is reached for the issue of Notes or on the preceding day on which commercial banks and foreign exchange markets are open for business in London, in each case on the basis of the spot rate for the sale of the U.S. dollar against the purchase of such Specified Currency in the London foreign exchange market quoted by any leading international bank selected by the Issuer on the relevant day of calculation;
- (b) the U.S. dollar equivalent of Dual Currency Notes, Index Linked Notes and Partly Paid Notes (each as specified in the applicable Pricing Supplement in relation to the Notes, described under “*Form of the Notes*” below) shall be calculated in the manner specified above by reference to the original nominal amount on issue of such Notes (in the case of Partly Paid Notes regardless of the subscription price paid); and
- (c) the U.S. dollar equivalent of Zero Coupon Notes (as specified in the applicable Pricing Supplement in relation to the Notes, described under “*Form of the Notes*” below) and other Notes issued at a discount or premium shall be calculated in the manner specified above by reference to the net proceeds received by the Issuer for the relevant issue.

## SUMMARY OF THE PROGRAMME

The following summary does not purport to be complete and is taken from, and is qualified in its entirety by, the remainder of this Offering Circular and, in relation to the terms and conditions of any particular Tranche of Notes, the applicable Pricing Supplement. Words and expressions defined in “*Form of the Notes*” and “*Terms and Conditions of the Notes*” below shall have the same meanings in this summary.

| <b>Registrar, CMU Lodging and Paying Agent, CMU Transfer Agent and CMU Registrar:</b> | Citicorp International Limited                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Programme Size:</b>                                                                | Up to U.S.\$10,000,000,000 (or its equivalent in other currencies calculated as described under “ <i>General Description of the Programme</i> ”) outstanding at any time. The Issuer may increase the amount of the Programme in accordance with the terms of the Programme Agreement.                                                                                                                                                                                                                                                                                                                                                                                                    |
| <b>Distribution:</b>                                                                  | Notes may be distributed by way of private or public placement and in each case on a syndicated or non-syndicated basis.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Currencies:</b>                                                                    | Subject to any applicable legal or regulatory restrictions, any currency agreed between the Issuer and the relevant Dealer.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Maturities:</b>                                                                    | Such maturities as may be agreed between the Issuer and the relevant Dealer and as indicated in the applicable Pricing Supplement, subject to such minimum or maximum maturities as may be allowed or                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Issuer or the relevant Specified Currency; **provided that** Tier II Subordinated Notes shall have a minimum maturity of five years and Tier I Subordinated Notes shall be undated perpetual securities with no fixed maturity.

**Issue Price:**

Notes may be issued on a fully-paid or a partly-paid basis and at an issue price which is at par or at a discount to, or premium over, par.

**Form of Notes:**

The Notes will be issued in bearer or registered form as described in “*Form of the Notes*”. Registered Notes will not be exchangeable for Bearer Notes and *vice versa*.

**Fixed Rate Notes:**

Fixed interest will be payable on such date or dates as may be agreed between the Issuer and the relevant Dealer (as indicated in the applicable Pricing Supplement) and on redemption and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer.

**Floating Rate Notes:**

Floating Rate Notes will bear interest at a rate determined either:

- (i) on the same basis as the floating rate under a notional interest-rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions (as published by the International Swaps and Derivatives Association, Inc., and as amended and updated as at the Issue Date of the first Tranche of the Notes of the relevant Series); or
- (ii) on the basis of a reference rate appearing on the agreed screen page of a commercial quotation service; or
- (iii) on such other basis as may be agreed between the Issuer and the relevant Dealer,

as indicated in the applicable Pricing Supplement.

The Margin (if any) relating to such floating rate will be agreed between the Issuer and the relevant Dealer for each series of Floating Rate Notes.

**Index Linked Notes:**

Payments of interest in respect of Index Linked Interest Notes will be calculated by reference to such index and/or formula, to the extent permitted by applicable law, as the Issuer and the relevant Dealer may agree (as indicated in the applicable Pricing Supplement).

**Other provisions in relation to  
Floating Rate Notes and Index  
Linked Interest Notes:**

Floating Rate Notes and Index Linked Interest Notes may also have a maximum interest rate, a minimum interest rate or both. Interest on Floating Rate Notes and Index Linked Interest Notes in respect of each Interest Period, as selected prior to issue by the Issuer and the relevant Dealer, will be payable on such Interest Payment Dates specified in, or determined pursuant to, the applicable Pricing Supplement and will be calculated on the basis of the relevant Day Count Fraction, as may be agreed between the Issuer and the relevant Dealer.

**Dual Currency Notes:**

Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Dual Currency Notes will be made in such currencies and based on such rates of exchange, as the Issuer and the relevant Dealer may agree (as indicated in the applicable Pricing Supplement).

**Zero Coupon Notes:**

Zero Coupon Notes will be offered and sold at a discount to their nominal amount and will not bear interest other than in the case of late payment.

**Redemption:**

The applicable Pricing Supplement will indicate either that the relevant Notes cannot be redeemed prior to their stated maturity (other than in specified instalments (see below), if applicable, or for taxation reasons (in the case of Subordinated Notes, only with the prior approval of the FSS or of such other relevant regulatory authorities in Korea, if necessary) or, in the case of Senior Notes, following an Event of Default or, in the case of Subordinated Notes, following a Bankruptcy Event or Liquidation Event of the Bank) or that such Notes will be redeemable at the option of the Issuer (in the case of Subordinated Notes, only with the prior approval of the FSS or of such other relevant regulatory authorities in Korea, if necessary, and only after 5 years from the issuance date of Subordinated Notes) upon giving not less than 15 nor more than 30 days' irrevocable notice (or such other notice period (if any) as is indicated in the applicable Pricing Supplement) to the Noteholders, and/or (except in the case of Subordinated Notes) at the option of the Noteholders, upon giving not less than 15 nor more than 30 days' irrevocable notice (or such other notice period (if any) as is indicated in the applicable Pricing Supplement) to the Issuer, on a date or dates specified prior to such stated maturity and at a price or prices and on such terms as are indicated in the applicable Pricing Supplement.

The applicable Pricing Supplement may provide that Notes may be repayable in two or more instalments of such amounts and on such dates as are indicated in the applicable Pricing Supplement.

**Denomination of Notes:**

Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer and as indicated in the applicable Pricing Supplement save that the minimum denomination of each Note will be such as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency.

Definitive IAI Registered Notes sold in the United States to Institutional Accredited Investors pursuant to Section 4(a)(2) of the Securities Act or in a transaction otherwise exempt from registration under the Securities Act shall be issued in minimum denominations of U.S.\$500,000 (or its equivalent in any other currency) and higher integral multiples of U.S.\$1,000 (or its equivalent as aforesaid).

**Taxation:**

All payments in respect of the Notes will be made without deduction for or on account of withholding taxes imposed within Korea or any Specified Country, subject as provided in Condition 9. In the event that any such deduction is made, the Issuer will, save in certain limited circumstances provided in Condition 9, be required to pay additional amounts to cover the amounts so deducted.

**Negative Pledge:**

The terms of the Senior Notes will contain a negative pledge provision as further described in Condition 4.

**Cross-Acceleration:**

The terms of the Senior Notes will contain a cross-acceleration provision as further described in Condition 11.

**Status of the Senior Notes:**

The Senior Notes and any relative Receipts and Coupons will constitute direct, unconditional, unsubordinated and (subject to Condition 4) unsecured obligations of the Issuer which will rank *pari passu* among themselves and will rank at least *pari passu* with all other present and future unsecured (subject to Condition 4) and unsubordinated obligations of the Issuer, save for such as may be preferred by mandatory provisions of applicable law.

**Status of the Subordinated Notes:**

The Subordinated Notes and any relative Receipts and Coupons will constitute direct, general, subordinated and unsecured obligations of the Issuer. The rights of holders of Subordinated Notes will be subordinated in right of payment in the manner provided in Conditions 3(b) and 3(c).

**Write-off of the Subordinated Notes upon a Trigger Event**

The Subordinated Notes will be subject to Write-off upon the occurrence of a Trigger Event, as provided in Condition 8. See “*Investment Considerations — Risks Relating to the Notes — The Notes that are Subordinated Notes may be fully written off upon the occurrence of certain trigger events, in which case holders of the Subordinated Notes will lose all of their investment*”.

**Listing:**

Approval in-principle has been received from the Singapore Stock Exchange in connection with the Programme and application will be made for the listing and quotation of Notes that may be issued pursuant to the Programme and which are agreed at or prior to the time of issue thereof, to be so listed on the Singapore Stock Exchange. Such permission will be granted when such Notes have been admitted for listing and quotation on the Singapore Stock Exchange. The Singapore Stock Exchange assumes no responsibility for the correctness of any of the statements made, opinions expressed or reports contained herein. Approval in-principle from, admission to the Official List of, and listing and quotation of any Notes on, the Singapore Stock Exchange are not to be taken as an indication of the merits of the Issuer, the Programme or the Notes. For so long as any Notes are listed on the Singapore Stock Exchange and the rules of the Singapore Stock Exchange so require, such Notes, if traded on the Singapore Stock Exchange, will be traded in a minimum board lot size of S\$200,000 or its equivalent in foreign currencies. Notes may also be listed on such other or further stock exchange(s) as may be agreed between the Issuer and the relevant Dealer in relation to each Series. The Pricing Supplement relating to each Tranche of Notes will state whether or not and, if so, on which stock exchange(s) the Notes are to be listed. Notes not listed on a stock exchange may also be issued.

**Governing Law:**

The Notes and all non-contractual obligations arising out of or in connection with the Notes will be governed by, and construed in accordance with, English law, except for Conditions 3(b) (*Status of the Subordinated Notes*) and 3(c) (*Subordination*), which will be governed by, and construed in accordance with, Korean law.

**Notes Issued as Green Bonds, Social Bonds or Sustainability Bonds:**

The Issuer may agree at the relevant issue date of any Notes designated as Green Bonds, Social Bonds or Sustainability Bonds (as described in “*Use of Proceeds*”) to allocate the amount equivalent to the net proceeds towards the financing and/or refinancing of Green Eligible Categories, Social Eligible Categories (each as defined in “*Use of Proceeds*”) or a combination of the two categories (in the

case of Sustainability Bonds) in accordance with certain prescribed eligibility criteria as described under the Issuer's Sustainable Financing Framework. See "*Sustainable Financing Framework*". However, it would not be an event of default under the Green Bonds, Social Bonds or Sustainability Bonds if (i) the Issuer were to fail to comply with such undertaking or were to fail to allocate the amount equivalent to the net proceeds in the manner specified in the applicable Pricing Supplement and/or (ii) any Second Party Opinion issued in connection with such Green Bonds, Social Bonds or Sustainability Bonds were to be withdrawn. Any failure to allocate the amount equivalent to the net proceeds of any Series of Green Bonds, Social Bonds or Sustainability Bonds in connection with green projects, social projects or sustainability projects and/or any failure to meet, or to continue to meet, the investment requirements of certain environmentally or socially focused investors with respect to such Green Bonds, Social Bonds or Sustainability Bonds may affect the value and/or trading price of the Green Bonds, Social Bonds or Sustainability Bonds, and/or may have consequences for certain investors with portfolio mandates to invest in green assets, social assets or sustainability assets.

**Selling Restrictions:**

There are selling restrictions in relation to the United States, the European Economic Area, the United Kingdom, Japan, Hong Kong, Singapore, Canada, United Arab Emirates (including the Dubai International Finance Centre), Switzerland, Korea and such other restrictions as may be required in connection with the offering and sale of a particular Tranche of Notes. See "*Subscription and Sale and Transfer and Selling Restrictions*".

**ISDA Determination / ISDA Definitions**

Notwithstanding anything included in the ISDA Definitions and/or ISDA Determinations to the contrary, the Issuer agrees that the Citibank, N.A., London Branch in its capacity as Calculation Agent or Principal Paying Agent will have no obligation to exercise any discretion (including, but not limited to, determinations of alternative or substitute benchmarks, successor reference rates, screen pages, interest adjustment factors/fractions or spreads, market disruptions, benchmark amendment conforming changes or selection and polling of reference banks), and to the extent the ISDA Definitions and/or ISDA Determinations require, for a particular Series of Notes, the Calculation Agent and/ or Principal Paying Agent to exercise any such discretions and/or make such determinations and/or take such actions, such references shall be construed as the Issuer (or its financial adviser or alternate agent appointed by the Issuer) exercising such discretions and/or determinations and/or taking such actions and not the Calculation Agent and/ or Principal Paying Agent.

## FORM OF THE NOTES

The Notes of each Series will be in either bearer form, with or without interest coupons attached, or registered form, without interest coupons attached. Bearer Notes will be issued outside the United States in reliance on Regulation S under the Securities Act (“**Regulation S**”) and Registered Notes will be issued both outside the United States in reliance on the exemption from registration provided by Regulation S and within the United States in reliance on Rule 144A or Regulation D under the Securities Act.

### **Bearer Notes**

Each Tranche of Bearer Notes will be initially issued in the form of either a temporary global note (a “**Temporary Global Note**”) or a permanent global note (a “**Permanent Global Note**”) as indicated in the applicable Pricing Supplement, which, in either case, will be delivered on or prior to the original issue date of the Tranche to either (i) a common depository (the “**Common Depository**”) for Euroclear Bank S.A./N.V. (“**Euroclear**”) and Clearstream Banking S.A. (“**Clearstream, Luxembourg**”) or (ii) a sub-custodian for the Hong Kong Monetary Authority (“**HKMA**”) as operator of the Central Moneymarkets Unit Service (the “**CMU Service**”). Whilst any Bearer Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made against presentation of the Temporary Global Note only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interests in such Bearer Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and/or Citicorp International Limited (the “**CMU Lodging Agent**”) and (in the case of a Temporary Global Note delivered to the Common Depository for Euroclear and Clearstream, Luxembourg) Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Principal Paying Agent.

On and after the date (the “**Exchange Date**”) which is 40 days after a Temporary Global Note is issued, interests in such Temporary Global Note will be exchangeable (free of charge) upon a request as described therein either for (i) interests in a Permanent Global Note of the same Series or (ii) for definitive Bearer Notes of the same Series with, where applicable, receipts, interest coupons and talons attached (as indicated in the applicable Pricing Supplement and subject, in the case of definitive Bearer Notes, to such notice period as is specified in the applicable Pricing Supplement), in each case against certification of beneficial ownership as described above unless such certification has already been given, **provided that** purchasers in the United States and certain U.S. persons will not be able to receive definitive Bearer Notes. The CMU Service may require that any such exchange for a Permanent Global Note is made in whole and not in part and in such event, no such exchange will be effected until all relevant account holders (as set out in a CMU Instrument Position Report (as defined in the rules of the CMU Service) or any other relevant notification supplied to the CMU Lodging Agent by the CMU Service) have so certified. The holder of a Temporary Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Global Note for an interest in a Permanent Global Note or for definitive Bearer Notes is improperly withheld or refused.

Payments of principal, interest (if any) or any other amounts on a Permanent Global Note (if not held through the CMU Service) will be made through Euroclear and/or Clearstream, Luxembourg against presentation or surrender (as the case may be) of the Permanent Global Note without any requirement for certification.

In respect of a Bearer Global Note held through the CMU Service, any payments of principal, interest (if any) or any other amounts shall be made to the person(s) for whose account(s) interests in the relevant Bearer Global Note are credited (as set out in a CMU Instrument Position Report or any other relevant notification supplied to the CMU Lodging Agent by the CMU Service) and save in the case of final payment, no presentation of the relevant Bearer Global Note shall be required for such purpose.

The applicable Pricing Supplement will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Notes with, where applicable, receipts, interest coupons and talons attached upon the occurrence of an Exchange Event. For these purposes, “**Exchange Event**” means that (i) an Event of Default (as defined in Condition 11) has occurred and is continuing, (ii) the Issuer has been notified that Euroclear and/or Clearstream, Luxembourg have been or, in the case of Notes held through the CMU Service, the CMU Service has been, closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no alternative clearing system is available or (iii) the Issuer has or will become obliged to pay additional amounts

as provided for or referred to in Condition 9 which would not be required were the Notes represented by the Permanent Global Note in definitive form (**provided that**, in certain circumstances where the Notes are held through Euroclear and/or Clearstream, Luxembourg, and/or the CMU Service, such adverse tax consequences are as a result of a change in, or amendment to, the laws or regulation (taxation or otherwise) in, or of, Korea). The Issuer will promptly give notice to Noteholders and the relevant agents in accordance with Condition 15 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, in the case of Notes held by a Common Depositary for Euroclear and/or Clearstream, Luxembourg, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) and/or, in the case of Notes held through the CMU Service, the relevant account holders therein, may give notice to the Principal Paying Agent or, as the case may be, the CMU Lodging Agent, requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer may also give notice to the Principal Paying Agent or, as the case may be, the CMU Lodging Agent, requesting exchange. Any such exchange shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent or, as the case may be, the CMU Lodging Agent.

The following legend will appear on all Bearer Notes which have an original maturity of more than 365 days and on all receipts and interest coupons relating to such Notes:

“ANY U.S. PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE U.S. INTERNAL REVENUE CODE OF 1986, AS AMENDED.”

The sections referred to provide that U.S. holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Notes which are represented by a Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, or the CMU Service, as the case may be.

### Registered Notes

The Registered Notes of each Tranche offered and sold in reliance on Regulation S, which will be sold to non-U.S. persons outside the United States, will initially be represented by a global note in registered form (a “**Regulation S Global Note**”). To the extent Category 2 is applicable at the time of the offering pursuant to Rule 903 under Regulation S, prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of Notes, beneficial interests in a Regulation S Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person save as otherwise provided in Condition 2 and may not be held otherwise than through Euroclear or Clearstream, Luxembourg or the CMU Service and such Regulation S Global Note will bear a legend regarding such restrictions on transfer.

The Registered Notes of each Tranche may only be offered and sold in the United States or to U.S. persons in private transactions (i) to “qualified institutional buyers” within the meaning of Rule 144A under the Securities Act (“**QIB**”) or (ii) to “accredited investors” (as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act) that are institutions (“**Institutional Accredited Investors**”) who agree to purchase the Notes for their own account and not with a view to the distribution thereof. The Registered Notes of each Tranche sold to QIBs will be represented by a restricted permanent global note in registered form (a “**Restricted Global Note**” and, together with a Regulation S Global Note, the “**Registered Global Notes**”).

Registered Global Notes will be deposited with either (i) a custodian for, and registered in the name of a nominee of, the Depositary Trust Company (“**DTC**”) for the accounts of Euroclear and Clearstream, Luxembourg, (ii) a common depositary for, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg or (iii) a sub-custodian for the HKMA as operator of the CMU Service, in each case, as specified in the applicable Pricing Supplement. Persons holding beneficial interests in Registered Global Notes will be entitled or required, as the case may be, under the circumstances described below, to receive physical delivery of definitive Notes in fully registered form.

The Registered Notes of each Tranche sold to Institutional Accredited Investors will be in definitive form, registered in the name of the holder thereof (“**Definitive IAI Registered Notes**”). Unless otherwise set forth in the applicable Pricing Supplement, Definitive IAI Registered Notes will be issued only in minimum

denominations of U.S.\$500,000 and integral multiples of U.S.\$1,000 in excess thereof (or the approximate equivalents in the applicable Specified Currency). Definitive IAI Registered Notes will be subject to the restrictions on transfer set forth therein and will bear the restrictive legend described under “*Subscription and Sale and Transfer and Selling Restrictions*”. Institutional Accredited Investors that hold Definitive IAI Registered Notes may not hold such Notes through DTC, Euroclear, Clearstream, Luxembourg or the CMU Service, but transferees acquiring the Notes in transactions exempt from Securities Act registration pursuant to Regulation S or Rule 144 under the Securities Act (if available) may elect to do so upon satisfaction of the requirements applicable to such transfer as described under “*Subscription and Sale and Transfer and Selling Restrictions*”. The Restricted Global Note and the Definitive IAI Registered Notes will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register (as defined in Condition 1) as the registered holder of the Registered Global Notes. None of the Issuer, any Paying Agent or the Registrar will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Payments of principal, interest or any other amount in respect of the Registered Notes in definitive form will, in the absence of provision to the contrary, be made to the persons shown on the Register on the relevant Record Date (as defined in Condition 6(b)) immediately preceding the due date for payment in the manner provided in that Condition.

Interests in a Registered Global Note will be exchangeable (free of charge), in whole but not in part, for definitive Registered Notes without receipts, interest coupons or talons attached only upon the occurrence of an Exchange Event. For these purposes, “**Exchange Event**” means that (i) an Event of Default has occurred and is continuing, (ii) in the case of Notes registered in the name of a nominee for DTC, either DTC has notified the Issuer that it is unwilling or unable to continue to act as depository for the Notes and no alternative clearing system is available or DTC has ceased to constitute a clearing agency registered under the Exchange Act, (iii) in the case of Notes registered in the name of a nominee for a common depository for Euroclear and Clearstream, Luxembourg, the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have and, in the case of Notes held through the CMU Service, the Issuer has been notified that the CMU Service has, been closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (iv) the Issuer has or will become subject to adverse tax consequences which would not be suffered were the Notes represented by the Registered Global Note in definitive form. The Issuer will promptly give notice to Noteholders and the relevant agents in accordance with Condition 15 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, (i) in the case of Notes registered in the name of a nominee for DTC or a nominee for a Common Depository for Euroclear and/or Clearstream, Luxembourg, DTC, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Registered Global Note) and/or (ii) in the case of Notes held through the CMU Service, the relevant account holders therein, may give notice to the Registrar, or as the case may be, the CMU Lodging Agent requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iv) above, the Issuer may also give notice to the Registrar or, as the case may be, the CMU Lodging Agent requesting exchange. Any such exchange shall occur not later than 10 days after the date of receipt of the first relevant notice by the Registrar or, as the case may be, the CMU Lodging Agent.

### **Transfer of Interests**

Interests in a Registered Global Note may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in another Registered Global Note or in the form of a Definitive IAI Registered Note and Definitive IAI Registered Notes may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such Notes in the form of an interest in a Registered Global Note. No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg and the CMU Service, in each case to the extent applicable. Registered Notes are also subject to the restrictions on transfer set forth therein and will bear a legend regarding such restrictions, see “*Subscription and Sale and Transfer and Selling Restrictions*”.

## CMU Notes

Unless otherwise specified in the applicable Pricing Supplement, CMU Notes will initially be issued in registered form and represented by a global certificate registered in the name of HKMA, in its capacity as operator of the CMU Service. Certain special provisions apply to such CMU Notes. See *“Book-Entry Clearance Systems — CMU Notes”*.

## General

Pursuant to the Agency Agreement (as defined under *“Terms and Conditions of the Notes”*), the Principal Paying Agent or the CMU Lodging Agent, as the case may be, shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche shall be assigned a common code and ISIN and, where applicable, a CUSIP and CINS number and/or CMU instrument number which are different from the common code, ISIN, CUSIP, CINS and CMU instrument number assigned to Notes of any other Tranche of the same Series until at least the expiry of the distribution compliance period applicable to the Notes of such Tranche.

For so long as any of the Notes is represented by a Global Note held on behalf of Euroclear, Clearstream, Luxembourg and/or the CMU Service, each person (other than Euroclear, Clearstream, Luxembourg or the CMU Service) who is for the time being shown in the records of Euroclear, Clearstream, Luxembourg or the CMU Service as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear, Clearstream, Luxembourg and/or the CMU Service as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and its agents as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on such nominal amount of such Notes, for which purpose the bearer of the relevant Bearer Global Note or the registered holder of the relevant Registered Global Note shall be treated by the Issuer and its agents as the holder of such nominal amount of such Notes in accordance with and subject to the terms of the relevant Global Note and the expressions **“Noteholder”** and **“holder of Notes”** and related expressions shall be construed accordingly. Notwithstanding the above, if a Note is held through the CMU Service, any payment that is made in respect of such Note shall be made at the direction of the bearer or the registered holder to the person(s) for whose account(s) interests in such Note are credited as being held through the CMU Service in accordance with the CMU Rules at the relevant time as notified to the CMU Lodging Agent by the CMU Service in a relevant CMU Instrument Position Report or any other relevant notification by the CMU Service (which notification, in either case, shall be conclusive evidence of the records of the CMU Service as to the identity of any accountholder and the principal amount of any Note credited to its account, save in the case of manifest error) and such payments shall discharge the obligation of the Issuer in respect of that payment under such Note.

So long as DTC or its nominee is the registered owner or holder of a Registered Global Note, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by such Registered Global Note for all purposes under the Agency Agreement and such Notes except to the extent that in accordance with DTC’s published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants.

Any reference herein to Euroclear and/or Clearstream, Luxembourg and/or DTC and/or the CMU Service shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the applicable Pricing Supplement.

A Note may be accelerated by the holder thereof in certain circumstances described in Condition 11. In such circumstances, where any Note is still represented by a Global Note and the Global Note (or any part thereof) has become due and repayable in accordance with the Terms and Conditions of such Notes and payment in full of the amount due has not been made in accordance with the provisions of the Global Note then holders of interests in such Global Note credited to their accounts with Euroclear and/or Clearstream, Luxembourg and/or DTC and/or the CMU Service, as the case may be, will become entitled to proceed directly against the Issuer on the basis of statements of account provided by Euroclear, Clearstream, Luxembourg, DTC and the CMU Service on and subject to the terms of a deed of covenant (the **“Deed of Covenant”**) dated 8 January 2016 and executed by the Issuer. In addition, holders of interests in such Global Note credited to their accounts with DTC may require DTC to deliver Definitive Notes in registered form in exchange for their interest in such Global Note in accordance with DTC’s standard operating procedures.

For so long as any Notes are listed on the Singapore Stock Exchange and the rules of the Singapore Stock Exchange so require, in the event that the Global Note representing such Notes is exchanged for definitive Notes, the Issuer shall appoint and maintain a Paying Agent in Singapore, where such definitive Notes may be presented or surrendered for payment or redemption. In addition, in the event the Global Note representing such Notes is exchanged for definitive Notes, an announcement of such exchange will be made by or on behalf of the Issuer through the Singapore Stock Exchange. Such announcement will include all material information with respect to the delivery of the definitive Notes, including details of the Paying Agent in Singapore.

## Form of Pricing Supplement

*Set out below is the form of Pricing Supplement which will be completed for each Tranche of Notes issued under the Programme.*

**[MIFID II PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET —** Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the securities has led to the conclusion that: (i) the target market for the securities is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, “MiFID II”); and (ii) all channels for distribution of the securities to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the securities (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the securities (by either adopting or refining the manufacturer’s target market assessment) and determining the appropriate distribution channels.]

**[UK MIFIR PRODUCT GOVERNANCE / PROFESSIONAL INVESTORS AND ECPS ONLY TARGET MARKET —** Solely for the purposes of [the/each] manufacturer’s product approval process, the target market assessment in respect of the securities has led to the conclusion that: (i) the target market for the securities is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook, and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (“UK MiFIR”); and (ii) all channels for distribution of the securities to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the securities (a “distributor”) should take into consideration the manufacturer’s target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook is responsible for undertaking its own target market assessment in respect of the securities (by either adopting or refining the manufacturer’s target market assessment) and determining the appropriate distribution channels.]

**[PROHIBITION OF SALES TO EEA RETAIL INVESTORS —** The securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “MiFID II”); (ii) a customer within the meaning of Directive (EU) 2016/97 (the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (the “Prospectus Regulation”). Consequently, no key information document required by Regulation (EU) 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the securities or otherwise making them available to retail investors in the EEA has been prepared and therefore, offering or selling the securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

**[PROHIBITION OF SALES TO UK RETAIL INVESTORS —** The securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (“UK”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the “EUWA”); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (the “FSMA”) and any rules or regulations made under the FSMA to implement the Insurance Distribution Directive, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA (the “UK Prospectus Regulation”). Consequently, no key information document required by the Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the “UK PRIIPs Regulation”) for offering or selling the securities or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

**[Notice to investors in Singapore: By accepting this Pricing Supplement, if you are an investor in Singapore, you: (I) represent and warrant that you are either (1) an institutional investor (as defined in**

Section 4A of the Securities and Futures Act 2001 of Singapore (the “SFA”)) pursuant to Section 274 of the SFA; or (2) an accredited investor (as defined in Section 4A of the SFA) pursuant to and in accordance with the conditions specified in Section 275 of the SFA, and (II) agree to be bound by the limitations and restrictions described in the Offering Circular.]^

*^ To be inserted if the Notes will be offered to investors in Singapore and such investors are institutional investors and accredited investors only.*

[Notification under Section 309B(1)(c) of the Securities and Futures Act 2001 of Singapore (the “SFA”) — The Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are [prescribed capital markets products [OR] capital markets products other than prescribed capital markets products]\* (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and [Excluded Investment Products [OR] Specified Investment Products]\* (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).]\*\*

*\* To delete accordingly.*

*\*\* To be inserted if the Notes will be offered to investors in Singapore and the Issuer intends to (i) amend the Singapore selling restrictions in the Offering Circular (i.e. offer the Notes to persons specified in Sections 274 or 275 of the SFA) and (ii) re-classify the Notes pursuant to Section 309B of the SFA.*

[Date]

**KEB HANA BANK**

**[(acting through its [●] branch)]**

**Issue of [Aggregate Nominal Amount of Tranche] [Title of Notes]**

**Issued Pursuant to the U.S.\$10,000,000,000 Global Medium Term Note Programme**

*This document constitutes the Pricing Supplement relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes set forth in the Offering Circular dated [date] as amended or supplemented from time to time (the “Offering Circular”). This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with the Offering Circular. Full information on the Issuer and the offer of the Notes is only available on the basis of this Pricing Supplement and the Offering Circular.*

*[The following language applies if the Notes rely on the exemption as set out in Article 2-2-2, Paragraph 2, Item 3 of the Securities Issuance and Disclosure Regulations promulgated by the Financial Services Commission of Korea.]*

The Notes have not been and will not be registered with the Financial Services Commission of Korea under the Financial Investment Services and Capital Markets Act of Korea. Accordingly, the Notes may not be offered, delivered, or sold, directly or indirectly, in the Republic of Korea (“**Korea**”) or to, or for the account or benefit of, any resident of Korea (as defined in the Foreign Exchange Transaction Act of Korea and the rules and regulations promulgated thereunder) or to others for re-offering or resale, directly or indirectly, in Korea or to any resident of Korea except as otherwise permitted under applicable Korean laws and regulations. In addition, during the first year after the issuance of the Notes, the Notes may not be transferred to any resident of Korea other than a “qualified institutional buyer” (a “Korean QIB” as defined under the Securities Issuance and Disclosure Regulations) who is registered with the Korea Financial Investment Association as a Korean QIB, provided that the amount of the Notes acquired by the Korean QIBs in the primary market is limited to not more than 20% of the aggregate principal amount of the Notes.

*[The following language applies if the Notes rely on the exemption as set out in Article 2-2-2, Paragraph 2 (other than Item 3) of the Securities Issuance and Disclosure Regulations promulgated by the Financial Services Commission of Korea.]*

The Notes have not been and will not be registered with the Financial Services Commission of Korea under the Financial Investment Services and Capital Markets Act of Korea. Accordingly, the Notes may not be offered, delivered, or sold, directly or indirectly, in the Republic of Korea (“**Korea**”) or to, or for the account or benefit of, any resident of Korea (as defined in the Foreign Exchange Transaction Act of Korea and the rules and regulations promulgated thereunder) or to others for re-offering or resale, directly or indirectly, in Korea or to any resident of Korea except as otherwise permitted under applicable Korean laws and regulations. In addition, during the first year after the issuance of the Notes, the Notes may not be transferred to any resident of Korea except as otherwise permitted under applicable Korean laws and regulations.

Any person making or intending to make an offer of the Notes may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to either of Article 3 of the Prospectus Regulation or section 85 of the FSMA or supplement a prospectus pursuant to either of Article 23 of the Prospectus Regulation or Article 23 of the UK Prospectus Regulation, in each case, in relation to such offer.

*[The following alternative language applies if the first tranche of an issue which is being increased was issued under an Offering Circular with an earlier date.]*

Terms used herein shall be deemed to be defined as such for the purposes of the Terms and Conditions of the Notes (the “**Conditions**”) set forth in the Offering Circular dated [original date]. This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with the Offering Circular dated [date], save in respect of the Conditions which are extracted from the Offering Circular dated [original date] and are attached hereto. Full information on the Issuer and the offer of the Notes is only available on the basis of this Pricing Supplement and such Offering Circulars.]

*[Include whichever of the following apply or specify items as “not applicable” (N/A). Note that the numbering should remain as set out below, even if “Not Applicable” is indicated for individual paragraphs or sub-paragraphs. Italics denote directions for completing the Pricing Supplement.]*

[If the Notes have a maturity of less than one year from the date of their issue, the minimum denomination may need to be £100,000 or its equivalent in any other currency.]

1. Issuer (acting [through its principal office in Korea]/[through its branch]): KEB Hana Bank, [acting through its [principal office in Korea]/[name of relevant issuing branch]] (Legal Entity Identifier: 6RPK2YDJN6L35AS0M510)
2. (i) Series Number: [●]  
 (ii) Tranche Number: [●]  
*(If re-opening fungible with an existing Series, details of that Series, including the date on which the Notes become fungible)*  
 (iii) Re-opening: [Yes/No] *(Specify terms of initial or eventual fungibility)*
3. Specified Currency or Currencies: [●]\*
4. Aggregate Nominal Amount:  
 (i) Tranche: [●]  
 (ii) Series: [●]
5. [(i)] Issue Price of Tranche: [●]% of the Aggregate Nominal Amount [plus accrued interest from [insert date] (in the case of fungible re-opening issues only, if applicable).  
 [(ii)] Net Proceeds: [●]  
*(Required only for listed issues)*  
 [(iii)] Use of Proceeds: [●]
6. (i) Specified Denominations: [●]  
*(N.B. In the case of Registered Notes, this means the minimum integral amount in which transfers can be made. For Registered Global Notes, consider including language substantially to the following effect (however, appropriate amendments should be made for different currencies):*  
 (“[US\$200,000] / [€100,000] and integral multiples of [US\$1,000] / [€1,000] in excess thereof”)  
*(Notes (including Notes denominated in Sterling) in respect of which the issue proceeds are to be accepted by the issuer in the United Kingdom or whose issue otherwise constitutes a contravention of Section 19 FSMA and which have a maturity of less than one year must have a minimum redemption value of £100,000 (or its equivalent in other currencies).)*

\* Ensure that this is consistent with the wording in the “Form of the Notes” section in the Offering Circular and the Notes themselves. N.B. The exchange upon notice/at any time options should not be expressed to be applicable if the Specified Denomination of the Notes in paragraph 6(i) includes language substantially to the following effect: “U.S.\$200,000 and integral multiples of U.S.\$1,000 in excess thereof up to and including U.S.\$399,000.” Furthermore, such Specified Denomination construction is not permitted in relation to any issue of Notes which is to be represented on issue by a Temporary Global Note exchangeable for Definitive Bearer Notes.

*(N.B. For Bearer Notes with a Specified Denomination and higher integral multiples above the minimum denomination, consider including language substantially to the following effect (however, appropriate amendments should be made for different currencies):*

*(“[US\$200,000] / [€100,000] and integral multiples of [US\$1,000] / [€1,000] in excess thereof, up to and including [US\$399,000] / [€199,000] and, for so long as the Notes are represented by a Global Note (as defined below) and Euroclear and Clearstream so permit, the Notes shall be tradable only in the minimum authorised denomination of [US\$200,000] / [€100,000] and higher integral multiples of [US\$1,000] [€1,000], notwithstanding that no definitive notes will be issued with a denomination above [US\$399,000] / [€199,000].”)*

- (ii) Calculation Amount: [●]
- (If there is only one Specified Denomination, insert the Specified Denomination. If there is more than one Specified Denomination, insert the highest common factor. Note: There must be a common factor in the case of two or more Specified Denominations.)*
7. (i) Issue Date: [●]
- (ii) Interest Commencement Date: [specify/Issue Date/Not Applicable] *(N.B. An Interest Commencement Date will not be relevant for certain Notes, for example Zero Coupon Notes.)*
8. Maturity Date: [Fixed rate — specify date] [Floating rate — Interest Payment Date falling in or nearest to [specify month and year]]
- (N.B. Tier II Subordinated Notes shall have a minimum maturity of five years and Tier I Subordinated Notes shall be undated perpetual securities with no fixed maturity.)*
9. Interest Basis: [[●]% Fixed Rate]
- [[specify reference rate<sup>1</sup>] +/- [●]% Floating Rate]
- [Zero Coupon]
- [Index-Linked Interest]
- [Dual Currency Interest]
- [specify other]
- (further particulars specified below)*
10. Redemption/Payment Basis: [Redemption at par]
- [Dual Currency Redemption]
- [Partly Paid]
- [Instalment]
- [specify other]
11. Change of Interest Basis or Redemption/Payment Basis: [Specify details of any provision for change of Notes into another Interest Basis or Redemption/Payment Basis]

<sup>1</sup> Parties to consider the various IBOR cessation dates and the maturity date of the Notes in selecting a Reference Rate.

12. Put/Call Options: [Investor Put]  
[Issuer Call]  
[(further particulars specified below)]  
  
*[N.B. Investor Put not possible for Subordinated Notes; Issuer Call for Subordinated Notes may not be made within five years of their issuance date and will be subject to satisfaction of regulatory conditions.]*
13. (i) Status of the Notes: [Senior/Tier I Subordinated/Tier II Subordinated]
- (ii) Date of [Board] approval for issuance of Notes obtained: [●]/[None required]  
*(N.B. Only relevant where Board (or similar) authorisation is required for the particular tranche of Notes)*
- (iii) Date of regulatory approval/consent for issuance of Notes obtained: [●]/[None required]  
*(N.B. Only relevant where Board (or similar) authorisation is required for the particular tranche of Notes)*
14. Listing: [Singapore Stock Exchange/specify other/None]
15. Method of distribution: [Syndicated/Non-syndicated]

#### PROVISIONS RELATING TO INTEREST (IF ANY) PAYABLE

16. Fixed Rate Note Provisions: [Applicable/Not Applicable]  
*(If not applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) Rate[(s)] of Interest: [●]% per annum [payable [annually/ semi-annually/quarterly/ monthly] in arrear]  
*(If payable other than annually, consider amending Condition 5)*
- (ii) Interest Payment Date(s): [[●] in each year up to and including the Maturity Date [adjusted in accordance with [specify Business Day Convention]] / [not adjusted] / [specify other]]  
*(N.B. This will need to be amended in the case of long or short coupons)*
- (iii) Fixed Coupon Amount(s): [[●] per Calculation Amount]/[As per Condition 5(a)(II)]  
*(Applicable to Notes in definitive form)*
- (iv) Broken Amount(s): *(Applicable to Notes in definitive form)* [[●] per Calculation Amount, payable on the Interest Payment Date falling [in/on] [●]]/[As per Condition 5(a)(II)]
- (v) Day Count Fraction: [30/360 or Actual/Actual (ICMA) or specify other]/[Not applicable] *(Applicable if Condition 5(a)(I) is specified as being applicable in paragraph 16(viii))*

- (vi) Determination Date(s): ☐ in each year
- [Insert regular interest payment dates, ignoring issue date or maturity date in the case of a long or short first or last coupon. N.B.: This will need to be amended in the case of regular interest payment dates which are not of equal duration. N.B. Only relevant where Day Count Fraction is Actual/Actual (ICMA)]*
- (vii) Business Day Convention: ☐ [Following Business Day Convention] *[specify other]*
- (viii) Other terms relating to the method of calculating interest for Fixed Rate Notes: ☐ [Condition 5(a)(I) applies/Condition 5(a)(II) applies. The Principal Paying Agent will act as the Calculation Agent / None / *give details*]
17. Floating Rate Note Provisions: ☐ [Applicable/Not Applicable]
- (If not applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) Specified Period(s)/Interest Payment Dates: ☐
- (ii) Business Day Convention: ☐ [Floating Rate Convention/Following Business Day Convention/Modified Following Business Day Convention/Preceding Business Day Convention/*specify other*]
- (iii) Business Centre(s) / applicable Business Centre(s): ☐ ☐ (Insert New York City for U.S. dollar denominated Notes to be held through DTC and for non-U.S. dollar denominated Notes where exchange into U.S. dollars is contemplated for DTC participants holding through Euroclear and Clearstream, Luxembourg)
- (iv) Manner in which the Rate of Interest and Interest Amount is to be determined: ☐ [Screen Rate Determination/ISDA Determination/*specify other*]
- (v) Party responsible for calculating the Rate of Interest and Interest Amount (if not the Principal Paying Agent): ☐
- (vi) Screen Rate Determination:
- Reference Rate: ☐
- (Either EURIBOR, SOFR or other, although additional information is required if other — including fallback provisions in the Agency Agreement)*
- Interest Determination Date(s): ☐
- (Second day on which the T2 is open prior to the start of each Interest Period if EURIBOR)*
- Relevant Screen Page: ☐
- (In the case of EURIBOR, if not Reuters Page EURIBOR 01 ensure it is a page which shows a composite rate or amend the fallback provisions appropriately)*

|                                |                                                                                                                                                                      |

- (i) Rate of Exchange/method of calculating Rate of Exchange: [give details]
- (ii) Party, if any, responsible for calculating the principal and/or interest payable (if not the Principal Paying Agent): [●]
- (iii) Provisions applicable where calculation by reference to Rate of Exchange impossible or impracticable: [need to include a description of market disruption or settlement disruption events and adjustment provisions]
- (iv) Person at whose option Specified Currency(ies) is/are payable: [●]
21. Interest Rate Reset: [Applicable/Not Applicable]
- Interest Reset Date: [●] *(include if applicable)*

## PROVISIONS RELATING TO REDEMPTION

22. Issuer Call: [Applicable/Not Applicable]
- (If not applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) Optional Redemption Date(s): [●] *(N.B. Subordinated Notes may not be redeemed within five years of their issuance date and will be subject to satisfaction of regulatory conditions)*
- (ii) Optional Redemption Amount of each Note and method, if any, of calculation of such amount(s): [[●] per Calculation Amount/specify other/see Appendix]
- (iii) If redeemable in part:
- (a) Minimum Redemption Amount: [●]
- (b) Maximum Redemption Amount: [●]
- (iv) Notice period (if other than as set out in the Conditions): [●]
- (N.B. If setting notice periods which are different to those provided in the Conditions, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Principal Paying Agent)*

23. Investor Put: [Applicable/Not Applicable]
- (If not applicable, delete the remaining sub-paragraphs of this paragraph)*
- (i) Optional Redemption Date(s): [●]
- (ii) Optional Redemption Amount of each Note and method, if any, of calculation of such amount(s): [[●] per Calculation Amount/specify other/see Appendix]
- (iii) Notice period (if other than as set out in the Conditions): [●]
- (N.B. If setting notice periods which are different to those provided in the Conditions, the Issuer is advised to consider the practicalities of distribution of information through intermediaries, for example, clearing systems and custodians, as well as any other notice requirements which may apply, for example, as between the Issuer and the Principal Paying Agent)*
24. Final Redemption Amount of each Note: [[●] per Calculation Amount/specify other/see Appendix]
25. Early Redemption Amount of each Note payable on redemption for taxation reasons or on event of default and/or the method of calculating the same (if required or if different from that set out in Condition 7(e)): [[●] per Calculation Amount/specify other/see Appendix]

#### GENERAL PROVISIONS APPLICABLE TO THE NOTES

26. Form of Notes: [Bearer Notes:
- [Temporary Global Note exchangeable for a Permanent Global Note which is exchangeable for Definitive Bearer Notes only upon an Exchange Event]\*
- [Temporary Global Note exchangeable for Definitive Bearer Notes on and after the Exchange Date]\*
- [Permanent Global Note exchangeable for Definitive Bearer Notes only upon an Exchange Event]\*
- [Registered Notes:
- Regulation S Global Note (U.S.\$[●] nominal amount) registered in the name of a nominee for [DTC/a common depositary for Euroclear and Clearstream, Luxembourg/held through the CMU Service]/ Restricted Global Note (U.S.\$[●] nominal amount) registered in the name of a nominee for [DTC/a common depositary for Euroclear and Clearstream, Luxembourg/held through the CMU Service]/Definitive IAI Registered Notes (specify nominal amounts)]

\* Ensure that this is consistent with the wording in the “Form of the Notes” section in the Offering Circular and the Notes themselves. N.B. The exchange upon notice/at any time options should not be expressed to be applicable if the Specified Denomination of the Notes in paragraph 6(i) includes language substantially to the following effect: “U.S.\$200,000 and integral multiples of U.S.\$1,000 in excess thereof up to and including U.S.\$399,000.” Furthermore, such Specified Denomination construction is not permitted in relation to any issue of Notes which is to be represented on issue by a Temporary Global Note exchangeable for Definitive Bearer Notes.

*(Ensure that this is consistent with the language in the “Form of the Notes” section in the Offering Circular and the Notes themselves)*

27. Financial Centre(s) / applicable Financial Centre(s) or other special provisions relating to Payment Dates: [give details]  
*(Note that this item relates to the place of payment and not Interest Period end dates to which items 17(iii) and 19(vi) relate; insert New York City for U.S. dollar denominated Notes to be held through DTC)*
28. Talons for future Coupons or Receipts to be attached to Definitive Bearer Notes (and dates on which such Talons mature): [Yes/No. If yes, give details]
29. Details relating to Partly Paid Notes: amount of each payment comprising the Issue Price and date on which each payment is to be made and consequences of failure to pay, including any right of the Issuer to forfeit the Notes and interest due on late payment: [Not Applicable/give details]  
*(N.B. New forms of Global Note(s) may be required for Partly Paid issues.)*
30. Details relating to Instalment Notes:
- (i) Instalment Amount(s): [Not Applicable/give details]
- (ii) Instalment Date(s): [Not Applicable/give details]
31. Redenomination applicable: Redenomination [not] applicable  
*(If Redenomination is applicable, specify the applicable Day Count Fraction and any provisions necessary to deal with floating rate interest calculation (including alternative reference rates))*
32. Other terms or special conditions: [Not Applicable/give details]
33. Additional U.S. federal income tax considerations: [Not Applicable/give details]

## **DISTRIBUTION**

34. (i) If syndicated, names of Managers: [Not Applicable/give names]
- (ii) Stabilisation Manager (if any): [Not Applicable/give name]
35. If non-syndicated, name of relevant Dealer: [●]
36. Whether TEFRA D or TEFRA C rules applicable or TEFRA rules not applicable: [TEFRA D/TEFRA C/TEFRA not applicable]
37. U.S. Selling Restrictions: [Rule 144A]/ Regulations S, Category 2

38. Prohibition of Sales to EEA Retail Investors: [Applicable/Not Applicable]  
*(If the Notes clearly do not constitute “packaged” products or the Notes do constitute “packaged” products and a key information document will be prepared in the EEA, “Not Applicable” should be specified. If the Notes may constitute “packaged” products and no key information document will be prepared in the EEA, “Applicable” should be specified.)*
39. Prohibition of Sales to UK Retail Investors: [Applicable/Not Applicable]  
*(If the Notes clearly do not constitute “packaged” products, or the Notes do constitute “packaged” products and a key information document will be prepared in the UK, “Not Applicable” should be specified. If the Notes may constitute “packaged” products and no key information document will be prepared in the UK, “Applicable” should be specified.)*
40. Additional selling restrictions: [Not Applicable/give details]
41. Ratings: [Not Applicable/The Notes to be issued are expected to be assigned the following ratings: give details]

## PROVISIONS RELATING TO GREEN BONDS, SOCIAL BONDS OR SUSTAINABILITY BONDS

42. (i) Green Bonds [Yes/No]  
(ii) Social Bonds [Yes/No]  
(iii) Sustainability Bonds [Yes/No]  
(iv) [Reviewer(s):] *[Name of sustainability rating agency(ies) [and name of third party assurance agent] and [give details of compliance opinion(s) and availability]]*

## OPERATIONAL INFORMATION

43. Any clearing system(s) other than Euroclear and Clearstream, Luxembourg and the relevant identification number(s): [CMU Service/Not Applicable/give name(s) and number(s)]
44. Delivery: Delivery [against/free of] payment
45. [In the case of Registered Notes, specify the location of the office of the Registrar if other than New York:] [Not Applicable/[Luxembourg]/Hong Kong]
46. Additional Paying Agent(s) (if any): [●]

## [HONG KONG SFC CODE OF CONDUCT]<sup>2</sup>

47. Rebates: [A rebate of [●] bps is being offered by the [Issuer] to all private banks for orders they place (other than in relation to [Bonds/Notes/Securities] subscribed by such private banks as principal whereby it is deploying its own balance sheet for onward selling to investors), payable upon closing of this

<sup>2</sup> For an MTN drawdown involving in-scope managers, parties may decide to have a preliminary Pricing Supplement which can be distributed to other CMIs and investors containing the relevant Hong Kong SFC Code of Conduct information. If no preliminary Pricing Supplement is available for the MTN drawdown, or for EU/UK PR-compliant programmes, in-scope managers may consider other ways in which to facilitate compliance with paragraph 21 requirements (e.g. BBG messages, bilateral communications with investors, attaching a standalone “Notice to Investors” page to the front of any marketing materials).

offering based on the principal amount of the [Bonds/Notes/Securities] distributed by such private banks to investors. Private banks are deemed to be placing an order on a principal basis unless they inform the CMI otherwise. As a result, private banks placing an order on a principal basis (including those deemed as placing an order as principal) will not be entitled to, and will not be paid, the rebate.] / [Not Applicable]

48. Contact email addresses of the Overall Coordinators where the underlying investor information in relation to omnibus orders should be sent: *[Include relevant contact email addresses of the Overall Coordinators where the underlying investor information should be sent — OCs to provide]* / [Not Applicable]

49. Marketing and Investor Targeting Strategy: *[As indicated in the Offering Circular]* / *[If different from the programme OC]*

ISIN: [●]

Common Code: [●]

*(insert here any other relevant codes such as CUSIP, CINS codes and a CMU instrument number)*

## [LISTING APPLICATION]

This Pricing Supplement comprises the final terms required to list the issue of Notes described herein pursuant to the U.S.\$10,000,000,000 Global Medium Term Note Programme of KEB Hana Bank.

The Singapore Exchange Securities Trading Limited (the “**Singapore Stock Exchange**”) assumes no responsibility for the correctness of any of the statements made, opinions expressed or reports contained in this Pricing Supplement. Approval in-principle from, admission to the Official List of, and listing and quotation of the Notes on, the Singapore Stock Exchange are not to be taken as an indication of the merits of the Issuer, the Programme or the Notes.<sup>3</sup>

[Application [has been] / [will be] made for the Notes to be recognised under the SGX Sustainable Fixed Income initiative on the Singapore Stock Exchange. There is no guarantee that such application for recognition under the SGX Sustainable Fixed Income initiative will be approved. Recognition under the SGX Sustainable Fixed Income initiative does not guarantee that the Notes will satisfy any investor’s expectations or requirements on its sustainability-related performance or impact. If approved, the Singapore Stock Exchange may remove the recognition from the Notes at its discretion. The latest list of fixed income securities that have been granted recognition under the SGX Sustainable Fixed Income initiative is available at the Singapore Stock Exchange website.]<sup>4</sup>

## RESPONSIBILITY

The Issuer accepts responsibility for the information contained in this Pricing Supplement.

Signed on behalf of the Issuer:

By: \_\_\_\_\_

*Duly authorised*

<sup>3</sup> For Singapore Stock Exchange listing: For drawdowns based on the 29 September 2025 Offering Circular, please note that if the Issuer’s audited financials for financial year 2025 have since become available, this should be appended in full to the pricing supplement.

<sup>4</sup> For Singapore Stock Exchange listing: To include this paragraph if the Notes are green/social/sustainability Notes and the Issuer intends to apply for recognition under SGX’s Sustainable Fixed Income initiative.

If the relevant Pricing Supplement relating to a Tranche of Notes specifies any modification to the Terms and Conditions of the Notes as described herein, it is envisaged that, to the extent that such modification relates only to Conditions 1, 2, 5, 6, 7 (except Condition 7(b)), 12, 13, 14, 15 (insofar as such Notes are not listed or admitted to trade on any stock exchange) or 17, they will not necessitate the preparation of a supplementary Offering Circular. If the Terms and Conditions of the Notes of any Series are to be modified in any other respect, a supplementary Offering Circular or a further Offering Circular describing the modification will be prepared, if appropriate.

## TERMS AND CONDITIONS OF THE NOTES

*The following are the Terms and Conditions of the Notes to be issued by the Issuer which will be incorporated by reference into each global Note and each definitive Note, in the latter case only if permitted by the relevant stock exchange (if any) and agreed by the Issuer and the relevant Dealer at the time of issue but if not so permitted and agreed, such definitive Note will have endorsed thereon or attached thereto such Terms and Conditions. The applicable Pricing Supplement in relation to any Tranche of Notes may specify other terms and conditions which shall to the extent so specified or to the extent inconsistent with the following Terms and Conditions, replace or modify the following Terms and Conditions for the purpose of such Notes. The applicable Pricing Supplement (or the relevant provisions thereof) will be endorsed upon, or attached to, each Temporary Global Note, Permanent Global Note, Regulation S Global Note, Restricted Global Note and definitive Note. Reference should be made to “Form of the Notes” above for a description of the content of Pricing Supplements which will specify which of such terms are to apply in relation to the relevant Notes.*

This Note is one of a Series (as defined below) of Notes issued by KEB Hana Bank (the “**Issuer**”). The applicable Pricing Supplement (as defined below) will indicate whether the Issuer is acting in relation to the Notes through its principal office in the Republic of Korea (“**Korea**”) or any of its branches.

References herein to the “**Notes**” shall be references to the Notes of this Series and shall mean;

- (i) in relation to any Notes represented by a global Note (a “**Global Note**”), units of the lowest Specified Denomination in the Specified Currency;
- (ii) definitive Notes in bearer form (“**Bearer Notes**”) issued in exchange (or part exchange) for a Global Note;
- (iii) any Global Note;
- (iv) in relation to any Notes represented by definitive Notes in registered form (“**Definitive Registered Notes**”), units of the lowest Specified Denomination in the Specified Currency; and
- (v) any Definitive Registered Notes.

The Notes, the Receipts (as defined below) and the Coupons (as defined below) have the benefit of the Agency Agreement dated 8 January 2016 as amended and supplemented by the First Supplement to the Agency Agreement dated 5 October 2016, the Second Supplement to the Agency Agreement dated 11 January 2019, the Third Supplement to the Agency Agreement dated 31 May 2021, the Fourth Supplement to the Agency Agreement dated 7 April 2023, the Fifth Supplement to the Agency Agreement dated 5 April 2024 and the Sixth Supplement to the Agency Agreement dated 29 September 2025 (as further amended, restated or supplemented from time to time, the “**Agency Agreement**”) and made between, the Issuer, Citibank, N.A., London Branch, as principal paying agent and DTC paying agent (the “**Principal Paying Agent**”, which expression shall include any successor principal paying agent), as calculation agent (the “**Calculation Agent**”, which expression shall include any successor), as transfer agent with respect to Notes held through DTC, Euroclear and Clearstream, Luxembourg (the relevant “**Transfer Agents**”, which expression shall include any successor or any additional transfer agents appointed in accordance with the Agency Agreement) and as exchange agent (the “**Exchange Agent**”, which expression shall include any successor exchange agent) and Citicorp International Limited, as registrar with respect to Notes held through DTC, Euroclear and Clearstream, Luxembourg (the relevant “**Registrar**”, which expression shall include any successor registrar), as registrar with respect to Notes held through CMU (the “**CMU Registrar**”, which expression shall include any successor or any additional CMU registrar), as transfer agent with respect to Notes held through CMU (the “**CMU Transfer Agent**”, which expression shall include any successor or any additional CMU transfer agents appointed in accordance with the Agency Agreement) and as CMU lodging and paying agent (the “**CMU Lodging Agent**”, which expression shall include any successor or any additional CMU lodging and paying agents appointed from time to time) (together with the Principal Paying Agent, the “**Paying Agents**”, which expression shall, unless the context otherwise requires, include any successor or any additional paying agents appointed in accordance with the Agency Agreement). For purposes of these Terms and Conditions, all references to the Principal Paying Agent and the Registrar shall, with respect to a Series of Notes to be held in the CMU Service (as defined below), be deemed to be a reference to the CMU Lodging Agent and all such references shall be construed accordingly.

Interest bearing definitive Bearer Notes (unless otherwise indicated in the applicable Pricing Supplement) have interest coupons (“**Coupons**”) and, if indicated in the applicable Pricing Supplement, talons for further Coupons (“**Talons**”) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Definitive Bearer Notes repayable in instalments have receipts (“**Receipts**”) for the payment of the instalments of principal (other than the final instalment) attached on issue. Definitive Registered Notes do not have Receipts or Coupons attached on issue.

The Pricing Supplement for this Note (or the relevant provisions thereof) is attached to or endorsed on this Note and supplements these Terms and Conditions and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Terms and Conditions, replace or modify these Terms and Conditions for the purposes of this Note. References to the “**applicable Pricing Supplement**” are to the Pricing Supplement (or the relevant provisions thereof) attached to or endorsed on this Note.

Any reference to “**Noteholders**” shall mean (in the case of Bearer Notes) the holders of the Notes and (in the case of Registered Notes) the persons in whose name the Notes are registered, and shall, in relation to any Notes represented by a Global Note, be construed as provided below. Any reference herein to “**Receiptholders**” shall mean the holders of the Receipts and any reference herein to “**Couponholders**” shall mean the holders of any Coupons, and shall, unless the context otherwise requires, include the holders of any Talons.

As used herein, “**Tranche**” means Notes which are identical in all respects (including as to listing) and “**Series**” means a Tranche of Notes together with any further Tranche or Tranches of Notes which are (i) expressed to be consolidated and form a single series and (ii) identical in all respects (including as to listing) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

The Noteholders, the Receiptholders and the Couponholders are entitled to the benefit of the deed of covenant dated 8 January 2016 (the “**Deed of Covenant**”) made by the Issuer. The original of the Deed of Covenant is held by a common depositary on behalf of Euroclear (as defined below) and Clearstream, Luxembourg (as defined below).

Copies of the Agency Agreement, the Pricing Supplement applicable to this Note, a deed poll (the “**Deed Poll**”) dated 8 January 2016 and the Deed of Covenant are available for inspection during normal business hours at the specified office of the Paying Agents save that, if this Note is an unlisted Note of any Series, the applicable Pricing Supplement will only be available to a Noteholder holding one or more unlisted Notes of that Series and such Noteholder must produce evidence satisfactory to the relevant Paying Agent as to its holding of Notes and as to identity. The Noteholders, the Receiptholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Agency Agreement, the Deed Poll, the Deed of Covenant and the applicable Pricing Supplement which are applicable to them.

Words and expressions defined in the Agency Agreement or used in the applicable Pricing Supplement shall have the same meanings where used in these Terms and Conditions unless the context otherwise requires or unless otherwise stated and **provided that**, in the event of inconsistency between the Agency Agreement and the applicable Pricing Supplement or these Terms and Conditions and the applicable Pricing Supplement, the applicable Pricing Supplement will prevail.

## **1. Form, Denomination and Title**

The Notes may be in bearer form or in registered form and, in the case of definitive Notes, will be serially numbered, in the Specified Currency and the Specified Denomination(s). Save as provided in Condition 2, Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination and Bearer Notes may not be exchanged for Registered Notes and *vice versa*.

This Note is a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, an Index Linked Interest Note, an Instalment Note, a Dual Currency Note or a Partly Paid Note or a combination of any of the foregoing, depending upon the Interest/ Payment Basis shown in the applicable Pricing Supplement.

Each Tranche of Bearer Notes will be initially represented by a temporary global Note without Receipts, Coupons or Talons attached (each, a “**Temporary Global Note**”) which will be delivered to a common depositary for Euroclear Bank S.A./N.V. (“**Euroclear**”) and Clearstream Banking S.A. (“**Clearstream, Luxembourg**”) and/or a sub-custodian for the Central Moneymarkets Unit Service (the “**CMU Service**”) operated by the Hong Kong Monetary Authority (the “**HKMA**”). On or after the date which is 40 days after the Issue Date beneficial interests in a Temporary Global Note will be exchangeable upon a request as described therein either for interests in a permanent global Note without Receipts, Coupons or Talons (each, a “**Permanent Global Note**”) or for definitive Bearer Notes (as indicated in the applicable Pricing Supplement and subject, in the case of definitive Bearer Notes, to such notice period as is specified in the applicable Pricing Supplement), in each case against certification to the effect that the beneficial owner of interests in such Temporary Global Note is not a U.S. person or a person who has purchased for resale to any U.S. person, as required by U.S. Treasury regulations. The applicable Pricing Supplement will specify that a Permanent Global Note will be exchangeable (free of charge), in whole but not in part, for definitive

Notes with, where applicable, receipts, interest coupons and talons attached upon the occurrence of an Exchange Event. For these purposes, “**Exchange Event**” means that (i) an Event of Default (as defined in Condition 11) has occurred and is continuing, (ii) the Issuer has been notified that Euroclear and/or Clearstream, Luxembourg have been or, in the case of Notes held through the CMU Service, the CMU Service has been, closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and no alternative clearing system is available or (iii) the Issuer has or will become obliged to pay additional amounts as provided for or referred to in Condition 9 which would not be required were the Notes represented by the Permanent Global Note in definitive form (**provided that**, in certain circumstances where the Notes are held through Euroclear and/or Clearstream, Luxembourg, and/or the CMU Service, such adverse tax consequences are as a result of a change in, or amendment to, the laws or regulation (taxation or otherwise) in, or of, Korea). The Issuer will promptly give notice to Noteholders in accordance with Condition 15 if an Exchange Event occurs. In the event of the occurrence of an Exchange Event, (x) in the case of Notes held by a Common Depositary for Euroclear and/or Clearstream, Luxembourg, Euroclear and/or Clearstream, Luxembourg (acting on the instructions of any holder of an interest in such Permanent Global Note) and/or (y) in the case of Notes held through the CMU Service, the relevant accountholders therein, may give notice to the Principal Paying Agent or, as the case may be, the CMU Lodging Agent, requesting exchange and, in the event of the occurrence of an Exchange Event as described in (iii) above, the Issuer will also give notice to the Principal Paying Agent or the CMU Lodging Agent, as the case may be, requesting exchange. Any such exchange following an Exchange Event shall occur not later than 45 days after the date of receipt of the first relevant notice by the Principal Paying Agent or the CMU Lodging Agent, as the case may be.

Bearer Notes in definitive form are issued with Coupons and (if applicable) Receipts and Talons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in these Terms and Conditions are not applicable.

Unless otherwise provided with respect to a particular series of Registered Notes, Registered Notes of each Tranche sold outside the United States in reliance on Regulation S (“**Regulation S**”) under the United States Securities Act of 1933, as amended, (the “**Securities Act**”) will, unless otherwise specified in the applicable Pricing Supplement, be represented by a permanent global Registered Note, without Receipts, Coupons or Talons attached, (each, a “**Regulation S Global Note**”), deposited with (i) a custodian for, and registered in the name of a nominee of, The Depository Trust Company (“**DTC**”) for the accounts of Euroclear and Clearstream, Luxembourg, (ii) a common depositary for, and registered in the name of a common nominee of, Euroclear and Clearstream, Luxembourg, or (iii) a sub-custodian for the HKMA as operator of the CMU Service, as specified in the applicable Pricing Supplement. Definitive Registered Notes issued in exchange for Regulation S Global Notes or otherwise sold or transferred in reliance on Regulation S under the Securities Act, together with the Regulation S Global Notes, are referred to herein as “**Regulation S Notes**”. With respect to all offers or sales of an unsold allotment or subscription and in any case prior to expiry of the period that ends 40 days after the later of the relevant Issue Date and completion of the distribution of each Tranche of Notes, as certified by the relevant Dealer, in the case of a non-syndicated issue, or by the Lead Manager, in the case of a syndicated issue (the “**Distribution Compliance Period**”), beneficial interests in a Regulation S Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person (save as otherwise provided in Condition 2). After expiry of such Distribution Compliance Period, beneficial interests in a Regulation S Note may be held through DTC directly by a participant in DTC or indirectly through a participant in DTC.

Registered Notes of each Tranche sold in private transactions in reliance upon Rule 144A under the Securities Act to qualified institutional buyers within the meaning of Rule 144A under the Securities Act (“**QIBs**”) will, unless otherwise specified in the applicable Pricing Supplement, be represented by a permanent global Registered Note, without Receipts, Coupons or Talons (each, a “**Restricted Global Note**” and, together with any Regulation S Global Note, the “**Registered Global Notes**”) deposited with a custodian for, and registered in the name of a nominee of, DTC. Notes in definitive form issued in exchange for Restricted Global Notes or otherwise sold or transferred in accordance with the requirements of Rule 144A under the Securities Act, together with the Restricted Global Notes, are referred to herein as “**Restricted Notes**”.

Registered Notes of each Tranche sold to accredited investors (as defined in Rule 501(a)(1), (2), (3) or (7) under the Securities Act) (“**Institutional Accredited Investors**”) pursuant to Section 4(a)(2) of the Securities Act or in a transaction otherwise exempt from registration under the Securities Act who agree to purchase the Notes for their own account and not with a view to the distribution thereof will be issued as

Definitive Registered Notes only, registered in the name of the holder thereof and will not be represented by a global Note.

Definitive Registered Notes issued to Institutional Accredited Investors or in exchange for an interest in a Restricted Global Note and Restricted Global Notes shall bear a legend specifying certain restrictions on transfer (each, a “**Legend**”), such Notes being referred to herein as “**Legended Notes**”. Upon the transfer, exchange or replacement of Legended Notes, or upon specific request for removal of a Legend, the Registrar shall (save as provided in Condition 2(d)) deliver only Legended Notes or refuse to remove such Legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of counsel, that neither the Legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act and the Issuer shall notify the Registrar accordingly.

Subject as otherwise provided in Condition 2, Definitive Registered Notes may be exchanged or transferred in whole or in part in the Specified Denominations for one or more Definitive Registered Notes of like aggregate nominal amount.

Each Definitive Registered Note will be numbered serially with an identifying number which will be recorded in the register (the “**Register**”) which the Issuer shall procure to be kept by the Registrar.

Notes are issued in the Specified Denomination(s) set out in the applicable Pricing Supplement which, in the case of Registered Notes sold other than pursuant to Regulation S, shall be the Authorised Denomination (as defined below) and, in the case of Notes having a maturity of 183 days or less, the Specified Denomination shall be at least U.S.\$500,000 (or the equivalent in any other currency or currencies). Each Tranche of Notes is issued in a nominal amount that is a multiple of the applicable Specified Denominations.

“**Authorised Denomination**” means:

- (i) in the case of a Restricted Note, U.S.\$200,000 (or its equivalent in any other currency rounded upwards as specified in the relevant Pricing Supplement), unless otherwise specified in the applicable Pricing Supplement, and higher integral multiples of U.S.\$1,000, or the higher denomination or denominations specified in the applicable Pricing Supplement; and
- (ii) in the case of a Definitive Registered Note which is initially offered and sold to Institutional Accredited Investors pursuant to Section 4(a)(2) of the Securities Act, U.S.\$500,000 (or its equivalent in any other currency rounded upwards as specified in the applicable Pricing Supplement) and higher integral multiples of U.S.\$1,000 or the higher denomination or denominations specified in the applicable Pricing Supplement.

Any minimum Authorised Denomination required by any law or directive or regulatory authority in respect of the currency of issue of any Note shall be such as applied on or prior to the date of issue of such Note.

Subject as set out below, title to Bearer Notes, Receipts and Coupons will pass by delivery. Title to Registered Notes will pass upon registration of transfers in accordance with the provisions of the Agency Agreement. The Issuer, the Principal Paying Agent, any other Paying Agent, the Registrar, (if applicable) the CMU Lodging Agent (except as otherwise required by law) and any Transfer Agent may deem and treat the bearer of any Bearer Note, Receipt or Coupon and any person in whose name a Registered Note is registered as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any Global Note, without prejudice to the provisions set out in the next paragraph.

For so long as any of the Bearer Notes is represented by a bearer Global Note held by a common depositary on behalf of Euroclear and/or Clearstream, Luxembourg and/or a sub-custodian for the CMU Service or for so long as DTC or its nominee is the registered holder of a Registered Global Note, each person (other than Euroclear, Clearstream, Luxembourg, the CMU Service or DTC as applicable) who is for the time being shown in the records of Euroclear, Clearstream, Luxembourg, the CMU Service or, as the case may be, DTC, as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear, Clearstream, Luxembourg, the CMU Service or, as the case may be, DTC, as to the nominal amount of such Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, any Paying Agent, the Registrar, the Exchange Agent and any Transfer Agent as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on the Notes, for which purpose the bearer of the relevant Global Note shall be treated by the Issuer, any Paying Agent, the Registrar, the Exchange Agent and any Transfer Agent as the holder of such Notes in accordance with and subject to the terms of the relevant Global Note (and the expressions “**Noteholder**” and “**holder of Notes**”

and related expressions shall be construed accordingly). Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear, Clearstream, Luxembourg, the CMU Service and DTC, as the case may be. Notwithstanding the above, if a Note (whether in global or definitive form) is held through the CMU Service, any payment that is made in respect of such Note shall be made at the direction of the bearer or the registered holder to the person(s) for whose account(s) interests in such Note are credited as being held through the CMU Service in accordance with the CMU Rules at the relevant time as notified to the CMU Lodging Agent by the CMU Service in a relevant CMU Instrument Position Report or any other relevant notification by the CMU Service. Such notification shall be conclusive evidence of the records of the CMU Service as to the identity of any accountholder (the “**CMU Accountholders**”) and the principal amount of any Note credited to its account, save in the case of manifest error, and such payments shall discharge the obligation of the Issuer in respect of that payment under such Note.

For so long as DTC or its nominee is the registered owner or holder of a Registered Global Note, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the Notes represented by such Registered Global Note for all purposes under the Agency Agreement and the Notes except to the extent that in accordance with DTC’s published rules and procedures any ownership rights may be exercised by its participants or beneficial owners through participants.

References to Euroclear, Clearstream, Luxembourg, the CMU Service and/or DTC shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Principal Paying Agent and specified in the applicable Pricing Supplement.

## 2. Exchange and Transfers of Registered Notes

### (a) *Exchange of interests in Registered Global Notes for Definitive Registered Notes*

Interests in any Registered Global Note will be exchangeable for Definitive Registered Notes if (i) Euroclear and/or Clearstream, Luxembourg, the CMU Service or DTC, as the case may be, notifies the Issuer that it is unwilling or unable to continue as depositary for such Registered Global Note, (ii) if applicable, DTC ceases to be a “**Clearing Agency**” registered under the U.S. Securities Exchange Act of 1934, as amended (the “**Exchange Act**”) or Euroclear, Clearstream, Luxembourg or the CMU Service, as the case may be, is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces its intention permanently to cease business, and a successor depositary or alternative clearing system satisfactory to the Issuer and the Registrar and, in the case of CMU Notes, the CMU Lodging Agent is not available or (iii) an Event of Default (as defined in Condition 11) has occurred and is continuing with respect to such Notes. Upon the occurrence of any of the events described in the preceding sentence, the Issuer will cause the appropriate Definitive Registered Notes to be delivered, **provided that**, notwithstanding the above, no Definitive Registered Notes will be issued until expiry of the applicable Distribution Compliance Period.

### (b) *Transfers of Registered Global Notes*

Transfers of a Registered Global Note registered in the name of a nominee or a sub-custodian for DTC, Euroclear, Clearstream, Luxembourg or the CMU Service, as the case may be, shall be limited to transfers of such Registered Global Note, in whole but not in part, to another nominee or sub-custodian of DTC, Euroclear, Clearstream, Luxembourg or the CMU Service, as the case may be, or to the nominee or sub-custodian of any successor thereto.

### (c) *Transfers of interests in Regulation S Notes*

Prior to expiry of the applicable Distribution Compliance Period, transfers by the holder of, or of a beneficial interest in, a Regulation S Note to a transferee in the United States will (unless otherwise specified in the applicable Pricing Supplement) only be made:

- (i) upon receipt by the Registrar of a written certification substantially in the form set out in the Agency Agreement, amended as appropriate (a “**Transfer Certificate**”), copies of which are available from the specified office of the Registrar or any Transfer Agent, from the transferor of the Note or beneficial interest therein to the effect that such transfer is being made:

- (A) to a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A; or

- (B) to a person who is an Institutional Accredited Investor (as defined below), in which case the Transfer Certificate must be accompanied by a duly executed investment letter from the relevant transferee substantially in the form set out in the Agency Agreement (an “**IAI Investment Letter**”); or
- (ii) otherwise pursuant to the Securities Act or an exemption therefrom, subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable federal securities laws of the United States or any applicable securities laws of any state of the United States,

and, in each case, in accordance with any applicable federal securities laws of the United States or any applicable securities laws of any state of the United States or any other jurisdiction.

In the case of (i) above, such transferee may take delivery through a Legended Note in global or definitive form and, in the case of (ii) above, such transferee may take delivery only through a Legended Note in definitive form. After expiry of the applicable Distribution Compliance Period (a) beneficial interests in Regulation S Notes may be held through DTC directly by a participant in DTC or indirectly through a participant in DTC and (b) such certification requirements will no longer apply to such transfers.

(d) ***Transfers of interests in Legended Notes***

Transfers of Legended Notes or beneficial interests therein may be made:

- (i) to a transferee who takes delivery of such interest through a Regulation S Note, upon receipt by the Registrar of a duly completed Transfer Certificate from the transferor to the effect that such transfer is being made in accordance with Regulation S and that, if such transfer is being made prior to expiry of the applicable Distribution Compliance Period, the interests in the Notes being transferred will be held immediately thereafter indirectly through Euroclear and/or Clearstream, Luxembourg; or
- (ii) to a transferee who takes delivery of such interest through a Restricted Global Note if the transferee is a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A; or
- (iii) to a transferee who takes delivery of such interest through a Legended Note:
  - (A) where the transferee is a person whom the transferor reasonably believes is a QIB in a transaction meeting the requirements of Rule 144A, without certification; or
  - (B) where the transferee is an Institutional Accredited Investor, subject to delivery to the Registrar of a Transfer Certificate from the transferor to the effect that such transfer is being made to an Institutional Accredited Investor, together with a duly executed investment letter from the relevant transferee substantially in the form set out in the Agency Agreement (an “**IAI Investment Letter**”); or
- (iv) otherwise pursuant to the Securities Act or an exemption therefrom, subject to receipt by the Issuer of such satisfactory evidence as the Issuer may reasonably require, which may include an opinion of U.S. counsel, that such transfer is in compliance with any applicable federal securities laws of the United States or any applicable securities laws of any state of the United States, and in each case, in accordance with any applicable federal securities laws of the United States or any applicable securities laws of any state of the United States or any other jurisdiction.

Notes transferred by Institutional Accredited Investors to QIBs pursuant to Rule 144A or outside the United States pursuant to Regulation S will be eligible to be held by such QIBs or non-U.S. investors through DTC, Euroclear, Clearstream, Luxembourg or the CMU Service, as appropriate, and the Registrar will arrange for any Notes which are the subject of such a transfer to be represented by the appropriate Registered Global Note, where applicable.

(e) ***Exchanges and transfers of Registered Notes generally***

Registered Notes may not be exchanged for Bearer Notes and vice versa.

Holders of Definitive Registered Notes, other than Institutional Accredited Investors, may exchange such Definitive Registered Notes for interests in a Registered Global Note of the same type at any time.

Transfers of beneficial interests in Registered Global Notes will be effected by DTC, Euroclear, Clearstream, Luxembourg or the CMU Service, as the case may be, and, in turn, by participants and, if appropriate, indirect participants in such clearing systems acting on behalf of beneficial transferors and transferees of such interests. A beneficial interest in a Registered Global Note will be transferable and exchangeable for Notes in definitive form or for a beneficial interest in another Registered Global Note only in accordance with the terms and conditions thereof and the rules and operating procedures for the time being of DTC, Euroclear, Clearstream, Luxembourg, or the CMU Service, as the case may be (the “**Applicable Procedures**”) and as specified in the Pricing Supplement.

Upon the terms and subject to the conditions set forth in the Agency Agreement, a Definitive Registered Note may be transferred in whole or in part (in the Authorised Denominations set out in the applicable Pricing Supplement) by the holder or holders surrendering the Definitive Registered Note for registration of the transfer of the Definitive Registered Note (or the relevant part of the Definitive Registered Note) at the specified office of the Registrar or any Transfer Agent, with the form of transfer thereon duly executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing and upon the Registrar or, as the case may be, the relevant Transfer Agent, after due and careful enquiry, being satisfied with the documents of title and the identity of the person making the request and subject to such reasonable regulations as the Issuer and the Registrar or, as the case may be, the relevant Transfer Agent may prescribe, including any restrictions imposed by the Issuer on transfers of Definitive Registered Notes originally sold to a U.S. person. Subject as provided above, the Registrar or, as the case may be, the relevant Transfer Agent will, within three business days (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar or, as the case may be, the relevant Transfer Agent is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations) authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by mail to such address as the transferee may request, a new Definitive Registered Note of a like aggregate nominal amount to the Definitive Registered Note (or the relevant part of the Definitive Registered Note) transferred. In the case of the transfer of part only of a Definitive Registered Note, a new Definitive Registered Note in respect of the balance of the Definitive Registered Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

Exchanges or transfers by a holder of a Definitive Registered Note for an interest in, or to a person who takes delivery of such Note through, a Registered Global Note will be made no later than 30 days after the receipt by the Registrar or, as the case may be, the relevant Transfer Agent of the Definitive Registered Note to be so exchanged or transferred and, if applicable, upon receipt by the Registrar of a written certification from the transferor.

(f) ***Registration of transfer upon partial redemption***

In the event of a partial redemption of Notes under Condition 7(c), the Issuer shall not be required:

- (a) to register the transfer of Registered Notes (or parts of Registered Notes) during the period beginning on the 15<sup>th</sup> day before the date of the partial redemption and ending on the date on which notice is given specifying the serial numbers of Notes called (in whole or in part) for redemption (both inclusive); or
- (b) to register the transfer of any Registered Note, or part of a Registered Note, called for partial redemption.

(g) ***Closed Periods***

No Noteholder may require the transfer of a Registered Note to be registered during the period of 15 days ending on the due date for any payment of principal or interest or payment on that Note.

(h) ***Costs of exchange or registration***

Registration of transfers will be effected without charge by or on behalf of the Issuer, the Registrar or the relevant Transfer Agent, but upon payment (or the giving of such indemnity as the Registrar or the relevant Transfer Agent may reasonably require) in respect of any tax or other governmental charges which may be imposed in relation to it **provided that** the Issuer shall not be responsible for any documentary stamp tax payable on the transfer of Notes effected in Korea unless the Issuer is the counterparty directly liable for that documentary stamp tax.

### 3. Status of the Notes

#### (a) Status of the Senior Notes

Notes whose status is specified in the applicable Pricing Supplement as Senior (the “**Senior Notes**”) and any relative Receipts and Coupons constitute direct, unconditional, unsubordinated and (subject to Condition 4) unsecured obligations of the Issuer which rank *pari passu* among themselves and will rank at least *pari passu* with all other present and future unsecured (subject to Condition 4) and unsubordinated obligations of the Issuer, save for such as may be preferred by mandatory provisions of applicable law.

#### (b) Status of the Subordinated Notes

##### (i) Tier II Subordinated Notes

*This Condition 3(b)(i) applies only to Notes whose status is specified in the applicable Pricing Supplement as “Tier II Subordinated Notes” (the “**Tier II Subordinated Notes**”).*

Tier II Subordinated Notes and any relative Receipts and Coupons constitute direct, general, subordinated (as described in Condition 3(c)) and unsecured obligations of the Issuer which (subject to the provision of Condition 8) rank (x) junior to the Senior Indebtedness of the Issuer (as defined in Condition 3(c)), (y) *pari passu* among themselves and all other subordinated obligations of the Issuer which do not rank or are not expressed by their terms to rank junior to the Tier II Subordinated Notes (collectively, the “**Tier II Obligations**”) and (z) in priority to claims of holders of the Tier I Obligations (as defined in Condition 3(b)(ii)) and all classes of equity (including holders of preference shares (if any)) of the Issuer (other than equity that constitutes Tier II capital of the Issuer under applicable Korean Law).

##### (ii) Tier I Subordinated Notes

*This Condition 3(b)(ii) applies only to Notes whose status is specified in the applicable Pricing Supplement as “Tier I Subordinated Notes” (the “**Tier I Subordinated Notes**”).*

Tier I Subordinated Notes and any relative Receipts and Coupons constitute direct, general, subordinated (as described in Condition 3(c)) and unsecured obligations of the Issuer which (subject to the provisions of Conditions 5(c) and 8) rank (x) junior to the Senior Indebtedness of the Issuer (as defined in Condition 3(c)), (y) *pari passu* among themselves and all other subordinated obligations of the Issuer which either constitute additional Tier I capital of the Issuer under applicable Korean Law or otherwise rank or are expressed by their terms to rank *pari passu* with the Tier I Subordinated Notes (collectively, the “**Tier I Obligations**”) and (z) in priority to claims of holders of all classes of equity (including holders of preference shares (if any)) of the Issuer (other than equity that constitutes Tier II capital of the Issuer under applicable Korean Law). In addition, in the case of a Bankruptcy Event (as defined in Condition 3(c)), the Tier I Subordinated Notes shall be deemed not to constitute liabilities for purposes of determining whether the Issuer’s liabilities exceed its assets.

#### (c) Subordination

*This Condition 3(c) applies only to Tier I Subordinated Notes and Tier II Subordinated Notes (together, the “**Subordinated Notes**”).*

- (i) If, on or prior to the Maturity Date or at any time while any amount is due and outstanding under any Subordinated Notes, a Bankruptcy Event (as defined below) occurs and so long as it continues, any amounts which become due then or thereafter under the Subordinated Notes (including overdue amounts) shall not be payable **unless** and until the total amount of any and all Senior Indebtedness of the Issuer which is listed on the distribution list (as amended, if such be the case) for final distribution submitted to the court in the bankruptcy proceedings is paid in full or provided to be paid in full in such bankruptcy proceedings.
- (ii) If, on or prior to the Maturity Date or at any time while any amount is due and outstanding under any Subordinated Notes, a Rehabilitation Event (as defined below) occurs and so long as it continues, any amounts which become due then or thereafter under the Subordinated Notes (including overdue amounts) shall not be payable unless and until the total amount of any and all Senior Indebtedness of the Issuer which is listed on the rehabilitation plan of the Issuer at the time

when the court's approval of such plan becomes final and conclusive shall have been paid in full in the rehabilitation proceedings to the extent of the original amount thereof (without regard to any adjustment of such amount in the approved rehabilitation plan).

- (iii) If, on or prior to the Maturity Date or at any time while any amount is due and outstanding under any Subordinated Notes, a Liquidation Event (as defined below) occurs and so long as it continues, any amounts which become due then or thereafter under the Subordinated Notes (including overdue amounts) shall not be payable unless and until the total amount of any and all Senior Indebtedness of the Issuer which is reported during the claims reporting period or is required by the laws or regulations of Korea to be paid during the liquidation proceedings is paid in full or provided to be paid in full in such liquidation proceedings.
- (iv) If, on or prior to the Maturity Date or at any time while any amount is due and outstanding under any Subordinated Notes, a Foreign Event (as defined below) occurs and so long as it continues, any amounts which become due then or thereafter under the Subordinated Notes (including overdue amounts) shall only become payable upon conditions equivalent to those enumerated in the above two paragraphs having been fulfilled; **provided that** notwithstanding any provision herein to the contrary if the imposition of any such conditions is not allowed under such proceedings, any amounts which become due under the Subordinated Notes shall become payable in accordance with the terms herein provided and not subject to such conditions.
- (v) A holder of a Subordinated Note by its acceptance thereof or its interest therein, shall thereby agree that (i) if any payment in respect of such Note is made to such holder after the occurrence of a Subordination Event and the amount of such payment shall exceed the amount, if any, that should have been paid to such holder upon the proper application of these subordination provisions, the payment of such excess amount shall be deemed null and void and such holder (without the Registrar or any Paying Agent having any obligation or liability with respect thereto, save to the extent that the Registrar or such Paying Agent shall return to the Issuer any such excess amount which remains held by it at the time of the notice next referred to) shall be obliged to return the amount of the excess payment within 10 days of receiving notice from the Issuer of the excess payment and (ii) upon the occurrence of a Subordination Event and so long as such Subordination Event continues, such holder shall not exercise any right to set off any liabilities of the Issuer under such Note which become so payable on or after the date on which the Subordination Event occurs against any liabilities of such holder owed to the Issuer unless, until and only in such amount as the liabilities of the Issuer under such Note become payable pursuant to the proper application of these subordination provisions.

In addition, a holder of a Subordinated Note by its acceptance thereof or its interest therein shall be deemed to have waived, and agreed not to exercise, any right as a creditor to require the Issuer to redeem such Subordinated Note or provide collateral with respect thereto that may arise pursuant to Article 439, Paragraph 2, Article 527-5, Paragraph 3, Article 530-9, Paragraph 4, Article 530-11, Paragraph 2 and Article 232 of the Korean Commercial Code in connection with a capital reduction, merger and/or corporate split off of the Issuer.

In these Conditions:

a **"Bankruptcy Event"** shall mean a court of competent jurisdiction in Korea having adjudicated the Issuer to be bankrupt pursuant to the provisions of the Debtor Rehabilitation and Bankruptcy Act or any successor legislation thereto;

a **"Foreign Event"** shall mean in any jurisdiction other than Korea, the Issuer having become subject to bankruptcy, rehabilitation or other equivalent proceedings pursuant to any applicable law of any jurisdiction other than Korea;

a **"Liquidation Event"** shall mean that the liquidation proceedings of the Issuer have commenced by any reason other than a Bankruptcy Event or Rehabilitation Event pursuant to the Korean Commercial Code or other applicable laws of Korea;

a **"Rehabilitation Event"** shall mean a court of competent jurisdiction in Korea having adjudicated the Issuer to be subject to the rehabilitation proceedings pursuant to the provisions of the Debtor Rehabilitation and Bankruptcy Act or any successor legislation thereto;

**"Senior Indebtedness of the Issuer"** shall mean (i) in the case of Tier II Subordinated Notes, all deposits and other liabilities of the Issuer (other than the Tier II Obligations and the Tier I Obligations)

and (ii) in the case of Tier I Subordinated Notes, all deposits and other liabilities of the Issuer (other than the Tier I Obligations) and all equity that constitutes Tier II capital of the Issuer under applicable Korean Law; and

a “**Subordination Event**” shall mean any Bankruptcy Event, Rehabilitation Event, Liquidation Event or Foreign Event.

#### 4. Negative Pledge

##### (a) *Negative Pledge*

So long as any Senior Note remains outstanding (as defined in the Agency Agreement), the Issuer will not create or permit to be outstanding any mortgage, charge, pledge or other security interest upon or over the whole or any part of its property, assets or revenues (whether present or future) to secure for the benefit of the holders of any International Investment Securities (as defined below):

- (i) payment of any sum due in respect of any such International Investment Securities;
- (ii) payment under any guarantee in respect of any such International Investment Securities; or
- (iii) payment under any indemnity or other like obligations in respect of any such International Investment Securities,

without, in any such case and at the same time, according to the Senior Notes either the same security as is available for the benefit of the holders of such International Investment Securities or such other security as shall be approved for the purpose by an Extraordinary Resolution (as defined in the Agency Agreement) of the holders of Senior Notes.

For the avoidance of doubt, notwithstanding the foregoing, under the Act on Issuance of Covered Bonds, which was enacted on 14 January 2014 and became effective on 15 April 2014, in Korea, the issuance of Covered Bonds (as defined below) by the Issuer and any arrangement relating to the segregation or “ring-fencing” of any part of the Issuer’s property, assets or revenues (whether present or future) for the purpose thereof shall be permitted, **provided that** such Covered Bonds are issued and such arrangement is entered into, respectively, in compliance with the Act on Issuance of Covered Bonds (or any amendment or supplemental legislation in connection thereof) and that such property, assets and revenues are intended to form part of the pool of the assets in respect of which a priority of claim in favour of the holders of the Covered Bonds may be given.

##### (b) *Interpretation*

In these Conditions:

- (i) “**International Investment Securities**” means notes, bonds, debentures, certificates of deposit or investment securities of any Person which (1) by their terms either are payable, or confer a right to receive payment, in any currency other than Won or are denominated in Won and more than 50% of the aggregate principal amount of which is initially distributed outside Korea by or with the authorisation of the Issuer; (2) are for the time being, or are intended to be, quoted, listed, ordinarily dealt in or traded on any stock exchange or over-the-counter or other securities market outside Korea; and (3) are not (A) securities issued in accordance with a securitisation plan pursuant to the Asset-Backed Securitisation Act of Korea (or other similar laws of Korea); or (B) securities or instruments serviced primarily by the cash flows of a discrete pool of receivables or other financial assets, either fixed or revolving, that by their terms convert into cash within a finite period and which are commonly regarded as asset-backed securities;
- (ii) “**Covered Bonds**” means debt securities (including, without limitation, any notes, bonds, debentures, certificates of deposit or investment securities) backed by cash flows generated from an underlying investment pool consisting of mortgage loans, public sector assets, cash, cash equivalents and/or other financial assets or otherwise issued in compliance with the Act on Issuance of Covered Bonds; and
- (iii) “**Person**” means any individual, company, corporation, firm, partnership, joint venture, association, organisation, state, agency of a state or other entity, whether or not having a separate legal personality.

## 5. Interest

### (a) *Interest on Fixed Rate Notes*

- (I) *In the case of Fixed Rate Notes where Conditions 5(a)(I) is specified as being applicable in the applicable Pricing Supplement, the following provisions will apply instead of Condition 5(a)(II):*

Each Fixed Rate Note bears interest on its nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Issue Date (or, if otherwise specified in the applicable Pricing Supplement, the Interest Commencement Date) at the rate(s) per annum equal to the Fixed Rate(s) of Interest payable in arrear on the Interest Payment Date(s) in each year and on the Maturity Date if that does not fall on an Interest Payment Date.

Except as provided in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

Where a Fixed Coupon Amount or Broken Amount is specified in the applicable Pricing Supplement, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (A) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

In these Conditions:

**“Day Count Fraction”** means, in respect of the calculation of an amount of interest in accordance with this Condition 5(a):

- (i) if **“Actual/Actual (ICMA)”** is specified in the applicable Pricing Supplement:
- (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the **“Accrual Period”**) is equal to or shorter than the Determination Period (as defined below) during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; or
- (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
- (1) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Pricing Supplement) that would occur in one calendar year; and
- (2) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year.
- (ii) if **“30/360”** is specified in the applicable Pricing Supplement, the number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (such number of days being calculated on the basis of a year of 360 days with twelve 30-day months) divided by 360.
- (iii) if **“Actual/365 (Fixed)”** is specified in the applicable Pricing Supplement, the actual number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date divided by 365.
- (iv) if **“Actual/360 (Fixed)”** is specified in the applicable Pricing Supplement, the actual number of days in the period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date divided by 360.

In this Condition 5(a)(I):

**“Determination Period”** means each period from (and including) a Determination Date to but excluding the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date);

**“Fixed Interest Period”** means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date; and

**“sub-unit”** means, with respect to any currency other than Euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to Euro, means one cent.

If a Business Day Convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day on the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (i) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day;
- (ii) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (iii) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, unless the context otherwise requires, **“Business Day”** means a day which is either (1) in relation to any sum payable in a Specified Currency other than Euro, a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the country of the Paying Agent’s specified office) and in any Business Centre specified in the applicable Pricing Supplement and which if the Specified Currency is Australian dollars or New Zealand dollars shall include Melbourne or Wellington, respectively) or (2) in relation to any sum payable in Euro, a day (other than a Saturday or Sunday) on which the real time gross settlement system operated by the Eurosystem (T2), or any successor system (the **“T2”**) is open.

- (II) *In the case of Fixed Rate Notes where Conditions 5(a)(II) is specified as being applicable in the applicable Pricing Supplement, the following provisions will apply instead of Condition 5(a)(I):*

Each Fixed Rate Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum (expressed as a percentage) equal to the Rate(s) of Interest. If any Interest Payment Date would otherwise fall on a day which is not a business day (as defined below), it shall be postponed to the next day which is a business day unless it would thereby fall into the next calendar month in which event it shall be brought forward to the immediately preceding day. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

Except as provided in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

Where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Pricing Supplement, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (A) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (B) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such sum by the actual number of days in the Fixed Interest Period concerned divided by 365, and rounding the resultant figure to the nearest sub-unit of the relevant

Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In this Condition 5(a)(II):

“**business day**” means a day (other than a Saturday, Sunday or public holiday) upon which commercial banks and foreign exchange markets are generally open for business and settlement of Renminbi payments in Hong Kong and are not authorised or obligated by law or executive order to be closed; and

“**Fixed Interest Period**” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date; and

“**sub-unit**” means, with respect to Renminbi, the lowest amount of such currency that is available as legal tender in the People’s Republic of China.

(b) ***Interest on Floating Rate Notes and Index Linked Interest Notes***

(i) ***Interest Payment Dates***

Each Floating Rate Note and Index Linked Interest Note bears interest on its nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Interest Payment Date(s) (each an “**Interest Payment Date**”) in each year specified in the applicable Pricing Supplement; or
- (B) if no express Interest Payment Date(s) is/are specified in the applicable Pricing Supplement, each date (each an “**Interest Payment Date**”) which falls the number of months or other period specified as the Specified Period in the applicable Pricing Supplement after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall in these Terms and Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date, each an “**Interest Period**”).

If a business day convention is specified in the applicable Pricing Supplement and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the business day convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 5(b)(i)(B) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below of this subparagraph (1) shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In these Conditions, “**Business Day**” means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and, in the case of an issue of Notes cleared through the CMU Service, Hong Kong, and any additional Business Centre specified in the applicable Pricing Supplement; and
- (B) either (1) in relation to any sum payable in a Specified Currency other than Euro and Renminbi, a day on which commercial banks and foreign exchange markets settle payments in the principal financial centre of the country of the relevant Specified Currency (if other than London and Hong Kong, as applicable, and any additional Business Centre) and which, if the Specified Currency is Australian dollars or New Zealand dollars shall be Sydney or Auckland, respectively) or (2) in relation to any sum payable in Euro, a day on which the T2 is open or (3) in relation to any sum payable in Renminbi, a day (other than a Saturday, Sunday or public holiday) on which commercial banks and foreign exchange markets are open for business and settle Renminbi payments in Hong Kong.

(ii) *Rate of Interest*

The Rate of Interest payable from time to time in respect of Floating Rate Notes and Index Linked Interest Notes will be determined in the manner specified in the applicable Pricing Supplement.

(A) *ISDA Determination for Floating Rate Notes*

Where ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any). For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Principal Paying Agent under an interest rate swap transaction if the Principal Paying Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions as amended and updated as at the Issue Date of the first tranche of the Notes, published by the International Swaps and Derivatives Association, Inc. (the “**ISDA Definitions**”) and under which:

- (1) the Floating Rate Option is as specified in the applicable Pricing Supplement;
- (2) the Designated Maturity is a period specified in the applicable Pricing Supplement; and
- (3) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on the Euro-zone inter- bank offered rate (“**EURIBOR**”) or on the Hong Kong inter-bank offered rate (“**HIBOR**”) for a currency, the first day of that Interest Period or (ii) in any other case, as specified in the applicable Pricing Supplement.

For the purposes of this sub-paragraph (A), (i) “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**Designated Maturity**” and “**Reset Date**” have the meanings given to those terms in the ISDA Definitions, (ii) the definition of “**Banking Day**” in the ISDA Definitions shall be amended to insert after the words “are open for” in the second line the word “general” and (iii) “**Euro-zone**” means the region comprised of Member States of the European Union that adopt or have adopted the single currency in accordance with the Treaty establishing the European Community, as amended by the Treaty on European Union.

When this sub-paragraph (A) applies, in respect of each relevant Interest Period the Agent will be deemed to have discharged its obligations under Condition 5(b)(iv) in respect of the determination of the Rate of Interest if it has determined the Rate of Interest in respect of such Interest Period in the manner provided in this sub-paragraph (A).

Notwithstanding anything included in the ISDA Definitions and/or ISDA Determinations and/or these Conditions to the contrary, the Issuer agrees that the Citibank, N.A., London Branch in its capacity as Calculation Agent or Principal Paying Agent will have no obligation to exercise any discretion (including, but not limited to, determinations of alternative or substitute benchmarks, successor reference rates, screen pages, interest adjustment factors/ fractions or spreads, market disruptions, benchmark amendment conforming changes or selection and polling of reference banks), and to the extent the ISDA Definitions and/or

ISDA Determinations and/or these Conditions require, for a particular Series of Notes, the Calculation Agent and/ or Principal Paying Agent to exercise any such discretions and/or make such determinations and/or take such actions, such references shall be construed as the Issuer (or its financial adviser or alternate agent appointed by the Issuer) exercising such discretions and/or determinations and/or taking such actions and not the Calculation Agent and/ or Principal Paying Agent.

(B) *Screen Rate Determination for Floating Rate Notes*

- (1) Where Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:
  - (A) the offered quotation; or
  - (B) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the offered quotations, (expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11:00 a.m. (Brussels time, in the case of EURIBOR or Hong Kong time, in the case of HIBOR) on the second business day before the beginning of each Interest Period (each an “**Interest Determination Date**”) in question plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any), all as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.
- (2) If the Relevant Screen Page is not available or, if in the case of Condition 5(b)(ii)(B)(1)(A) above, no such offered quotation appears or, in the case of Condition 5(b)(ii)(B)(1)(B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph the Determination Agent (as defined below) shall request each of the Reference Banks (as defined below) to provide the Determination Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate at approximately 11:00 a.m. (Brussels time, in the case of EURIBOR, or Hong Kong time, in the case of HIBOR) on the Interest Determination Date in question. If two or more of the Reference Banks provide the Determination Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such offered quotations plus or minus (as appropriate) the Margin (if any), all as determined by the Calculation Agent.
- (3) If on any Interest Determination Date one only or none of the Reference Banks provides the Determination Agent with such offered quotations as provided in the preceding paragraph, the Rate of Interest for the relevant Interest Period shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates, as communicated to (and at the request of) the Determination Agent by the Reference Banks or any two or more of them, at which such banks were offered, at approximately 11:00 a.m. (Brussels time, in the case of EURIBOR, or Hong Kong time, in the case of HIBOR) on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by the Euro-zone inter-bank market (if the Reference Rate is EURIBOR) or the Hong Kong inter-bank market (if the Reference Rate is HIBOR) plus or minus (as appropriate) the Margin (if any) or, if fewer than two of the Reference Banks provide the Determination Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean (rounded as provided above) of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, at approximately 11:00 a.m. (Brussels time, in the case of EURIBOR, or Hong Kong time, in the case of HIBOR) on

the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Determination Agent it is quoting to leading banks in the Euro-zone inter-bank market (if the Reference Rate is EURIBOR) or the Hong Kong inter-bank market (if the Reference Rate is HIBOR) plus or minus (as appropriate) the Margin (if any), **provided that**, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin relating to the relevant Interest Period, in place of the Margin relating to that last preceding Interest Period).

- (4) **“Reference Banks”** means, in the case of Condition 5(b)(ii)(B)(1)(A) above, those banks whose offered rates were used to determine such quotation when such quotation last appeared on the Relevant Screen Page and, in the case of Condition 5(b)(ii)(B)(1)(B) above, those banks whose offered quotations last appeared on the Relevant Screen Page when no fewer than three such offered quotations appeared.
- (5) If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Pricing Supplement as being other than EURIBOR or HIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Pricing Supplement.
- (6) **“Determination Agent”** means an independent bank of international repute selected by and acting as an agent of the Issuer for the purposes of Condition 5(b)(ii) and notified to the Principal Paying Agent and Calculation Agent in writing.

(C) *Screen Rate Determination for Floating Rate Notes where the Reference Rate is specified as being SOFR Benchmark*

- (1) Where Screen Rate Determination is specified as the manner in which the Rate of Interest is to be determined and the Reference Rate is specified as SOFR Benchmark in the applicable Pricing Supplement, the Rate of Interest for each Interest Period will, subject as provided below, be equal to the relevant SOFR Benchmark plus or minus the Margin (if any), all as determined by the Calculation Agent on the relevant Interest Determination Date.

The **“SOFR Benchmark”** will be determined based on Compounded Daily SOFR or SOFR Index, as follows (subject in each case to Condition 5(f) as further specified hereon):

- (A) If Compounded Daily SOFR is specified in the applicable Pricing Supplement as the manner in which the SOFR Benchmark will be determined, the SOFR Benchmark for each Interest Period shall be equal to the compounded average of daily SOFR reference rates for each day during the relevant Interest Period (where SOFR Lag is specified in the applicable Pricing Supplement to determine Compounded Daily SOFR) or the SOFR Observation Period (where SOFR Observation Shift is specified in the applicable Pricing Supplement to determine Compounded Daily SOFR).

Compounded Daily SOFR shall be calculated by the Calculation Agent in accordance with one of the formulas referenced below depending upon which is specified in the applicable Pricing Supplement:

(a) SOFR Lag:

$$\left( \prod_{i=1}^{d_o} \left( 1 + \frac{SOFR_{t-xUSD} \times n_i}{360} \right) - 1 \right) \times \frac{360}{d}$$

with the resulting percentage being rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 per cent. being rounded upwards (e.g., 9.876541 per cent. (or 0.09876541) being rounded down to

9.87654 per cent. (or 0.0987654) and 9.876545 per cent. (or 0.09876545) being rounded up to 9.87655 per cent. (or 0.0987655)) and where:

“**SOFR<sub>i</sub> – xUSBD**” for any U.S. Government Securities Business Day “i” in the relevant Interest Period, is equal to the SOFR reference rate for the U.S. Government Securities Business Day falling the number of Lookback Days prior to that U.S. Government Securities Business Day “i”;

“**Lookback Days**” means such number of U.S. Government Securities Business Days as specified in the applicable Pricing Supplement;

“**d**” means the number of calendar days in the relevant Interest Period;

“**d<sub>0</sub>**” for any Interest Period, means the number of U.S. Government Securities Business Days in the relevant Interest Period;

“**i**” means a series of whole numbers ascending from one to do, representing each relevant U.S. Government Securities Business Day from (and including) the first U.S. Government Securities Business Day in the relevant Interest Period (each a “**U.S. Government Securities Business Day “i”**”); and

“**n<sub>i</sub>**” for any U.S. Government Securities Business Day “i” in the relevant Interest Period means the number of calendar days from (and including) such U.S. Government Securities Business Day “i” up to (but excluding) the following U.S. Government Securities Business Day for which SOFR<sub>i</sub> – xUSBD applies.

(b) SOFR Observation Shift:

$$\left( \prod_{i=1}^{d_0} \left( 1 + \frac{\text{SOFR}_i \times n_i}{360} \right) - 1 \right) \times \frac{360}{d}$$

with the resulting percentage being rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 per cent. being rounded upwards (e.g., 9.876541 per cent. (or 0.09876541) being rounded down to 9.87654 per cent. (or 0.0987654) and 9.876545 per cent. (or 0.09876545) being rounded up to 9.87655 per cent. (or 0.0987655)) and where:

“**SOFR<sub>i</sub>**” for any U.S. Government Securities Business Day “i” in the relevant SOFR Observation Period, is equal to the SOFR reference rate for that U.S. Government Securities Business Day “i”;

“**SOFR Observation Period**” means, in respect of an Interest Period, the period from (and including) the date falling the number of SOFR Observation Shift Days prior to the first day of such Interest Period to (but excluding) the date falling the number of SOFR Observation Shift Days prior to the Interest Payment Date for such Interest Period;

“**SOFR Observation Shift Days**” means the number of U.S. Government Securities Business Days as specified in the applicable Pricing Supplement;

“**d**” means the number of calendar days in the relevant SOFR Observation Period;

“**d<sub>0</sub>**” for any SOFR Observation Period means the number of U.S. Government Securities Business Days in the relevant SOFR Observation Period;

“**i**” means a series of whole numbers ascending from one to d<sub>0</sub>, representing each U.S. Government Securities Business Day from (and including) the first U.S. Government Securities Business Day in the relevant SOFR Observation Period; and

“**n<sub>i</sub>**” for any U.S. Government Securities Business Day “i” in the relevant SOFR Observation Period means the number of calendar days from (and including) such U.S. Government Securities Business Day “i” up to (but excluding) the following U.S. Government Securities Business Day for which **SOFR<sub>i</sub>** applies.

The following defined terms shall have the meanings set out below for purpose of this Condition 5(b)(ii)(C)(1):

**“Bloomberg Screen SOFRRATE Page”** means the Bloomberg screen designated “SOFRRATE” or any successor page or service;

**“Reuters Page USDSOFR=”** means the Reuters page designated “USDSOFR=” or any successor page or service;

**“SOFR”** means, in respect of a U.S. Government Securities Business Day, the reference rate determined by the Calculation Agent in accordance with the following provisions:

- (i) the Secured Overnight Financing Rate published at the SOFR Determination Time as such reference rate is reported on the Bloomberg Screen SOFRRATE Page; the Secured Overnight Financing Rate published at the SOFR Determination Time as such reference rate is reported on the Reuters Page USDSOFR=; or the Secured Overnight Financing Rate published at the SOFR Determination Time on the SOFR Administrator’s Website;
- (ii) if the reference rate specified in (i) above does not appear and a SOFR Benchmark Transition Event and its related SOFR Benchmark Replacement Date have not occurred, the SOFR reference rate shall be the reference rate published on the SOFR Administrator’s Website for the first preceding U.S. Government Securities Business Day for which SOFR was published on the SOFR Administrator’s Website; or
- (iii) if the reference rate specified in (i) above does not appear and a SOFR Benchmark Transition Event and its related SOFR Benchmark Replacement Date have occurred, the provisions set forth in Condition 5(f) shall apply as specified in the applicable Pricing Supplement;

**“SOFR Determination Time”** means approximately 3:00 p.m. (New York City time) on the immediately following U.S. Government Securities Business Day.

- (2) If SOFR Index is specified in the applicable Pricing Supplement, the SOFR Benchmark for each Interest Period shall be equal to the compounded average of daily SOFR reference rates for each day during the relevant SOFR Observation Period as calculated by the Calculation Agent as follows:

$$\left( \frac{SOFR\ Index_{End}}{SOFR\ Index_{Start}} - 1 \right) \times \left( \frac{360}{d_c} \right)$$

with the resulting percentage being rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with 0.000005 per cent. being rounded upwards (e.g., 9.876541 per cent. (or 0.09876541) being rounded down to 9.87654 per cent. (or 0.0987654) and 9.876545 per cent. (or 0.09876545) being rounded up to 9.87655 per cent. (or 0.0987655)) and where:

**“SOFR Index”** means, in respect of a U.S. Government Securities Business Day, the SOFR Index value as published on the SOFR Administrator’s Website at the SOFR Index Determination Time on such U.S. Government Securities Business Day, provided that:

- (a) if the value specified above does not appear and a SOFR Benchmark Transition Event and its related SOFR Benchmark Replacement Date have not occurred, the “SOFR Index” shall be calculated on any Interest Determination Date with respect to an Interest Period, in accordance with the Compounded Daily SOFR formula described above in Condition 5(b)(ii)(C)(1)(A)(b) “SOFR Observation Shift”, and the term **“SOFR Observation Shift Days”** shall mean five U.S. Government Securities Business Days; or

- (b) if the value specified above does not appear and a SOFR Benchmark Transition Event and its related SOFR Benchmark Replacement Date have occurred, the provisions set forth in Condition 5(f) shall apply as specified in the applicable Pricing Supplement;

**“SOFR Index<sub>End</sub>”** means, in respect of an Interest Period, the SOFR Index value on the date that is the number of U.S. Government Securities Business Days specified in the

applicable Pricing Supplement prior to the Interest Payment Date for such Interest Period (or in the final Interest Period, the Maturity Date);

“**SOFR Index<sub>Start</sub>**” means, in respect of an Interest Period, the SOFR Index value on the date that is the number of U.S. Government Securities Business Days specified in the applicable Pricing Supplement prior to the first day of such Interest Period;

“**SOFR Index Determination Time**” means, in respect of a U.S. Government Securities Business Day, approximately 3:00 p.m. (New York City time) on such U.S. Government Securities Business Day;

“**SOFR Observation Period**” means, in respect of an Interest Period, the period from (and including) the date falling the number of SOFR Observation Shift Days prior to the first day of such Interest Period to (but excluding) the date falling the number of SOFR Observation Shift Days prior to the Interest Payment Date for such Interest Period;

“**SOFR Observation Shift Days**” means the number of U.S. Government Securities Business Days as specified in the applicable Pricing Supplement; and

“**d<sub>c</sub>**” means the number of calendar days in the applicable SOFR Observation Period.

The following defined terms shall have the meanings set out below for purpose of this Condition 5(b)(ii)(C):

“**Interest Determination Date**” means, with respect to a Rate of Interest and Interest Period, the date specified as such in the applicable Pricing Supplement or, if none is so specified, the fifth U.S. Government Securities Business Day prior to the last day of each Interest Period;

“**SOFR Administrator’s Website**” means the website of the Federal Reserve Bank of New York or any successor source;

“**SOFR Benchmark Replacement Date**” means the date of occurrence of a Benchmark Event with respect to the then-current SOFR Benchmark;

“**SOFR Benchmark Transition Event**” means the occurrence of a Benchmark Event with respect to the then-current SOFR Benchmark; and

“**U.S. Government Securities Business Day**” means any day except for a Saturday, a Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

(iii) *Minimum and/or Maximum Interest Rate*

If the applicable Pricing Supplement specifies a Minimum Interest Rate for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is less than such Minimum Interest Rate, the Rate of Interest for such Interest Period shall be such Minimum Interest Rate. If the applicable Pricing Supplement specifies a Maximum Interest Rate for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraph (ii) above is greater than such Maximum Interest Rate, the Rate of Interest for such Interest Period shall be such Maximum Interest Rate.

(iv) *Determination of Rate of Interest and Calculation of Interest Amounts*

The Principal Paying Agent or the Determination Agent, as the case may be, in the case of Floating Rate Notes, and the Calculation Agent, in the case of Index Linked Interest Notes, will at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period. In the case of Floating Rate Notes, the Determination Agent (if applicable) or, in the case of Index Linked Interest Notes, the Calculation Agent will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Principal Paying Agent will calculate the amount of interest (the “**Interest Amount**”) payable on the Floating Rate Notes or the Calculation Agent will calculate the amount of interest payable on the Index Linked Interest Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount shall be calculated by applying the Rate of Interest to each

Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

“**Day Count Fraction**” means, in respect of the calculation of an amount of interest for any Interest Period:

- (1) if “**Actual/Actual (ISDA)**” or “**Actual/Actual**” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 (or, if any portion of that Interest Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Interest Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Interest Period falling in a non-leap year divided by 365);
- (2) if “**Actual/365 (Fixed)**” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365;
- (3) if “**Actual/365 (Sterling)**” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (4) if “**Actual/360**” is specified in the applicable Pricing Supplement, the actual number of days in the Interest Period divided by 360;
- (5) if “**30/360**”, “**360/360**” or “**Bond Basis**” is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“**Y<sub>1</sub>**” is the year, expressed as a number, in which the first day of the Interest Period falls;

“**Y<sub>2</sub>**” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“**M<sub>1</sub>**” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“**M<sub>2</sub>**” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“**D<sub>1</sub>**” is the first calendar day, expressed as a number, of the Interest Period, unless such number is 31, in which case D<sub>1</sub> will be 30; and

“**D<sub>2</sub>**” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D<sub>1</sub> is greater than 29, in which case D<sub>2</sub> will be 30;

- (6) if “**30E/360**” or “**Eurobond Basis**” is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“**Y<sub>1</sub>**” is the year, expressed as a number, in which the first day of the Interest Period falls;

“**Y<sub>2</sub>**” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“**M<sub>1</sub>**” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“**M<sub>2</sub>**” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D<sub>1</sub>” is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D<sub>1</sub> will be 30; and

“D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31, in which case D<sub>2</sub> will be 30;

- (7) if “30E/360 (ISDA)” is specified in the applicable Pricing Supplement, the number of days in the Interest Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y<sub>1</sub>” is the year, expressed as a number, in which the first day of the Interest Period falls;

“Y<sub>2</sub>” is the year, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“M<sub>1</sub>” is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

“M<sub>2</sub>” is the calendar month, expressed as a number, in which the day immediately following the last day of the Interest Period falls;

“D<sub>1</sub>” is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D<sub>1</sub> will be 30; and

“D<sub>2</sub>” is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D<sub>2</sub> will be 30.

(v) *Notification of Rate of Interest and Interest Amounts*

**Provided that** the Determination Agent or the Calculation Agent (if applicable) has notified the Principal Paying Agent, the Principal Paying Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and notice thereof to be published in accordance with Condition 15 as soon as possible after their determination but in no event later than the fourth Relevant Business Day thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes or Index Linked Interest Notes are for the time being listed and to the Noteholders in accordance with Condition 15. For purposes of this paragraph, the expression “**Relevant Business Day**” means a day (other than a Saturday or Sunday) on which banks and foreign exchange markets are open for business in London or, if the specified currency is Renminbi, Hong Kong.

(vi) *Certificates to be Final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5(b), whether by the Principal Paying Agent or, if applicable, the Determination Agent or the Calculation Agent, shall (in the absence of wilful default, fraud or manifest error) be binding on the Issuer, the Principal Paying Agent, the Registrar, the Calculation Agent (if applicable), the Determination Agent (if applicable), the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability of the Issuer, the Noteholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent, the Determination Agent (if applicable) or the Calculation Agent (if applicable) in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) *Special Provisions Relating to Interest on Tier I Subordinated Notes*

Notwithstanding any provisions to the contrary in these Terms and Conditions, the following will apply with respect to interest on the Tier I Subordinated Notes:

- (i) Interest on any Series of Tier I Subordinated Notes will be paid only out of the amount legally available under applicable Korean Law for payment of dividends on equity of the Issuer or, if higher, the amount legally available under applicable Korean Law for payment of interest on such Tier I Subordinated Notes (the “**Dividend Reserve**”). To the extent that the sum of (x) the amount of interest payable on any Series of Tier I Subordinated Notes on any Interest Payment Date (or, if applicable, during a fiscal year) and (y) the aggregate amount of interest and other distributions payable by the Issuer on the other Tier I Obligations during the fiscal quarter in which such Interest Payment Date falls (or, if applicable, during such fiscal year) exceeds the Dividend Reserve as of the relevant date (or, if applicable, for such fiscal year) pursuant to, and as calculated in accordance with, the requirements of applicable Korean Law, the amount of interest payable on such Tier I Subordinated Notes on such Interest Payment Date (or, if applicable, during such fiscal year) will be reduced by an amount equal to the pro rata portion (calculated based on the relative aggregate amounts of interest and other distributions payable on each Tier I Obligation during such fiscal quarter or, if applicable, such fiscal year) of such excess.
- (ii) The Issuer may, in its sole discretion, elect not to pay, in whole or in part, any interest payable on any Series of Tier I Subordinated Notes on any Interest Payment Date; provided, however, that if the Issuer makes such an election, it will (unless it has set aside and deposited into an escrow account the full amount of interest that would become payable on such Tier I Subordinated Notes on the next succeeding Interest Payment Date) also make a similar election, in whole or in part on a pro rata basis, as applicable (to the fullest extent permitted by their respective terms and conditions), with respect to interest and other distributions that become payable on the other Tier I Obligations during the applicable Dividend Suspension Period (as defined below).
- (iii) The Tier I Subordinated Notes will not bear any interest during an Interest Cancellation Period (as defined below), and any interest payable on the Tier I Subordinated Notes on any Interest Payment Date falling within an Interest Cancellation Period will not be paid.
- (iv) Interest on the Tier I Subordinated Notes is non-cumulative. All amounts of such interest not paid in whole or in part pursuant to the preceding paragraphs will be deemed irrevocably cancelled, without the need for the consent of the holders of the Tier I Subordinated Notes, and will not be restored in any circumstances. For the avoidance of doubt, (A) any non-payment of interest, in whole or in part, by the Issuer pursuant to the preceding paragraphs will not constitute an Event of Default under the Notes, (B) holders of the Tier I Subordinated Notes will not have any claim or entitlement to any amount of such unpaid interest, and (C) any and all amounts of such unpaid interest may be applied by the Issuer for any purpose, including without limitation for the satisfaction of its other obligations that are due and payable.
- (v) In the event that (x) any interest payable on any Series of Tier I Subordinated Notes on any Interest Payment Date will not be paid in whole or in part pursuant to the preceding paragraphs or (y) an Interest Cancellation Period has commenced or terminated, the Issuer will, no later than 10 Business Days prior to the relevant Interest Payment Date or five Business Days after the commencement or termination of an Interest Cancellation Period, as applicable, provide notice of such non-payment or commencement/termination to the Paying Agents and to the holders of such Tier I Subordinated Notes in accordance with Condition 15, stating the reason for such non-payment (and specifying the amount of interest payable that will not be paid) or commencement/termination; provided, however, that the failure of the Issuer to provide such notice shall not affect the effectiveness of the cancellation of the applicable interest amounts.
- (vi) In the event that any interest payable on any Series of Tier I Subordinated Notes on any Interest Payment Date is not (or, if applicable, will not be) paid in whole or in part pursuant to the preceding paragraphs, the Issuer will not:
  - (A) declare or pay any dividends or other distributions in cash with respect to any of its common shares; and
  - (B) purchase, acquire or redeem any of its common shares or permit any of its Subsidiaries to do so;in each case during the applicable Dividend Suspension Period.

As used herein:

**“Dividend Suspension Period”** means the period from and including the applicable Interest Payment Date (or, if applicable, the first day of the relevant fiscal year) to but excluding the earlier of (x) the next succeeding Interest Payment Date on which the interest payable on the applicable Series of Tier I Subordinated Notes on such date is paid in full (or, if applicable, the last day of the relevant fiscal year) and (y) the date of redemption in full or Write-Off (as defined in Condition 8) of the applicable Series of Tier I Subordinated Notes.

**“Interest Cancellation Period”** means any of the following: (x) the period during which either a “management improvement recommendation”, a “management improvement requirement” or a “management improvement order” has been issued by the Financial Services Commission of Korea (the “FSC”) against the Issuer pursuant to Article 34, 35 or 36, respectively, of the Regulation on Supervision of Banking Business and is pending; or (y) the period during which “emergency measures” have been imposed by the FSC or its chairman against the Issuer pursuant to Article 38 of the Regulation on Supervision of Banking Business and are pending.

(d) ***Interest Rate Reset***

If “Interest Rate Reset” is specified in the applicable Pricing Supplement, the Rate of Interest applicable to the Notes will be reset to the Reset Interest Rate (as defined below) effective as of each Interest Reset Date (as specified in the applicable Pricing Supplement), such that the Notes will bear interest at the Reset Interest Rate during each period from (and including) an Interest Reset Date to (but excluding) the next succeeding Interest Reset Date or, if earlier, the date of redemption (each a “**Reset Interest Period**”).

The Calculation Agent will, on the Calculation Date (as defined below) for each Reset Interest Period, calculate the Reset Interest Rate for such Reset Interest Period and cause such Reset Interest Rate and the relevant Interest Reset Date to be notified to the Issuer and any stock exchange on which the Notes are for the time being listed, and the Issuer will cause notice to the Noteholders of such Reset Interest Rate and Interest Reset Date to be published in accordance with Condition 15 as soon as possible after such Calculation Date but in no event later than the fourth New York Business Day (as defined below) thereafter.

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5(d) by the Calculation Agent shall (in the absence of wilful default, fraud or manifest error) be binding on the Issuer, the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Noteholders, the Receiptholders or the Couponholders shall attach to the Principal Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

As used in this Condition 5(d), unless otherwise specified in the applicable Pricing Supplement:

**“Base Rate”** means the U.S. Treasury Rate or such other rate as specified in the applicable Pricing Supplement.

**“Calculation Date”** means, in relation to a Reset Interest Period, the fifth New York Business Day (as defined below) preceding the Interest Reset Date on which such Reset Interest Period commences.

**“Comparable Treasury Issue”** means the U.S. Treasury security having a maturity comparable to the Reset Interest Period and selected by the Issuer as one that would be utilised, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities with a maturity comparable to the Reset Interest Period.

**“Comparable Treasury Price”** means, with respect to a Calculation Date, the average of the three Reference Treasury Dealer Quotations (as defined below) for such Calculation Date.

**“New York Business Day”** means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business (including dealing in foreign exchange and foreign currency deposits) in New York City.

**“Reference Treasury Dealer Quotations”** means, with respect to a Calculation Date, the average, as determined by the Principal Paying Agent, of the bid and asked yields for the Comparable Treasury Issue, expressed in each case as a percentage of its principal amount, quoted in writing to the Issuer at 5:00 p.m. New York time on such Calculation Date by each of the three nationally recognised investment banking firms selected by the Issuer that are primary U.S. government securities dealers.

“**Reset Interest Rate**” means, in relation to a Reset Interest Period, a fixed percentage rate per annum equal to the sum of (x) the Base Rate for such Reset Interest Period and (y) the Spread (as specified in the applicable Pricing Supplement).

“**U.S. Treasury Rate**” means, in relation to a Reset Interest Period, the percentage rate per annum equal to the yield, appearing in the most recently published statistical release designated “H.15(519)” or any successor publication that is published weekly by the Board of Governors of the U.S. Federal Reserve System (available on the website thereof at <http://www.federalreserve.gov/releases/h15/current/default.htm>, or any successor site), within the column that presents the average yields for the week ending immediately prior to the Calculation Date for such Reset Interest Period, under the caption “U.S. government securities — Treasury constant maturities — Nominal,” for U.S. Treasury securities having a maturity comparable to the Reset Interest Period. If such release does not appear on such website, “U.S. Treasury Rate” means the percentage rate per annum equal to the semi-annual or quarterly (as applicable) equivalent yield to maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such Calculation Date.

(e) **Benchmark Discontinuation (General)**

- (i) **Independent Adviser:** If a Benchmark Transition Event occurs in relation to an Original Reference Rate when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with Condition 5(e)(ii)) and, in either case, an Adjustment Spread and any Benchmark Amendments (in accordance with 5(e)(iv)). In making such determination, the Independent Adviser appointed pursuant to this Condition 5(e) shall act in good faith and in a commercially reasonable manner as an expert. In the absence of bad faith or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Paying Agents, or the Noteholders for any determination made by it, pursuant to this Condition 5(e).

If (i) the Issuer is unable to appoint an Independent Adviser, or (ii) the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 5(e)(i) prior to the date which is 10 business days prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to Floating Rate Notes in respect of the immediately preceding Interest Period. If there has not been a first Interest Payment Date, the Rate of Interest shall be the initial Rate of Interest determined using the Original Reference Rate last displayed on the Relevant Screen Page prior to the relevant Interest Determination Date. Where a different Margin or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period. For the avoidance of doubt, this paragraph shall apply to the relevant next succeeding Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, the first paragraph of this Condition 5(e)(i).

- (ii) **Successor Rate or Alternative Rate:** If the Independent Adviser, determines that:
- (A) there is a Successor Rate, then such Successor Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on Floating Rate Notes (subject to the operation of this Condition 5(e)); or
  - (B) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate and the applicable Adjustment Spread shall subsequently be used in place of the Original Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on Floating Rate Notes (subject to the operation of this Condition 5(e)).
- (iii) **Adjustment Spread:** The Adjustment Spread (or the formula or methodology for determining the Adjustment Spread) shall be applied to the Successor Rate or the Alternative Rate (as the case

may be). If the Independent Adviser is unable to determine the quantum of, or a formula or methodology for determining, such Adjustment Spread, then the Successor Rate or Alternative Rate (as applicable) will apply without an Adjustment Spread.

- (iv) **Benchmark Amendments:** If any Successor Rate or Alternative Rate and, in either case, the applicable Adjustment Spread is determined in accordance with this Condition 5(e) and the Independent Adviser determines (i) that amendments to these Conditions and/or the Agency Agreement are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and/or (in either case) the applicable Adjustment Spread (such amendments, the “**Benchmark Amendments**”), and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 5(e)(v), without any requirement for the consent or approval of Noteholders, vary these Conditions and/or the Agency Agreement to give effect to such Benchmark Amendments with effect from the date specified in such notice.

Notwithstanding any other provision of this Condition 5(e), neither the Calculation Agent nor any Paying Agent is obliged to concur with the Issuer or the Independent Adviser in respect of any changes or amendments as contemplated under this Condition 5(e) which, in the sole opinion of the Calculation Agent or the relevant Paying Agent, as the case may be, would impose more onerous obligations upon it or expose it to any additional duties, responsibilities or liabilities or reduce or amend the protective provisions afforded to the Calculation Agent or the relevant Paying Agent (as applicable) in the Agency Agreement and/or these Conditions.

- (v) **Notices, etc.:** Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments determined under this Condition 5(e) will be notified at least 10 business days prior to the relevant Interest Determination Date by the Issuer to the Calculation Agent, the Paying Agents and, in accordance with Condition 15, the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

No later than notifying the Noteholders of the same, the Issuer shall deliver to the Calculation Agent and the Paying Agents a certificate signed by an authorised officer of the Issuer:

- (A) confirming (i) that a Benchmark Transition Event has occurred, (ii) the Successor Rate or, as the case may be, the Alternative Rate, (iii) the applicable Adjustment Spread and (iv) the specific terms of the Benchmark Amendments (if any), in each case as determined in accordance with the provisions of this Condition 5(e); and
- (B) certifying that the Benchmark Amendments (if any) are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and (in either case) the applicable Adjustment Spread.

Each of the Calculation Agent and the Paying Agents shall be entitled to rely on such certificate (without liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread and the Benchmark Amendments (if any) and without prejudice to the Calculation Agent’s or the Paying Agents’ ability to rely on such certificate as aforesaid) be binding on the Issuer, the Calculation Agent, the Paying Agents and the Noteholders.

Notwithstanding any other provision of this Condition 5(e), if following the determination of any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (if any), in the Calculation Agent’s opinion there is any uncertainty between two or more alternative courses of action in making any determination or calculation under this Condition 5(e), the Calculation Agent shall promptly notify the Issuer thereof and the Issuer shall direct the Calculation Agent in writing as to which alternative course of action to adopt. If the Calculation Agent is not promptly provided with such direction, or is otherwise unable (other than due to its own gross negligence, wilful default or fraud) to make such calculation or determination for any reason, it shall notify the Issuer thereof and the Calculation Agent shall be under no obligation to make such calculation or determination and (in the absence of such gross negligence, wilful default or fraud) shall not incur any liability for not doing so.

- (vi) **Survival of Original Reference Rate:** Without prejudice to the obligations of the Issuer under Condition 5(e)(i), Condition 5(e)(ii), Condition 5(e)(iii) and Condition 5(e)(iv), the Original

Reference Rate and the fallback provisions provided for in Condition 5(b)(i) will continue to apply unless and until a Benchmark Transition Event has occurred.

(vii) **Definitions:** As used in this Condition 5(e):

**“Adjustment Spread”** means either (x) a spread (which may be positive, negative or zero) or (y) a formula or methodology for calculating a spread, in each case to be applied to the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (A) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Original Reference Rate with the Successor Rate by any Relevant Nominating Body; or;
- (B) if no such recommendation has been made, or in the case of an Alternative Rate, the Independent Adviser determines, is customarily applied to the relevant Successor Rate or the Alternative Rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for the Original Reference Rate; or
- (C) if the Independent Adviser determines that no such spread is customarily applied, the Independent Adviser determines is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions which reference the Original Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be);

**“Alternative Rate”** means an alternative benchmark or screen rate which the Independent Adviser determines in accordance with Condition 5(e)(ii) is customarily applied in international debt capital markets transactions for the purposes of determining rates of interest (or the relevant component part thereof) in the same Specified Currency as the Floating Rate Notes;

**“Benchmark Amendments”** has the meaning given to it in Condition 5(e)(iv);

**“Benchmark Replacement Conforming Changes”** means, with respect to the Benchmark Amendments, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) that the Issuer or its designee decides may be appropriate to reflect the adoption of such Benchmark Amendments in a manner substantially consistent with market practice (or, if the Issuer or its designee decides that adoption of any portion of such market practice is not administratively feasible or if the Issuer or its designee determine that no market practice for use of the Benchmark Amendments exists, in such other manner as the Issuer or its designee determines is reasonably necessary);

**“Benchmark Transition Event”** means:

- (A) the Original Reference Rate ceasing to be published for a period of at least 5 Business Days or ceasing to exist; or
- (B) a public statement by the administrator of the Original Reference Rate that it has ceased or that it will cease publishing the Original Reference Rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the Original Reference Rate); or
- (C) a public statement by the supervisor of the administrator of the Original Reference Rate, that the Original Reference Rate has been or will be permanently or indefinitely discontinued; or
- (D) a public statement by the supervisor of the administrator of the Original Reference Rate as a consequence of which the Original Reference Rate will be prohibited from being used either generally, or in respect of the Floating Rate Notes; or
- (E) the making of a public statement by the supervisor of the administrator of the Original Reference Rate that the Original Reference Rate is or will be (or is or will be deemed by such supervisor to be) no longer representative of its relevant underlying market; or
- (F) it has become unlawful for any Paying Agent, the Calculation Agent, the Issuer or other party to calculate any payments due to be made to any Noteholders using the Original Reference Rate,

provided that the Benchmark Transition Event shall be deemed to occur (i) in the case of sub-paragraphs (b) and (c) above, on the date of the cessation of publication of the Original

Reference Rate or the discontinuation of the Original Reference Rate, as the case may be, (ii) in the case of sub-paragraph (d) above, on the date of the prohibition of use of the Original Reference Rate and (iii) in the case of sub-paragraph (e) above, on the date with effect from which the Original Reference Rate will no longer be (or will be deemed by the relevant supervisor to no longer be) representative of its relevant underlying market and which is specified in the relevant public statement, and, in each case, not the date of the relevant public statement.

The occurrence of a Benchmark Transition Event shall be determined by the Issuer and promptly notified to the Calculation Agent and the Paying Agents. For the avoidance of doubt, neither the Calculation Agent nor the Paying Agents shall have any responsibility for making such determination;

“**designee**” means a designee as selected and separately appointed by the Issuer in writing;

“**Independent Adviser**” means an independent financial institution of international repute or an independent financial adviser with appropriate expertise appointed by the Issuer under Condition 5(e)(i);

“**Original Reference Rate**” means the originally-specified benchmark or screen rate (as applicable) used to determine the Rate of Interest (or any component part thereof) on the Floating Rate Notes;

“**Relevant Nominating Body**” means, in respect of a benchmark or screen rate (as applicable):

- (A) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, or any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable); or
- (B) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (i) the central bank for the currency to which the benchmark or screen rate (as applicable) relates, (ii) any central bank or other supervisory authority which is responsible for supervising the administrator of the benchmark or screen rate (as applicable), (ii) a group of the aforementioned central banks or other supervisory authorities or (iv) the Financial Stability Board or any part thereof; and

“**Successor Rate**” means a successor to or replacement of the Original Reference Rate which is formally recommended by any Relevant Nominating Body. In connection with the implementation of the Benchmark Amendments, the Issuer or its designee will have the right to make Benchmark Replacement Conforming Changes (as defined herein) from time to time.

(f) ***Benchmark Discontinuation (SOFR)***

The following provisions shall apply if SOFR Benchmark Discontinuation is specified in the applicable Pricing Supplement:

(i) **Benchmark Replacement**

If the Issuer or its designee determines that a Benchmark Event (as defined herein) and its related Benchmark Replacement Date (as defined herein) have occurred on or prior to the Reference Time (as defined herein) with respect to the then-current Benchmark (as defined herein), the Benchmark Replacement (as defined herein) will replace the then-current Benchmark for all purposes relating to the applicable Notes in respect of all determinations on such date and all determinations on all subsequent dates.

(ii) **SOFR Benchmark Replacement Conforming Changes**

In connection with the implementation of a Benchmark Replacement, the Issuer or its designee will have the right to make SOFR Benchmark Replacement Conforming Changes (as defined herein) from time to time. For the avoidance of doubt, any of the Agents shall, at the direction and expense of the Issuer, effect such consequential amendments to the Agency Agreement and these Conditions as may be required to give effect to this Condition 5(f). Noteholders' consent shall not be required in connection with effecting any such changes, including the execution of any documents or any steps to be taken by the Agents (if required). Further, none of the Calculation Agent, the Paying Agents, the Registrars or the Transfer Agents shall be responsible or liable for any determinations, decisions or elections made by the Issuer or its designee with respect to any Benchmark Replacement or any other changes and shall be entitled to rely conclusively on any certifications provided to each of them in this regard.

(iii) **Decisions and Determinations**

Any determination, decision or election that may be made by the Issuer or its designee pursuant to this Condition 5(f), including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection (A) will be conclusive and binding absent manifest error, (B) will be made in the sole discretion of the Issuer or its designee, as applicable, and (C) notwithstanding anything to the contrary in the documentation relating to the Notes, shall become effective without consent from the holders of the Notes or any other party.

(iv) **Certain Defined Terms**

As used in this Condition 5(f):

**“Benchmark”** means, initially, the relevant SOFR Benchmark specified in the applicable Pricing Supplement; provided that if the Issuer or its designee determines on or prior to the Reference Time that a Benchmark Event and its related Benchmark Replacement Date have occurred with respect to the relevant SOFR Benchmark (including any daily published component used in the calculation thereof) or the then-current Benchmark, then **“Benchmark”** means the applicable Benchmark Replacement;

**“Benchmark Event”** means the occurrence of one or more of the following events with respect to the then-current Benchmark (including any daily published component used in the calculation thereof):

- (A) a public statement or publication of information by or on behalf of the administrator of the Benchmark (or such component) announcing that such administrator has ceased or will cease to provide the Benchmark (or such component), permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or
- (B) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark (or such component), the central bank for the currency of the Benchmark (or such component), an insolvency official with jurisdiction over the administrator for the Benchmark (or such component), a resolution authority with jurisdiction over the administrator for the Benchmark (or such component) or a court or an entity with similar insolvency or resolution authority over the administrator for the Benchmark, which states that the administrator of the Benchmark (or such component) has ceased or will cease to provide the Benchmark (or such component) permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide the Benchmark (or such component); or
- (C) a public statement or publication of information by the regulatory supervisor for the administrator of the Benchmark announcing that the Benchmark is no longer representative;

**“Benchmark Replacement”** means the first alternative set forth in the order below that can be determined by the Issuer or its designee as of the Benchmark Replacement Date:

- (A) the sum of:
  - (1) the alternate reference rate that has been selected or recommended by the Relevant Governmental Body as the replacement for the then-current Benchmark (including any daily published component used in the calculation thereof); and
  - (2) the Benchmark Replacement Adjustment;
- (B) the sum of:
  - (1) the ISDA Fallback Rate; and
  - (2) the Benchmark Replacement Adjustment; or
- (C) the sum of:
  - (1) the alternate reference rate that has been selected by the Issuer or its designee as the replacement for the then-current Benchmark (including any daily published component used in the calculation thereof) giving due consideration to any industry-accepted reference rate as a replacement for the then-current Benchmark (including any daily

published component used in the calculation thereof) for U.S. dollar-denominated Floating Rate Notes at such time; and

(2) the Benchmark Replacement Adjustment;

**“Benchmark Replacement Adjustment”** means the first alternative set forth in the order below that can be determined by the Issuer or its designee as of the Benchmark Replacement Date:

- (A) the spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that has been selected or recommended by the Relevant Governmental Body for the applicable Unadjusted Benchmark Replacement;
- (B) if the applicable Unadjusted Benchmark Replacement is equivalent to the ISDA Fallback Rate, the ISDA Fallback Adjustment; or
- (C) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Issuer or its designee giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Benchmark (including any daily published component used in the calculation thereof) with the applicable Unadjusted Benchmark Replacement for U.S. dollar-denominated Floating Rate Notes at such time;

**“Benchmark Replacement Date”** means the earliest to occur of the following events with respect to the then-current Benchmark (including any daily published component used in the calculation thereof):

- (A) in the case of sub-paragraph (A) or (B) of the definition of “Benchmark Event,” the later of:
  - (1) the date of the public statement or publication of information referenced therein; and
  - (2) the date on which the administrator of the Benchmark permanently or indefinitely ceases to provide the Benchmark (or such component); or
- (B) in the case of sub-paragraph (C) of the definition of “Benchmark Event”, the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event giving rise to the Benchmark Replacement Date occurs on the same day as, but earlier than, the Reference Time in respect of any determination, the Benchmark Replacement Date will be deemed to have occurred prior to the Reference Time for such determination;

**“designee”** means a designee as selected and separately appointed by the Issuer in writing;

**“ISDA Definitions”** means the 2006 ISDA Definitions published by the International Swaps and Derivatives Association, Inc. or any successor thereto, as amended or supplemented from time to time, or any successor definitional booklet for interest rate derivatives published from time to time;

**“ISDA Fallback Adjustment”** means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark;

**“ISDA Fallback Adjustment”** means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the Benchmark;

**“ISDA Fallback Rate”** means the rate that would apply for derivatives transactions referencing the ISDA Definitions to be effective upon the occurrence of an index cessation date with respect to the Benchmark (including any daily published component used in the calculation thereof) for the applicable tenor excluding the applicable ISDA Fallback Adjustment;

**“Reference Time”** with respect to any determination of the Benchmark means (1) if the Benchmark is the SOFR Benchmark, the SOFR Determination Time (where Compounded Daily SOFR is specified as applicable hereon) or SOFR Index Determination Time (where SOFR Index is specified as applicable hereon), or (2) if the Benchmark is not the SOFR Benchmark, the time determined by the Issuer or its designee after giving effect to the SOFR Benchmark Replacement Conforming Changes;

**“Relevant Governmental Body”** means the Federal Reserve Board and/or the Federal Reserve Bank of New York, or a committee officially endorsed or convened by the Federal Reserve Board and/or the Federal Reserve Bank of New York or any successor thereto;

**“SOFR Benchmark Replacement Conforming Changes”** means, with respect to any Benchmark Replacement, any technical, administrative or operational changes (including changes to the timing and frequency of determining rates and making payments of interest, rounding of amounts or tenors, and other administrative matters) the Issuer or its designee decides may be appropriate to reflect the adoption of such Benchmark Replacement in a manner substantially consistent with market practice (or, if the Issuer or its designee decides that adoption of any portion of such market practice is not administratively feasible or if the Issuer or its designee determines that no market practice for use of the Benchmark Replacement exists, in such other manner as the Issuer or its designee determines is reasonably necessary); and

**“Unadjusted Benchmark Replacement”** means the Benchmark Replacement excluding the Benchmark Replacement Adjustment.

## 6. Payments

### (a) *Method of Payment*

Subject as provided below:

- (i) payments in a Specified Currency other than Euro will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars, New Zealand dollars or Renminbi, shall be Sydney, Auckland or Hong Kong, respectively); and
- (ii) payments in Euro will be made by credit or transfer to a Euro account (or any other account to which Euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 9 and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto (“**FATCA**”). References to “**Specified Currency**” will include any successor currency under applicable law.

### (b) *Payments in respect of Definitive Bearer Notes*

Payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against surrender of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against surrender of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)) and in each case payments will not be made by a transfer of funds to an account maintained by the payee in the United States or mailed to an address in the United States.

Notwithstanding the foregoing, if any amount of principal and/or interest in respect of any Bearer Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of the Bearer Notes will be made at the specified office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and

- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

In respect of definitive Bearer Notes, payments of instalments of principal (if any), other than the final instalment, will (subject as provided below) be made in the manner provided in paragraph (a) above against surrender of the relevant Receipt. Payment of the final instalment will be made in the manner provided in paragraph (a) above only against surrender of the relevant Bearer Note. Each Receipt must be presented for payment of the relevant instalment together with the definitive Bearer Note to which it appertains. Receipts presented without the definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes or Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined in Condition 9) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 10) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter. Upon any Fixed Rate Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

Upon the date on which any Floating Rate Note, Dual Currency Note or Index Linked Note or Long Maturity Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “**Long Maturity Note**” is a Fixed Rate Note whose nominal amount on issue is less than the aggregate interest payable thereon **provided that** such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Bearer Note is not a Fixed Interest Date or an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Fixed Interest Date or Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

(c) ***Payments in respect of Bearer Global Notes***

Payments of principal and interest (if any) in respect of Bearer Notes represented by any global Bearer Note will (subject as provided below) be made in the manner provided in paragraph (a) above and otherwise in the manner specified in the relevant global Bearer Note (i) in the case of a global Bearer Note lodged with the CMU Service, at the direction of the bearer to the CMU Accountholders, or (ii) in the case of a global Bearer Note not lodged with the CMU Service, against presentation or surrender, as the case may be, of such global Bearer Note at the specified office of any Paying Agent outside the United States. A record of each payment made against presentation or surrender of such global Bearer Note, distinguishing between any payment of principal and any payment of interest, will be made on such global Bearer Note (in the case of a global Bearer Note not lodged with the CMU Service) by such Paying Agent or in the records of Euroclear and Clearstream, Luxembourg, as applicable or (in the case of a global Bearer Note lodged with the CMU Service) on withdrawal of such global Bearer Note by the CMU Lodging Agent, and in such case such record shall be *prima facie* evidence that the payment in question has been made.

(d) ***Payments in respect of Registered Notes***

Payments of principal (other than instalments of principal (if any) prior to the final instalment) in respect of each Registered Note (whether in definitive or global form) will be made against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the

Registered Note at the specified office of the Registrar, any of the Paying Agents or, in the case of CMU Notes, the CMU Lodging Agent. Such payments will be made by transfer to the Designated Account (as defined below) of the holder (or the first named of joint holders) of the Registered Note appearing in the register of holders of the Registered Notes maintained by the Registrar (the “**Register**”) (i) where in global form, at the close of the business day (being for this purpose (x) in respect of Notes clearing through Euroclear and/or Clearstream, Luxembourg, a day on which Euroclear and/or Clearstream, Luxembourg are open for business, (y) in respect of Notes clearing through the CMU Service, a day on which the CMU Service is open for business, and (z) in respect of Notes clearing through the DTC, a day on which the DTC is open for business) immediately prior to the relevant due date, and (ii) where in definitive form, at the close of business on the third business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) prior to the relevant due date. Notwithstanding the previous sentence, if (i) a holder does not have a Designated Account or (ii) the principal amount of the Notes held by a holder is less than U.S.\$250,000 (or its approximate equivalent in any other Specified Currency), payment will instead be made by a cheque in the Specified Currency drawn on a Designated Bank (as defined below). For these purposes, “**Designated Account**” means the account (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained by a holder with a Designated Bank and identified as such in the Register and “**Designated Bank**” means (in the case of payment in a Specified Currency other than Euro) a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars, New Zealand dollars or Renminbi, shall be Sydney, Auckland or Hong Kong, respectively) and (in the case of a payment in Euro) any bank which processes payments in Euro.

Payments of interest and payments of instalments of principal (other than the final instalment) in respect of each Registered Note (whether or not in global form) will be made in the manner specified in paragraph (a) to the holder (or the first named of joint holders) of the Registered Note appearing in the Register (i) where in global form, at the close of the business day (being for this purpose (i) (x) in respect of Notes clearing through Euroclear and/or Clearstream, Luxembourg, a day on which Euroclear and Clearstream, Luxembourg are open for business, (y) in respect of Notes clearing through the CMU Service, a day on which the CMU Service is open for business and (z) in respect of Notes clearing through the DTC, a day on which the DTC is open for business) immediately prior to the relevant due date, and (ii) where in definitive form, at the close of business on the fifteenth day (whether or not such day is a business day) prior to the relevant due date (the “**Record Date**”) at his address shown in the Register on the Record Date and at his risk. Upon application of the holder to the specified office of the Registrar not less than three business days in the city where the specified office of the Registrar is located before the due date for any payment of interest in respect of a Registered Note, the payment may be made by transfer on the due date in the manner provided in the preceding paragraph. Any such application for transfer shall be deemed to relate to all future payments of interest (other than interest due on redemption) and instalments of principal (other than the final instalment) in respect of the Registered Notes which become payable to the holder who has made the initial application until such time as the Registrar is notified in writing to the contrary by such holder. Payment of the interest due in respect of each Registered Note on redemption and the final instalment of principal will be made in the same manner as payment of the principal amount of such Registered Note.

Holders of Registered Notes will not be entitled to any interest or other payment for any delay in receiving any amount due in respect of any Registered Note as a result of a cheque posted in accordance with this Condition arriving after the due date for payment or being lost in the post. No commissions or expenses shall be charged to such holders by the Registrar in respect of any payments of principal or interest in respect of the Registered Notes.

If payment in respect of any Registered Notes is required by transfer as referred to in paragraph (a) above, application for such payment must be made by the holder to the Registrar not later than the relevant Record Date.

All amounts payable to DTC or its nominee as registered holder of a Registered Global Note in respect of Notes denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account of the Exchange Agent in the relevant Specified Currency on behalf of DTC or its nominee for payment in such Specified Currency or conversion into U.S. dollars in accordance with the provisions of the Agency Agreement.

In the case of Registered Notes (whether or not in global form) held in the CMU Service, payment of all amounts payable to the CMU Service or its sub-custodian as registered holder of a Registered Note

(whether or not in global form) will be made at the direction of the registered holder to the CMU Accountholders and such payment shall discharge the obligations of the Issuer in respect of that payment.

None of the Issuer or the Agents will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Registered Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

(e) ***General provisions applicable to payments***

The holder of a Global Note (if the Global Note is not lodged with the CMU Service), or the CMU Accountholder at the direction of the holder of a Global Note (if the Global Note is lodged with the CMU Service), shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg, the CMU Service or DTC as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to Euroclear, Clearstream, Luxembourg, the CMU Service or DTC, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such Global Note. No person other than the holder of such Global Note shall have any claim against the Issuer in respect of any payments due on such Global Note.

(f) ***Payment Day***

If the date for payment of any amount in respect of any Note, Receipt or Coupon is not a “**Payment Day**”, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay unless as otherwise specified in these Conditions or the Pricing Supplement. For these purposes, “**Payment Day**” means any day which is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
  - (A) in the case of Notes in definitive form only, the relevant place of presentation;
  - (B) London; and
  - (C) any additional Financial Centre specified in the applicable Pricing Supplement;
- (ii) either (1) in relation to any sum payable in a Specified Currency other than Euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (which if the Specified Currency is Australian dollars, New Zealand dollars or Renminbi shall be Sydney, Auckland or Hong Kong, respectively) or (2) in relation to any sum payable in Euro, a day on which the T2 is open; and
- (iii) in the case of any payment in respect of a Registered Note denominated in a Specified Currency other than U.S. dollars and registered in the name of DTC or its nominee and in respect of which an accountholder of DTC (with an interest in such Registered Note) has elected to receive any part of such payment in U.S. dollars, a day on which commercial banks are not authorised or required by law or regulation to be closed in New York City.

(g) ***Interpretation of Principal and Interest***

Any reference in these Terms and Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) any additional amounts which may be payable with respect to principal under Condition 9;
- (ii) the Final Redemption Amount of the Notes;
- (iii) the Early Redemption Amount of the Notes;
- (iv) the Optional Redemption Amount(s) (if any) of the Notes;

- (v) in relation to Notes redeemable in instalments, the Instalment Amounts;
- (vi) in relation to Zero Coupon Notes, the Amortised Face Amount; and
- (vii) any premium and any other amounts which may be payable by the Issuer under or in respect of the Notes.

Any reference in these Terms and Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 9.

(h) ***Renminbi Currency Event***

If “**Renminbi Currency Event**” is specified in the applicable Pricing Supplement and a Renminbi Currency Event, as determined by the Issuer acting in good faith, exists on a date for payment of any amount in respect of any Note, Receipt or Coupon, the Issuer’s obligation to make a payment in Renminbi under the terms of the Notes may be replaced by an obligation to pay such amount in the Relevant Currency (selected by the Issuer, if applicable, and converted at the Alternate Settlement Rate as of a time selected by the Alternate Settlement Rate Determination Agent as specified in the applicable Pricing Supplement).

Upon the occurrence of a Renminbi Currency Event, the Issuer shall give notice not less than five days nor more than 30 days prior to the due date for payment to the Noteholders in accordance with Condition 15 stating the occurrence of the Renminbi Currency Event, giving details thereof and the action proposed to be taken in relation thereto.

For the purposes of this Condition 6(h) and unless stated otherwise in the applicable Pricing Supplement:

“**Alternate Settlement Rate**” means the spot rate, determined by the Alternate Settlement Rate Determination Agent, between Renminbi and the Relevant Currency, taking into consideration all available information which the Alternate Settlement Rate Determination Agent deems relevant (including, but not limited to, the pricing information obtained from the Renminbi non-deliverable market outside the People’s Republic of China and/or the Renminbi exchange market within the People’s Republic of China);

“**Governmental Authority**” means any de facto or de jure government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong;

“**Relevant Currency**” means United States dollars or such other currency as may be specified in the applicable Pricing Supplement;

“**Renminbi Currency Event**” means any one of Renminbi Illiquidity, Renminbi Non- Transferability and Renminbi Inconvertibility;

“**Renminbi Illiquidity**” means the general Renminbi exchange market in Hong Kong becoming illiquid as a result of which the Issuer cannot obtain sufficient Renminbi in order to satisfy its obligation to pay interest or principal (in whole or in part) in respect of the Notes, as determined by the Issuer acting in good faith and in a commercially reasonable manner following consultation with two independent foreign exchange dealers of international repute active in the Renminbi exchange market in Hong Kong;

“**Renminbi Inconvertibility**” means the occurrence of any event that makes it impossible for the Issuer to convert any amount due in respect of the Notes in the general Renminbi exchange market in Hong Kong, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series and it is impossible for the Issuer, due to an event beyond the control of the Issuer, to comply with such law, rule or regulation); and

“**Renminbi Non-Transferability**” means the occurrence of any event that makes it impossible for the Issuer to deliver Renminbi between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong or from an account outside Hong Kong to an account inside Hong Kong (including where the Renminbi clearing and settlement system for participating banks in

Hong Kong is disrupted or suspended), other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date of the first Tranche of the relevant Series and it is impossible for the Issuer due to an event beyond the control of the Issuer, to comply with such law, rule or regulation).

Any reference in these Terms and Conditions to interest in respect of the Notes shall be deemed to include, as applicable, any additional amounts which may be payable with respect to interest under Condition 9.

## 7. Redemption and Purchase

### (a) *At Maturity*

Unless previously redeemed or purchased and cancelled as specified below, each Note will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Pricing Supplement in the relevant Specified Currency on the Maturity Date.

Notwithstanding any provisions to the contrary in these Terms and Conditions, the following will apply with respect to the redemption of the Tier I Subordinated Notes:

- (i) The Tier I Subordinated Notes are undated perpetual securities and shall have no fixed Maturity Date. Subject to Condition 3(c), the principal amount of the Tier I Subordinated Notes will become due and payable by the Issuer on the date on which voluntary or involuntary winding up proceedings are instituted in respect of the Issuer in accordance with, as the case may be, (x) a resolution passed at a shareholders' meeting of the Issuer, (y) any provision of the Issuer's articles of incorporation or (z) any applicable law or any decision of any judicial or administrative authority.
- (ii) The Tier I Subordinated Notes may not be redeemed at any time without the prior approval of the Financial Supervisory Service of Korea (the "FSS") or such other relevant regulatory authorities in Korea, to the extent such approval is necessary.

### (b) *Redemption for Tax Reasons*

The Notes may be redeemed at the option of the Issuer in whole, but not in part, at any time (if this Note is neither a Floating Rate Note nor an Index Linked Interest Note) or on any Interest Payment Date (if this Note is either a Floating Rate Note or an Index Linked Interest Note), on giving not less than 30 nor more than 60 days' notice to the Principal Paying Agent and, in accordance with Condition 15, the Noteholders (which notice shall be irrevocable), if:

- (i) on the occasion of the next payment due under the Notes, the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 9 as a result of any change in, or amendment to, the laws or regulations of Korea or, if the Issuer is acting through a particular branch (as specified in the applicable Pricing Supplement (the "**Specified Branch**")), the country where that branch is located (the "**Specified Country**"), or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including the cessation of tax exemptions presently applicable), which change or amendment becomes effective on or after the Issue Date of the first Tranche of the Notes; and
- (ii) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

**provided that** (1) in the case of Subordinated Notes, the prior approval of the Financial Supervisory Service of Korea (the "FSS") or such other relevant regulatory authorities in Korea shall have been obtained, if necessary, and (2) no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due. Prior to the publication of any notice of redemption pursuant to this Condition, the Issuer shall deliver to the Principal Paying Agent a certificate signed by two duly authorised officers of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred, and an opinion of independent legal advisers or tax consultants of recognised standing to the effect that the Issuer has or will become obliged to pay such additional amounts as a result of such change or amendment.

Notes redeemed pursuant to this Condition 7(b) will be redeemed at their Early Redemption Amount referred to in paragraph (e) below together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(c) ***Redemption at the Option of the Issuer (“Issuer Call”)***

If Issuer Call is specified in the applicable Pricing Supplement, the Issuer shall, having given:

- (i) not less than 15 nor more than 30 days’ notice to the Noteholders in accordance with Condition 15; and
